Modern Aladdin's Lamp

You know it as a vacuum tube . . . like those in your radio. Research and engineering have put this modern Aladdin's Lamp to work in thousands of ways. In Radar and many of the miracle-working tools of war it had a major role . . . and its peacetime uses in the field of electronics are destined to be equally amazing.

The telephone industry, like radio, owes much to the vacuum tube. Hundreds of thousands of them are in constant use, helping your telephone voice span great distances. Aside from its importance in telephone service, the vacuum tube symbolizes to us the greater needs for telephone communication as jobs and industries are born of the science of electronics.

We are making every effort to catch up with present accumulated needs—to provide the great amounts of new equipment, new lines and construction now required—and to build soundly for the future—work that means many new jobs.

Highly important is the money to carry out this far-reaching program. War produced no profit backlog for the telephone industry, nor was one expected or wanted. Huge amounts of new capital will be needed. This means that earnings of the telephone business must compare satisfactorily with the earnings of other businesses with which it has to compete for the investor's money.

Everybody's happy . . . Have a Coca-Cola

. . . the pause that refreshes brightens the trip

The pause that refreshes with ice-cold Coca-Cola followed them when they went overseas. Have a Coke was a welcome greeting heard behind nearly every fighting front. Now they are headed back to the folks, the old home town and the gang. In far away lands, ice-cold Coke brought them a touch of home, and comradeship to brighten many a drab moment . . . just as it goes on brightening happy moments at home.

BLAZING THE TRAIL WITH LAND O'LAKES
SWEET CREAM BRINGS "SWEET" RETURNS
Quality Improvement of Butter Returns Extra Dollars to Producers and Plants
1922 Before the end of its first year Land O' Lakes Creameries was encouraging dairy farmers and their cooperative creameries to standardize the quality of their butter—and to standardize on butter that would score "extra."
At that time, very little creamery butter could score "extra" . . . yet even then there was a price differential on the New York butter market in favor of sweet cream butter.
To pave the way for quality improvement, steps were taken immediately to see that dairy farmers got a premium price for sweet cream. Standards for the churning of sweet cream butter were set in April, 1922.
Month by month the percentage of sweet cream butter marketed by Land O'Lakes grew. And month by month it became obvious to dairymen and their creamery managers that the production of sweet cream butter paid dividends.
Land O'Lakes led in arousing quality improvement. The trail blazed by Land O'Lakes was soon taken by others. But the pioneer was—and still is—Land O'Lakes. Land O'Lakes quality field service is still the best example of a marketing organization helping producers secure extra returns through quality. Why not investigate ALL the advantages of marketing through Land O'Lakes?

NEWFOLDEN

A regular meeting of the newly reorganized Sportsman's club will be held in the school house on Thursday evening, February 14. All sportsmen are invited to attend. The entertainment committee is at work and promise a pleasant evening for all who attend. Anyone wishing to join the club may do so at any time by contacting C. E. Leland, secretary, or Gordon Eiseth, treasurer.

At a meeting held in the school kitchen on Wednesday evening a Commercial club was organized. The following temporary officers were appointed: C. H. Cook, president, Helgi Johannesson, secretary and Percey Stokke, treasurer. Suggested by-laws of the organization were discussed, amended and accepted and about 30 members paid their dues. Regular meetings will be once a month on the third Monday. A nominating committee of Alfred Johnson, R. L. Johnson, R. L. Van Deusen and H. K. Sehre was appointed, and at the next regular meeting, which will be held on Monday evening, February 18, regular officer for the year will be elected. All residents of the village are eligible for membership. Don't forget the date of the meeting, Monday night, February 18!

Gladys Westman, who underwent a major operation at a Thief River Falls hospital last week, is reported to be convalescing nicely.

Mr. and Mrs. R. L. Van Deusen visited relatives in Plummer on Sunday.

LeRoy Lokken, of the Great Lakes naval training station, spent Friday and Saturday at his home here.

Mrs. Maebelle Leidgen of Saginaw, Michigan arrived on Friday for a few days visit with relatives here.

John Van Deusen returned home on Monday from Minneapolis, where he received his discharge from the navy.

Miss Clarice Plymire, who teaches school at Radium, came home on Monday as her school will be closed this week on account of blocked roads.

One of our school buses with our basketball team and about 20 fans went to Roseau last Tuesday evening to play a game and were forced to remain at Roseau all night because of the blizzard. They lost the game, spent the night in the schoolhouse, and arrived home about 10:30 Wednesday morning none the worse for their experience.

A. O. Gudim attended the stewardship board meeting of the Lutheran Free church held at Augsburg college and seminary, Minneapolis last Wednesday. A few of the stewardship secretaries were hindered from attending on account of the storm. Talks were given on the different phases of the stewardship program. The Great Lutheran World Action Appeal was presented by Pastor S. E. Engstrom, executive director home missions of the Augustana Synod, in which he gave a graphic picture of the suffering in the war torn countries, including Germany. The need is great and calls for immediate action for "They are our brothers". Be sure to attend the Lutheran World Action rally at the Trinity Lutheran church at Thief River Falls, Sunday, February 17th at 7 P. M.

Friends and relatives here were shocked last week to hear of the death of Charles Leidgen, at Ancker Hospital, St. Paul, on Monday, Jan. 28. Cause of death was given as double pneumonia. Funeral services were held in St. Paul on Friday, February 1. Interment was made in Calvary Cemetery. Mr. Leidgen was 46 years of age.

R. L. VanDeusen sold his residence, the former Tonnes Nelson home to Louis Farstad on Monday.

Mr. and Mrs. Myron Anderson and children, of Thief River Falls spent the week-end here.

Edith Farstad Weds

Edith Farstad, daughter of Mr. and Mrs. Ole Farstad of this place was united in marriage to Glen Amundson, son of Mr. and Mrs. A. H. Denning, of Oakes, N. Dak. on Monday afternoon, February 4, at Thief River Falls. Attendants were Gladyce Swenson and Earl Severson, both of Thief River Falls.

The bride was attired in a white marquisette and lace gown with finger tip veil a corsage of roses and carnations, and wore a gold locket, a gift of the groom. Miss Swenson wore a light blue gown with satin top and net skirt and wore a string of pearls and ring a gift from the bride, and had a corsage of roses and carnations. The wedding ceremony was performed in the parsonage by Rev. D. T. Beadle at 2 o'clock.

A candle light supper for near relatives and friends was served at the brides parental home near here, after which the young couple left on a wedding trip to Oakes, N. D.

The bride is a graduate of the 1945 class of our high school and has been employed at the Founter in Thief River Falls. The groom has been employed by the Home Theatre Co. in Thief River Falls and upon their return both he and Mrs. Amundson will be employed by this company and make their home in Thief River Falls.

From where I sit ... by Joe Marsh

Sam Hackney has a trade mark

Before Sam Hackney got successful, his wife used to make his bow ties for him. They came out an inch longer than average — and Sam came in for a lot of ribbing. But he only smiled and took it. —

Of course, Sam doesn't need to economize now; he's one of the best real estate men in the country. But he still wears those long bow ties. Prospective customers may not remember his name or his face, but the minute they see Sam, they say, "That's the feller!"

The bow ties work like a trade mark—something to remember and identify.

And Sam has another trade mark, too: the glass of beer he buys his client after every deal is settled. Sure, it's a friendly gesture ... but more than that, it reminds Sam's clients that he's a man of moderation and good ta. "—dependable and temperate. Sam's no fool!

Farmers are your neighbors—They want you to know that—

Cooperatives

put the farmers' SAVINGS DOLLARS to work on MAIN STREET

A DOLLAR saved is a dollar earned. Trite, but true! Truer than ever nowadays.

Your neighbors, the farmers, save money by marketing and purchasing cooperatively. Through cooperatives partnership the dollars they save become extra earned dollars. And how they use those dollars!

Those cooperatives savings dollars go for medical and dental attention. They go for new clothes, new furniture, new automobiles and many other things the farmers need. Without those savings dollars, the farmers often might have to go without some or all those things. And that would affect you.

Important to you townspeople, those cooperatively earned savings dollars stay at home. They work for you on Main Street. They mean extra buying power for the farmers. They mean an extra market for the goods and services you people in town supply to the farmers.

Last year, farmers cooperatives put millions of savings dollars to work on Main Streets the country over. Single communities, perhaps your own, benefited to the extent of thousands of dollars. Those extra dollars exist for the community only because of the farmers' co-ops.

So, be a booster for farmers' co-ops. Their savings dollars mean prosperity for your community. And that means prosperity for you.

Cooperatives are the very embodiment of free enterprise. Cooperatives are builders of real democracy.

These cooperatives help build your community

PLAN FOR SOIL CONSERVATION DISTRICT HERE

First Steps Are Taken at Meeting of Farmers in City Last Friday

The first steps in the organization of a soil conservation district for Pennington County were taken at a meeting of representative farmers from a majority of the townships at a meeting held in the City and Commerce Rooms in Thief River Falls Friday afternoon.

Speaking on the procedure in organizing the district was C. L. McNelly, district county agent leader, from University Farm, St. Paul and details of how a district functions were discussed by M. A. Thorfinson, also of University Farm.

County Attorney, Paul A. Lundgren, discussed the drainage and conservancy law. County Agent Ernest Palmer acted as chairman of the meeting.

In discussing the procedure in organizing a soil conservation district, Mr. Mc Nelly stated that the first step was to carry on a series of educational meetings in the county at which time the provisions of the program be fully discussed before all interested farmers. Those present voted to take this initial step for which a schedule will be announced at a later date.

During his discussion on how the district operates, Mr. Thorfinson stated that the primary purpose of a soil conservation district for this area would be to prevent erosion and plan for adequate drainage. The soil conservation service would provide engineers for the purpose of surveying a farmer's land and give him expert advice on ways of controlling erosion and where ditches should go. After a district is once organized Mr. Thorfinson stated that the service of these engineers could be used in surveying main outlets such as township, county and judicial ditches.

It was pointed out at the meeting that a soil conservation district has no power to levy taxes nor go into debt. Actual work of drainage must be paid for by the farmers having the work done.

SCOUT CLOTHING DRIVE IS SUCCESS

Nearly 2 Tons Garments Assembled on Saturday

In view of the fact that several local churches had recently conducted drives for clothing for relief of citizens of war-ravaged countries, Boy Scout leaders who sponsored the city-wide collection Saturday were well satisfied with the results, nearly two tons of garments being assembled.

The clothing was picked up by members of local scout troops under the direction of Rev. John O'Toole, assisted by Jack Williams. Trucks were supplied by Bridgeman - Greameries, Land O'Lakes Creameries, C. Gustafson & Son and L. B. Harts Stores.

The garments were sorted by members of the Business and Professional Women's club, with the Lions handling the packing for shipment.

GI'S Given Inducement to Join Junior Chamber

The Junior Chamber of Commerce at a meeting last Thursday evening in the Palm Garden cafe took favorable action on a proposal to offer war veterans an incentive to join the organization in the form of six months free membership. The group also pledged support of its members toward the fund-raising campaign being staged by the Mercy Hospital association to aid in financing its proposed new hospital structure.

PAUL LUNDGREN NAMED HEAD OF NAA GROUP

Aeronautics Chapter Holds Annual Meeting Last Thursday Night

Paul A. Lundgren was reelected president of the Thief River Falls chapter of the National Aeronautics association at its annual meeting last Thursday evening in the Civic and Commerce rooms.

Other officers named include Ernest Barzen, vice president; Russell E. Olson, secretary; Merle Lindberg, treasurer; and Gordon Trythall, Bill LaFave and Gordon Ballingrud, directors.

Mr. Lundgren reported that the chief project contemplated for the local airport in 1946 is the securing of a complete set of specifications for surfaced runways on the landing field, this being necessary before state funds to assist in their construction will become available.

He also stated that another six-plane hangar will be required during the coming season to accommodate additional planes being purchased by local men. It was indicated that figures will be obtained on the cost of both prefabricated and concrete block structures.

The chapter ratified the action of the board of directors in sponsoring a Boy Scout air patrol to give ground training to boys of age 15 or older. The committee in charge of the project includes Dr. W. P. Kaisler, Russell E. Olsen, Walter Jung, Clarence Knudsen, and Rev. John O'Toole, with Don Michalsky, air corps veteran, as troop leader.

Gordon Camp, flight instructor at the airport, introduced Captain Scott of the Fargo unit of the civil air patrol, who told some of his experiences while serving with the Flying Tigers in Burma and China under General Chennault, and also discussed recent developments in airplane design.

DR. A. E. JACOBSON NAMED DIRECTOR OF SCHOOL GROUP

State School Board Association Meets in Minneapolis Last Week

Dr. A. E. Jacobson of this city was elected a member of the board of directors of the Minnesota School Board association at its annual convention last week in the Nicollet hotel, Minneapolis. W. G. Swanson of Benson was elected president and H. R. Kurth, Hutchinson, vice president.

Establishment of a statewide minimum salary schedule for school teachers was asked in a resolution adopted by the association.

Adoption of such a schedule, the resolution points out, would tend to encourage worthy candidates to enter the profession and thus help alleviate the current shortage of teachers in Minnesota.

To further stimulate entry into the teaching profession, the association in another resolution urged the legislature to set up a $250,000 scholarship fund.

It suggested 500 scholarships of $400 each be made available to high school graduates who plan to become elementary school teachers.

Four hundred scholarships of $75 each also would be awarded to elementary teachers with less than two years preparation, to enable them to attend summer school. Scholarship recipients would sign notes for money received, which would be canceled if they taught in Minnesota schools for at least one year.

Dr. Jacobson served at the convention as acting chairman of the legislative committee.

Navy Chaplain Speaks Sunday Morning at Zion Lutheran Church

Chaplain Freeman Svoen of the U. S. Navy, who spent 33 months on troop carriers in many parts of the world, will deliver the sermon at regular services in Zion Lutheran church Sunday morning at 10:30. Rev. Walter M. Pedersen, pastor, announced that Chaplain Svoen will address the Finnish group in the church at 5 o'clock in the afternoon, and will speak at the First Lutheran church in Goodridge at 2:30. He is a former pastor at Superior, Wisconsin, and Minneapolis.

Pennington Red Cross Chapter to Start Fund Appeal Friday, March 1

Milton Larson, who again this year will serve as chairman of the Pennington county Red Cross fund appeal for 1946, announced that the drive will open Friday morning, March 1, following a kick-off breakfast for solicitors in the Rex Cafe at 6:30.

The county's quota in the campaign will be $3,975, a sharp reduction from the 1945 figure of $8,900, Mr. Larson stated, adding that quotas for the various subdivisions of the county will be announced in the Times next week. Of the funds raised, 25.2 per cent will remain in the treasury of the Pennington county chapter, it was explained.

Assisting Mr. Larson in the management of the drive will be Andrew Anderson, chairman of the Thief River Falls business district; Mrs. Clarence Knudsen, chairman of the city residential districts; Ernest A. Palmer, rural chairman, assisted by Mrs. Edwin Hansen of Rocksbury; Stanton R. Dahlen, treasurer; Lester Ihle, special gifts and T. F. Hegstad, publicity.

It was announced that solicitors will turn in funds to Mr. Dahlen at his office in the First Federal Savings and Loan association.

Services to occupation forces, services to the thousands of hospitalized soldiers and sailors, and services to veterans—"the three continuing battle fronts" of the American Red Cross—were not diminished but highlighted and intensified by VE Day and VJ Day, symbols of war's end for the nation according to national headquarters of the Red Cross.

After cessation of hostilities in Europe the need for Red Cross continuance there became abundantly clear. And in the Pacific the recreation problem for American forces is even greater than that in Europe. Few islands offer anything in the way of amusement American style.

At home, recreation is being continued for able-bodied men in camps and naval bases and for the thousands of hospitalized, large numbers of whom will need Red Cross attention for months. Families of these men will find their Red Cross chapters sources of help in solving financial problems and meeting emergency situations. Chapters will be continuing centers of information, consultation, and guidance in readjustment problems.

Red Cross work with veterans is expected to show a sharp rise during the next five or six years as millions of men are discharged from the armed forces.

SENIOR HOCKEY PLAYOFF HERE THIS WEEKEND

Four Teams to Compete in Local Arena for the N. W. Minnesota Title

The local arena rink will be the scene of a senior hockey play-off tournament this week-end when teams representing Crookston, Roseau, Williams, and Thief River Falls will meet to determine the Northwest's senior hockey champions. In the semifinal games scheduled for Saturday night, Crookston will face-off against Thief River Falls, and Roseau will meet Williams. The championship finals, and consolation game, will be played Sunday afternoon.

To prevent the various teams from "loading" up with outside players for the tourney, the tournament officials have restricted the clubs to the players that have performed with the respective teams during the season. The local club will be permitted to use Freddy Gustafson, who will come down from Winnipeg for the games, and Red Brossoit and Wes Hovie, who have finished their high school hockey and who played with the Thieves against the Pirates a week ago. Bill Gray, Pug Lund, Bob Proix, Lloyd Johnson, Lake Langevin, Ray Oen, Don Waag, Kenny Jaranson, Irv Wilson, Kermit Maidment, and Connie Stanbridge will be the other players on the Thieves roster.

TRF CREAMERY SHAREHOLDERS MEET MONDAY

Bergland Reports Dairy Products Sales of $520,312 in 1945

The Thief River Falls Cooperative creamery in 1945 again produced in excess of one million pounds of butter, the exact figure being 1,035,566 pounds, G. S. Bergland, manager, reported Monday afternoon at the annual meeting of shareholders in the Civic and Commerce rooms.

The report revealed further that an aggregate of 878,412 pounds of butterfat was received during the year, and that the percentage of overrun was 23.86. Operating costs showed an upward trend during the year due to increased costs of labor and supplies. Total returns on dairy products in 1945 were reported at $520,312.80, while assets of the association at the end of the year amounted to $116,767.68.

Mr. Bergland stated that the local plant is now delivering large quantities of sweet cream to Grand Forks for the account of a Chicago firm, which is currently paying 67 cents per pound for butterfat in the cream, this figure being substantially higher than can be obtained by churning the cream into butter here.

Following criticism of the condition of the roads in Pennington county as compared to Marshall and Red Lake counties, the meeting voted to have a committee of patrons draw up resolutions to the county board to request an improvement in the situation. Named on the committee were Alfred Lingren, Gordon M. Olson and H. L. Finstad.

John Funnesdahl, president of the creamery board, was unanimously renamed as a director in the annual election, conducted by Hans Anton, who in a brief talk solicited the continued cooperation of shareholders and patrons.

At the close of the meeting talking motion pictures dealing with production of quality milk were presented followed by the serving of lunch supplied by the Union State bank.

HALF OF STATE'S MONEY GOES OUT TO LOCAL UNITS

State in Turn Receives Sizeable Grants from Federal Government

Picturing the extent to which local and state governments are getting their money from higher levels of government, Richard A. Golling, state public examiner, in a report made public this week, disclosed among other aspects of this trend the state of Minnesota in the fiscal year ending June 30, 1944, paid out $46,327,478, or 48 per cent of the money it expended that year, to local governments as grants and aids.

School districts, cities and villages, counties and townships shared in the distribution. Counties got around 42 per cent of their entire revenue, or $24,449,584 from state grants, most of it for welfare and highway purposes, and schools got $18,426,977, or more than 32 per cent of their money from the state grants. Cities and villages and townships did not share so largely in the distribution.

But while the local units of government were looking so largely to the state to help provide funds for their services, the state itself was getting substantial sums in grants from the federal government, part of it used in state activities and part of it to be passed on to local units of government in various forms, such as social security funds. Golling's report showed that grants in aid received from the federal government in the fiscal year ending June 30, 1944, amounted to $18,807,024.

PUBLIC OPINION

Editor of the Times:

During the fiscal year, closing October 31, 1945, the United Temperance Movement of Minnesota, Inc. contacted 221 schools and 371 presentations in 20 different counties with a total attendance of 48,400.

The above figures include 13 chalk talks by the Rev. Anker Dahle, Aitkin County, 78 addresses by Dr. Howard L. Hamlin in November last year, 75 rural schools reached 20 4-H clubs and 15 youth camp presentations. In November last year we had a request to bring our Temperance Education program into 118 rural schools and 10 town schools in Todd County.

A total of 32 counties submitted 189 posters in our statewide temperance poster contest last year. We have some of the better posters photographed and reduced to 6½ by 11 inches for display on church and public school bulletin boards.

These posters are sent out free to pastors who will agree to use them. A number of posters have been photographed in color on slides which are used in church meetings, Youth camps and sometimes in public schools.

The temperance poster contest has been announced in a special letter sent out by the state department of education. Liberal prizes are given for the winning posters. Write the United Temperance Movement, 420 Palmer Exchange Building, Minneapolis 1, Minn. for material and further information.

North Dakota Quintet Defeats Locals for Second Time This Year

The goal-heaving Grand Forks Central high school quint, piling up a 22 to 9 lead in the first period defeated the Prowlers, 46 to 25, in a game played at Grand Forks on Tuesday night. It was the second time this year that the Maroons had bested the Prowlers, for the Grand Forks team, by a 41 to 32 score, had defeated the Prowlers in the finals of the holiday basketball tournament played at East Grand Forks in December.

Forward Jim Bischke, with 13 points, on five field goals and three free throws, and forward and co-captain McDermott, with five points, led the Maroons in their first period scoring spurt. Coach Glenn Hubbard's team utilized their fast break style of play in the opening period, giving Bischke and McDermott an opportunity to drive in for close-in shots. Roy Tunberg, with three field goals, Kenny Burtheim, with a field goal, and Brad Hanna, with a free throw were the Prowler first period scorers.

The Maroons continued to play heads-up basketball in the second period, but Ole Johnson took over the scoring duties, the Grand Forks center notching three field goals. Don Fladeland, the Maroons scrappy two-headed guard, looped in a pair of field goals, giving the Grand Forks five comfortable 35 to 12 lead at the intermission. The Prowler points in the second period were recorded by Nasse Carlson's field goal and Marlow Davidson's free throw.

The Prowlers played their best and most aggressive basketball in the third and fourth periods, with Carlson doing strong work in recovering rebounds and setting up the plays. Johnson tallied a pair of field goals for the Maroons in the third period and Pete Simonson popped in a field goal and a free throw, giving Hubbard's team a 42 to 17 third period lead. In the final period the locals held the Maroons scoreless from the field, while Carlson, Hedemark and Hanna were racking up field goals, giving the Prowlers the scoring edge in the period, 8 to 4.

Bischke, with 14 points, and Johnson, with 11 points, were the high point men for the winners, while co-captain Jim Paulson performed well on defense. For the Prowlers, Roy Tunberg, with four field goals led the scoring with 8 points, while Nasse Carlson was runner-up with six points, and in addition, Carlson was the outstanding defensive player in the game.

We are glad to welcome our Supt. E. P. Rabine back after his recent trip to Chicago and Fort Wayne, Indiana. He with Rev. Jacobson, Lindholm and P. Alfred Peterson held their weekly morning prayer meeting here as usual on Tuesday morning.

We are sorry to hear that Alida Peterson, who has helped us out with work at the home, is ill and receiving care for erysipelas at the hospital. We hope for a speedy recovery for her.

Mrs. Moe and daughters entertained the Mission Circle of the Ev. Free Church on Friday afternoon. A goodly number were present and a very good program was given with Mrs. W. W. Johnstone in charge and with Miss Mabel Olson, missionary to China from the Covenant churches as special speaker, after which lunch was served.

Our home had a great shock and loss by the death of John H. Paulson soon after he had eaten dinner on Friday. Although he had been in poor health for some time, he was able to be up and visit around on the different floors as usual, until his sudden illness on Friday. He was rushed to the hospital at once but passed away soon after his arrival there. Mr. and Mrs. Paulson have made their home here with us since August 1944, when Mrs. Paulson came here as our cook. They have only one daughter Gladys, who resides at Portland, Oregon. Our sincere and heartfelt sympathy to Mrs. Paulson and daughter, in their great sorrow.

Mr. and Mrs. O. A. Peterson of Portland, Oregon arrived here on Monday to attend the funeral of her father John H. Paulson. A brother Gust Paulson of Minneapolis also arrived on Monday for the funeral services which were held on Tuesday afternoon from Gulbrasson Funeral Home, and interment was made at Alvarado, Minn.

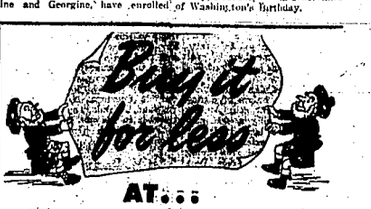
Recreation Highlights

On Valentine's Day 36 little children enjoyed a party at the play center. A lovely lunch carried out in pink color scheme was served, then the valentines were distributed.

The children had made two large Valentine mail boxes which contained around a thousand Valentines. It took so long to give out the Valentines that the party was continued on Friday.

After school lunch was served to nine senior helpers who gave so much assistance at the center.



The little Austin twins Geraldine and Georgine, have enrolled in the centre. They are 4 years old and so much alike, we have a hard time to tell them apart.

We have three sets of twins now. The Stetten twins, the Wennberg twins and the Austin twins.

The little ones are packing a box for the destitute children of Europe. Many donations have come in.

COUNTY CLUBS TO NOTE NATIONAL 4-H CLUB WEEK

Will Complete 1946 Enrollment During Period March 2-10

The change from a world at war to world at peace presents Pennington county 4-H clubs' new goals to meet and new problems to consider during national 4-H club week, March 2-10, says assistant county 4-H club Agent Effie Hanson.

447 county youth joined nearly 2,000,000 national and 43,000 Minnesota club members in making 1945 victory year on the farm front. The 1946 membership goal for Minnesota has been set at 55,000.

All local clubs plan to complete their enrollment before or during national 4-H club week. Anyone interested in joining a 4-H club should see their local leader or visit the county extension office.

Local clubs in Pennington county include Bray, Middle River, Deer Park, Highlanding, Holt, Kratka, Mavie, Mayfield, Northfield, North Star, Numedal, Reiner, Rocksbury, Sanders, Silverton, Smiley, Star, Steiner, Falls, and St. Hilaire 4-H clubs. The 5 clubs having the largest enrollment to date are Steiner, Holt, North Star, Bray, and Rocksbury 4-H clubs.

During national 4-H club week, clubs throughout the nation plan to discuss the place of the local club in a changing world, says A. J. Kittleson, state 4-H club leader. He emphasizes that last year's record state achievements merely point the way to new achievements in 1946 and in the future.

Kittleson points out that Minnesota 4-H club members alone produced over 10,000,000 pounds of meat plus 6,250,000 pounds of poultry as part of their 1945 projects.

BJORKMAN'S TOGGERY

John R. Olson Will Be Laid to Rest After Services on Saturday

John R. Olson, resident of this city for many years, died at a local hospital Monday in his 53rd year. Rev. Barney Larson of East Grand Forks will officiate at final services in the Erickson and Lund funeral chapel Saturday Feb. 23, at 2:00 P. M. and the body will be buried in Greenwood cemetery.

Mr. Olson leaves his wife, Mrs. Petra Olson of this city; six daughters and one son, Mrs. Theresa Wayne of Goodridge, Miss Phyllis Olson of Seattle, Wash., Eunice, Joyce, Paige, Donna, and James Olson of this city; and one sister, Mrs. Tom Lien of Anoka. His parents preceded him in death.

Mr. Olson came to this city in 1911 from Norway, where he was born July 11, 1893. For a time he lived in Fourtown, N. Dak., and Portland, N. Dak., and in 1926 he returned to this city. His marriage to Petra Wiseth took place in Goodridge in 1919.

John H. Paulson Dies at Local Hospital; Rites Were Tuesday

John H. Paulson of 303 East Fourth St., having attained the age of 71, died at a local hospital Friday afternoon. Final services were conducted from the Gullbranson funeral chapel Tuesday afternoon, Rev. Carl F. Johnson officiating, and interment was made in the Alvarado cemetery.

Mr. Paulson, a native of Sweden, came with his parents to the United States in 1883, homesteading in Polk county south of Alvarado. There he was engaged in farming and carpenter work, and on July 7, 1906, he was married to Milla Hendrickson at the home of her parents. He farmed in Sandsville twp until 1916, at which time he moved to Roosevelt, taking a homestead in Lake of the Woods county. He farmed there until three years ago when because of ill health he disposed of his farming interests and came to this city. He was a member of the Ebenezer church at Roosevelt.

He leaves his wife, Milla E. Paulson; one daughter, Mrs. O. A. Pederson of Portland, Ore.; and a brother, Gust Paulson of Minneapolis. He was preceded in death by his parents, two brothers, and four sisters.

Inga-Berg Sanden, 71 Dies in Minneapolis

Mrs. Inga-Berg Sanden, 71, who has been making her home the past year with her son and daughte in Minneapolis, passed away Tuesday Feb. 12, in Minneapolis. Services were held for her Saturday afternoon from Zion Lutheran church, Rev. Walter Pedersen officiating, and interment made in Greenwood cemetery.

Born Oct. 3, 1874 in Norway, Mrs. Sanden came to this country in 1881, making her home at Rosewood. She was married in 1896 to Nels Berg, who passed away in 1912. Following her husband's death she moved to Minneapolis. She lived there until 1940, at which time she was married at Grand Forks to Easton Sanden, who died the same year. Four years later she returned to this city, and last year she established her residence with her children in Minneapolis.

Among the list of survivors are her daughter, Mrs. Myrtle Berg Dale of St. Paul; a son Larry Berg of Minneapolis; three grandchildren, Larry, Jr., Ronald, and Robert Berg. Her parents and eight brothers and sisters preceded her in death.

Rites Held Monday for Clara A. Hegtvedt, 21

Clara Alvine Hegtvedt of 110 South Kendall passed away at the local sanatorium Wednesday Feb. 13, at the age of 21 years. Rites for her were held Monday afternoon at the Gulbranson funeral chapel, Rev. O. O. Bjorgan of Goodridge officiating, and interment was made in Greenwood cemetery.

Clara, who was born in Marshall county Dec. 1924, was baptized and confirmed at the Lutheran church of Goodridge and after attending the goodridge school and made her home with her father in Marshall county until entering the sanatorium.

Besides her father, Torger Hegtvedt of this city, she is survived by four brothers and three sisters, Mrs. Tillie Sevre of St. Hilaire, Mrs. Ed Holmes of this city, Mrs. Ray Honeywell of Wahoo, Nebr., Knute of Minneapolis, Charley, Theodore, and Ole of Goodridge. Her mother and three brothers preceded her in death.

Final Rites Wednesday for Nels Gunderson of Marshall Co., Pioneer

Funeral rites were held at Silver Creek Lutheran church Wednesday afternoon at 2 o'clock for Nels Gunderson, who died at his home in Agder twp. last Thursday at the age of 70 years. Mr. Gunderson, born in Brooten Sept. 21, 1875, was one of the very first settlers in Marshall county, homesteading there in 1898. Rev. E. O. Urness of Holt officiated at the services and the body was laid to rest in the Silver Creek cemetery.

Mr. Gunderson was married Oct. 13, 1901 at Grand Forks, N. Dak., to Belia Brokke, who survives him. He served as treasurer of Agder twp. for several years, and was a charter member of the Silver Creek Lutheran church, being a trustee for many years. Before coming to Marshall county, Mr. Gunderson in 1891 entered Luther college at Decorah, Iowa, where he was a student three years.

Other than his wife, Mrs. Bella Gunderson of Agder twp., Mr. Gunderson is survived by six daughters and one son, Mrs. Peter Klungness of Marshall county, Erma Gunderson and Mrs. Ruby Beller of Berkely, Calif., Mrs. Harold Rasmussen of this city, Mrs. Thea Lundrigan of Pine River, Miss Nettie Gunderson of San Francisco, Calif., and Chester Gunderson of Pennington county; one sister, Mrs. Tone Moe of Brookten; a brother, Ole Gunderson of Corinth, N. Dak.; and ten grandchildren. Mr. Gunderson's parents preceded him in death.

Infant Son of Mr. and Mrs. Thorval Kolden Dies Here Saturday

Richard Dale Kolden, infant son of Mr. and Mrs. Thorval Kolden of St. Hilaire, passed away Saturday at a local hospital seven days after birth. Rev. Fjelstul of St. Hilaire will officiate at services in the Erickson and Lund funeral chapel Friday afternoon, Feb. 22 at 2 o'clock and interment will be made in the St. Hilaire community cemetery.

Richard is survived by his parents, Mr. and Mrs. Thorval Kolden of St. Hilaire; six sisters and seven brothers, Mrs. Victor Anderson of Middle River, Mrs. Richard Roble of Austin, Mrs. A. C. Burnette of Seattle, Wash., Misses Lorna, Carol, and Janet Kolden of St. Hilaire, Pfc. Reuben Kolden of Huntsville, Alabama, Orval, Earl, Floyd, James, Rodger, and Kendall of St. Hilaire. Richard was born February 9.

Baby of Mr. and Mrs. Oldrich Hoffman Dies

The infant daughter of Mr. and Mrs. Oldrich Hoffman of Highlanding township passed away at birth Saturday in a local hospital. Interment was made in the Goodridge cemetery. Others in the family are two sisters, Judith and Irene of Highlanding; and her grandparents, Mr. and Mrs. Joseph Hoffman and G. A. Compen of Star twp.

Ambitious Pullets Lay Outsize Eggs at Grygla

The $64 Question:

"Where DID Poppler's Get 75 BRAND NEW Living Room Suites?"

? ? ? ? ?

Si Sez:—

That is really an enigma—I know—to the other furniture dealers in this territory and I am going to say—right now—that not one of these fine suites has even a taint of black market.

If you won't take my word for that then you will be able to tell it when you see our low prices. Such manufacturers as Colonial—Levin—Charles DO NOT deal in black market merchandise.

Each suite is full spring—pre war construction. The covers are beautiful velours—mohairs—wool mohairs—tapestries—brocatels and damasks. The colors range thru the spectrum from deep burgundies to blues—greens—wines—rose—turquoise and beige.

I want you to call today—or as soon as you can get into town and see these wonderful buys. This is not a sale—it's simply an offering of the finest showing of high grade suites that we have had on our floors for two years. And we do not expect to have another stock even approximating this in variety of styles—prices and coverings again until the late fall of 1946.

No sales will be made to dealers of these hard to get suites.

We list below a few of the many values.

Thanks a lot!

Army Engineers Have Harrowing Experience

An experience they will never forget is one told by army engineers George Rohleder, Charles Hattor, James Barry, Bill Ryan, Wallace Billings, and Gordon Forbes, who are working on the Red Lake River Channel improvement.

In the severe blizzard which developed in this locality February 5th the six men were caught with their truck a mile from the Red Lake outlet and had to make their way four miles until they reached highway 89. Then, low on gas, they had to take turns leading the truck eight miles until they reached the ridge look-out tower.

Spending Tuesday night there, two men hiked four miles in the snowdrifts on Wednesday to an Indian cabin, where they secured food for their comrades. The group was rescued on Thursday after the roads were cleared.

Proprietors of Four Beer Taverns Fined for Violating Sanitary Law

Following complaints sworn out by deputy state hotel inspector Hazelwood, four operators of beer taverns were brought by Sheriff Arthur Rambeck Saturday into municipal court, where they pleaded guilty to charges of failure to keep the toilets and under-bar in sanitary condition. They were Mrs. A. J. Borgen, Hillie Drees and Elmer Larson, each of whom was fined $25 and $4 costs, of which amount $15 was suspended on condition the places be kept clean in the future. Knute Swanson, the fourth to be brought before the court also was charged with failure to keep glasses clean, and he was fined $35 and $4 costs, $20 being suspended.

JUST ONE MORE LITTLE DRINK

Now that the pattern for the settlement of labor wage disputes has been established we can settle back and prepare ourselves for another cycle of inflation. The government's policy of wage and price increases is gradually taking form. It is a part of the "controlled inflation" program that is to assure us of a large national income—in terms of dollars. And as the national income increases, by this method, the individual dollar will continue to shrink in buying power.

By this method we are postponing the evil day. We are taking "just one more *little drink*" and of course" the next drink will be the last one." Another little one won't do us any harm. Not until we wake up will we wish we hadn't taken so many.

Unfortunately it isn't only the politicians who are talking silly on this matter of inflation. The National Association of Manufacturers is now adding its voice to the nonsense chorus by suggesting that the solution to the problem is to remove all price controls. What an explosion that would bring about—but maybe we would suffer less from a sudden violent blast than by a more prolonged agony.

We have more than a hundred billion dollars to be spent. According to the text books that is dynamite. This vast sum is turning over now in a very leisurely way because there is little it can buy. By increasing the amount of things that can be bought we do not decrease the danger. We merely increase the speed with which it revolves. It is when a lot of wind revolves fast that we have a tornado.

There is only one safe way to protect ourselves from this danger and that is to drain the flood of green paper back into the federal furnaces by taxation. Let's remember that American dollars have been worthless before. It can happen again. We approach nearer to that state every time we have "just one more little drink."

We have had quite a flurry of excitement this past week over the activities of some spys up in Canada who, according to the reports, had learned some of the secrets of the atom bomb. Now that we have been assured that the secret is still ours alone we can rest comfortably again. As long as we are sure that these secrets are known to only two or three hundred American scientists and a small group of our military and political leaders we have nothing to worry about. Surely they are all honorable men. It's great fun having a secret.

The world is facing a serious food shortage, and that isn't funny in any man's language. Regardless of whether people are friends or foes, if they are hungry we must share with them. On that point there can be no argument. There may be very proper differences of opinion as to the procedure that should be followed both in the assembling of foods to be distributed and in the distributing of them. In what way shall we deny ourselves and how shall we give are questions for which there probably are many different answers and it isn't likely that all will be satisfied with whatsoever is done. We know now that we are going to eat coarser bread. We know now that there is not going to be feed enough to carry through our present large supply of livestock, so that eventually we may be short of meat again. There will be other ways in which we will feel the pinch, and we will not cry about that. Just let us be assured that every effort is being made to have all share equally in the sacrifice and that the distribution will be fair and according to need.

Spring will arrive officially a month from today and during this month there should be a thaw, but we are making no predictions. We do know however that the hours of sunshine are getting longer day by day and that the prospect is encouraging. Maybe now would be a good time to get the lawnmower sharpened just in case the snow should melt this summer.

Minneapolis Man Heads Advisory Committee to Promote Savings Bond

A state advisory committee was appointed today to aid the treasury department in its program to encourage thrift by the purchase of U. S. savings bonds and stamps as a peacetime activity.

Leif Gilstad, who during the war was executive manager of the Minnesota War Finance committee, was appointed state chairman by Secretary of the Treasury Fred M. Vinson. Mr. Gilstad, who will serve as a volunteer, is public relations director for Batten, Barton, Durstine and Osborne, advertising agency.

The committee at its first meeting heard a report from Milton H. Prince, state director, on plans for continuing sale of bonds. The payroll savings plan for purchase of bonds is to be pushed, thrift programs in schools through the sale of stamps and education in money management are to be maintained, and promotion efforts to urge people to continue the savings habit are to be continued.

Bird's-Eye View of America

A fellow took an aerial photograph of our town, and it makes the place look like Utopia.

Folks argued that the new firehouse would never look well beside the old Town Hall. But they harmonize perfectly from the air. One side of the railroad tracks looks as good as the other. All the different landmarks blend in nicely with surroundings.

From where I sit, there's a lesson in that photograph. A community's made up of different elements—people as well as landmarks. Some vote one way, some another; some enjoy a glass of beer and others don't. You might think there was a lot of reason for friction.

But it's all in your point of view. Get up high enough—see the community as a whole—and those little discords blend together into what we call America—a free, harmonious land. The differences only look big to people who see them from too close!

Less Than One out of Ten Veterans Getting Work Thru Job Offices

While more veterans found jobs through the United States employment service in Minnesota in January than in December—3,851 compared with 3,697—more than ten times that number had applications for work on file at the agency's 83 offices in the state, Dreng Bjornaraa, state director of the USES, said. More than 55 per cent of USES placements for January—3,519—were veterans.

Of 80,000 workers who, as January ended, had job applications on file with the USES, 50,000 were veterans and of that number 48,000 had served in World War II. During the month veterans called at the USES offices more than 132,000 times.

"Veterans, as instructed, are using USES as they hunt for new employment. Since they visit our offices frequently, employers can best help find work for every veteran by making their job opportunities known to their nearest USES office," Bjornaraa said.

Looking Backward

1916—THIRTY YEARS AGO

The Lincoln high school livestock judging team won the silver cup at the Valley Winter Shows in Crookston.—President George E. Vincent of the University of Minnesota will be the final speaker on the local lyceum course.—The Minnesota Young Mens Christian association was considering the establishment of a branch in this city.—The Thief River Falls hockey team won the Northwest championship at the winter sports carnival in St. Paul.

1926 —TWENTY YEARS AGO

C. D. Gustafson was reelected president of the Pennington County Poultry association.—County Attorney Theodore Quale moved his office from the McGinn block to the First National bank building.—The local cooperative poultry association in 1925 handled a volume of business totaling $179,000, the annual report revealed.

1936—TEN YEARS AGO

Carl Lindbloom of Bray township and Elmer Ona of Norden were named delegates to the 1936 farm boys camp.—Hans Anton and Henry Kaunegen were reelected members of the local cooperative creamery board.—Herb Jung was elected president of the local golf club, succeeding J. P. Curtis, who was elected treasurer.—Alfred Bredeson was named president of the local Food Dealers association, succeeding W. L. Carlisle.—E. L. Eqermayer, formerly of Red Lake Falls, took charge of the municipal band here.

In Memorium

In loving memory of our dear Son and Brother Marvin, who passed away at the Station Hospital, Ft. Lewis, Washington, on Feb. 25, 1944, while in the service for his country.

Lead me till from life I shrink,
And me, Lord, and I am blest;
Though on ropes the clay must sink,
My long and final rest.
Where now dwells eternal light,
And forever, never night.

ROSEAU QUINTET TAKES PROWLERS INTO CAMP 35-29

Crookston Cagers to Meet Locals in H. S. Gym Friday Evening

Coach Ambrose Kramer's fast-breaking Roseau team, the no. 1 club in district 32, sprinted to a 16 to 7 lead in the first period of the basketball game played here Friday night, and then held off the scrappy Prowlers to win 35 to 29 decision. In a preliminary game, the well-publicized Kelly Greens, with Owen Koromo popping in three spectacular goals, defeated the Prowler 'B' team, 15 to 11.

The Crookston Pirates, the 'A' and 'B' squads will meet the Prowlers here Friday evening in a district contest. In a game played at Crookston earlier this season, the Pirates scored a 27 to 26 win.

After Roseau's Ray Benson had opened the scoring in Friday night's fast game, and Gerry Hawkebo had added a free throw, the Prowlers on a free throw by Brad Hanna and field goals by Johnny Powell and Rog Tunberg, nudged into a 5 to 3 lead. But it wasn't for long, for Ed Schwarz scored from close in; Benson, on a breakaway, dribbled in for a set-up and Schwarz looped in a goal on a rebound play. Tunberg's field goal lifted the Proylers to within two points of Roseau, but field goals by Hegland and Schwarz, and free throws by Mike Delmore and Hawkebo gave Roseau a 16 to 7 first period lead.

During the remaining three periods of the game, the Prowlers played heavily-favored Roseau team on even terms, and if the locals had been making a fair percentage of their free throw tries, the outcome may have been in doubt.

Roseau, with blond Luther Hegland playing top-flight ball, outscored the locals, 9 to 7, in the third period, to move into a 30 to 19 advantage as the fourth period began.

The Prowlers played their best basketball in the final period, driving in for close-in shots. Brad Hanna, scoring three field goals, led the locals in their rally, and *he was given able assistance* by Tunberg, Powell, and Carlson. Roseau, during the latter half of the period, resorted to semi-stall tactics to control the ball and they were successful in keeping the Prowler attack halted.

Ed Schwarz, with 11 points, and Ray Benson, with 8 points, were the high scorers for the winners; while Brad Hanna and Rog Tunberg were the high-point men for Coach Lindenmeyer's team, having 7 points apiece.

Runners-up in Regional High School Hockey Tourney

After completing a highly successful season's schedule, the Lincoln high school hockey team was defeated 6 to 4 by Roseau Feb. 9 in the final game of the regional tournament in the arena here before a crowd of 1,200 fans.

Members of the Prowler team, shown in the cut above, include Front row, left to right—Don Hage, Larry Hylden, Ken Rustad, Derwood Lund, Ralph Engelstad, Elroy Skjerping, and Merton Ripley.

Back row—Assistant Coach Bernard Broderick, Wes Hovie, Alan Thompson, Bob Amundson, Les Vigness, Jim Welch, Don Brossoit, and Coach Harold Stanbridge.

Roseau School Hockey Team Whips Rochester to Capture State Title

Roseau, the eighth region's hockey champions, won the state high school title on Saturday night by defeating Rochester, 6 to 0, in the finals of the tournament held in the St. Paul Auditorium. In a first round game, Coach Almquist's sextet eliminated White Bear Lake, 2to 1, in overtime, and in the semi-finals, Roseau turned back a strong St. Paul Johnson team, also by a 2 to 1 score. Eveleth, the defending state champions, lost to Rochester, 1 to 0, in the semi-finals.

Bob Harris, at a defense position and Rube Bjorkman at a front line spot, were the Roseau boys honored with all-state hockey selections. In addition to Harris and Bjorkman, the all-state team had Andre Gambucci and Roland Martinson of Eveleth, John Rosenthal of White Bear Lake, Jim Benerson of St. Paul Johnson, Francis Tholl of St. Cloud Tech, and goalie Clark Wilder of Rochester, Harris, Gambucci, and Rosenthal were named as defensemen, with Bjorkman, Martinson, Renstrom, and Tholl on the front line.

Playing strong, aggressive hockey, and completely outplaying their rival, Roseau won the state championship by outscoring Rochester, 6 to 0, in the finals. After a scoreless first period, the green-shirted Roseau sextet exploded for four tallies in the second period with Bob Harris scoring twice and Rube Bjorkman and Tom Buran adding a counter each.

In the final perioc, Bjorkman, who was the tournament's standout player, chalked up two goals, getting the first tally on an unassisted goal, andRoseau's sixth goal, on a pass from Harris.

BELATED TAXI FARE FINDS DRIVER LONG DEAD

Worthington—Anonymous can make the public print only when he "says it with cash," declares The Daily Globe. He did, from Albert Lea. Came an envelope addressed to Fred Rose, former local taxi cab operator, containing four one-dollar bills. An escaped fare who evidently didn't know that Mr. Rose died nearly seven years ago.

CROOKSTON TEAM ENDS THIEVES SIX WINNING STREAK

Pirates Last Thursday Swamp Local Sextet By Score of 8 to 1.

The Crookston Pirates, with Bill and Jimmy Medved spearheading the attack, abruptly checked the Thieves six-game winning streak Thursday night by outskating and outshooting the local senior sextet to roll up 8 to 1 win. The Thieves are preparing for the senior hockey playoffs, which are scheduled to be played on the Arena rink on Saturday night and Sunday afternoon.

Blond Bill Medved, with a long shot, gave the Pirates a 1 to 0 lead in the first minute of play Thursday night, and the Crookston sextet held that lead thruout the period. The Thieves were given a penalty shot midway in the stanza when goalie Bud Schraeder, after making a save, tossed the puck out ahead of the net—but—Fug Lund's penalty shot was off to the left of the goal.

Bud Salem, Spanky Sullivan and Bill Medved boosted the Pirate margin to 4 to 0 with second period goals. And in the third period, after Lemen, on a pass from Jimmy Medved, had counted the Pirates' fifth tally, Dan Wang came in close to fire a shot past Bud Schraeder for the locals only goal. A pair of goals by Bill Medved and a counter by Salem ended the game's, with the Pirates skating off the ice with a well-earned 8 to 1 triumph.

Keeping Score

.... With HUCK OLSON

No surprise

It was no surprise that Roseau, the eighth region's champions, were able to win the state high school hockey championship. That they were capable of going through the tournament at St. Paul was indicated ten days ago when Coach Almquist's team defeated the Prowlers in the regional finals, for it had to be a team of state championship caliber to beat the locals. The Roseau win is a boost for the brand of prep hockey that is played in this region; and it gives the Prowlers some satisfaction to know that they were able to score two wins over Roseau this year.

Oscar Almquist and his Roseau team were a happy bunch when they came through here on Sunday evening, stopping over for supper. And they were already making plans for next year. Oscar was doling out compliments to all of his players, and especially on the play they turned in in the final game against Rochester, but the boy that pleased Oscar the most was bespectacled Rube Bjorkman, his all-state center-ice man. According to the Roseau mentor, Rube was the outstanding player in the tournament and merited all the publicity that he received.

Frankly, the only fault that we can find with the Roseau team is that they are mostly juniors, with only Bob Harris being a senior and graduating this spring. That means that Almquist will have virtually the same team returning for next season's play. No wonder that the Roseau fans are making plans for attending the state tournament again next year.

It's the Crookston Seniors

Judged on the stuff they showed here Thursday night, when they trounced the locals 8 to 0, the Crookston Pirates will be the team to beat in the senior hockey playoffs here this week-end. The Pirates had Jimmy Medved, home on navy furlough, in the lineup and he and brother Bill played bang-up hockey. Jimmy is the same smooth hockey player he always has been, and he teams neatly with the older Bill, the two being very clever at setting up passing plays. And the Pirates will have Johnny Noah available, too, and that gives the Pirates another scoring threat. In the goal the Pirates will have the top-notch goalie of the northwest, Bud Schraeder, who's catlike in the quickness with which he can kick a puck out of the net.

Of course, the Thieves will have Freddy Gustafson, Connie Stanbridge, Bill Gray Fug Lund, and the two "Kids", Bud Brossoit and Wes Hovie, in their lineup; and Williams will come down here with Clarence Schmidt as their chief threat. But it still looks like the Pirate's tournament.

Bowling Notes

Johnny Jaranson, "City John", and a former gunner on a D-17, certainly had the rollcals trained on the 1-3 pocket Monday night for bowling anchor on the Hartz Office team in a business league match against the Bratrud Clinic, he posted a 694 total, setting a new league record. John had games of 225, 234, and 235, and in amassing that 694-pin total he didn't have an open frame. John piled up seven strikes in the first game and had six strikes in each of the other two games. That total boosted John's average in the league to 192, giving him a 2-pin lead over Wally DuChamp. Wally had a big night on Monday, too, rolling games of 215-283-193, for a 656 total. Johnny and Wally should have quite a duel down the stretch for the league's individual high average honors.

Have to make acknowledgment of Bert Emanuel's 557 total rolled in the City League a week ago. The standings, and the honor roll, arrived to late for publication last week, and Bert, with games of 172-218-167, for a 557, made the City league honor roll.

STATE APPEALS FOR CHANGE IN BUTTER CONTROL

Gov. Thye and Trovatten Journey to Washington to Request Changes

Convinced that federal price controls, forcing creameries to sell their product as cream rather than turn it into butter, eventually will destroy the great butter market developed by Minnesota farmers, Governor Edward J. Thye this week carried to Washington the effort he has been making to obtain a modification of the controls so that Minnesota creameries can again make butter on a profitable basis.

Thye announced that he has asked R. A. Trovatten, state commissioner of agriculture, to go to Washington this week end, joining with representatives of Minnesota's dairy industry, urge the house food investigating committees and federal price control officials.

Trovatten pointed out befre departing for Washington that many of Minnesota's creameries have had to quit making butter as a result of the government's action in maintaining a ceiling on butter while allowing the sale of cream without a ceiling. Of the 580 creameries Minnesota had at the beginning of the war, only about 200 now are confining themselves to butter making, Trovatten said. Fully 100 creameries have closed altogether, he added, and all the others have been converted wholly or paftially to sale of cream.

U. S. Civil Service Commission Returns to Peacetime Basis

The United States civil service commission announced in St. Paul today that it was back on a peacetime basis following the executive order issued by President Truman.

The commission will soon announce examinations for regular civil service appointments. Pending these examinations, temporary appointments will be made by federal agencies without prior approval of the combination with preference given, first to disabled veterans, second, to non-disabled veterans, and third, to displaced federal employees.

Persons under war service appointments will be required to compete in competitive examinations for regular civil service appointments.

LIVESTOCK SOLD AT WINTER SHOWS

Local Purebreds Net Good Prices at Sale

The annual sales of purebred livestock on February 8 and 9 brought to a close the 1946 Red River Valley Winter Shows at Crookston. A total of 149 head of purebred cattle, sheep and swine were sold at auction for a total of $20,060.50. The average sale price per head for 63 cattle of all breeds was $227.23, for a total of $14,360. Fifty-five head of bred gilts sold for a total of $4,634.00 or an average of $84.25. Thirty-one bred ewes of Shropshire and Hampshire breeds sold for a total of $1009.50 or an average of $32.56 per head.

In the cattle sale, a top price of $500 was paid by Gustaf Johnson and son of Ada for a Hereford bull from the Baumgartner Hereford Farm of Durbin, N. Dak.

Fifteen head of Herefords were sold for an average price of 316.66. The highest price paid in each of the other breeds and the breed average were as follows: Beef Shorthorns, the high was $330 owned by Wm. H. CANINE CARRIER HERALDS APPROACH OF MAILMAN

Fairbault.—Friendships between neighborhood dogs and mailmen are proverbial. One here has lasted through ten long years, until the faithful aging terrier is now unable to make anywhere near the entire route with the veteran Sam Nichols. But he waits at a favorite tree, and announces Sam's coming with joyus barking.

CALIFORNIA HUNGRY FOR MINNESOTA BUTTER

Granite Falls—"Los Angeles calling the manager of the Granite Falls creamery." Said manager, Ty Skrukrud, was a bit startled, but admitted his identity. "This is a Los Angeles grocery store," said the distant voice; "a customer has told me of the butter you make, and I'd like to get a shipment each week." The manager was pleased, he admits, but that ended the deal —each churning goes locally almost before the churns can be cleaned up.

GRYGLA

Annual Meeting

Last Friday afternoon at the local hall the Farmers Union Oil Company and Garage held its annual stockholders meeting. Martin Sandvaark presided at the meeting and Irvin Anderson, secretary read the minutes of the last meeting also the financial report.

Arnold Ackerman, field representative of the Central Exchange of St. Paul was the guest speaker.

In the various reports and talks some interesting facts and figures were mentioned concerning the local company. In 1945 the largest volume of business in the company's history was handled, a total of $70,000, comparing with a $50,000 volume handled in 1909 the first year. For the past year patronage dividends will be distributed from a total sum of $2,000. This means that 75% per cent of the purchases will be paid back in the form of patronage dividends.

It was also pointed out the great advantage of patronizing from the Oil refineries owned by the Farmers Union. During the past six years of business the local concern has earned $9,000 in the form of patronage dividends.

In the six years of operation the local company has saved its patrons $5,000, which represents the total dividends.

It has been decided that the equity reserves which were withheld in 1940, 1941, and 1942, will be paid out in cash in 1947.

The largest patronage dividend for those years was earned by Orin Benson and amounted to $199.

Adolph Erickson, E. M. Smedy, and Lawrence Hess were reelected on the the board of directors. Gerald Erickson, Elmer Bratlien, and Sofius Bjertness were chosen delegates to attend the state convention at St. Paul.

At the close of the meeting lunch was served by the Zion Ladie's Aid.

War is Never Over for the RED CROSS

They need your Red Cross today—and for many tomorrows!

THEY lie in hospitals, thousands of America's finest, sick, blinded, cruelly maimed in the fight for our freedom. Who is to write their letters, hear their troubles, answer when they call for "Mom"? Mom can't be there. But your Red Cross can, *and must* be there.

Many thousands more young Americans are still overseas. They, too, count on the Red Cross for comfort and cheer in the long, weary months of waiting to come home to you.

And whenever, wherever disaster strikes here in America—fire, flood, tornado, famine—your Red Cross must be ready with aid for the victims. It must feed and shelter those left hungry and homeless, and when the first shock of emergency is over, take up the long, arduous work of rehabilitation.

Yes, there's a big job still to be done. Is it too big? Not for the Red Cross. Not for you—because you *are* the Red Cross.

Give generously. Give *now*. Give a little *more* than you think you can afford. Remember this is your chance to say, "Thanks! Thanks, Soldier, for all you've done!"

YOUR Red Cross MUST CARRY ON . . . GIVE!

Famous Thrills!
1930, Sept. 27, Ardsley, Pa.: History was made here today as BOBBY JONES came from behind his opponent to win the United States Amateur Golf Championship. By his victory, the young Atlanta barrister achieved a goal no other golfer has been able to reach—in a single year to win all four of the major golf titles: the British Open, the British Amateur, the U. S. Open, and the U. S. Amateur. Jones' "grand slam" of golf climaxed eight consecutive years of competition in which he had always annexed one of these titles, and twice had taken two of them.

Bailey, 1933 Ford passenger bus operation, Anchor Casualty Company as surety, bodily injury liability - $10,000-$20,000, property damage $5,000.00 which policies were approved as to form and execution by the City Attorney. Alderman Engelstad moved that such application be approved, accepted and that the same be filed by the Clerk. The motion was seconded by Alderman Bergland and adopted.

A petition signed by A. Halvason was presented, the same asking that the alley of Block 70 of Original Townsite be vacated for the reason that such alley is not and never has been used as a thoroughfare. Alderman Anderson moved that the Clerk cause notice to be published calling for a hearing in the matter to be held at the council on March 12th, 1946 at eight o'clock P. M. in the City Council Chambers. The motion was seconded by Alderman Engelstad and adopted. Alderman Bergland moved that proposals advertised for consideration this day for designation as depositories of City Funds, Paper and City Depositories be opened and read, Bids for Official Paper was presented by The Thief River Falls Times, as follows: for publication of proceedings and requirements of law $1.00 per inch for insertion and $.30 for subsequent insertions and an additional charge of $.25 per folio for tabular matter. Alderman Berge introduced a resolution accepting the proposal of Thief River Falls Times fixing the performance bond in the amount of $1,000 and moved adoption of the resolution. Motion seconding adoption was made by Alderman Engelstad and the resolution was thereupon declared unanimously adopted. Proposals for designation as City Depositories were presented, Union State Bank and Northern State Bank, each proposed banks to receive deposits of corporate funds at no charge, to accept for deposit at not to exceed 2% and to furnish and assign to the City certain government securities required for safe keeping in St. Paul and Minneapolis Banks, in the amounts as required as surety for City Depositories. Alderman Engelstad moved a resolution designating Union State Bank and Northern State Bank as depositories of city funds, approving bonds accepted and fixing rate for such deposits and moved adoption of the resolution. The motion was seconded by Alderman Nelson and the resolution was thereupon declared duly passed and adopted.

A petition was presented, signed by Martin Botkun, L. P. Pappenkaver, John Erickson and others requesting the installation and construction of a sanitary sewer main in Block 1 and Arnold Addition from present facilities to 7th Street. Alderman Nelson moved that such petitions be referred to the Street Commissioner and Water and Light for investigation and report to the Council and the same was ordered laid over for further consideration and deed.

A representative of a firm dealing in Street Improvement Equipment was present and furnished information and details with respect to the type of equipment which the council might be interested in the proper and efficient maintenance and operation of the Department. The cost of equipment under consideration was a Street Leader and 12th. Alderman Engelstad moved that the Clerk be directed to assign notice to be published calling for proposals for the furnishing of such equipment in accordance with specifications prepared by the Street Commissioner, such bids to be opened at a meeting to be held on March 12th, 1946 at eight o'clock P. M. The motion was seconded by Alderman Anderson and adopted.

The Council then proceeded to conduct a hearing in the matter of applications for special permits to allow the construction and operation of buildings for non-conforming use within residential districts of the City as prescribed by Ordinance No. 190. The application of Socony-Vacuum Oil Company for permit to enlarge their service station on the East Lot 1-2 and E. MAIL MAY BE SLOW BUT APPARENTLY IS VERY SURE

In St. Paul a postal clerk who had been out of the service about five months handled a letter he had written to his wife from a German prison camp a year earlier. How it went by way of Switzerland and the State Department, he came direct. A postal mailed from Minneapolis by Peter Pannyon November 8, 1939, was delivered January 29, 1946, to Thomas Pernella at Keewatin; Panyon was on his way to join a Navy band and is still in uniform, but wherabouts of the card remain a mystery. And after a hard blow at Montevideo three letters attached by a clothes pin to a rural mail box were found attached to a tree by the same clothes pin—with stamps and addresses unmarred.

SAYS U. S. FORCES CREAM DIVERSION

Brandt Testifies Before Congressmen

Appearing last evening before a large delegation of Congressmen, John Brandt, president of Land president of the National Cooperative Milk Producers' Federation, condemned "the present malpractices of the dairy industry which have been fostered by government restrictions and price regulations."

"We are all fully aware of the emergent necessity for having price controls in this period," was Brandt's lead statement, "but those of us in the dairy industry are trying our utmost to keep the market supplied with quality dairy products in the face of unprofitable operations see a threat to the future of the dairy farmer and the industry." The Federation's president later had several resolutions presented which had been adopted unanimously at a special meeting of dairy organization earlier in the day.

To establish further his point, Brandt asked the members of Congress how it would be possible to sell butter under the O. P. A. price ceiling of 46 cents per pound when "buyers were purchasing it at prices ranging from 65 cents to 70 cents per pound for the fat in the cream, hauling it to another creamery, having it custom-churned into butter at a cost of about 2 cents per pound, and then placing it on the market." The dairy leader stressed that this disparity in pricing was building a black market and not controlling inflation.

'47 WINTER SHOWS TO BE FEB. 3 TO 7

Board of Managers Sets Dates Friday Evening

The annual dinner meeting of the Red River Valley Winter Shows board of managers was held at the Crookston Hotel Friday evening.

President T. M. McCall stated following the meeting that the Winter Shows and meetings were a success in spite of the unfavorable weather conditions Tuesday night and Wednesday. The main item of business discussed at the meeting was the setting of the dates for the 1947 thirty seventh annual Winter shows which will be held February 3-7, 1947.

Reports were received from the superintendents and officers of the various divisions of the Shows and A. A. Habedank reported that exhibits in swine were up to former years, with a below normal trend in the exhibits of dairy cattle and sheep. However, the quality of the exhibits this year was unusually high. Entries in the beef cattle division were average with the Hereford classes showing an increase in exhibits.

Harold Thomforde, superintendent of the poultry division, reported that all available coop space was taken with many entries turned back for lack of space. O. C. Solne, superintendent of farm crops, reported that the number of grain exhibits was smaller than in 1945, but the quality of grain was the best in years. Mr. Soine said "with the unfavorable year we have had for our corn crop, it is not surprising that the number of exhibits was comparatively small."

HAMRE

Walter Jelle, Arlan Overby, all left on Friday to work for Roy Swenson in the wood camp at Thorhult. The boys will board themselves at the camp there.

John Dyklum helped his brother Harry to overhaul his car at the Gulick Dyklum home the first three days of this week.

Chester and Mabel Smith were accompanied home from Thief River Falls Tuesday by Miss Louise Dalton who has come from California to join her brother Clifford Dalton here on furlough.

Waldeman Carlson from Minneapolis and Laurance Huderly spent the week-end at the Bill Zaveral home.

Mrs. Otto Knutson accompanied by Mrs. Earl Woods, Viola Johnson and Willie Nelson moved to Thief River Falls Friday.

Mrs. Harvey Woods from Okleo served at Carmen Thursday to celebrate her birthday, together with her grand daughter Shirley Woods who also celebrated her 3rd birthday that same day.

Card Party Held

Mr. and Mrs. Handy Wells gave a card party on Friday night at their home. The following guests were present Mrs. Helen Newhouse and sons Lenard and Elmer, Mr. and Mrs. Edward Jelle and family.

Mr. and Mrs. Charlie Wells Jackie and Albert Wells, Mr. and Mrs. Donald Gibson and family from Grygla, Mr. and Mrs. Oliver Howland and family, Mr. and Mrs. John Dyklum and daughters and Mr. and Mrs. Bob Wells who had just arrived here that afternoon from California.

Mr. and Mrs. Bob Wells arrived here Friday from California where he has been stationed in the navy. They drove all the way by car.

Mr. and Mrs. George Carlson were Thief River Falls shoppers on Saturday also were Mr. and Mrs. Edward Jelle who surprisingly met their son Erwin Jelle who had just arrived there earlier than was expected for a 30 day furlough from the navy.

Erwin accompanied his parents home. A year has passed since he has been home.

Mrs. William Zaveral returned home Saturday from the St. Lukes hospital in Thief River Falls where she underwent an operation and had been a patient for the past two weeks.

Mr. and Mrs. George Carlson, Mr. and Mrs. Roy Swenson and family and Andrew Olson all were Sunday dinner guests at the Lewis Mordal home at Thurhult.

Mrs. Otto Knutson and sons, Mrs. Earl Woods and daughter and Mrs. Harvey Woods all visited Sunday afternoon at the Frank Johnson home.

(Crowded out last week)

Joe Tanem and Oscar Overby were marooned overnight at Four-Towns on Tuesday night when the worst blizzard of the winter struck here as it did all over the northwest.

No school was held at the Rosebud school Wednesday and the rest of the week due to the storm.

Relatives here were notified on Thursday of the sudden death of Louis Jelle Sr. of Grand Forks, N. Dak., having moved there last fall from our neighborhood where he has spent most of his life on a farm.

Mrs. Helen Newhouse and son Lenard and Elmer, accompanied by Edward Jelle, Mrs. Gulick Byklum and John Jelle all motored to Grand Forks Saturday to attend the funeral of Louis Jelle Sr. held there on Sunday. Burial will be held here in the spring in the family lot when weather permits.

Clifford Dalton who is here spending a furlough with his parents has reinlisted in the army and will spend two more years there.

Beverly Dalton has been spending the past week or more at her parental home with her brothers on furlough.

FIREWOOD FOR OPERA TICKETS . . . Before you can buy a ticket for the opera in Kiel, Germany, you have to produce a pound of firewood in addition to the price of the ducat. RURAL CREDIT DEPARTMENT NOW HOLDS FEW FARMS

Conservator Reports Only 68 Farms Left in State Hands January 1

The state government, once one of the biggest farm owners in Minnesota, rapidly is getting out of the farming business, Richard W. Bassett, state rural credit conservator, disclosed this week in an annual report submitted to Governor Thye.

The state owned 3,886 farms on January 1, 1939, acquired through foreclosure of rural credit loans or cancellation of contracts for purchase. The systematic effort the department has been making to get the farms back on the tax-rolls in the hands of individual owners has made such progress, Bassett reported, that the department on January 1, 1946, owned but 68 farms. Of these farms, only 27 were regarded as saleable for use as farms. No attempt likely will be made to sell the other lands.

The department sold 72 farms during 1945 for $131,690, Bassett reported.

Collections on the mortgages and contracts which the state still holds were good during the year, Bassett said. He pointed out 983 farmers had been able to pay up their loans or contracts in full during the year. Payments on the mortgages and contracts brought in $2,811,120. The state now has 5,595 loans and contracts outstanding.

Assets of the department, including cash, balances on loans and contracts and property still held, was put in the report at $11,705,887. Total deficit on the rural credit venture, after taking full cognizance of these assets, was put at $39,182,800. Part of this loss has already been paid in the form of general property taxes. The rest is being financed currently from an annual tax levy of $1,500,000.

Winter Carnival to Open in St. Paul February 22

Two dozen Northwest snow queens will be guests of St. Paul's mammoth Victory Carnival, eight days, February 22 through March 1, carnival officials announced this week.

Hundreds of thousands will view the grand parade as its hundreds of bands, drum corps, floats, marching clubs, and veterans' groups pass over the miles of flag-bedecked streets Saturday afternoon, February 23. The carnival's new king and queen will be crowned Friday, February 22.

Hibbing's crack 87-piece high school band, headed by 25 fast-stepping majorettes, will be the honor band of the carnival, and the Minnesota School for the Deaf girls' drum corps, from Faribault, will be a feature attraction, Saturday, February 23.

Stassen Ranks First in Midwest Poll of Republican Candidates

Minnesota citizens noted with interest a report of the Gallup Poll this past week listing the choice of Republican rank and file voters for president in 1948. The poll showed Harold E. Stassen, Minnesota's former governor, first choice among the Republican voters in the Middle West expressing a preference and second among rank and file voters in the nation as a whole.

In twelve Midwestern states, 33 per cent of the voters having a preference said they would like to see Stassen president in 1948. Governor Thomas E. Dewey of New York was next with 29 per cent. Governor John W. Bricker of Ohio was next with 11 per cent, and Senators Robert A. Taft and Arthur Vandenburg followed, each with 6 per cent.

In the nation as a whole, Governor Dewey had 38 per cent of the vote of those expressing a choice. Stassen was second with 27 per cent. Governor Bricker had 8 per cent, and Senators Taft and Vandenburg each had 4 per cent. General Douglas MacArthur had 6 per cent.

Army to Allow Ninety Days for Discharged Soldiers to Reenlist

Because the army has found that most discharged from the wartime Army desire more than 20 days to look around again in civilian life before deciding what they will do, this period has been extended to 90 days beginning February 1, Colonel Joseph C. Haw, the commanding officer of the Minnesota district, announced today.

The announcement was coupled with the statement that the Minnesota recruiting district enlisted 1,225 men in the regular army last month. The largest single day's total of enlistments for the district since the new recruiting program began was recorded on January 20th when 100 men signed up.

The new 90-day period granted by the war department gives discharged veterans that much time to reenlist in the grade they held at the time of their separation, but the reenlistment must be made during the period of February 1st through June 30th, 1946, Colonel Haw pointed out.

Officers may enlist in the first grade within 90 days of the last day of terminal leave if they do so by June 30th.

It is estimated that between April 1940 and April 1944 farms in the United States lost a net of 5,160,000 persons over 14 years of age.

Surge DAIRY FARM EQUIPMENT

A lot of people like the SURGE!

That's why so many dairymen have waited for a Surge . . . for a machine that they will WANT to go right on using for years to come.

Because SURGE does give you all the time saving, and work saving plus milking speed and ease of cleaning that your money can buy. These things . . . and SURGE SERVICE makes the SURGE keep right on being a good milking machine.

1,300 FORFEIT RIGHT TO DRIVE

Many Motorists Are Penalized in January

More than 1,300 Minnesota drivers forfeited the right to operate motor vehicles in January, either because of disregard for traffic laws or because they were unable or unwilling to make provision for payment of claims arising out of accidents. There were 236 outright revocations for more serious infractions of the law, and 1,092 department reports.

Revocations included 204 following conviction for driving while under influence of intoxicants, 14 following commitment as inebriates, 7 hit-run drivers, 6 for driving stolen cars, and 4 for repeated convictions for speeding.

There were 636 suspensions under the safety responsibility act, and 608 reinstatements. A total of 7,051 reports of drivers and owners involved in accidents were reviewed. Of these 4,761 filed certificates of insurance, 77 filed releases, 1,428 were found on examination to fall below the $50 limit and 438 were cases not covered by the safety responsibility law. Evaluation of damages in 830 cases totaled $280,440.

Under another section of the safety responsibility act, 162 drivers who were guilty of driving without a license will be compelled to file proof of financial responsibility for future accidents before they can be granted new licenses.

Leather Protectors

A patch of imitation or real leather sewed on the knees of boys' play trousers saves time and clothing when it comes to cleaning off the mud that goes with spring marble days.

Add Raisins to Pie

Add a handful of raisins to the cherry pie. It is delicious, takes less sugar, and the juice is less likely to boil out during the baking.

Enforcement of Traffic Laws Topic of Parley at Crookston March 19th

A regional traffic court and enforcement officers conference will be held at the city hall in Crookston, March 19 at 1 p.m.

This meeting is one of a series of thirteen being held in various parts of the state.

Object of the conferences is to create greater interest, knowledge and cooperation among officers, prosecutors and judges; and to effect better understanding among persons concerned with all phases of traffic law enforcement. The program is one of improvement rather than one of change in the enforcement and court system as they now exist in Minnesota.

Speakers at the regional meetings will include Justice Magney, Chief Larimer, C. E. Houston, assistant attorney general, and E. P. Lee, supervisor of drivers' license for the Minnesota highway department. A panel discussion with general participation will fol-

The Crying Need...

A NEW HOSPITAL IN THIEF RIVER FALLS

The Mercy Hospital Association is completing its organization for the promotion and completion of a new, modern hospital for this community. This is in every sense a community project, a project of importance to every citizen of the large territory it will serve.

This hospital will be open to the practice of all doctors who meet the standard qualification requirements. It will be operated for the service of all of our people and when it is completed we will all be proud to have taken part in its construction.

The Association already owns the tract of land, a full city block on the south edge of the city, which, our architect tells us, is ideal in every way as a location. All of the present assets of the Mercy Hospital Association are going into this new project.

These assets consist of cash and bonds in the sum of $26,000. This building fund does not include any contributions that have been made for the new project. The Association also owns the present hospital and nurse's home. With these and the present equipment the present assets of the Association have a value of $65,000, all of which already belongs to the people of this community with no claims of any kind against it.

It is now the purpose of the Association to raise an additional $100,000, and if this solicitation is successful we will be in a position to erect the type of hospital that will serve the needs of this territory. It will be a solution to the crying needs of the sick; a help in the time of need.

While no organized solicitation has as yet been made, a spot check survey brought a gratifying result in both the city and in the rural community. Individual businessmen have voluntarily pledged contributions up to as much as $1,500. Forty farmers have already made contributions ranging from $100 to $300 each. This response has been very encouraging.

WE MUST BUILD THIS NEW HOSPITAL and to do so we must have the help of all. The actual solicitation for funds will get under way in the city of Thief River Falls in the near future. The canvass in the rural area will be made as soon as road conditions permit. We want your help. We need your cooperation.

All funds collected will be placed in a special fund at the bank and a receipt will be issued to each subscriber providing that this money will be used for no other purpose than the construction of a new hospital. Volunteer workers, including officers of the Association, will work without compensation and there will be no cost to making this solicitation. All of the funds will be used for the purpose for which they are contributed.

This is a community project. Let us all join hands and work together.

For any further information we invite you to call on any members of the board. And, to be sure, volunteer subscriptions, great or small, will be greatly appreciated.

Mrs. Anna Kaliako passed away Monday evening at 8:30 at the Mercy hospital in Thief River Falls from complications of old age. At the time of her death she was 79 years, 7 months and 12 days old. Burial was made Saturday in Stephen. Funeral services were held at the Catholic church in Stephen.

Mrs. Kaliako was a pioneer of the Stephen community but has made her home with her son, John Kaliako, north of Middle River since 1905. She was born in Germany on May 22, 1866, coming to this county with her parents when she was a baby.

She grew to womanhood in Wisconsin. She came to this section of the country when she was a young woman and was married at Fort River, N. Dak. Her husband died in 1911 at Stephen.

Left to mourn her passing are the following children: five sons, John, Pete, Paul and Joe now all of Middle River and Ben Snow of Warren; two daughters, Mrs. Ort Olds of Sumner, Iowa and Mrs. Frank Sick of St. Paul. She was the grandmother of Mrs. Hjalmer Larson of Middle River.

Mrs. Kaliako was highly respected and loved by all who knew her. Mrs. Lyle Clelland, mother of Mrs. H. J. Rensland was buried at Shelly, Minn. last week. She died at her home here Monday. Services were in the Shelly Lutheran church and were conducted by Rev. Hagen of Shelly and Rev. Johner Bergs of Fargo, an old friend of the deceased.

The floral offerings were many and beautiful and there were many memorials also.

Mourners include four daughters and a brother, Mrs. Hilda B. Weller of Waverly Hills, Calif., Mrs. Sally Fraser of Lewiston, Montana and Mrs. Mayme Gilchrist of Miles City, Montana; a sister Tobe of Fargo, nine grandchildren and five great grandchildren.

Glen N. Lindahl of Middle River formerly in the service has come for the residence in the University of Chicago as the G. I. Bill of Rights.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

"Johnny was such a good baby but now he fights with his sister and with his playmates. What shall I do? He is four years old and I shudder when I think what he will be like as he grows older."

This mother's comment expresses what many parents feel when they find their previously well-behaved children beginning to fight and quarrel and otherwise engage in what the psychologist describes as "aggressive" behavior. A number of studies have been there were cases of hitting, snatching another's toys, biting, interfering with each other. As the children grow older and their use of language increased, there were verbal attacks in which demands, denials, commands, threats, name-calling, arguing another to fight were very evident. The investigators who made this particular study, A. Jersild and F. Markey, conclude that such aggressive behavior is characteristic of children from two to six or seven years of age. The peak is around three to four years.

Why do children act this way? Little children are just learning how to manage their bodies and their play materials, and they are also learning how to get along with others. Another psychologist, M. Appel, found that the first act of the aggressor was due to the following reasons: (1) desire to possess material or toys of another child; (2) cross purposes or conflict over ways of using toys or equipment, or otherwise carrying out play; (3) teasing, name-calling or physical acts aimed at producing annoyance; (4) intruding in another's play or work, and rejection of another child in such play; (5) desire to be first or important; (6) accidental reasons such as chance interference with another; (7) undetermined behavior probably due to experimentation with the environment, making social contacts to "see what will happen" or as an expression of unpleasant feelings resulting from frustration of some kind.

As the child grows older the quarrels due to a struggle for the possessions of another decreases. Likewise, the physical character of such quarrels, which includes pushing striking hitting, etc. decreases with age. As the child grows his use of language develops and he replaces physical force with attacks as name calling, commands, demands, crying and otherwise defending himself by the use of words.

This brief summary indicates that quarreling and other aggressive behavior is common among children who go to nursery school and kindergarten and come in contact with other children. It soon disappears as the child learns other ways of getting along with his playmates. In children who have little contact with other children until they enter first grade, the appearance of fighting and quarreling is delayed. However, because of the child's greater use of language there is apt to be less actual physical aggression and more of the verbal type.

Blue Cross Hospital Plan Announces a New Series of Contracts

The Blue Cross comprehensive hospital contract offering increased room allowances, full maternity care benefits, more days of hospital care, and making full allowances for laboratory service, physical and oxygen therapy, basal metabolism studies, and other such special services was announced today by Arthur M. Calvin, executive director of the Minnesota Hospital Service association.

The comprehensive contract also includes full allowances for operating room service, anaesthetics, dressing and plaster casts, and regular drugs as offered in present contracts.

Also announced today by Mr. Calvin was an individual contract which will enable pensioners, retired persons, widows of subscribers, and children over 19 years of age to continue their Blue Cross protection. Formerly these persons were not eligible to continue their contracts.

All subscribers who have been pensioned since January, 1942, may now re-enroll in Blue Cross through the individual contract by making application for it between Feb. 15 and June 30, 1946.

CORNY FOR CORN STATE TO BE SHORT OF CORN

Redwood Falls-Iowa has the reputation, but apparently Minnesota produces the goods. A local candy kitchen has been using corn syrup from Iowa. The Iowa source was unable to fill recent orders—by reason of having no corn from which to make corn syrup. The candy maker sent Minnesota corn to Iowa and got some corn syrup to fill local sweet tooth. And a can of corn packed in Montevideo induced a case of nostalgia down in West Indies, where a former resident of the state is a missionary.

C. AND C. ASSN. SETS BUDGET FOR THE YEAR

Organization Solicits Support of All People of This Community

At a meeting last week the board of directors of the Civic and Commerce association approved a schedule of membership assessments compiled by the budget and membership committee headed by Archie W. Hensrud.

It was announced that the schedule calls for considerably higher payments than in former years, owing to a projected expansion of association activities together with the engaging of the services of a full-time secretary.

Dues of business and profesional members are on a graduated scale, while individual memberships are set at $10 a year.

"How far forward in 1946 we go will depend to a large extent on how well we work together, and how well our community efforts are organized," said chairman Hensrud.

"The Thief River Falls Civic and Commerce Association is organized to represent the community interests of all our people. It is important that we have an association of this kind that can serve as a clearing house for all of the community activities, to help give these activities direction and to lend support to projects of other organizations and individuals in which there is community interest.

"The directors of the association have launched an ambitious program for the development of our city in the post war period. The services of a full-time secretary have been secured to needle the rest of us into action. The success of this program will depend upon the willingness of our people to support it."

2 MEETINGS SET TO DISCUSS SOIL CONSERVATION

Farmers to Meet in City on Monday and at Highlanding Tuesday

Two meetings called for the purpose of discussing the organization of a soil conservation district for Pennington county will be held on March 4 and 5 of next week, according to County Agent Ernest Palmer.

The first meeting will be held in the Civic and Commerce rooms in the city Auditorium in Thief River Falls on Monday afternoon,March 4, starting at 1:30 p. m. Tuesday's meeting, March 5, will be held in the community hall at Highlanding starting at 1:30 p. m.

These two meetings are followup meetings on the February 15 meeting at which time farmers present decided to take steps in the organization of such a district.

M. A. Thorfinson, secretary of the state conservation committee, will again be present to explain the steps to be taken in its organization. During a talk in Thief River Falls on February 15, Mr. Thorfinson stated that the primary purpose of a soil conservation district for this area would be to prevent erosion and plan for adequate drainage.

The soil conservation service would provide engineers for the purpose of surveying a farmer's land and give him expert advice on ways of controlling erosion and where ditches should go. After a district is once organized Mr. Thorfinson stated that the service of these engineers could be used in surveying main outlets such as township, county and judicial ditches.

All farmers interested in land drainage in Pennington county are invited to attend the meeting.

Mae Swanson-Lloyd Johnson Nuptials Are Held Last Thursday

Rev. T. T. Bodle pronounced the exchange of vows when Miss Mae Swanson, daughter of Mr. and Mrs. Ernest Swanson, and Lloyd J. Johnson, son of Mr. and Mrs. G. A. Johnson, were married. The single ring ceremony took place Thursday afternoon, Feb. 23, at 3 o'clock in the Methodist parsonage. Shirley Norquist a close friend, and Mrs. Erwin Helgeland, the bride's sister, attended Miss Swanson, while gentlemen attendants included Mike Efteland and Erwin Helgeland, respective cousin and brother-in-law of the groom.

Miss Swanson had a shoulder corsage of white and pink carnations with her teal blue and black accessories, while her attendants wore brown suits with carnation and gladiolus corsages.

A wedding supper was served at 6 o'clock at the home of the bride's parents, twenty guests attending. A tiered wedding cake decorated in pink and topped with bridal figurines centered the candle lighted serving table. Also gracing the table as an antique was a 62 year old sugar bowl that had been used at the wedding of the bride's grandmother.

Mr. and Mrs. Johnson are at home at 205 North Kinney Ave. The bride, who is employed by the Home Theatre Co., is a graduate of Lincoln high school, class of '34. The groom attended Lincoln high school until entering the army. He was discharged Jan. 7, and is at present employed with the Thief River Falle Grocery.

SGT. ROSENDAHL ADDRESSES LIONS

Former Jap Prisoner Gives Interesting Talk

Sgt. Robert Rosendahl of St. Hilaire, for 41 months held by the Japanese as a prisoner of war, recounted highlights of his experiences at the luncheon meeting of the Lions club Wednesday noon in the Palm Garden Cafe.

Taken prisoner on Bataan in the Philippines in the early spring of 1942, he was later transferred to Manchuria along with 2,000 other Americans, working at forced labor until liberated by Russian forces August 19, 1945.

In behalf of the club, James Parkins presented a farewell gift to Glenn Hanna, active member of the organization who is leaving to establish his home in Valley City, N. D. Mr. Hanna responded briefly.

34 TOWN OFFICERS ATTENDED ANNUAL PEST CONFERENCE

See No Danger from Grasshopper Epidemic During Coming Summer

The annual Pennington county pest conference was attended by 34 township officials in the Civic and Commerce room in Thief River Falls last Friday, according to County Agent Ernest Palmer.

Speakers at the program were George Nelson of the state department of Agriculture, Minor Hegeson, district weed inspector; H. L. Parten, extension entomologist, and Mr. Palmer.

Mr. Nelson gave a brief review of the reorganization of the state department of agriculture and also described how the European corn borer was threatening the corn in Minnesota. The department's survey shows that the borer has progressed as far north as the Twin Cities.

Insect pests and their control were discussed by Mr. Parten. He stated that there was no indication that grasshoppers would be of any menace to this area during the coming year and also stated that they were prepared to control them with poison bait if an epidemic should occur. Methods of controlling other insects were discussed as was also the use of DDT on the farm.

Mr. Helgeson explained the new weed laws to the township officials and also discussed the duties of the county weed and seed supervisor. County Agent Ernest Palmer briefly outlined the infestation of noxious weeds in the country.

GIRL SCOUT NOTES

A Girl Scout leaders' meeting was held in the Civic and Commerce Room, Monday, February 25, at eight o'clock with Miss Mary Bennett, chairman, presiding. Mrs. T. C. Peck reported on the camp committee meeting which she attended February 12 at Bemidji. Demonstrations of handicraft ideas were given by Mrs. Warren Ferber, Mrs. Vincent Borry, and Mrs. Howard Gibson. Songs and games concluded the meeting.

Since the month of February is regarded as International Month in scouting, a joint meeting of all intermediate scout troops was held in the city auditorium, Wednesday, February 27 at 4:16, and a program with this theme was given by the various troops. Troop 8, A talk on the customs in Czechoslovakia, Jane Brozney; Troop 9, Hungarian Folk Dance, Czebogar; Troop 10, Original Skit, Girl Scouts of other Countries; Troop 11, A Dutch Dance, Jeanne Nelson and Carolyn Gulingsrud; Troop 12, Swedish Singing Game, Gustaf's Skol; Troop 13, In the Plaza, a South American song; Troop 14, Spanish Song sung in Spanish; Troop 9, Original Play, America for Me.

In international Girl Scout Circles, February 22nd is known as "Thinking Day," the day that Girl Guides and Girl Scouts around the world make plans for closer kinship with their Guides and Scouts in other countries. That day seemed fitting since it was the birthday of Lord Baden-Powell, founder of both the Boy and Girl Scout movements.

Troop 12 has been working on their Cook Badge, and in conjunction with this they visited the Land O'Lakes Creameries and watched the process of making ice cream. On February 22, the troop met at the home of their leader Mrs. L. B. Hartz and made ice cream. They also worked on friendship bags.

There will be a regular meeting of the Girl Scout council on Monday, March 4, at three o'clock in *the public library.*

Public Opinion

Editor the Times:

There has been much talk about getting the feeble-minded institution the state is intending to build located here in Thief River Falls. Why don't we all work for a junior college instead? Our state college has advocated closing its doors to freshman and sophomores for it has such a large enrollment it can care for only juniors, seniors, and people working for their degrees. This means freshmen and sophomores will have to attend other colleges in the state. A junior college also was these young people what they wish to do and if they should go on to the university.

This large northwestern corner of Minnesota has no college whatsoever; there are very many young people here who long for an education and could use one, but are prevented from going because of too little money and too far-away schools.

It is true that we have many feeble-minded children badly in need of care in Minnesota, but if anyone took a survey of our territory there would certainly be more young people of college material here. Or is our territory so bad that there are more people fit for a feeble-minded asylum. A feeble-minded institution can be built anywhere in the state because it will take in children all over. A college must be built where there are young people to attend. There is no city in the state better situated for a junior college than is Thief River Falls. It is far enough away from both Bemidji and Moorhead to have a territory of its own. Besides, these colleges only take in teachers; a junior college would prepare people just out of high school for all types of work.

The business men in this community should surely work for a junior college. Such an institution would bring people from all over needing the goods and services these businesses have to offer.

What would a feeeble-minded institution need? Food anl clothing, yes, but that is all it would need, too. The very name and reputation of the town would be affected. Both institutions would put Thief River Falls on the Minesota map, but there is a great difference between a "college town" and a feeble-minded asylum town."

People always want to move as close as possible to a school. A junior college would bring many more people than merely students and would raise the value of property in and around the city. The community would grow to an extent that no feeble-minded institution could encourage.

The citizens of Thief River Falls would have to help pay for a junior college while the state would entirely support a feeble-minded institution, but I believe that any level-headed businessman can see that the returns from a junior college would far exceed what he put into it. A junior college would be a very valuable asset to the city. A feeble-minded institution would not be one-sixteenth the stimulation to the community and may even prove to be a detriment in many respects.

There are many cities in Minnesota wanting this asylum. Why not let them have it? We need a junior college for our northwestern Minnesota young people much more than we need a feeble-minded institution.

We can do nothing with the feeble-minded except care for them until they die. Why not try to give the normal intelligent young people a chance? Those in this forgotten corner need a chance. After all, a nation's youth are a nation's hope.

Sincerely,
Leona Nelson.

4,460 VETERANS IN SCHOOL FEB. 1

Many Minnesota Vets Are Resuming Studies

Veterans in Minnesota educational and training institutions under the servicemen's readjustment act of 1944 on February 1st totaled 4460 as compared with 2665 on January 1st, an increase of 67 per cent, Paul T. Gray, V. A. contact representative at Thief River Falls stated today. Of this total, 3963 are in educational institutions and 507 in on-the-job training. By far the largest number—2666—are in college, university or professional training while 965 are in trade schools and business colleges and only 91 in below college institutions, Mr. Gray said.

He also stated that where records are complete certificates are now being issued in less than one week after the applications are received by the regional office, where as in December the average time required was one month. The faster service is made possible by the use of night shifts and additional personnel.

Veterans who plan to use educational or on-the-job training benefits but have not yet applied, may procure application forms and information from the V. A. Contact office at United States employment office in Thief River Falls.

The Grin that Won a War

DON'T LET HIM LOSE IT NOW!

HE WENT INTO BATTLE with a smile and a wise crack... he took all the enemy could throw at him, and suffered in silence when wounded.

We can't let him lose that spirit now. During the endless months of impatient waiting to come home ... during the monotonous tour of duty in the armies of occupation ... or the long weeks of convalescing ... that is when thoughts may weigh heavily on his mind.

We at home helped him keep his chin up. When he's back, proudly wearing the little gold eagle, emblem of an honorable discharge ... will that grin fade? Will that happy-go-lucky smile change to bitterness as he tries to adapt himself to civilian life? The grin that won a global war can win a private one and the Red Cross stands ready to help wherever need for its counsel and guidance exists.

Through the long, gruelling years of war the Red Cross reached across the sea and extended a friendly hand to our fighting forces ... and those returning home can find in every local chapter the same spirit of helpfulness.

LOCAL CAGE TEAM DEFEATS RED LAKE FALLS 45 TO 16

Prowlers Boost Their Season's Standings Up Above .500 Mark

The Prowlers concluded their pre-tournament play on Tuesday night, and brought their season's won lost record above the .500 mark by scoring an easy 45 to 16 win over the Red Lake Falls team. The game scheduled for Friday night, with Grafton, has been canceled as the North Dakota team is participating in district competition to determine northeastern North Dakota's entrant in the state tourney at Bismark.

Tuesday night's game was decided in the first period of play when Coach Lindenmeyer's "regulars"—Borsheim, Powell, Tunberg, Carlson, and Hanna—raced away to a 24 to 4 first period lead. Kenny Borsheim, with five field goals and a free throw, led the Prowler scoring spree, with Reg Tunberg coming in with three field goals and a pair of free throws.

The locals added to their margin slightly in the second period when Glen Magnuson notched a pair of field goals, and Jerry Hedemark scored a two-pointer on a rebound, giving the Prowlers a 30 to 8 lead at the intermission.

In a slow and ragged third period, the scoring was held to six points, with each team scoring a field goal and a free throw. Magnuson counted the Prowler field goal, while rangy Dal Halvorson tipped in the Red Lake Falls goal.

In the fourth period, Coach Lindenmeyer "drafted" a pair of boys from Don Nelson's 'B' squad—Allan Williamson and Chuck Erickson—and the two boys sparked the Prowlers to a 12-point period. Williamson tallied a pair of field goals, while Erickson came through with a free throw.

BJORKMAN'S TOGGERY

Different Meanings

Among other meanings, napoleon is a card game, a type of boot, a form of French pastry and an old French coin. Compatriots of the Little Corporal have given that name to nicotine, silhouette, pompadour, vernier, mansard, pasteurize.

Black Marks

Black marks on waxed floors can be removed. Just rub the places with a cloth moistened by a cleaning fluid like carbon tetrachloride or turpentine. Rub until all the spot has disappeared, and then apply a fresh coating of wax. Liquid wax has also been found effective in removing these spots. The important thing is to remove the spots at least once a week, because the longer they stay on the floor, the harder they are to take off.

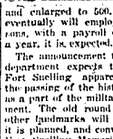
FORT SNELLING TO BE CHANGED INTO VETERAN CENTER

Staff of 2,000 Workers Will Serve Five N. W. States, Thye Reports

With Minnesota in danger of losing the newly established Veterans' Administration branch in Minneapolis, Governor Edward J. Thye flew to Washigton this past week and obtained assurance from the War Department that buildings at Fort Snelling would be turned over to the Veterans' Administration as needed to house the new branch.

Action of the war department assures retention here of the new branch, established as part of a program of decentralization of the Veterans' Administration, to handle close at home problems of veterans formerly handled in Washington. Until the announcement was made, there was grave danger that the bureau, opened in Minneapolis two months ago to serve veterans of five states—Minnesota, Iowa, Nebraska and North and South Dakota—might have to be moved elsewhere.

Staff of the Veterans' Administration branch in Minneapolis, now about 30 in number, will be moved to Fort Snelling as soon as quarters there can be remodeled and enlarged to 500. The branch eventually will employ 2,000 persons, with a payroll of $5,000,000 a year, it is expected.



The announcement that the war department expects to inactivate Fort Snelling apparently means the passing of the historic old fort as a part of the military establishment. The old round tower and other landmarks will be retained; it is planned, and converted into a Fort Snelling Memorial park.

On a per capita basis Minnesota's share of the national debt is in the neighborhood of five billion dollars, of which something like twenty million would be Pennington county's lot. That is quite a mortgage, but we owe it to ourselves tra la.

In a few weeks the first dozen small housing units sold in this community will have been completed and will provide shelter for that many small families. In the meantime the housing problem grows steadily worse. The only hopeful thing in the present picture is the approach of summer when it will be less difficult to provide temporary relief. It will then be possible to dig basements again, the first step in the construction of permanent dwellings, and basements can be lived in. More building materials should become available as time goes on however and there is reason to hope that quite a few homes can be completed before another winter rolls around. Reports from Washington indicate that an order will soon be issued stopping practically all construction except housing and if the nation concentrates its production in this field it will not take long to relieve the present critical condition.

The new ecru bread isn't going to differ a great deal from the present white loaf, the experts tell us, and maybe they are right. At any rate it isn't going to be like eating bark and the country probably will survive without any loaf effects. There is considerable difference of opinion, among those who should know, as to the need for the new milling regulations. By no means are the experts agreed that the new formula will result in food saving. It has been suggested that the only real justification for this action is to give assurance to the hungry peoples of the world that we are making a sacrifice in our efforts to help them. And if it makes them feel better then maybe the idea is a good one.

February has been an extremely long month and regardless of how March blows in we are glad to extend the hand of welcome. These past weeks have been rough on plowed roads and for the first time in years many of our farmers have been snowbound. Old road equipment has not proven itself up to the tasks it has been called upon to perform. If we don't get another storm now to fill the present cuts we will have reason to be happy. Good thing the end is in sight.

Speaking of roads, we are approaching the season when the state will impose load limits on many trunk highways again and then there will be complaints about that. Sure, all of our roads should be built up so that it wouldn't be necessary to limit loads, but, alas, they are not. The limits are imposed to save what we have and so spoil the day when our road system will be adequate. One truck loaded too heavily can do damage that will cost thousands of dollars to repair. The limits are imposed to protect your present investment in these roads and give you more better roads in future years. Counties probably would have more to show for the money spent on roads if loads could be restricted at critical times but that would involve an enforcement problem that would be difficult to handle.

Storms and snow blocked roads bring problems to those who have the responsibility of maintaining electrical service thruout the rural areas. R. E. A. officials used the airplane to advantage in checking their lines during February, flying low over 175 miles of wire on one inspection trip. Eight sources of possible trouble were located on this trip and the necessary repairs promptly provided for. Gordon Camp, local pilot who flew the plane, is well qualified for such flying and it is nice to have that kind of service available in the community.

Looking Backward

1916—THIRTY YEARS AGO

H. H. Spink of Duluth was preparing to open a hardware store in this city March 1.—The Electric Line operating between Thief River Falls and Goodridge, carried 56,285 passengers and 17,416 tons of freight in 1915, according to a report from the railroad and warehouse commission.—The Boys' Commercial club was organized here with Fred Scanlan as president and Roy Brown and Hugh McDaniel as vice presidents.—Mr. and Mrs. Math Iversen sr. left on a trip to the southern states.—All buildings vacated when the saloons were closed in this city last December are now occupied, a survey revealed.

1926—TWENTY YEARS AGO

PUBLIC OPINION

Editor of the Times:

If you see fit to allow this missive to escape the waste paper basket, I wish to express this method of obtaining some information on the long delayed blocked roads in our vicinity.

Our school has been closed for two weeks on account of blocked roads and many had to dig out the old sleigh to get to town. As for me and my immediate neighbors, just to broke roads we got, using a homemade contraption as a snow plow and then shoveled till we got to the Marshall county roads, which were all open and then went by way of Steiner and back in on #2, a 20 mile trip instead of seven, to reach town.

This however we did not object to so much as we were told the snowplow was broken down. But what got my goat was when I reached town I was informed from pretty good authority that the county plows had been out clearing the runways at the airport. This too would be forgiveable if it had been a commercial airfield, but not just to give some of our plane enthusiasts chance to soar around taking in the scenery.

It is pretty well agreed amongst we farmers that county roads are as an explanation as to why they allow the use of the snow plow for such work and allow schools to be closed on account of blocked roads. How much gas tax is collected from gas used in those planes?

Respectively yours,
T. H. Bjerke

To the editor of the Times:

We would like to submit the following as part of your editorial page in the Times. We believe our claim is justifiable, and we sincerely appreciate the opportunity the Times gives us to submit our bit to the paper. Thank you.

To the Clothing Merchants of Thief River Falls:

The method of selling nylon and rayon stockings in the City of Thief River Falls is decidedly unfair!

Complaint No. 1 The stockings are put on sale at a time inconvenient for the business girls but not inconvenient for the housewives.

Complaint No. 2: The same people seem to be getting the stockings each time they are on sale.

We do not think our complaints are unfair nor unjust. As business women we would be looked at very questioningly if we were to wear slacks to work to replace the hose which we no longer have and are no longer able to get. We do not expect more than our share of stockings, but we think we are entitled to purchase one or two pair at the places we have been patronizing for years.

Iron Mass

Brazil's recently discovered iron deposit, heralded as the "greatest known mass" of hard iron ore in the world, has been estimated at 15 billion tons. This would give Brazil about 22 per cent of the world's estimated iron reserves. The newly discovered deposit is in the region around Belo Horizonte, 50 miles to the northeast at Itabira. Near-by Cauc peak is a mountain of solid hematite. It is ringed by other iron hills.

Order for Hearing on Petition to Determine Descent or Land

State of Minnesota,
County of Pennington—ss.
In Probate Court
In the Estate of Esther Mosbeck, Deceased.

Joe Mosbeck having filed in this Court a petition representing, among other things, that said decedent died intestate more than one year prior to the filing thereof, leaving certain real property in Pennington County, Minnesota, and that no will of said decedent has been proved, nor administration of her estate granted, in this State, and praying that the descent of said real property be determined and that it be assigned to the persons entitled thereto:

It is ORDERED, That the hearing thereof be had on March 8, 1946, at 10:00 o'clock A. M., before this Court, in the Probate Court Room in the Court House, in Thief River Falls, Minnesota, and that notice thereof be given by the publication of this order in the Thief River Falls Times and by mailed notice as provided by law.

Dated February 11, 1946.

HERMAN A. KIOS,
(Court Seal) Probate Judge.
Paul A. Lundgren and
Stanley N. Mortenson,
Attorneys for Petitioner.

Card of Thanks

We wish to express our sincere thanks and appreciation to our relatives and friends during the illness and death of our mother. Especially do we thank Rev. O. Jacobsen for his comforting words. Those who sang and the organist and the pall bearers; and the Erickson Funeral Home and the many memorials and flowers. Those kindnesses shall never be forgotten.—The family of Sarah Bogquist. 9p

In Memoriam

In loving memory of our dear daughter and sister, Lillian who passed away March 2, 1941.

Peacefully sleeping, resting at last.

The world's weary troubles, and trials are past,

In silence she suffered, in patience she bore.

'Till God called her home, to suffer no more.

Some day we hope to meet these When days of life have fled,

And in heaven with joy to greet thee,

Where no farewell tears are shed.—The J. J. Bugge Family. 9p

Card of Thanks

We wish to express our sincere thanks and appreciation for the many acts of kindness shown us during the death of our husband and father. Also do we wish to thank Rev. E. O. Urness for his comforting words; Mrs. Carl Torgerson and Norma Torgerson for their songs and music; the Rupprecht family and Mrs. Emma Sampson, who helped us much. Thanks to all who gave memorials, flowers, and food. The Nels Sanderson family and relatives. 9p

In Memoriam

In sad and loving memory of our dear wife and mother, Hilda J. Carlson who passed away six years ago, Feb. 20, 1940.

Sadly missed by Frank Carlson, Vera, Donald and Robert Beales. 9p

In Memoriam

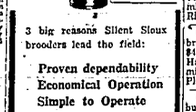
In loving memory of John A. Moberg, who passed away February 29, 1944:

Not lost, but in the coming years, it may be in a better land.

We'll read the meaning of our tears.

And there, sometime we'll understand.

God knows the way, He holds the key,



He guides us with un-erring hand;

Sometime with tearless eyes we'll see;

Yes, there, up there, we'll understand

PROWLER QUINTET TAKES CROOKSTON FRIDAY BY 1 POINT

End Pre-tourney Play With Close Victory Last Friday Night

For the second time this season the Prowlers and Crookston Pirates engaged in a nip and tuck basketball game and when Quentin Jones sounded the buzzer to end Friday night's hectic contest, the locals, due to Ninsk Carlson's long shot, trotted off the floor with a one-point win, 22 to 21. In a preliminary game, played between the Crookston and Thief River Falls squads, Coach Don Nelson's youngsters, with Palmer Ronholm connecting for five field goals, defeated the Pirates, 26 to 19.

Friday night's red-hot encounter found the Prowlers scoring the first point on Brad Hanna's free throw; but the Pirates, on Duke Youngquist's one-handed shot on a rebound play, and Stanley Madson's set-up field goal after taking a pass from Wheelhouse, gave Coach Ray Flom's team a 4 to 1 lead. Be-spectacled Kenny Borsheim bounced into the lane and lifted a one-handed shot into the east goal, and then added another field goal on a try from the left side of the court. Borsheim's free throw on Wheelhouse's foul, gave Coach Lindenmeyer's Prowlers a 6 to 4 first period lead.

Ninsk Carlson, with a hard driving dribble that ended in an underhand shot rolled in a field goal to open the second period scoring. Madson and Carey added points on free throws; but Carlson, on another fast dribble-in, sunk in a field goal. Chunky Andy Carey from just off the lane, hit the basket with a one-handed shot. Borsheim, on a two handed set shot from the free throw circle, marked up two points. Madson, with a hook shot from the right side of the basket, scored a Pirate field goal; and Youngquist, on a long shot, tied the score with 45 seconds to play, and the two teams left the floor at the intermission with the score at 12-all.

The Prowlers, with Rog Tunberg scoring a pair of field goals and a free throw, and Johnny Powell left-handing a shot into the net on a rebound play, moved into a 19 to 15 lead in the third period. Crookston, held scoreless from the field counted points on free throws by Hafterson, Madson, and Carey.

In the fourth period, Madson for the Pirates and Carlson for the Prowlers tallied on free throws, and the score, with four minutes of play remaining, was 20 to 16 for the locals. Milo Hafterson brought cheers to the large Crookston delegation with a one-handed shot from close in. Duke Youngquist's swishing long shot, with two minutes to play, knotted the score at 20-all. Jack Peterson, on Tunberg's hacking foul, made good on a free throw, giving the Pirates a 21 to 20 lead, with barely a minute to play. The Prowlers moved the ball up the floor, passed around the court, and Carlson, with forty seconds to play, flipped a long shot from beyond the free throw circle, cleanly into the net for the game-winning field goal. In the last few seconds of play, two jump ball plays and a Crookston foul, with the locals taking the ball out of bounds, ran out the time.

Kenny Borsheim and Ninsk Carlson, each with 7 points, were the Prowler high point men, with Rog Tunberg coming through with five points, all scored in the third period. Manley Madson's 7 points, and Duke Youngquist's 6 points, were Coach Flom's main scorers.

Roseau Senior Hockey Team is Winner of N. W. Title in Tourney Here

The powerful Roseau Cloverleafs won the northwest senior hockey championship here Sunday afternoon by defeating the Crookston Pirates, 5 to 3 in a grueling overtime finals contest.

In a game to decide the consolation honors, and played as a preliminary to the championship encounter Thief River Falls defeated the Williams sextet, 6 to 5. In the tournament semi-finals game played Saturday night, and both of which were forced into over time periods, Crookston eliminated the local team, 6 to 4; and Roseau, after two overtime periods, edged past Williams, 5 to 4.

Sunday's finals game, between Charley Habstritt's Roseau sextet and Bill Medved's scrappy Crookston Pirate team, was thrill-packed from start to finish. Bob Harris, captain of the state champion Roseau high school hockey team and named to this year's all-state team, tallied the first goal for the Roseau seniors when he slammed the puck past Bud Schraeder in the opening minutes of the first period.

Roseau made it 2 to 0 when Anderson's shot from a sharp angle to the east of the north goal, caromed off Schrader's stick and into the net. The Pirates' first goal was recorded by Don Schrader who after taking Bud Saleem's rebound, dipped the rubber past "Mother" Bennett, the Roseau goalie. Crookston's hope for a win were given a blow when defenseman Gene Panzer was forced out of the game by a cut over the eye.

The only goal marked up in the second period, and it knotted the score at 2-all came when "Spanky" Sullivan, after circling the Roseau net, backhanded a shot past Bennett.

Roseau broke the tie early in the third period when "Bob Johnson", back in the Roseau lineup, received a pass from Habstritt and beat Schraeder with a hard drive. But the Pirate's Jack Lemon forced the game into overtime when, on a pass from Salem, he poked a shot into the Cloverleaf net.

The winning goal was scored by Jimm Alley in the overtime period, with Habstritt setting up the play on a rush down the ice and "feeding" a pass out to Alley in front of the Crookston net. Roseau added some "insurance" a short while later when Habstritt's hard shot, after being stopped by Schrader slipped out of the Crookston goalie's glove into the net.

The ding-dong- semi-final games on Saturday night—and it was not until 11:45 P. M. when the winner of the Roseau vs. Williams contest was decided—kept the crowd in a turmoil. In the opening game, the favored Thieves after taking a 2 to 1 lead in the first period on neat goals by Freddy Gustafson and Bud Brossoit; and a 4 to 2 lead in the second period, when Bill Gray and Gustafson added counters, faded before the stubborn Pirates to lose 6 to 4, in overtime.

Bill Medved's solo goal in the third period brought the Pirates within a goal of the locals, and, in a scramble to the right of the goal Gene Panzer, in the final minutes of the period, drove a shot into the net for a disputed goal, tying the score at 4-all.

In the overtime period, Panzer, after an ice-length solo rush, drew the locals' goalie out of the net and shoved the rubber into the nets. With the Thieves short-handed, Bud Salem, a short while later, whipped in an angle shot, giving the Pirates a 6 to 4 win.

And the other semi-final game, which went into a "sudden death" overtime, found the Roseau team, after trailing 2 to 0 score midway in the second period, coming back to tie the score on goals by Cal Marvin and Drown. Williams' two goals in the period were credited to Clarence Schmidt, the northern-ers' clumsy defenseman.

In the third period, with Roseau a man short, Les Turner counted a Williams goal with Bob Sieme assisting; but the Cloverleafs, with Alley and Rudy Meyer, two former Roseau high school stars, combined to again knot the score, with Alley scoring on Meyers rebound.

The first overtime period found Williams' breaking the deadlock on Schmidt's solo rush; but on a face-off in the Williams' zone, Cal Marvin, getting a pass from Dieter tied the count at 4 to 4.

In the "sudden death" overtime, Jim Alley, on a circle of the Williams' net slipped the puck past Dale Bannon to end the game, with the Cloverleafs the winners, 5 to 4.

The star of the game was Williams goalie, Dale Bannon, who played a remarkable game in the nets for the losers. And closely pressing Bannon for starring honors, was Schmidt, the Williams' fast-skating defenseman.

Secretary Mike Holm Was Married Feb. 4th

Mike Holm, Minnesota secretary of state for 25 years, is expected by associates to be back in his office next week after disclosure he had been secretly married Feb. 4 Cedar Rapids, Iowa, to Mrs. Virginia Paul of St. Paul. The couple is now honeymooning in Florida.

Keeping Score ... THE BUCK OLSON

Lots of Pins

The Oen's bowling team came through on Friday night to fulfill an early season prediction, for the city bowling champions marked up a 1002-pin game, setting a new single game record. That's the year's first 1000-pin game, but it perhaps won't be the last as the competition in the two leagues has become red-hot, and the boys are "bearing down".

The individual scores in that record-making game were: Snort Langseth, 200; Johnny Jaranson, 192; Jesse DuChamp, 22; Wally DuChamp, 177; and Emil Dostal, 191.

Much of the credit for Oen's high game score must go to Jesse DuChamp, who posted that huge 242 game. It was to be expected that Jesse would have a big score last week for on Saturday evening he became a bridegroom marrying Bunny Nesland.

Terrific Hockey

There weren't any disgruntled hockey fans crowding around the ticket window asking for refunds following the senior hockey playoffs here on Saturday and Sunday. It was the most hockey, and good hockey, too, that you could get for a dollar, for three of the four games went into overtime, and the fourth game, between the Thieves and Williams for the consolation honors, was decided by one goal.

While the winning of the title by the Roseau team wasn't too popular—most of the fans were cheering for the young and scrappy Crookston team—the Cloverleafs deserved the honor for they had their most powerful squad on the ice. Charley Habstritt was able to utilize two complete lines and he had a pair of extra defensemen, and on Sunday afternoon he had Warrand's "Bob Johnson" in the lineup. It was really asking too much of the Pirates to expect Bill Medver's team to beat the Cloverleafs, but they came close, and if the hadn't lost Gene Panzer, due to cut over the eye, and if they could have had Johnny Noah and Jimmy Medved in the lineup, the results might have been different.

All-Senior Team

An informal vote reveals that the all-senior hockey team would lineup something like this: Williams' Dale Bannon would be goalie, and his selection would be due to his work in the Roseau vs. Williams game on Saturday night; on defense would be Williams' Clarence Schmidt, one of the tournament's stand-out performers, Roseau's Charles Habstritt and Crookston's Gene Panzer. Habstritt and Panzer are both veterans, but they played very strong and smart hockey. At the wings would be the Thieves' Freddy Gustafson and Connie Stanbridge, and the Pirates' Bill Medved, while Roseau's Jim Alley would—be the center-ice man. Freddy and Connie turned in the niftiest combination play of the tournament, being deadly on their passing in front of the net. Roseau's "Bob Johnson", the kick shot specialist, should perhaps be in the lineup, too, at defense, but he played only one game with the Cloverleafs, on Sunday.

Prowlers District Favorites

Coach Lindenmeyer's basketball Prowlers, by scoring that easy 45 to 16 win over Red Lake Falls on Tuesday night, won first place in the district's class A standings, and as a result the locals will be paired against Red Lake Falls in the district class A tournament opening here on Mar. 7. Crookston and East Grand Forks will play in the other semi-finals game, with the district championship being decided on March 8th.

If anything is a cinch, the Prowlers are a cinch to enter the district finals, for they should be able to name the score by which they will defeat Red Lake Falls, for the Eagles, except for big Dalton Halvorson and Del Hoffus, are quite weak. But in the finals, and they probably meet Crookston, the Prowlers will be up against something different for the Pirates seem to "up" whenever they play the locals.

Jones wants Volleyballers

Quentin Jones, in charge of the Wednesday evening physical education "workouts" in the high school gym, wants all the men that are capable of hunting a volleyball to report for practice. He's anxious to form a league with four or six teams and a number of the veterans, who are enjoying the Wednesday evening sessions, expressed themselves as being unbeatable at volleyball.

Camping Course Will Start Next Thursday

The first session of a course in camping will be held for men interested in Boy Scout work in the Civic and Commerce room next Thursday evening, March 7. Richard G. Mabey will conduct the course, which will continue for five Thursdays, and will conclude with an outdoor session.

DISEASE MENACES VALLEY POTATOES

Seed Potato Industry Threatened by Ring Rot

The seed potato industry in the Red River Valley and other seed producing areas is seriously threatened by a bacterial disease called ring rot, according to O. C. Turnquist, horticulturist at the Northwest School and Station, Crookston.

Mr. Turnquist states, "All experiment stations in the seed producing areas are concentrating on the eradication of ring rot, a highly infectious disease. Ring rot in potatoes, like tuberculosis in cattle can be eradicated only through elimination of all diseased seed stock. Now is the time to dispose of all infected lots of seed potatoes for infected lots that are sound for table stock purposes can be sold at a fair price on the market and clean certified seed can be bought back at reasonable prices."

A total drastic closing-out of all infected seed followed by a thorough clean-up and disinfection of all storage bins and potatoe handling machinery and planting of new clean seed will be the most profitable investment seed growers can make this year.

The menace of a trace of ring rot in seed cannot be over-emphasized. A trace of ring rot at planting time has been known to build up to ten per cent in one year and as much as 60 percent the third year. Many potato dealers are cooperating in the plan to dispose of all contaminated seed this year and introduce new clean seed stock.

Growers should become familiar with the symptons of ring rot on both plants and tubers. Detailed descriptions of the disease and its identification can be accured from experiment stations and county agricultural agents.

"U" TO EXPLORE BUILDING CRISIS

Home Construction to Be Conferenced Topic

Using as its instrument a series of conferences which will bring in typical people from every field of endeavor involved in the construction of homes, the University of Minnesota will make an effort to get at the basic reasons and the truly inward obstacles that have led the nation to the overall housing crisis that now confronts it.

Julius M. Nolte, director of the general extension division, said the first conference will be held March 7, 8 and 9 in the Center for Continuation Study. Dates of the other two have not been set, but they will follow at normal intervals.

"We are not having these conferences to examine temporary relief measures through pre-fabricated structures, trailers or rush jobs, Nolte said. "We want to canvass the entire housing problem with people who know all of its various aspects and thus determine how the nation has come out where it has, or rather, has failed to come out."

Contractors, real estate men, home financing people, men from such fields as plumbing, carpentering, lumber production, lumber fabrication, such as sash and door concerns, and people from all branches of material production will be invited. Also asked to take part will be persons from the more theoretical side, economists, city planners, research specialists in housing and men from federal and state agencies.

MONTGOMERY WARD

First Quality RIVERSIDES

The new Riverside tire is now even stronger than our pre-war tires! Stronger because each cord is stronger to begin with . . . then chemically-strengthened to stay stronger longer . . . next liquid-dipped (to "weld" them together) and cushioned in rubber for maximum safety! Finally each ply is cemented before vulcanizing, for greater protection against separation, and blow-outs! Riversides give you more for your money . . . more safety . . . more wear! Do as millions are doing . . . switch to Riversides!

If we are temporarily out of your size, remember — new tires are arriving at Wards Retail Stores every week. (And selling fast)

'IKE' TELEVISION STAR . . . Smiling study of General of the Army Dwight D. Eisenhower, U. S. army chief of staff, was transmitted by television from Washington to New York City during the Lincoln memorial services. This was a test of the new inter-city coaxial cable, and proved the possibilities for television photographs for current news events.

INCREASED COSTS TO PLAGUE FARMER

John Brandt Deplores Unrest in Industry

"The American farmer realizes an explosive situation is impending, and that there is little he can do to avert the economic effects of the problem-days ahead." In making that statement John Brandt, president of Land-O'Lakes Creameries, Inc., reflected the concern of many Northwest farmers. "Generally, people do not appreciate the severe repercussions that well may follow the productive turmoil we find ourselves in today."

Brandt emphasized that during this postwar period when reconversion planning and operations should be in full swing the nation is confronted by a set-back from which "it will not recover for many years to come."

"This is a time for action and decision," is the convincing comment of the dairy leader. "We must decide whether or not we are going forward as an intelligent commonwealth on the principles which have so long and successfully governed us, or whether we are to become wards of the government. If we take the latter path of experimentation and have our 'prosperity' doled out through subsidies and gratuities which must be met by taxation the brakes will be set on normal business growth."

Brandt contends that the farmer knows he cannot escape increases in operations costs and prices of necessities. "As the greatest per capita buyer of consumer goods," he avers, "much of the load of inflated costs will fall on the farmer's shoulders. As a nation we'll have to practice two simple lessons we have learned time and again: There is no substitute for an honest day's work. Wealth is created only through industrious application of men's ability."

He urges that all "get down to business" and produce sufficiently of the goods and services which will supply the "plenty" we have promised ourselves and the rest of the world. "There is not, nor ever will be, a short-cut," concluded Brandt.

University Puts Limit on Out-state Entries, Pres. Morrill States

Enrollment of students from outside the state of Minnesota will be on a strictly limited basis this spring at the University of Minnesota. Limitation applies to all but the Graduate School.

Following consultation with the administrative committee of the University Senate, President J. L. Morrill issued a statement of policy to govern limitation of student quarter of this year and on experimental basis.

Dr. Morrill's statement said:

"No non-resident undergraduate college student will be accepted for admission to the University of Minnesota for the spring quarter, 1946, with the following provisions.

"1. That students previously enrolled at the University during any regular academic year in other than war training courses, and students who are sons or daughters of former students of the University will be admitted.

"2. That on recommendation of the dean of the college involved and with the approval of the president, students, especially veterans, may be admitted when there are special and reciprocal educational reasons for doing so, with the understanding that preference will be given to students living in the area which is economically and educationally related to Minnesota.

SILVERTON

Sunday-school and services will be conducted at the Silverton church on Sunday. Please watch the church notice for the time.

Mrs. Henry Anensen and children of Smiley were Friday afternoon visitors at the Ole Lerol home.

Mrs. Chris Norbeck, Mrs. Engbret Norbeck and children called at the Clarence Peterson home Sunday afternoon to celebrate Lorraine Peterson's birthday which occured last week.

Mr. and Mrs. Clarence Peterson visited Sunday evening with Mrs. Andrew Buringrud and son Arthur of Thief River Falls. Arthur is a cousin of Mrs. Peterson and has recently received his discharge from the army. He served two and one-half years, the last eighteen months in the Philippines and in Tokyo, Japan.

Melvin Christopherson spent last week-end visiting friends in Thief River Falls.

The Silverton 4H club will meet at the Casper Bondloy home next Thursday March 7, at 8:30.

The topic of this meeting is gardening and chickens. Those on the program committee are Delores Urdahl and Allan Larson; recreation, Irene Peterson and Roy Bondley.

Casper Bondley's had as their guests on Sunday Mr. and Mrs. Rindahl Sannes and daughter Karen of Mizpah and Mr. and Mrs. Stanley Robison and Linda Kay of Thief River Falls.

Mr. and Mrs. Leroy Peterson and sons Dean and Robert of Angus were visitors Thursday afternoon at Paul Peterson's on Thief River Falls.

The snow plow has now been repaired and our roads are open so our mail man Carl Hovie is abls to make his route again.

Mr. and Mrs. Ole Lerol and family were visitors at the Casper Bondley home Friday evening.

Mrs. Paul Peterson visited Tuesday of last week at a local hospital with Mrs. Adolph Wold of Sanders and Mrs. George Gunderson of Reynolds, N. Dak., both having undergone operations. Mrs. Gunderson is well remembered by many people in this community having lived here for several years.

Rena Woolson, who has been working at a Red Cross Canteen forty miles from Kobe, Japan, has closed the canteen and is now with the signal corps in Kobe.

NEW STATE CO-OP GROUP ORGANIZED

Education Leader Is Head of Organization

A new state-wide organization of cooperatives, the Minnesota Association of Cooperatives, was announced in St. Paul this week. All cooperative associations in the state are eligible to membership and are invited to join.

The announcement was made by Harry J. Peterson, president of the board of directors, who will also serve as executive secretary.

The purpose of the association, according to Peterson, is to "promote a better public understanding of the history, practices and purposes of cooperatives, and assist wherever possible in developing a unified program and in improving the cooperative way of doing business."

The association, he said, will not replace any existing cooperative organization but will supplement and assist Minnesota cooperatives of all types by providing research, public relations and educational services. It will act as a clearing house on matters of common interest.

Headquarters of the MAC will be in St. Paul. Peterson will leave his present position as education service director of Midland Cooperative Wholesale to assume full duties as executive secretary of the new organization.

Federal Income Tax Quiz

By A. D. Reynolds, Collector

Q. Who has to file a federal income tax return? A. Everyone (including minors) who had $500 or more income last year. Approximately 50,000,000 Americans are required to file in fact nearly every civilian worker or businessman.

Q. Do servicemen and veterans have to file? A. Some do most do not. It depends partly on rank and partly whether they had any civilian income. All enlisted pay and the first $1,500 of officers pay are exempt. All civilian income and officers pay over $1,500 counts toward the $500 filing requirement.

Q. If my tax is withheld from my wages by my employer, do I have to file?

A. Yes. Withholding is only approximate and you must file a return so that any additional tax may be collected or any overpayment may be refunded.

Q. Didn't Congress recently exempt a lot of people from filing?

A. No. Congress reduced taxes on 1945 income (remember our March 15 returns are our 1945 income) but did not change either for last year or this year the requirements that returns must be filed by everyone having $500 or more income.

Q. Suppose my income was less than $500 but tax was withheld from my pay. Should I file? A. Yes. If you are single, file a return to get a refund of the tax withheld. If you are married, you should file a joint return with your wife (or husband) so that she (or he) can get the benefit of any of your exemptions which you do not need to offset your income; in which case your refund will be applied against any tax she (or he) owes, or you will get a joint refund.

STRINGING ALONG AT TWO MILES A YEAR KNOT SO BAD

Owatonna, Albert Lea—It was wound in Owatonna, but it wound up in Albert Lea, where The Evening Tribune unwound the tale. Leroy W. Anderson, Owatonna restaurateur, helps to make both ends meet by tying and winding pieces of string. He explained his 30-pound ball, measuring 53 inches in circumference, would unwind to 17 miles. The Tribune figures if their mathematicians didn't ball up the knotty problem, Mr. Anderson really wasn't stringing them. He has 17,0454 miles of string, not quite two miles a year for the 10 years he's been hitting the ball.

Pickle Preserves

Dill and saccharin pickles require no sugar and are easy to make. For saccharin pickles, wash and dry seven quarts of medium - sized cucumbers. Pack into sterilized containers. Mix together one cup of dry mustard, one cup of salt, one teaspoon of powdered saccharin and one gallon of cider vinegar. Stir well to dissolve saccharin and salt. Pour liquid over cucumbers until they are completely covered. Seal and store. If sour, sweet pickles are desired, molasses can be used for part of the sugar if strong vinegar is used. If sugar is replaced with all molasses, the color of the finished product may be too dark. Sauerkraut, though not considered as belonging to the pickle class, requires no sugar.

Who's first for the funnies?

Hold it, folks! There's a lot smoother way to get at the Sunday paper. How about this—Mom gets the women's section, Pop takes the news . . . and Pete and Mary each get a section of the funnies. Just a bit of sharing and everybody's happy.

Works swell with your party line telephone, too.

Allowing time between your calls for others to use the line . . . keeping conversations short—mostly the plain good neighbor greeting the other fellow as you'd like it to be—that's how the service can be most useful to all on a party line.

And we're glad to say most party line users work it that way.

That Josie is a smart cow. She wants the better pastures and hay and individual feeding that are part of the 8-Point Dairy Program, no doubt. She doesn't see why this program, which is sponsored by the State Extension Service, the Dairy Industry Committee and the U. S. Department of Agriculture, shouldn't be a guide to better dairying on every farm.

Might ask your County Agent about it, Mr. Dairyman.

Out of the 2,485,138 appliances manufactured in 1944 and 1945, General Electric shipped 98%.

AFTER the war ended, we weren't able to get back into production of some appliances as soon as we had hoped, and production rates weren't as high as we had hoped. A number of unforeseen things like material shortages made the job harder.

But there were only 120 days between V-J Day and December 31, 1945; and in those 120 days we partly reconverted our factories from war to peacetime goods and got production started. During the year we turned out 2,818,791 electrical appliances.

We shipped these appliances out practically as fast as made—so fast that at the end of the year more than 98 per cent of those we'd built since reconversion began were out of our factories. Most of them were in the hands of users.

Then, on January 15, 1946, our plants were closed by the strike. Not a single electric home appliance has been built or assembled there since. And, because our warehouses are practically empty, your dealer won't be able to obtain any more until we can get back to making them.

We want to get back to producing as fast as possible. The manufacturing organization is set up; the machines are ready, waiting to be set in motion. Those factors will help us to do an even faster job than we did in the months before the strike.

But we can't pick up production quite where we left off. Production lines are too complicated for that. A great many things have been dislocated by the strike.

When the strike is over, and the refrigerators and toasters and radios you've been waiting for begin to come off the lines again, we'll get them into hands of our dealers just as fast as we can. They'll be competitive in price. They'll be General Electric quality.

So, please don't be impatient with your dealer—or with us.

Ollie Mapes and The Streamlined House

The other day a construction firm set up an exhibit in the courthouse square. They built a new "house of the future"—and invited folks to see it.

Drew quite a crowd—with the women sighing over the shiny kitchen, and the men admiring the heating units and insulation.

All except Ollie Mapes. He looks around a spell and goes home. When I get there, he's sitting before his old dutch fireplace, with his feet on the screen, and a mellow glass of beer in hand.

"You know," quotes Ollie, "it takes a heap of living to make a home."

Looking around, I see what Ollie means. A room crowded with memories of a life well spent—and the friendly habits of a happy home, from a blazing old-fashioned fire, to a mellow glass of beer with friends. From where I sit, those things do more to make a home than modern streamlined gadgets.

Nobody Lives Independently of the Farmer's Welfare

Perhaps you've always lived in a town or city. Perhaps you have at some time lived on a farm.

No matter where you live or what your business, nobody can or does live independently of the welfare of agriculture.

Basic wealth comes from the toil of the farmer. Today the American farmer is doing a superhuman job of feeding the world in spite of labor shortage and patched-up machinery. When he prospers you share in his prosperity because he buys more shoes, clothing, machinery and many farm supplies.

When times are tough for the farmer you also share in his economic conditions because he must buy less, thus reducing the market for goods you sell or help produce.

The farmer has found a way to level off the ups and downs of his financial welfare. By selling farm products through his marketing co-op he finds more favorable markets—at a saving. By purchasing farm supplies through his own co-op that owns manufacturing, processing and distribution facilities he is sure of quality and lower cost. Selling through his co-op he no longer is forced to buy at retail and sell at wholesale—ruinous for any business, and farming is certainly a highly specialized business.

Who benefits when the co-op farmer makes savings, controls quality and owns manufacturing processing and distribution facilities that serve the people without profit?

The farmer, of course. But benefits don't end there! The whole community benefits when the farmer increases his purchasing power through cooperation because the savings he makes go back to that community. What helps the farmer helps you and your neighbors. No individual or business can afford to see the farmer's economic gains hampered or destroyed by any organized selfish effort.

You should know more about your local co-ops, what they are, what they are doing for the people, their purpose and accomplishments. We'll gladly send you this information. Write for it and

Chicks Travel in Style

"Flying brooders" carrying increasingly heavy cargoes of day-old chicks between the Americas are now averaging nearly $15,000 weekly. Hatching eggs and baby chicks are finding their way in ever-increasing cargoes to Cuba, Dominican Republic, Trinidad, Venezuela and Netherlands West Indies, where active movements are under way to build up local poultry industries by the introduction of better and handier stocks. Puerto Rico, suffering from a critical food shortage, relied upon Clipper express to import dressed poultry from Dominican Republic, and the condition was quickly alleviated.

Gambled at Table

The fourth Earl of Sandwich loved gambling too much to leave the gaming tables for meals. The caterers—you—work—or—play sandwich, now haute food and abstract haute English, lifted him from the horns of his dilemma. Other British noblemen gave us the derby hat, the chesterfield and raglan sleeves.

Conserve Moisture

Tomatoes and squash benefit from a moderate but constant and never-failing supply of moisture. Mulching the soil around the plants helps to conserve the moisture.

THE SAD SAGA OF THE HOME WRECKING SKUNK

St. Peter—This is the story of a skunk who moved into the Earl Miller house in Traverse des Sioux and actually broke up their happy home. Mrs. Miller has left for Calif. and Mr. Miller has moved into Cook's Hotel downtown. Mr. Miller, however, is not standing idly by. He took the wrecker from his garage, backed it up to a hole in front of the foundation of the house where he figgers Mr. Skunk made an entrance, and delivered a frontal attack with carbon monoxidegas. In the mean time the house remains vacant. The housing shortage in St. Peter is bad but not so bad that anybody is willing to bunk with a skunk.

UNSAFE BRAKES, LIGHTS PENALIZED

Patrol Issues 1,614 Tickets in January

In an effort to cut down accidents caused by bad brakes, faulty lights and other unsafe equipment, Minnesota highway patrolmen in January issued a large number of tickets requiring correction of 1,614 violations of the minimum standards for equipment for safe operation of motor vehicles, according to the monthly report of Earl Lartimer, chief patrol officer.

This is an increase of 610 violations over the number in January 1945. The types of faulty equipment for which "must repair" tickets were issued included illegal brakes, no warning device, no flags or flares, no reflector, exhaust not muffled, rear light out, one headlight out, no clearance lamps, and various other types of faulty lighting.

Reflecting the hazardous driving conditions in January, the report shows did given to 238 motorists whose cars had gone in the ditch, compared to 94 in January, 1945. Total of all types of aids to motorists last months was 1,855.

The patrol in January made 807 arrests for more serious violations of the traffic act, including 3 driving under influence of intoxicants, 114 over weight loads, 127 improper equipment, 87 improper registration, 57 no drivers license 87 careless driving, 81 going through stop sign and 85 excess speed. Fines imposed totaled $9,375.

ONLY SKIN AND BONES STILL WAGS HIS TAIL

Hibbing—Passing an empty warehouse, T. C. Cundy of Stevenson heard a dog whimpering. At first he couldn't determine where the sound was coming from, but finally decided the dog was under the building. He circled the warehouse but found no tracks or anhole that would allow the entrance under the building. He obtained a shovel and dug thru the snow and frozen dirt until there was an opening. A brown-and-white English pointer came out wagging his tail feebly The pointer was taken to the local police station where, despite the fact that there was little left of him except skin, bones and intelligence, police report he is doing nicely. No one knows how long the dog was trapped under the building but they speculate that he may have belonged to a New York hunter.

Corn on the Cob

It has been established that cobs make up a much smaller proportion and grain a much larger percentage of the crop when corn is grown on properly-fertilized land. At the Ewing experimental field of the Illinois college of agriculture, corn grown on well fertilized with nitrogen, phosphorus, potassium and calcium contained 15 per cent or 10.5 pounds of cobs per 70-pound bushel of ear-corn; while the same hybrid from untreated land on this field contained 20 per cent or 14 pounds of cobs per bushel of ear-corn. This means that each 100 bushels of ear-corn grown on this unfertilized land contained 350 pounds more cobs than 100 bushels grown on treated land.

No other games for the team have yet been scheduled.

Mineral Dyes

Use of minerals for dyeing purposes was uncommon in antiquity. People in different parts of the world, however, learned to dip cloths in strips containing iron salts in solution to obtain shades of orange and red-brown. When iron became a common metal, it was found that any soluble salt of iron could become a dyeing solution. In the American colonies, the solution was made by immersing strips of used iron in a barrel, half filled with vinegar and water. The ancient Egyptians made a green dye from oxidized portions of copper lodes and a blue dye from azurite. And native earths, colored with iron oxide, yielded ochres ranging from pale yellow to brown-red and violet. Black was obtained from carbon and white from chalk or gypsum powder.

Barnacles Sensitive

White, yellow or light green paint on ship bottoms tends to retard the growth of barnacles. Research seems to indicate that the larvae of barnacles are sensitive to light to the extent that they seek darker surfaces when attaching themselves to a solid surface. They seem to settle in greater numbers upon black, dark green, chocolate and red surfaces rather than the lighter hues.

McCormick - Deering
Post-War Farm Machines
Now Being Manufactured

BALING HAY FROM THE WINDROW

The McCormick-Deering one-man, self-tying pick-up twine baler is shortly expected to be an important time and money saver on American farms. The purpose of this machine is to pick up and bale cured hay automatically in the field. International Harvester's production of this machine, until recently limited by war production restrictions, is being stepped-up to meet postwar requirements. Hay producers welcome automatic twine baling equipment which can be drawn by the farm tractor, with one man handling the entire operation. This machine is one of many new ones now in production.

MINNESOTA HISTORICAL SOCIETY

FILING PERIOD IN PRIMARY TO OPEN MARCH 13

Nearly All Pennington County Offices Will be Voted on This Year

With the 1946 primary election in Minnesota again scheduled to be held this year on the advanced date of Monday, July 8, the period for filing for the various county, district and state offices will open next Wednesday, March 13, County Auditor *A. M. Senstad* stated this week, adding that filings will continue thru Monday, April 15.

All but two Pennington county offices are to be voted on this year, it was revealed. Posts to be filled, together with the incumbent officials, include county auditor now filled by Mr. Senstad; treasurer, A. R. Johnsrud; register of deeds, Fred Lorentson; sheriff, Arthur Rambeck; county attorney, Paul Lundgren; superintendent of schools, Mrs. A. C. Mainess; surveyor A. O. Stokker and the county board members from two Thief River Falls districts, these posts being held by W. H. Mulry and F. W. Mabey.

Also to be elected are two representatives in the state legislature from the 60th district, the incumbents being W. E. Day, Bagley, and J. C. McReynolds, Clearbrook; and one state senator from this district, W. E. Dahlquist being the incumbent. The post of representatives in congress from the Ninth district, now filled by Harold C. Hagen, will come before the voters as well.

The governorship, held by Edward J. Thye, and other state offices also will be filled this year, in addition to the United States senate seat filled for more than 20 years by Henrik Shipstead, who is expected to be a candidate to succeed himself.

ED MOREN NAMED WEED INSPECTOR

To Serve Both Pennington and Red Lake Counties

The Pennington county board at its March session completed arrangements for securing the services of Ed Moren as county weed inspector. Under a joint arrangement he will serve Red Lake county in the same capacity. The board fixed his compensation at fifty cents per hour, with mileage at the rate of five cents per mile.

The board made arrangements to offer for rent tax-forfeited lands in Pennington county starting Monday, March 25.

After receiving a petition from residents of Sanders and Black River townships requesting the improvement of County Ditch No. 1, the board decided to hold an informal hearing on the matter Tuesday, April 2.

SCHOOL OPERETTA ABLY PRESENTED

High School Chorus Pleases Big Audience

The Lincoln chorus of 65 voices, under the direction of Miss Alma Kiewitter, music supervisor, Friday evening gave an excellent rendition of the gay operetta, "Rio Rico", in the high school auditorium before a large and responsive audience.

The young vocalists handled their singing and speaking roles in a highly creditable manner, and the group numbers also were effective.

The scene of the story was laid in the 18th century, and the plot was based on a treasure-hunting expedition headed by Professor Amos Molecule, which role was filled by Jerry Joringdal.

Between the acts, selections were rendered by girls' clarinet quartet, [illegible]

Theresa Noxon Will Be Speaker at Meeting of Business Women Monday

Theresa Noxon, superintendent of the Mercy Hospital, will address the Business and Professional Women at their dinner meeting next Monday evening in the Pine Cave. "Health" is the topic being used by the business women during March.

Red Cross Campaign Is in Full Swing in Pennington County

First returns from the Pennington county Red Cross [illegible] campaign are beginning to come in, it was announced today by Milton Larson, chairman of the drive, who stated that the first report will be published next week by Stanton R. Dahlen, treasurer.

The campaign next week will receive a stimulus in the form of a collection to be made in the Avalon theatre starting next Wednesday, March 13, and continuing thru Saturday, March 16. Arrangements for the solicitation were made with Leslie Skattum, theatre manager, by Andrew Anderson, chairman for the Thief River Falls business district. The collection will be made by members of Job Daughters under the supervision of Mrs. J. E. Robinson, Bethel guardian.

The month of March has been designated Red Cross Month by President Truman, who, in his proclamation called for the full-est support of the organization's campaign. Simultaneously Red Cross Chairman Basil O'Connor and civic leaders everywhere pointed to the need for continuing Red Cross services to able-bodied troops abroad and in this country to those in hospitals, and to veterans, as well as to families and dependents of all who have worn the uniform.

"The men in active service, the hospitalized, and the veterans form three major Red Cross battle fronts which victory in the field merely served to intensify," Mr. O'Connor said in announcing opening of the campaign. "Since VE and VJ Days Red Cross services and living standards for dependents have increased materially. Added to this are rapidly growing responsibilities to civilians. Every American must support his Red Cross to the utmost so that it may continue to serve our men in uniform, whether able-bodied or hospitalized our veterans, and people adequately."

Red Cross budget estimates are pared to a minimum consistent with adequate service, Mr. O'Connor pointed out. Expenditures for 1946 actually will exceed the campaign goal, the difference being made up from funds previously collected in the belief war would continue into 1946.

FJELSTED SEEKING LIVING QUARTERS FOR FACULTY HERE

Solicits Cooperation of Local PTA Groups in Finding Quarters

In the first of a series of appeals to be directed to all local units of the Parent-Teacher association, Supt. P. L. Fjelsted Monday evening asked the Northrop PTA unit to appoint a committee to conduct a search in that neighborhood for rooms available for single teachers and living quarters for married teachers in the local schools.

Mr. Fjelsted said that he is in urgent need of accommodations for four married faculty members for next year who will not be available unless living quarters are found for them. Included are a band instructor, science teacher, boys' physical training instructor and Bernard Broderick, now serving as industrial arts teacher and hockey coach.

The program Monday evening included a discussion of health problems of the pre-school child by Mrs. Edna Hillson, school nurse, accompanied by the showing of motion pictures. The Woman's club chorus also rendered a group of selections.

County Group Will Take Physical Examinations

A group of Pennington county selective service registrants will go to Fort Snelling next Thursday, March 14, to undergo pre-induction physical examinations, Arthur Berg, chief clerk of the local board, stated today. He also announced that three local young men had been accepted for service with the U. S. armed services, including Charles Peterson, Goodridge, Orlando Solberg, army, and Roy Gunderson, Okiee, navy.

March Meeting of NAA Chapter Is Canceled

March meeting of the Thief River Falls chapter of the National Aeronautics association scheduled for next Monday evening has been canceled, Paul A. Lundgren, president, stated today, explaining that the action was taken due to the absence of numerous members who will be in attendance at the aeronautics show in Minneapolis.

DISTRICT CAGE TOURNEY OPENS HERE TONIGHT

Prowlers Entered in Two-day Event in the Lincoln Gymnasium

The local high school gymnasium will be the scene of the 21st district's Class A basketball tournament tonight and Friday. This evening at 7:45 p. m. the Crookston champion East Grand Forks team and at 9:00 p. m. Thief River Falls will meet Red Lake Falls.

On Friday night, in a preliminary game, the losers of Thursday night's games will play for the consolation honors; and at 9:00 p. m. the district Class A finals will be played, with the winner earning a place in the eighth regional tournament, which will be held here next week.

Last week, in a class B tournament held at East Grand Forks, the Fisher team, with big Arthur Wagner doing the bulk of the scoring, defeated the Warren Ponies in the final game and will be a representative in the regional tourney.

On the pre-tournament record, this week's Class A tournament should find the Crookston Pirates and Thief River Falls Prowlers winning their way into the finals, and that contest, for the district championship, is a toss-up. In the games played between the Pirates and the Prowlers this season, each team has scored a victory, and by one point. In a game at Crookston the Pirates won by a 27 to 26 score, and in the return game played here, the locals were victors, 22 to 21.

The defending champion East Grand Forks team may cause the Pirates some trouble in the opener but Coach Plom's squad should win and the Prowlers, playing Red Lake Falls, in the other semi-finals game, should win easily over the young and inexperienced Eagles.

Norwegian Movie Film at Falls March 13 and 14

A film novelty in the form of the recent Norwegian motion picture, "Ojest Norway," will be presented at the Falls theatre next Wednesday and Thursday, March 13 and 14. Telling the romantic story of Norway's folklore hero, the 19th century Robin Hood, the picture's dialogue is in Norwegian, with complete screen titles in English. Beautiful scenic films also will be presented.

GI INSURANCE IS TOPIC WEDNESDAY

Veterans Asked to Meet in C. C. Rooms at 7:30

All veterans and persons interested in the welfare of the veteran are invited to attend a meeting to be held Wednesday, March 13, at 7:30 in the Civic and Commerce room in the Auditorium.

National service life insurance will be the main topic of discussion by those attending with have the privilege of asking questions pertinent to the subject.

This meeting will be under the direction of Paul T. Gray, the veterans Administration contact representative in this area. Mr. Gray is confident that those who attend this meeting will have a better understanding of the benefits afforded veterans under national service life insurance.

COUNCIL TOLD OF BRIDGE AND AIRPORT NEEDS

Delegations Appear at Session Last Friday; Buy Snow Removal Outfit

The city council at a lengthy adjourned session Friday evening conferred with delegations regarding the proposed new First st. bridge and improvements to the municipal airport site, and also accepted the bid of Wm. H. Ziegler company of Minneapolis on snow removal equipment.

The equipment, which is promised for delivery within thirty days and calls for the expenditure of $4,343.76, includes a Minneapolis-Moline industrial type tractor with Lull loading equipment. It is similar to the equipment recently demonstrated in the city.

Appearing in behalf of the Civic and Commerce association road committee, W. E. Dahlquist, Bill LaFave and F. A. Rinkel stated that they had been advised that the state highway department is prepared to proceed with arrangements made for construction of the new First st. bridge, and that there is danger that promised federal aid in the amount of fifty per cent of the cost of construction, may be withdrawn if the project is too long delayed.

The delegation said they were making an appointment with M. J. Hoffman, state highway commissioner, in St. Paul late this week to confer on the bridge and other problems relating to this area, and the council indicated that two of its members would be sent to St. Paul the company with the Civic and Commerce representatives.

Phone Service Normal in Thief River Falls in Spite of Strike Threat

A. J. Rau, manager of the Thief River Falls exchange of the N. W. Bell Telephone system, stated that he had received word that the strike of long distance line operators, scheduled to go into effect at 6 o'clock this morning, had been settled a few minutes before the deadline. He added that, as far as can be foreseen, there will be no interruption in service in this city.

Two Meetings Held Here on Soil Conservation

Two meetings were held during Monday and Tuesday of this week during which the organization of a soil conservation district was discussed by M. A. Thorfinnson, secretary of the state conservation service committee.

These meetings were held for the purpose of acquainting farmers with the provisions of the program, according to County Agent Ernest Palmer.

During his discussin Mr. Thorfinson stated that 36 such districts have already been organized in Wilkin, Clay, Ottertail, Norman and Polk Counties. Farmers are getting help through these with wind erosion control and drainage.

"A soil conservation district is a governmental subdivision organized under state law, supported by some state funds and governed by five supervisors who must be farmers or farm owners. It can be organized only on petition by farmers and requires the approval in writing of a majority of all the land owners as well as a majority vote of tenants and landowners at a special referendum conducted later. It may include only a few townships or the entire county. If started by only a part of the county additional townships may be added from time to time until the whole county is in the district.

The district supervisors can obtain help from any agency of the state government or the federal government that is authorized to assist with such problems. At present 27 districts in Minnesota are getting help from the soil Conservation service and six are getting help from the state conservation department. The main help is that of farm planners and engineers and the loan of some heavy machinery and equipment. No charge is made by government agencies for this help.

"Such a district in Pennington could:

1. Assist in control of wind erosion on sandy land.
2. Help work for farmers who wish to cooperate in a crop rotation and farming program that will maintain fertility and maintain the organic matter in the soil.
3. Provide a detailed soil survey and furnish a soils map to each farmer.
4. Make preliminary surveys of proposed drainage ditches (either

LOCAL MAN IS HIT BY TRAIN, FATALLY HURT

Roman Paulson Killed When Hit by G. N. Train Here Tuesday Evening

Roman Paulson, 48, long-time resident of this community, was instantly killed Tuesday night at 9:45 when struck by a southbound Great Northern freight train while he was walking on the tracks south of the Sixth st. crossing while apparently on his way to his home near the west city limits.

His mangled body, which was dragged approximately 300 feet was found Wednesday morning at 7:20 by Herman Axelson, living nearby, at the Fourth st. railroad crossing.

According to Sheriff Arthur Rambeck, who conducted an investigation the freight train was pushing in front of the engine a freight car which had been picked up at the junction north of the city.

It also was learned that Paulson had recently mentioned his being subject to fainting spells since an automobile accident this winter in which he had sustained injuries. Sheriff Rambeck stated that an inquest is scheduled to be conducted today.

Funeral rites had not been arranged this morning. The surviving family includes Mrs. Paulson, three sons, Roman, jr. in the marine corps, George, navy; and Alan, army; and two daughters, Marian, at home, and Matilda of Crookston, in addition to a brother Neal, also of this city. A complete obituary will be published in the next issue of the Times.

GOLF CLUB ANNUAL MEETING MARCH 11

To Elect Officers Next Monday in Rex Cafe

The annual meeting and election of officers of the Thief River Golf club will be conducted in the Terrace room of the Rex Cafe next Monday evening, March 11, at 8 o'clock, Lloyd Benner, president, stated today, adding that attendance will be restricted to shareholders in the organization.

In addition to selecting officers and directors to serve during the coming year, members will be asked to ratify formally the purchase of the Emil Griebstein farm adjoining the golf course, negotiations for which were completed last fall.

Other matters also will be discussed, including changes in the articles of incorporation and by-laws and the fixing of membership terms for the current year.

The Smiley 4-H club will meet Friday evening, March 8, at the Rudolph Hanson home. Bruce McCrum and Jerry Nelson comprise the program committee, while Jeanette Selstad and Duane Hanson are on the recreation committee.

WATER CARNIVAL SCHEDULED TO BE HELD JULY 3, 4TH

Junior Chamber Making Plans for Elaborate Program of Events

At a meeting of the Junior Chamber of Commerce last Thursday evening in the Palm Garden Cafe, the annual water carnival sponsored by the organization was definitely scheduled for Wednesday and Thursday, July 3 and 4.

Dr. Milton D. Starekow, Jaycee president, announced that the event will be held two days this year instead of one as in the past, owing to the fact that the 1946 program has been greatly enlarged. He added that the complete list of committee heads to handle the various details will be made public following the chamber's annual election in May.

Among the events already included in the program are a contest to select a carnival queen, swimming and boat races, canoe derby, diving exhibition, horseshoe tournament, golf, diamond-ball and archery.

PIONEER FARMERS UNION LOCAL TO MEET FRIDAY

The Pioneer Farmers' Union local will hold its monthly meeting on Friday evening, March 8th at the Dimmen school house.

JURY TERM IS PUT OFF TO APRIL 1ST

Two of Four Actions Settled out of Court

With two jury cases settled out of court, and with only one of the two remaining cases ready for trial, Judge Oscar R. Knutson in district court Monday dismissed the petit jury panel until Monday, April 1, when the jurors again will assemble.

Settled out of court were the actions of Adolphson and Huseth vs. J. J. Nagel and of J. J. Nagel vs. Adolphson & Huseth et al.

Cases to be heard by the jury when it reconvenes are those of Underwriters at Lloyds of Minneapolis vs. C. E. Snyder, and the criminal case of the State of Minnesota vs. Ralph Cheney.

Conservancy District Board Picks Permanent Officers Here Saturday

The Red Lake River Drainage and Conservancy District board, which will represent the area in the execution of the proposed river channel improvement project, held its organization meeting in this city Saturday.

Ole O. Melby of Oklee, who had served as temporary president of the board, was given permanent rank, while Wm. J. Kirkwood of Crookston was named vice president. L. W. Rullen, local attorney, was engaged as secretary, and Robert J. Lund as treasurer.

The board designated Mr. Kirkwood and Mr Rullen to confer with in the next two weeks with U. S. army engineers in St. Paul relative to details of the project. Also attending the conference will be Paul A. Lundgren, representing the Red Lake River Development association.

The president and secretary were instructed to prepare a preliminary expense budget to be presented at the next meeting of the board, following which it will be submitted to district court for approval.

Regular meetings of the board will be held in the office of Mr. Lund.

CITY HEALTH OFFICER SAYS WATER SUPPLY UNSAFE FOR DRINKING

Dr. O. F. Melby, city health officer, is publishing in the Times today an official notice calling attention to the fact that the city water supply at present is unsafe for drinking owing to flood waters coming down the river at an unseasonably early date. The water this week has been highly unpalatable, and Dr. Melby warned that until further notice it should be boiled before attempting to drink it.

SCHOOL TEACHERS GET SUBSTANTIAL INCREASE IN PAY

School Board Takes Action Last Night; Will Cost $12,440

After a study of salary schedules in other school systems of comparable size, the Thief River Falls board of education at a special session Wednesday night voted a substantial salary increase to all present faculty members.

The grade teachers now on the staff were granted increases in annual pay from the present minimum figure of $1,440 to $1,650. While the present high school teachers were raised from a minimum of $1,750 now in effect to $1,950 for next year.

Additional upward adjustments also were made in individual cases, according to Supt. Philip L. Fjelsted, who added that the cost of the increases to the school district would aggregate $12,440 per year.

GORDON OLSON IS D-F-L CLUB HEAD

State Chairman Speaks at Meeting Tuesday

Gordon Olson was elected chairman, Carl R. Anderson vice chairman, and O. F. Halldin secretary-treasurer at a meeting held in the Palm Garden Cafe basement, Tuesday night when a club affiliated with the state democratic-Farmer-Labor association was organized.

Chas. D. Egley new state chairman of the association was the principal speaker. He contended that the common people of America face the most critical period in their long history; that all of the old problems, to wit: Another depression and another war, still confront us, and that now in addition we have a brand new problem that is the prevention of an American brand of Fascism as deadly as any other kind.

"We were caught as unprepared for peace as we were unprepared for war," said Egely. "Fascism is usually born in and grows out of depressions. It was in such periods that it came to Germany, Italy, Spain, etc. Nothing has been done in our nation, either politically or economically, of sufficient import to prevent another depression, and it is unlikely that this nation can go through another depression without succumbing to Fascism."

GIRL SCOUTS PLAN POT-LUCK SUPPER

To Note Anniversary Next Tuesday Evening

In commemoration of the birthday of Girl Scouting in the United States, a pot-luck supper will take place on Tuesday, March 12, at 6:45 P. M. at Trinity church. Girl scouts will be hostesses to their mothers.

The Brownie Scouts will be in charge of decorations, the intermediate scouts of the dining room and kitchen and the senior scouts will be the reception committee. The program will be given by the scouts. There will be an address of welcome by an intermediate scout with a response by a mother, group singing, dramatization and musical numbers by various scout troops.

In the years since 1912, Girl Scouting has grown from 12 girls and two leaders to its present membership of more than a million. There are at the present time more than two hundred registered scouts at Thief River Falls, in the three program levels of scouting, Brownie, Intermediate and Senior.

Income Tax Office Open Thru Saturday, March 16

For the convenience of local citizens wishing to confer regarding 1946 federal income tax returns the internal revenue office in basement of the municipal Auditorium will be open each day from Saturday March 2, until Saturday March 16, it was announced today by Edward S. Anglim, deputy collector here. He stated that the office will be open Friday, March 15, until midnight. Taxpayers must file their returns on or before March 15.

L. O' L. DIST. 17 SESSION DRAWS BIG GATHERING

All Officers Retained; John Brandt Delivers Principal Address

Addressing a large audience Wednesday afternoon at the annual meeting of the Land O'Lakes Creameries in the municipal Auditorium, John Brandt, president of the organization, discussed the progress made during the past 25 years toward the achievement of its present annual volume of $75,000,000.

Mr. Brandt also presented details of the national picture, and cited the current black market operations in butter, which he said are due to the federal subsidies in connection with farm products at a time when the consumer's buying power is at its peak.

At the business meeting all district officers were re-elected. They are: Art Steberg, president, Greenbush; F. S. Erdman, first vice president, Red Lake Falls; M. B. Magnuson, second vice president Roseau; Elmer H. Lee, secretary, Fosston; Edward D. Rydeen, treasurer, Clearbrook.

Four creamery operators were presented with awards in the district's annual efficiency contest, based on quality butter production for the entire year. Martin Ellingson of Grygla received a $25 Victory bond as first prize, for an average efficiency of 99.57.

Hjalmer Martin of Newfolden received a $15 cash prize for second; Clifford Skima of Wannaska received $10 for third and Oscar Edsen of Clearbrook was awarded $5 for fourth. Only nine-hundredths of a percent separated the first and fourth place winners. John Tagen, district fieldman, made the presentations.

The opening session included the presentation of the field man's report by John Leger, covering operations of the 26 member creameries in District 17; and a report on 1945 operations of the Thief River Falls Land O'Lakes plant, submitted by Stuart McLeod, manager.

During the noon hour lunch was served and music was povided by the Lincoln high school band directed by Miss Alma Klawitter.

SON OF GOODRIDGE WOMAN HELD DEAD

Mrs. V. C. McLeod Gets Word from Navy Dept.

Mrs. V. C. McLeod of Goodridge has received official confirmation from the Navy department of the death of her son Lt. (jg) Charles G. Glotzbach together with the following information.

Lt. Glotzbach was serving on board the USS Barbel on Feb. 18, 1945 when that submarine failed to return from patrol operations in the Pacific area. The Barbel departed from Fremantle, Australia to proceed via Lombock Strait to her patrol area in the South China Sea. On the evening of Feb 4th, 1945, the submarine USS Tirante and USS Blackfin were in radio communication with the Barbel in Balabac Strait.

They reported an attack by depth charges from enemy air-craft. On the 6th they reported that they were unable to contact the Barbel and that she had not kept a rendezvous, and all efforts to contact her by search and radio had failed.

Mrs. McLeod had three sons serving with the navy.

Minneapolis Wedding Unites Cpl. Vernon Belland, V. Hazelton

Mr. and Mrs. Joe Hazelton of Fosston announce the marriage of their daughter Vera Leone to Cpl. Vernon Belland, son of Mr. and Mrs. Tom Belland of Goodridge. The wedding took place Saturday afternoon, Feb. 23, at 3 o'clock at the home of Mr. and Mrs. Claude McKean in Minneapolis. Rev. Gunther read the single ring service in the presence of the immediate families, and attending the couple were Mr. and Mrs. Claude McKean, uncle and aunt of the bride.

For the occasion the bride chose a green tailored suit with black accessories and a corsage of gardenias and carnations, while her attendant had a light blue suit with black accessories and a corsage of carnations and sweetpeas.

A reception was held Saturday evening for 40 relatives and friends of the couple. Serving as part of the entertainment were piano numbers presented by Bernice Rhone and Robert McKean, cousins of the bride.

After the groom receives his discharge the newlyweds plan to spend two weeks with his parents at Goodridge and then will make their home on a farm at Fosston.

Double Marriage Is Solemnized at Dorothy Church Last Tuesday

At a double marriage ceremony performed in the Catholic church at Dorothy Tuesday morning, Feb. 26, at 9 o'clock, Miss Eva Starken, daughter of Mr. and Mrs. Henry Starken of Red Lake Falls, became the bride of Andrew Boutain, son of Mr. and Mrs. Eli Boutain of Dorothy, while Miss Starken's brother, Anthony Starken took as his bride Andrew Boutain's sister Elsie Boutain.

The ceremony preceded the mass said by Father Victor Cardin, and hymns were sung by the adult choir of Dorothy. Mrs. Mammie Wavra of Red Lake Falls and Dale Boutain of Dorothy served as attendants at the single ring ceremony, which was witnessed by only the immediate families of the couples.

Miss Starken chose for her wedding a white floor-length gown made with rayon jersey bodice and full skirt of net over slipcrantin. She wore long white gloves and had a fingertip veil with three rows of inserted lace and a queen's crown of white sequins. Her only ornament was a gold locket, gift of the groom. Miss Boutain's gown was of white taffeta designed with flared peplum and net over taffeta skirt. Her fingertip veil was caught with a Dutch-style crown of white sequins and she had the groom's gift, a gold locket with matching bracelet. She also, wore long white mitts. Both brides carried identical bouquets of red roses, tulips and white carnations and had white rosaries.

Mrs. Wavra, as matron of honor, was gowned in pink taffeta and had white gloves and a pink chapel veil held in place by a diara of apple blossoms. Her bouquet was composed of roses and carnations and she wore a locket, given to her by the two brides.

Mrs. Henry Starken, in a navy blue suit, and Mrs. Eli Boutain, in a black ensemble, had corsages of roses and carnations, while the fathers wore white boutonnieres.

Mr. and Mrs. Eli Boutain were hosts at a dinner for the immediate families at their home in Dorothy, and that evening at seven o'clock, Mr. and Mrs. Henry Starken entertained at a dinner at the Lincoln Hotel at Red Lake Falls. Out of town guests for the ceremony were Mrs. Jack Mount ford of Moorhead and Mrs. Harvey Egenes of Thief River Falls.

Mrs. Andrew Boutain has been employed at the Red Owl coffee bar in this city and now she and her husband will make their home on a farm at Dorothy. Mr. and Mrs. Anthony Starken will live on the groom's farm near St. Hilaire.

NEW ANGLE TO WARNING ABOUT GLASS HOUSES

Springfield— Sparrows may know that people who live in glass houses shouldn't throw stones, but they learn the hard way that birds who live in tall chimneys shouldn't peck out nests. A flock estimated at 1,000 sparrows made their cozy home within the 102-foot tile chimney of Ochs Brick & Tile plant here. Patiently through the years they pecked out footholds and recesses within this mighty flue, 13 feet in diameter. How thoroughly these wee workmen honeycombed the structure was not suspected until a recent strong wind toppled it 20 feet from the foundation, destroying a neighboring building. The sparrows aggravated the housing situation, for a blower will now be installed and they will have no skyscraper dwelling.

Peter M. Johnson, 67, Long Time Employee of Soo Line, Passes Away

Peter M. Johnson of Milton, known to many oldtimers of this city and employees of the Soo Line railway, passed away at a hospital in Bertha Sunday, Feb. 24, at the age of 67 years.

He served as station agent on the Soo Line for 35 years, serving at Adams, Ardock, Newfolden, Brooks and Milton, retiring Nov. 1, 1945. Surviving him are his wife, Ellen Johnson; a daughter, Mrs. Lorin Benning of Milton; a son Elton, now serving as assistant agent at Henning; a granddaughter and one grandson; a brother, Henry of Henning and Otto of Minneapolis; two sisters, Mrs. Ella Hugen of Lone Pine, Calif., and Mrs. Alfred Bredeson of this city. His parents, three sisters and one brother preceded him in death.

Short services were first conducted at Milton and then Rev. Franzetd conducted rites at Henning. Interment was made in the Trinity Lutheran Free cemetery in Henning.

LAUDABLE PRINCIPLE BUT NO INTEREST

Two Harbors—Two years ago a local railroad watchman lost his billfold containing $27 and valuable papers. Soon afterward the papers were returned. Late in February 1946 the $27 was anonymously returned. Without interest, though certainly there was praiseworthy principle.

U. Farm Expert to Talk on Farm Improvements

A meeting on water systems and sewage disposal on the farm will be held in the court rooms in the court house in Thief River Falls next Thursday afternoon, March 14, at 1:30 p. m., according to County Agent Ernest Palmer.

Conducting the meeting will be Denis M. Ryan, extension engineer from University Farm, St. Paul. During his talk, Mr. Ryan will discuss the type of pump which should be selected, the pipe system within the house, construction of the septic tanks and the layout of the sewage disposal system.

All farmers planning to install a pressure water system and a farm sewage disposal system are invited to attend this meeting.

Rites Held Saturday for Per Sjulson, 91

Per Sjulson, who passed away Monday, Feb. 25, at the home of his son in Cloverleaf Township, was buried following rites Saturday afternoon at the Erickson & Lund funeral home. Rev. E. F. Rabine officiated and interment was made in Greenwood cemetery.

Mr. Sjulson, who attained the age of 91, leaves to mourn one daughter, Mrs. Ella Swenson of Rice Lake, Wisc; a son Sivert of Cloverleaf twp; a sister, Martha Sjulson of Sweden; and nine grandchildren. His parents, one daughter, and ten sisters and brothers preceded him in death.

Following his marriage to Gunhild Olson in 1886, the deceased came from Sweden to Hallock in 1888 and in 1901 he homesteaded in McKinley twp., Kittson county, where he farmed until 1925. Since that time he has lived with his son and daughter-in-law, Mr. and Mrs. Sivert Sjulson, moving with them to Cloverleaf township in 1941. His marriage to Gunhild Olson took place in 1886 in Sweden.

Mrs. Andrew Williams and daughter Joyce returned Friday morning from a week's stay in the twin cities.

DELEGATIONS MEET WITH CITY COUNCIL LAST FRIDAY NIGHT

(Continued from page One)

Aeronautics association, was spokesman for an NAA delegation present to discuss steps necessary to qualify for a state grant of $18,500 available for development of the local airport on a matching basis.

It was appointed out that detailed specifications must be prepared before calling for bids on the installation of two runways proposed for completion at this time. The delegation also asked that steps be taken to set up an airport commission to relieve the council of detail work in connection with the operation of the airport.

In response to the request, the council authorized the appointment of an airport committee of two members, and Alfred Bredeson, council president, named Aldermen A. F. Berge and John Anderson to serve. The committee was instructed to arrange with City Engineer A. O. Stokke to make preliminary arrangements for a call for bids on the project, and to report back to the council.

Gordon Camp, flight instructor at the airport, reported that local men have placed orders for a half dozen more planes for delivery as soon as facilities are available. Camp also told of service rendered by him to the local rural electrification system following the recent blizzard when with highways blocked, his plane patrolled the lines and discovered several potential sources of trouble.

Testifying to interest shown by local boys in aviation, Ernest Barzen reported that approximately sixty boys age 16 and over had applied for membership in the Boy Scout air patrol now in process of organization here.

BEMIDJI COLLEGE SPRING TERM SET

Big Enrollment Seen in Term Opening Mar. 11

Eighty-five different courses are being offered at the Bemidji state teachers college for the spring term, which begins Monday, March 11. A wide variety of subjects, ranging from sheet metal work to child psychology, has been arranged to meet the needs of war veterans, regular students and special students.

With over 300 veterans already registered for the spring quarter and others arriving daily, the Bemidji college anticipates another decided increase in enrollment. College officials report that they are making every effort to help students get necessary courses and to provide housing facilities. The housing bureau at BSTC reports that to date every veteran, married or single has found a place to live.

It was also pointed out that, by attending the summer quarter, which begins June 10, students may accelerate their programs and graduate in shorter time. A student who attends summer quarters may thus complete his bachelor's degree in three years instead of four.

Veterans wishing to enroll for the spring quarter are urged to contact Dr. C. V. Hibbens, Veterans Adviser, before opening of the spring quarter.

Further information on courses or registration data may be obtained from the Registrar, State Teachers College, Bemidji, Minnesota.

Newspapers to Continue Traffic Safety Drive

Minnesota editors will take an active part in the efforts to stem the tide of traffic accidents, which has been rising rapidly since V-J day. Their efforts will be guided by the Minnesota Editorial Association's new Traffic Safety Committee, appointed by W. E. Dahlquist, president.

Members of the committee are Joy E. Putman, Granite Falls Tribune, chairman; Melvin Sherva Pertile Journal; Paul A. Anderson, International Falls Daily Journal; Henry B. Knipp, LeCenter Leader; and James B. Hall, Shakopee Argus-Tribuen.

This is the sixth consecutive year that a committee has been named to coordinate the accident prevention efforts of the Minnesota newspapers. Safety publicity sponsored by the Editors' Traffic Safety Council are also given generous space by newspapers throughout the state, has been frequently cited by A. V. Rohweder of Duluth, president of the Minnesota Safety Council, as an important factor in Minnesota's good traffic record. Minnesota in 1945 had a rate of 7.2 traffic fatalities per 100,000 of 600 miles of motor vehicle travel, compared to the 11.4 national average.

Trinity Church to Hold Lenten Rites Wednesday

With the season of Lent in full swing, Trinity Church observed Ash Wednesday with two services: one in the morning for school children which packed the sanctuary of the church, and the other in the evening, the first a series of Mid-Week Lenten services for which the pastor, Rev. G. S. Thompson has announced the theme: "Answering Cross-Questions".

The second of the current series of special Lenten services will be held next Wednesday evening when Walter Ekeren will furnish vocal music and the pastor will speak on the theme: "A Remembered Promise".

Let Rayon Dry

All rayon garments should be thoroughly dry before being worn. As has been said before, rayon is weaker when it is damp. Therefore, it will give quickly if worn when damp. Perhaps you have been conscious of the precaution found on most rayon hose: dry at least 48 hours before wearing. The same precaution applies to all rayon garments.

Political Action

The verb gerrymander, meaning to manipulate in order to gain unfair advantage, resulted from the rearrangement of a district of northeastern Massachusetts in 1812, which was pondered as a purely political action. Although Gov. Elbridge Gerry had no part in the change, the word resulted from his surname and the salamanderlike shape of the rearranged area.

Those who speak officially for our government are saying a lot of mean things about other governments. They don't like Franco's Spain and they don't like Peron's Argentina. Before they will love them as good neighbors these countries must do certain things, mainly get rid of Franco and Peron. It is not only these former friends of Hitler whom we are now supposed to hate. We are also supposed to dislike our former allies the Russians unless they presently become agreeable. Maybe this it is it should be. Maybe we should suddenly get tough with everybody and anybody who does not jump when we crack the whip. Maybe this is as it should be, but it isn't the way we figured it would be after the United Nations became organized. We assumed that then it wouldn't be necessary for any individual nation to get tough with any other individual nation but that differences between nations would be submitted to the United Nations organization to be acted upon by all of the nations as a group. It appears to us that our new "get tough" policy is hardly in keeping with the spirit of the international law and order society that we have helped to create.

The spring run-off started early this year and gave our city an unwanted supply of lind drinking water that should be boiled before it is used they tell us. The doctor's advice should be followed. The voters have already decided to take the advice of the engineers who recommend that our city water intake should be moved up the Red Lake river. The money has already been made available for this project and let's hope that by this time next spring we will have this smelly problem solved.

John Brandt, president of Land O'Lakes, packs more common sense into a one hour talk than could be gleaned from several weeks of the orratory that comes out of Washington. Mr. Brandt understands the fundamentals of the problems with which we are now confronted. His understanding is not based on theory alone but is the result of close personal contact with these problems on a large scale. And he isn't influenced by political considerations when he expresses his views. He is a national figure and one of the most able of the farm organization leaders speaking for agriculture in the country today.

There is going to be a lot of basketball talked and played in Thief River Falls for a couple of weeks. Tonight the district tournament gets under way here and next week a three-night show at the local gym will determine the regional winner. That will conclude the playing season hereabouts with only the state championship to be decided, and of course the state tournament will become the most important event in the world for the communities represented in it. By that time spring will be here officially and there will be other things for us to worry about.

Chester Bowles says that "irresponsible, reckless, greedy" lobbies are out to "eliminate or wreck the only controls between our people and inflation." Brother Bowles probably has done a good job personally in trying to hold the line against higher prices but if he wishes to find someone on whom to place the responsibility for the breaking of that line he doesn't have to go outside the official familiity right in Washington D. C. The government itself is responsible for whatever inflation we now have and for that which is still to come. While government stooges have been crying to the high heavens about the dangers before us if we did not do so and such, the government itself has inaugurated policies that have made holding the line impossible. The flood of money in which we now are drowning can be traced directly to reckless spending, insufficient taxation, subsidies and unwarranted wage increases. We have played politics and are still playing politics with borrowed money, unwilling even today to face our problems realistically. Mr. Bowles has a difficult assignment. The real villains in this tragedy are closely associated with him.

PUBLIC OPINION

Editor the Times:

We always read the editorial page in the Times and last weeks letter from business girls really got me. Stockings, nylons, and more nylons. Snap on news from any station and one hears some story about foolish women and nylons. Are nylons and rayons the best to wear in this 30 below weather in our northern Minnesota? Maybe I'm a bit old fashioned but wouldn't these girls bosses (and dates) have more respect for their putting a pair of warm cotton stockings on those shapely legs than a pair of Nylons in 30 below?

The doctors offices and hospitals are full these days with aching legs and backs (maybe not from wearing nylons or none at all), but most of the trouble women have today can be traced to legs that have been cold and blue from wearing silk stockings etc., in the winters we have.

Isn't it just too bad these girls who are in Thief River everyday can't catch up with a pair of stockings. Did they ever consider the farmers wife who gets to town once in a blue moon because of small children, roads and cold weather, who would like to get a few necessary things such as sheets, turkish towels, boys long underwear and flannel for the new baby.

Oh, yes we get to town and are told "sorry we had those items on Tuesday or Thursday or Friday or Monday. Must we run to town every day in order to get these things we so badly need? The business girls are doing a fine job it is true and thru a business girls phone call the first of Feb. I was able to get two pair of underwear for our boy who walks a mile a day to and from the bus line. We are a family of seven and how I'd welcome some new sheets and towels. I'm getting tired of wiping tiny faces on rough feed sack, yes and sleeping between them too.

I'd welcome a phone call not for a nylon line but a line for, sheets, towels, dress goods, quilt covering flannel something we really need.

Now I've had my say girls and think it over. Mend that run again and patch that heel and get your Nylons for warmer days (and news tells us that by July every woman will have 7 pair of nylons-Yipee) maybe the busy farmers wife can have a pair too. And in closing may I say for you in town who say we farmers have all our meat butter, etc. by gosh I'm thinking we earn it all by going with out.

Sincerely, Mrs. Gerald Stephens

Holes Instead of Buttons

When rough holes instead of buttons appear on a rayon dress after ironing, the damage may have been done by too hot iron or too much pressure on the fabric under the buttons, say textile specialists of the USDA. When pressing on the wrong side of the garment, use a very light touch over buttons. When pressing on the right side, approach buttons carefully with the point of the iron, or they may be pushed off, taking some of the fabric with them.

Hoover's Salary

Herbert Hoover accepted the President's salary but on July 15, 1932, he cut his salary 20 per cent, reducing his pay from $75,000 to $60,000. The Constitution of the United States provides that the President's salary shall "neither be increased nor diminished during the period for which he shall be elected." President Hoover had to effect the cut by voluntarily returning part of his pay to the treasury. The money was impounded in the treasury.

Topics of the Times

By N. A. H.

Prospective candidates aren't afraid of catching cold. They're all willing to expose themselves to a draft.

In case you have had any doubts, the U. S. department of agriculture tells us Pennington county definitely is a part of the Red River Valley.

Remember, folks—There's no ceiling on Red Cross donations.

It must be encouraging to Senator Shipstead to note what a time his opponents are having in finding a candidate to run against him.

There is nothing like a good snowstorm to put motorists on their feet.

A committee, according to a colleague's definition, is a group that keeps minutes and wastes hours.

It is not easy to believe that there are a lot of communists among labor leaders. You don't often hear of any strikes in Russia.

We don't envy James Borreson of this town, assistant housing director at the University of Minnesota, his job of finding living quarters for 4,000 more GI's expected to enroll for the spring quarter.

Some unkind person has revised the old adage to read, "To err is Truman."

Random thought—Wonder how the expression "well-heeled" originated.

Remember way back when the principal shortage was one of loose cash?

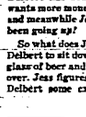
One trouble with Washington today, we read, is too much "Pauleytics".

So acute is the shortage of nurses these days that it is more than ever desirable to keep well.

March came in like a lamb, all right, but what folks are concerned about is how it is going to go out.

Looking Backward

1916—THIRTY YEARS AGO



By defeating Fosston, the Lincoln high school basketball team won the right to participate in the state tournament.—The board of education decided to submit to the voters the question of issuing $44,000 in bonds to finance the construction of a new grade school in the north section of the city.—First officers of the newly organized local livestock shipping association include: R. Conner, president; Hans Anton, vice president; Harry Woolson, secretary-treasurer; and R. L. Muzzy, manager.—Mr. and Mrs. Emil Grieksein were summoned to Hutchinson by the illness of a relative.

1926—TWENTY YEARS AGO

Peder Engelstad filed for the office of state senator from the 65th legislative district.—Olaf Nesset was appointed to the executive committee of the Minnesota Co-op Poultry and Egg Exchange.—The Lincoln high school Prowlers defeated Warren in the final round of the district basketball tournament.—Construction of the new bridge at Neptune has been delayed for several weeks owing to shortage of materials.

1936—TEN YEARS AGO

F. E. Tunberg was elected president and P. A. Rinzel secretary of the Pennington County Automobile Dealers association.—Mrs. T. Hegtvedt, living northwest of Goodridge, lost her life in a fire in her home.—Supt. Morris Bye returned from a schoolmen's meeting in St. Louis, Missouri.—John Brandt addressed the annual meeting of District 17, Land O'Lakes Creameries, in the city Auditorium.

From where I sit ... by Joe Marsh

Jess Turner's labor troubles

For four years Jess Turner ran his harness shop alone. But now his nephew's discharged from the Navy and is back to help him.

Right away, it seems that nephew Delbert has some new ideas. He wants more money, shorter hours—and meanwhile Jess' expenses have been going up!

So what does Jess do? He invites Delbert to sit down over a friendly glass of beer and talk the situation over. Jess figures how he can give Delbert some extra dollars, and certain interests in the business; and Delbert figures how he can speed up production on harnesses and do some saddle work, besides. And they seal the bargain with another friendly glass of beer.

Of course, all labor troubles aren't so simple. But from where I sit, if there could be more friendly discussion—more give and take—more tolerance and understanding—both sides would be a heap better off.

Card of Thanks

We wish in this manner to express our gratitude to all who assisted us at the time of the illness and death of our father, Niels Hansen, and especially Mrs. Selma Moe, and the Home for the Aged, where he had lived the past year.—Anker H. Hansen, Mrs. Esther Riley. 10p

Card of Thanks

Want to express my heartfelt thanks to the doctors, nurses, and nurses aides for their kind and splendid care given me while a patient at Mercy Hospital. To those who visited with me and sent cards, letters, and gifts to make my stay more pleasant. To Bethania Ladies Aid for the lovely plant. To Edgar Rokke who so kindly assisted us the Sunday I took sick. A hearty thank you. Gladys Westman. 10p

Card of Thanks

Mere words can not express our heartfelt appreciation to the many friends and relatives who gathered at the Lutheran church Sunday evening to honor us on our twenty-fifth wedding anniversary. We would like to take this opportunity to thank each and every one who showed us such friendly feeling for this occasion and their good wishes for our future. Especially would we like to thank Rev. Raaum, Rev. Ronholm, Rev. Myhrer, Mr. Sudin and the singers and organist for their part in the program and to the Ladies Aid for the delicious lunch they served after the program and to the sponsors of the occasion. May God bless you all for what you deserve for making this silver wedding so wonderful to us. Mr. and Mrs. P. J. Anderson. 10c

In Memoriam

In memory of our dear baby, Gordon Field who left us 2 years ago March 14.

You have left us dearest darling,
For your home beyond the skies,
God thought best to cease your suffering,
So he called you home on high.
We have missed you dearest darling,
Everyday has seemed so long;
But when we think of how you suffered,
We have breathed a prayer and song.
With the Angles you are happy,
And in the joys that never end,
You have reached your home in Heaven,
And we know your happy there.
We can't wish you back dear darling,
To the earth with woe and care.
We are thankful to you dear darling,
For you've taught us how to live
And by trusting in your Jesus,
A home in Heaven he will give.

Sadly missed by parents, Mr. and Mrs. Melvin Field and sisters Irene, Marlys and Beverly. 10p

BOWLING TOURNEY SERIES PLANNED FOR THIS MONTH

Red Cross to Benefit from Event on the Mint Alleys This Week-end

At a meeting of the directors of the City Bowling association Friday evening, arrangements were completed for a series of tournaments to be rolled on the Mint alleys during the next few weeks. On March 9 and 10 a city singles handicap tournament will be conducted, with the bowling association sponsoring the tourney for the benefit of the Red Cross.

A 190-pin scratch has been established, each bowler will be given the total difference between his average and the "scratch" mark.

The entry fee for the four games will be $1.50, and trophies will be awarded the 1st, 2nd, and 3rd place winners. Entries should be received by the committee not later than March 8th.

On March 18, 19, and 20, the city *singles - straightaway* bowling championship tourney will be rolled. The city champion will be decided on the total pins amassed in twelve games. The deadline for entering the tournament has been set at March 15th.

And on March 25, 26 27 28, the city five man team tournament will be on the schedule. The tourney, on a straightaway basis, will consist of each team bowing eight games across four alleys, with the city team championship being decided and awarded to the team with the highest total pin score for the eight games.

BIG GATHERING AT SPORTSMENS CLUB

Organization to Hold Membership Campaign

The March session of the Pennington County Sportsmen's club Tuesday evening in the Civic and Commerce rooms attracted an attendance of approximately 175. Carl Kretschmar, recently elected president, presided over the program.

The principal feature was the presentation by the army recruiting service of motion pictures depicting the Battle of the Bulge in Europe and phases of the campaign on Okinawa. Sgt. Robert Rosenthal of St. Hilaire, who had been a prisoner of the Japanese for 41 months, also spoke briefly.

In the business session it was decided to stage a membership campaign during March, with Secretary Wm. H. Borchert as chairman. The objective is to increase materially last year's membership of 140.

STEPHEN DEFEATS ARGYLE QUINT IN PLAYOFF TUESDAY

Play off Protested Subdistrict Contest in Lincoln High Gym

In a playoff of a protested subdistrict game, Stephen defeated Argyle, 44 to 19, here Tuesday night. Last Friday night at Stephen, in the finals of a sub-district tournament, Stephen, by a 31 to 30, was declared the winner; but Argyle protested the decision, claiming that an Argyle player had scored a field goal just as the game ended, and that the score should have been 32 to 31 in favor of Argyle. The tournament committee decided that a playoff game would be the most satisfactory way of settling the argument, and the local court was chosen as the neutral floor.

Argyle made its game during the first period Tuesday night, trailing by 2 points, 9 to 7; but in the second period, John Rusling, Stephen's towering center, began to score on rebound plays and pivot shots, and when the teams trotted off the floor at the intermission, the purple-clad Stephen team held a commanding 23 to 8 lead.

Rusling continued his dead-eye basket shooting in the second half, adding six field goals and a free throw to his first half total of seven field goals, to mark up a high score of 27 points. "Gus" Liljgren, with 7 points, scoring two field goals and three free throws, was the high point man for the Argyle team.

As a result of the win, Stephen will meet Badger in a first round game in the 32nd district tournament at Roseau this week-end.

Co-op Radio Speaking Event Here Friday Won by Greenbush Students

Two Greenbush high school seniors were winners in a radio speaking contest held Friday at Thief River Falls in connection with the annual district meeting of cooperatives affiliated with Midland cooperative wholesale of Minneapolis.

They are: Elaine Williamson and Arnold Johnson; and the subject was "Cooperation, the American Way of Life". The winner was to receive a free trip to Minneapolis to appear at Midland's annual meeting the last week in March. However, in selecting a first place winner the votes of the forty cooperative representatives present were evenly divided so it was decided to give both a trip to Minneapolis.

Winners in ten other Midland districts in Minnesota and Wisconsin will also be there and will broadcast with Axelgand the Co-op Shoppers on their daily radio program each day of the meeting, in addition to participation in other activities.

Hold on to Ration Book No. 4, OPA Office Warns

Even if your last sugar stamp is used, hold on to war ration book 4, advises Charles L. Hughes, head of the rationing section of the district OPA in Fargo.

"Late information from the national office indicates that other stamps in the book, although not specifically labeled for sugar purchases, will be designated as sugar stamps from time to time." Hughes said.

The currently valid stamp is No. 39; stamp 40 was used for the 1944 home canning program.

In a semi-final match June Byers, 165 lbs., will be matched with Nell Stewart, 140 lbs. Other contests have not as yet been definitely arranged.

LIONS CLUB HEARS TALK BY J. BRANDT

Land O'Lakes Chief Is Guest at Luncheon

John Brandt, president of Land O'Lakes Creameries in Minneapolis who was in the city for the annual meeting of L. O'L. District 17, was the guest speaker Wednesday noon at the Lions club luncheon meeting.

Introduced by Stuart McLeod, manager of the local Land O'Lakes plant, Mr. Brandt praised this locality for its leadership in the direction of improving poultry raising standards.

Citing the unwillingness of young men returning from military service to resume their places on the nation's farms, Mr. Brandt declared that their attitude is due in large measure to the present unfavorable position of agriculture compared to that of industry.

District Tournament

The prospects are bright that the Prowlers, tonight and tomorrow night, will regain the district basketball championship that they relinquished in 1942, when they lost a 32 to 31 overtime decision to East Grand Forks in the finals of the tourney held at Crookston. In 1943 the Prowlers were beaten by Climax, 21 to 39, in the finals; in 1944 the locals were eliminated by Crookston, 31 to 32, in the semi-finals; and last year, East Grand Forks defeated the Prowlers, 42 to 23, in the finals. On the season's record against Class A competition, the locals, with five wins and one loss, have been established as a slight favorite in the tourney getting under way here this evening, and if the boys play up to their capabilities the Prowlers will perhaps have another trophy to add to their collection.

Crookston Is Threat

The strongest threat to the Prowlers ambitions of winning the district title is expected to come from the Crookston Pirates the team that has always been a "jinx" for the locals during tournament time. During the season's competition, the Pirates were the only team to score a district win over the local, edging out the Prowlers by a point in game at Crookston; but in a return game played here a couple of weeks ago, the Prowlers reversed the score winning by a point. Crookston, with Andy Carey, Don Wheelhouse, Milo Hafterson, Duke Youngquist, and Manley Madson, will be troublesome.

The tournament will witness the wind-up of the careers of a number of the boys on the Prowler varsity, with such players as co-captains Ninak Carlson and Rog Tunberg, Kenny Borahelm, Johnny Powell, Brad Hanna, and Jerry Hedemark concluding their high school competition. The boys are anxious to prolong their basketball endeavors for the week or two by winning the district championship and moving into next week's regional tourney, as they have been bearing down all week. The Prowlers have had the benefit of a couple of rugged practice sessions with a team of high school alumni and while they lost—the alumni had such players as Rube Mickelson, Wally Tunberg, Pete Michalsky, Herb Claffy, Chuck Richards, and Clarence Haug in the lineup—the games did sharpen the locals defensive and ocensive play.

Hockey Reconversion Completed

The Thieves completed their reconversion to senior hockey on a cheerful note Sunday when they trounced the Hallock sextet, 7 to 2, on slow ice at Hallock. It ended what has proved to be a successful season, and prepared the foundation for next year's play, when a senior hockey league is expected to be in operation. Hallock, Crookston, Roseau, Thief River Falls, Grafton, and Williams have signified their intentions of entering a senior hockey league next year.

Bill Gray, who deserves much of the credit for the organization of the team here this year, has already made plans for next season. In fact, Bill has placed an order for new suits, and he claims that next season's club will be one of the flashiest dressed clubs in the league.

In Sunday's easy win over Hallock—the Thieves skated to a 6 to 0 lead in the first period—the locals had the assistance of "Mouse" Efteland, the former Hornet player. The stocky "Mouse", who was a stand-out star when the Hornets defeated Eveleth high school several years ago, had just received his army discharge. "Mouse" still has the ability to streak down the side-boards and drive in on the goalie, but Sunday he wasn't able to make very many ice-length rushes because of "wind" trouble

And so it's thanks to Bill, Connie, Gus, Pug, Don, Luke, Lloyd, Kenny, Bob, and Ray for the entertaining senior hockey that they gave us this winter.

They're Comers

It appears that the Prowlers are due for a couple of lean years in hockey, what with Roseau, Warroad, and Williams having veteran teams on the ice. But there will come a time when the locals will be up there again, and that will occur when the youngsters in the grades have graduated to the varsity. On Monday afternoon we had a look at the Washington vs. Northrop game, which was won by Washington, 3 to 2, and there were several youngsters on the ice that had all the actions of top-flight hockey players Washington's Jackie Erickson, who scored all of the goals for the winners, and Northrop's Allan Steenerson, who tallied the two goals for the losers, were the stars, with Northrop's young Jorde, at center, being all right, too. They'll be letter-winners some time.

Hospital Movie Will be Shown at Falls Tonight

The Falls theater this evening will show a ten-minute film, "Every Two Seconds", which takes its title from the fact that every two seconds someone somewhere in America goes to the hospital to seek release from pain and to regain health. The film was produced by the Associated Filmakers, Inc., of New York City and has been brought to this community through the efforts of the Minnesota Blue Cross Plan, which is the non-profit, group hospitalization plan operating in this state.

CO-OP ELEVATORS OPPOSE TAX GROUP

Deplores Propaganda Against Cooperatives

Minnesota farmers and operators of country elevators are opposed to the efforts of the National Tax Equality association, and similar groups, to antagonize businessmen and the public against farmers' cooperatives.

This opposition was voiced in a resolution adopted at the thirty-ninth annual meeting of the Farmers Elevator Association of Minnesota in February 20, at the Nicollet Hotel, in Minneapolis.

The resolution followed a debate between R. Wayne Newton of Chicago manager of the National Association of Co-operatives, and Ben McCabe of Minneapolis a private grain merchant and president of the National Tax Equality Association.

The elevator association went on record as "deploring the false propaganda that nonprofit cooperatives evade income taxes simply because they have no corporate income," and declared that "it is a responsibility of members of this association to arouse their members and patrons to combat organized efforts to impose discriminatory tax burdens on cooperatives under the guise of taxing patronage refunds as corporate income".

It also called for defeat of any move for change in the existing tax status of farmers' cooperatives.

As spokesman for the National Tax Equality Association, McCabe read a 45-minute prepared statement. He denied that the NTEA was out to destroy cooperatives.

Electrical Industries Plan Minneapolis Show

New industrial and home equipment developed by the electrical industry during the war will be displayed to the trade at the Radisson hotel in Minneapolis on March 11-13, when twelve electrical associations hold their first post war convention under the sponsorship of North Central Electrical Industries. Sixty manufacturers will participate in the show and exhibits will range from new home laundry appliances to the latest in flourescent and cold cathode lighting equipment. Approximately 2,000 electrical contractors, dealers, utility men, wholesalers and manufacturers from the North Central area are expected for the three-day program.

TRAINING IN PANAMA . . . New York Yanks start their grind to prepare for the coming season in sunny Panama. This is the first time that a big league team has trained in Central America. Phil Rizzuto is shown as he swimmers his club. The McCarthy men are being treated like visiting potentates in the Canal Zone, as evidenced by the remarkable receptions. Other teams have scattered to the four winds for their training period.

MARCH RANKS HIGH IN U. S. HISTORY

Four Presidents Have Birthdays This Month

The importance of March to teachers and parents intent on impressing children with the background of American history was stressed this week by Joseph Kise, Moorhead, department Americanism chairman of the American Legion. Americanism is one of the major American Legion programs on a national scale.

For instance, Kise said, the birthdays of four Presidents fall during the month—Andrew Jackson, March 15; James Madison, March 16; Grover Cleveland, March 18, and John Tyler on March 20.

In addition, the birthday of Alexander Graham Bell, inventor of the telephone, was March 3, while that of Luther Burbank, the noted horticulturist, is March 7, and that of Williams Jennings Bryan, all-ver tongued orator and statesman, March 19.

The month also marks the anniversaries of a number of important events in American affairs. The United States Constitution went into effect March 4, 1789, and March 5 was the anniversary of the Boston Massacre. The treaty that ended the Mexican War went into effect March 10, 1848 and the United States Military Academy at West Point was founded March 16, 1802.

The first treaty with Indians in this new land was signed March 21, 1621 and Washington was burned during the war with the British on March 24, 1812.

Varieties of Plums

About 1,500 varieties of plums have been described in horticultural literature in America.

State Legion Adds Many Veterans of Late War, Says Adjutant Zwiener

The fear that World War II veterans might be loath to associate themselves with the older service men's organizations has been dispelled by the experience of the American Legion in Minnesota.

During the past week, state Legion rolls were swelled by more than 2,000 members, almost 300 a World War II veterans. Total state membership now has increased to 62,232, C. A. "Chic" Zweiner, department adjutant said, some 27,000 more than last year this time.

At the same time membership in the Legion Auxiliary has climbed past 29,000, approximately 3,000 ahead of last year. Legion membership for the nation, Zwiener said, has passed the 2,250,000 mark, approximately 50 percent World War II.

ERIE

Weather rather on the cold order and our roads blocked here and there we have been more or less on the quiet this past month. However, our kindly mail carriers have endeavored to bring us our mail by making detours and short cuts. Harley Solberg has helped his uncle Ted getting mail to where no car could get thru making it by leaps and bounds on skis. Even if we don't get mail every day we should not complain. Let's remember our pioneers. What service did they get?

Mr. and Mrs. George Manderud visited a few days at his parents home, Gilbert Manderuds. George is still in the navy and has served in the South Pacific the past 2 years. He now enjoyed an extended furlough and was recently married to Evelyn Senum of Thief River Falls.

Miss Geneva Iverson student at Crookston N. S. W. A. spent the week-end with her home folks. Her room mate Anna Mae Eklund was with her.

Mrs. A. C. Horning and son Allen, Mrs. John Kjelgren and Mary, Jane and their sister-in-law, Mrs. Abe Omlid left Friday morning via bus from Thief River Falls for Canistota, So. Dak., where they all will receive medical aid.

Miss Theodora Loyland is visiting with her brother and sister-in-law, Mr. and Mrs. Alvin Loyland.

Carl Syverrud of Hibbing was a visitor at the G. A. Iverson home last Sunday. Other callers there were, Mr. and Mrs. Olaf Stolaas and Beulah of River Valley.

Millard Nile of Seattle, Wash. was here for a few days visit with his uncle S. O. Prestegard and cousin Eugene. Millard was a former resident here making his home with the Prestegards. He is recently released from the army. Having served in the Pacific areas.

We are very sorry to report that Mrs. Tellef Hovet is ill and a patient in a Thief River Falls hospital. We all join in wishing her a speedy recovery and return home.

The Dorcas Ladies Aid was entertained at the H. A. Dahlen home Wednesday of last week. A very large crowd attended even the people had to walk in from the main highway.

Services were conducted at Clover Nook Sunday by Rev. Bjorgan after the service the Dorcas Ladies aid served dinner. A large audience was present. The road to Eklund church is still blocked that being reason for having services at Clover Nook.

Mrs. Gilbert Manderud and Gilmer and Clifford visited last Thursday evening with Mr. and Mrs. Albert Manderud in Goodridge. Albert is another Benedict of the Manderud boys. Mr. and Mrs. Georey Manderud and Clarence Manderud were also there. The latter two boys had been home on furlough leaving that evening for navy stations, Clarence at Ottumwa, Iowa and George not so sure as yet where he will be located.

SEEK TO CONTROL POTATO DISEASE IN R. R. VALLEY

Northwest School Men Describe Symptoms of Ring Rot and Blight

A concerted program on the control and eradication of two serious diseases of the potato, ring rot and late blight, in the Red River Valley is being waged now by the county agricultural agents, state seed certification and agricultural extension division of St. Paul and the Northwest Experiment Station at Crookston.

The program of clean seed, good sanitation and correct spraying practices to control and eradicate ring rot and late blight, respectively, is being taken to the potato growers by A. G. Tolaas, chief of the division of potato seed certification, state department of agriculture; R. C. Rose, extension pathologist from University Farm, St. Paul; and the county agricultural agents.

O. C. Turnquist, horticulturist at the Northwest School and Station, Crookston, states, "All potato growers should learn the chief identification characteristics of our most serious disease of the potato. Ring rot, a bacterial disease of the stem and tuber, causes a wilted condition in the plants during the latter part of the growing season due to the fact that the water conducting vessels get clogged up with bacteria. In the potato tuber, a cheesy yellow rot develops which is often followed by a soft rot that destroys the potato in the field or in storage.

"Not all the infected potatoes will rot completely; the remaining potatoes in the field or bin can spread bacteria to healthy tubers nearby. Usually when a thin slice is cut from the stem end of an infected tuber, a yellow or brown discoloration can be seen in the growth ring. If such a tuber is squeezed, the outer layer may separate from the portion inside the growth ring or a bacterial ooze will be squeezed out of the ring. The disease is spread by direct contact. The bacterial ooze infects baskets, bags, bins, trucks, hands of cutters, planters and every object touched by contaminated seed.

"The four-point control program for ring rot set up by the potato specialists in Minnesota recommends (1) the selling out of all contaminated seed lots as table stock, (2) the cleaning up of all trucks and all potato machinery, (3) the introduction of clean certified seed, (4) keeping of seed clean by following a thorough and rigid sanitation program.

Federal Income Tax Quiz

By A. D. Reynolds, Collector

Q. What form is used for filing income tax returns A. Most wageearners can choose between filling out their withholding receipts or filling out Form 1040.

Q. Who can fill out a withholding receipts as an income tax return? A. This form of return is designed for taxpayers who get all or virtually all of their income from wages which income tax is withheld. Form 1040, instead of the receipt, must be used by anyone whose total income was $5000 or more; by anyone who had more than $100 in dividends, interest and wages not subject to withholding; and by anyone who had any income at all from other sources such as rents, annuities, sale of securities, profit from business and trust funds.

Q. Who can use Form 1040? A. Anyone.

Q. Where can I get these forms? A. You get your withholding receipt from your employer. You can get Form 1040 from any collector's office and most banks and postoffices.

Q. Some withholding receipts are different than others. Which can be used as a return? A. The form of withholding receipt was changed late last year to improve its wording and arrangement. However, both the old and new forms produce the same results and either one is officially acceptable.

Q. I understand there is a "short form" and a "long form." Where do I get them? A. Both names refer to Form 1040. This form is called a "short form" if the tax is determined from the table on Page 4. It is called a "long form" if the tax is figured from the computation schedule on Page 3.

WASHINGTON'S BIRTHDAY BRINGS OUT OLD NEWSPAPER

Cloquet—An arresting display in the window of The Pine Knot newspaper plant here on Washington's birthday, was a copy of the Ulster County, Connecticut, Gazette, printed in 1800 and recounting the death of General George Washington. Mrs. Clark Heritage is the proud owner of this rare journal.

TWELVE APOSTLES HOLD SPOTLIGHT FOR 12 HOURS.

New Prague—"Twelve Apostles" plant is highly descriptive of a rare flowering plant owned by Mrs. James Vlach. It has 12 leaves, bears a brilliant blossom once in 12 months, which wilts and drops off after about 12 hours. The delicate white and soft lavender flower recently displayed, resembles an iris or an orchid.

INCREASE POTATO YIELDS THIS YEAR

by using one of these combination insect and disease control programs

A SPRAY PROGRAM
Dithane plus DDT

Extensive tests conclusively show that this combination results in increased potato yields wherever a systematic program is carried out.

DITHANE, sprayed at least once a week, has proved itself extremely effective against both early and late blight.

DDT, in the form of Rohm & Haas D-50 WETTABLE POWDER, is highly stable and compatible with DITHANE . . . provides one of the best controls for flea beetles, leafhoppers and Colorado potato beetles. A liquid, 25% DDT EMULSION CONCENTRATE, is available if preferred.

A DUST PROGRAM
Yellow Cuprocide plus DDT

YELLOW CUPROCIDE is again available. Dusts based on this outstanding cuprous oxide fungicide are effective against both early and late blight when used on a regular weekly schedule.

YELLOW CUPROCIDE has the highest copper content of any active ingredient on the market. This fact plus its extremely small particle size and great sticking qualities assure longer lasting blight protection.

A combination dust containing DDT and YELLOW CUPROCIDE will control potato insects. Use dusts containing Rohm & Haas D-50 DUST, a finely divided DDT product.

Ton of Sawdust

When you look at a ton of sawdust, you are looking at over 1,100 pounds of wood sugar. You are looking, too, at about 600 pounds of a brownish, blackish substance called lignin, which experts say may have some of the mysteries of the "synthetic" which is at the foundation of our modern great chemical industries.

LET'S TAKE STOCK NOW

Everybody wants goods.

Manufacturers want to make them for you.

Yet months after the war's end, you still find it difficult to get many of the things you want and should have.

So, isn't this the time for all of us to take stock . . . to learn a lesson . . . to find out, if we can, what will cure the troubles we are having and prevent their recurrence?

Let's look ahead and agree on a program that will insure the full production everybody agrees is the real answer to most of our problems.

Suppose we begin by taking a good look at three roadblocks to prosperity...

STRIKES

Whatever their justice or injustice, strikes paralyze production, force people to use up their savings, and result in losses that can never be made up.

PRICE CEILINGS

Full production isn't possible when industry suffers losses because of rising costs and frozen prices. Price ceilings limit production — goods just don't get made.

GOVERNMENT SPENDING

Continued huge government spending means continued high taxes. High taxes discourage production, hinder the creation of jobs, and leave you less to spend.

ISN'T THIS THE WAY?

The people, through Congress, can remove these roadblocks in the long-range interests of all . . .

By establishing a labor policy that will treat labor and management exactly alike, and above all be fair to the public;

By removing the shackles of price control on manufactured goods;

By cutting down on government spending now and balancing the Federal budget by the 1947 fiscal year at a level of income and outgo that taxpayers can stand.

Do you believe this program is in the public interest?

Your Representatives in Congress are the only ones that can put it into effect. Tell them how you feel about it.

Post-War Farm Machines

Now Being Manufactured

New Conventional Tractor-Mounted Corn Picker

International Harvester includes among machines for postwar farming this new conventional two-row tractor-mounted-type corn picker. This machine, which mounts on the larger Farmall tractors, snaps and husks the ears and delivers them to the wagon at low cost. It weighs about half as much as similar machines previously built for the same work and can be mounted and removed from the tractor in less than half the time required by former mounted pickers. Now in preproduction, this picker is one of many new farm machines being built to simplify farm operations.

Chromium Plating

The commercial application of chromium plating is due to Dr. Colin Garfield Fink, metallurgist and research engineer, who converted laboratory experiments into commercial practice about 1922. He obtained U. S. Patent 1,581,188 on April 20, 1926. Dr. Fink points out that chromium plating had been attempted prior to 1922 but no one had discovered the reason why the plate could not be reproduced at will. His discovery was "the catalytic agent necessary to carry out chromium plating commercially." The first application of chromium plating to wrist watches was sometime in 1922-23, being one of many numerous applications of the process and not a specific application.

Two bus loads of basketball fans journied to Stephen on Thursday evening to attend the sub-district tournament. In the opening game Argyle won an easy victory over Kennedy by a score of 59-23. The second game between Stephen and Newfolden proved to be a hard fought battle with our boys leading by one or two points until the last few minutes when Swede Larson went out on fouls and Stephen won by a 32 to 30 score.

On Friday evening our second string men got a chance to try their skill and made a fine showing by wining the consolation game from Kennedy with a score of 32-25. The championship game was a thriller with Argyle holding a slight edge on Stephen through most of the game. With few seconds to go Stephen led 31-30 when an Argyle guard made a long shot for the basket and the whistle blew. The ball went through the loop and the crowd cheered Argyle but the timekeeper thought differently and would not chunt the basket. An argument ensued and the game was not counted but is being replayed in Thief River Falls.

Silver Wedding Anniversary

On Sunday evening relatives and friends filled Bethlehem Lutheran church to overflowing at a silver wedding party in honor of Mr. and Mrs. P. J. Anderson.

With Mr. A. O. Gudim as master of ceremonies, the program opened with a wedding march played by Miss Orlette Hjelle. Short, witty talks were given by Rev. C. P. Homholm, Rev. Rev. Myhrer and Rev. E. J. Raaum. A solo, I love You Truly, was sung by Mrs. Kore Myhrer. An appropriate duet was sung by Arjoine Anderson and Marion Sorenson. Other songs were rendered by the Ladies Group and the Girls Group. A reading was given by Mrs. Beatrice Mosbeck of Thief River Falls. Rev. Raaum presented the honored couple with a set of silverware and other gifts of silver, including a wagon with wheels made of silver dollars. This wagon, as Rev. Raaum explained was loaded with spare wheels in case of breakdown. Mr. and Mrs. Anderson accepted the gifts with words of thanks.

Following the program, lunch was served in the church parlors, for the occasion with streamers and a large wedding cake.

Out of town guests attending were: Mrs. Oliver Thompson and son Lloyd, Berdin and Wallace and Mr. and Mrs. Lyle Thompson, of Strathcona; Mrs. Lena Dicken, Mr. and Mrs. Charles Dicken and son Alvin, Mr. and Mrs. Clarence Dicken, Mr. and Mrs. Arthur Dicken, Mr. and Mrs. Halbert Evanstad, Mr. and Mrs. Kenneth Judy, Mrs. Thelma Steenerson, Mr. A. Peder J. Bakke Dies

Peder J. Bakke passed away at a hospital in Thief River Falls on Saturday evening, February 23, 1946 at the age of 88 years, 6 months and 9 days.

He had become bed-ridden for almost 2 years. He became suddenly worse so he was taken to the hospital where he died two days later.

He was born in Fodyang Ringbo Gulbransdalen, Norway on August 17, 1857. There he spent his childhood days.

In the year of 1883 he came to America and settled first in Alexandria, Minn. In 1884 he moved to Warren, Minn. The same year he filed on a homestead in Marsh Grove township, where he lived until his passing. On November 6, 1885 he was united in marriage to Agnetha Christianson, also from Norway. To this union 7 daughters and 2 sons were born, all living except one daughter, Pauline (Mrs. Carl Wikgren) who died in 1940.

He leaves to mourn his passing his beloved wife and 8 children namely: Ida and Mrs. Amanda Lewin, at home; Mrs. Clara Fredericks, of San Diego, Calif; (Mary) Mrs. Hans Nordlie, of Grand Forks, N. Dak.; Gilbert and Adolph of *Newfolden, Minn.; (Olga)* Mrs. Carl Johnson, of Thief River Falls, Minn.; (Minnie) Mrs. Aubrey Lopp of Richmond, Calif., and two brothers and 2 sisters, Andrew Bakke of Newfolden, Minn., Mrs. Ole Hilstad of Willmar, Minn. and Mathias and Pauline in Norway. Two sisters have preceded him in death. There are also 16 grandchildren and 4 great-grand children.

Funeral services were held from Bethlehem Lutheran church, Newfolden on Thursday, February 28 at 1:30 p. m. Rev. E. J. Raaum, assisted by Rev. Thv. Myhrer, officiated. Vocal solos were rendered by A. O. Gudim and Mrs. Kore Myhrer. The large attendance and many floral and memory wreaths showed the esteem in which the departed was held. Among those from out of town attending were: Mr. and Mrs. Alfred Bakke and Mr. and Mrs. Carl Johnson of Thief River Falls, Mrs. Fred Larson of Fargo, O. F. Hilstad of Leonard, Carl Bakke of Walker; Mr. and Mrs. Hans Nordlie, of Grand Forks, and Miss Doris Wikgren of Robbinsdale.

Harry Tollefsrud Honored

Last Monday night a group of friends decided that as Harry Tollefsrud's wife had just arrived from England, it would be a good time to charivari them. The idea sounded so good that they proceeded to carry it out in the usual noisy manner. The Tollefsruds were both surprised and pleased, and promised to give them all a lunch at the Folden Church on Sunday afternoon. Came Sunday afternoon the young couple were again surprised for instead of a few friends that they expected the church was filled with people bearing wedding gifts and good wishes. A short program of talks songs and music was enjoyed. A nice lunch was served and everyone went home with the wish that Mrs. Tollefsrud would feel welcome here and would learn to love her strange new home.

Mr. and Mrs. Bill Holmos and daughter, Sandra, of Thief River Falls, visited at the S. E. Finnestad home on Sunday.

Warped Discs

If your phonograph records are warped and slip on the turntable, distorting their tone, stick small pieces of adhesive tape on each face between the tile disc and sound grooves. The tape increases the friction just enough to keep each record and its mates from slipping

ARTHRITIS RHEUMATISM

Rico Tablets

ANOTHER ALBERTY PRODUCT

Do you suffer from ARTHRITIS or RHEUMATISM, two of the most painful ailments that afflict mankind?

These ailments arise from the same underlying cause—too much acidity that permits deposits of urates in joints or muscles that cause excruciating pain.

Science has spent many years searching for remedies for these ailments. If you have tried many of them without relief, RICO, a formula discovered by a famous physician for relief of the pains of ARTHRITIS and RHEUMATISM.

For over 16 years this formula has been used by many eminent Homeopathic Physicians.

RICO is harmless and does not upset the digestive tract or affect the heart.

There's going to be Less

Hamm's Beer

Recent governmental orders have forced us to reduce production in the brewery 30%. This is because we have been cut 30% in our use of grains. The grains we save are going to help feed war-torn countries in other parts of the world. With this policy of relief to stricken peoples we are in complete sympathy.

But it will Still be

Smooth and Mellow

With less grain, we're going to make less beer. That's because we are not going to make any compromise with the quality of Hamm's Preferred Stock Beer. It will still be the same smooth and mellow, refreshing brew you enjoy and prefer.

We hope for a bountiful harvest throughout the world, so that no one will want for food.

WHAT THEY MEAN BY "BATTING AROUND"

Ortonville—The recent blizzard caught up with a jewelry salesman a long way from anywhere. Leaving his stalled car about 5 p. m. he found a farm home, but could rouse no one, though he distinctly heard movements within. Finally he forced the door, and found himself a fellow refugee with a horde of bats. Ripping a sink and wallpaper from the walls, the wanderer built a fire and spent the night with his eerie companions.

THIS LITTLE PIG DIDN'T STAY HOME

Foxhome—Training his rifle on a big black bear in a snowdrift near here, Henry Eggen got to thinking it was a strange looking bear after all. Closer investigation brought the identification of a hog that had strayed more than a week before from a neighbor's farm. Aside from being a little on the lean side from his lengthy fast, the critter was unharmed.

Better Milk

Milk produced by cows on the first day after freshening contains four times as much vitamin A as average winter milk produced by a dairy herd. The colostrum also contains more minerals and more protein than normal milk.

AS AMERICAN as a Housewarming

It is a far cry from the log cabin of the early pioneer to the streamlined home of the modern American. But one tradition remains the same ::: the housewarming that celebrates its completion For the typical American puts a high value upon his home ::: and likes nothing better than to welcome guests within its walls.

American hospitality is often symbolized by these words ::: "Will you have a glass of beer?" ::: for a cool glass of foam-topped beer is a pleasant accent to mellow and familiar living.

To every American ::: banker, truck driver, farmer, mechanic, office worker ::: a glass of beer writes a pleasant period to any hard day's work. The right to enjoy this sociable drink of moderation and good sense is part of our American Heritage. It fits right in to the greatest pattern of living in the world ::: America.

Beer belongs... enjoy it

REGIONAL CAGE TOURNEY OPENS TODAY IN CITY

Eight Quints to Fight for Place in State Tournament Next Week

The defending champion Bemidji Lumberjacks, the eighth region's basketball champions, will attempt to make it four straight regional titles by winning the tournament getting underway here this afternoon.

In the games on the schedule this afternoon, Erskine, the 30th district's Class A winner, will meet Walker, the 29th district Class B winner, at 2:30 P. M. At 3:45 P. M., Roseau, the 32nd district Class A winner, will play Fisher, the 31st district Class B winner.

On the evening program, the Bemidji Lumberjacks, Class A winners in district 29, will meet Ada, the Class B entry from the 30th district; and in final game, the Clookston Pirates, the 31st district's Class A champions, will meet Badger, the 32nd district Class B representative.

On Friday evening, the winners of Thursday afternoon's games will meet in one semi-finals game at 7:45; while the winners of Thursday evening's game will face each other in the second game at 9:00 P. M.

The regional championship game will be played on Saturday night at 9:00 P. M., with a consolation game, between the losers of the Friday evening game, being played at 7:45 P. M.

Clarence Ornacht and Roy Domek, of Dilworth, and Moorhead, respectively, will referee the tournament games.

Coach Glenn Barnum's powerful Bemidji Lumberjacks, undefeated in district and regional competition, and was one of the stronger teams in the Central Night Conference, has been installed as the top-flight favorite to win the regional title again. The Jacks scoring attack has been spear-headed by Don Slevak, who scored 265 points during the season, and Bill Clark, who has tallied 164 points. Bemidji has a season's record of 19 wins and 2 losses, with four of those defeats being received in Central Eight games.

Roseau's fast-breaking team, and Bemidji's nifty club, are given even out-side chances of upsetting the Lumberjacks. Roseau, earlier in the year, dropped a 36 to 32 decision to Bemidji on the Bemidji floor. It is reported, though, that Ed Schwarz, Roseau's high scoring forward, suffered a fractured wrist in a tournament game last week and will not be able to play in the regional this week. His loss will handicap the Roseau offense considerably.

Tax Collections up to March 1 Show Increase

Current tax collections in Pennington county, including mainly personal property tax payments, aggregated $108,... $26.19 up to March 1, County Treasurer A. R. Johnsrud stated today, adding that the total for the corresponding period of 1945 was $82,008.17. Payments of delinquent taxes to March 1, 1946, amounted to $3,294.74, compared to $4,736.-19 in 1945.

Covering only the city of Thief River Falls, the first report on progress in the Pennington county Red Cross appeal, made today by Stanton R. Dahlen, treasurer, shows that residents of this city up to Wednesday afternoon had contributed a total of $1,468.01 against the city quota of $2,500.

The report covers mainly the solicitation made by women workers in the residence districts, only a few teams having died reports for the business area as well as for local organizations.

The rural Pennington county canvass to raise a quota of $1,475 has been held up to date by travel conditions, but Milton Larson, campaign chairman, together with Ernest Palmer and Mrs. Edwin Hanson, heading the drive in the rural areas, expressed the hope that the solicitation can be completed by the end of March.

350 GIRLS WITH MOTHERS ATTEND GIRL SCOUT EVENT

Daughters Hostesses at Anniversary Supper Held Tuesday Evening

The thirty-fourth birthday of Girl Scouting was appropriately observed by the Scouts of Thief River Falls when they were hostesses to their mothers at a pot-luck supper at Trinity church Tuesday. Approximately three hundred fifty daughters and mothers participated in the event. The tables were decorated with lighted greentapers, cut-outs of the scout insignia, and paper doll favors representing scouts.

Miss Ethel Bennett, leader of Troop 11, was in charge of the program and she led the group singing with Miss Mildred Thompson as piano accompanist. Gloria Bergland, member of Troop 9, in behalf of all scouts welcomed the mothers whose efforts and cooperation are essential in carrying on the Scout program, and especially for this particular event. Mrs. Rudolph Sagmoen responded in behalf of all scout mothers.

Members of Troop 24 under the direction of their leader, Mrs. Howard Gibson, demonstrated a group of fairy tales by shadowgrams. Three members of Troop 26, which is led by Mrs. Wm. King, displayed a friendship bag and told about its making and contents. Troop 11 presented a skit in pantomime with Miss Bennett as reader. Members of Troop 10, under the leadership of Miss Viola Bredeson and Miss Florence Norell, gave a folk dance, following which, a reading, "Sisters in Society", was given by Alice Lind, member of senior scout troop No. 32. Intermediate scouts and senior scouts presented Group songs suitable for their respective divisions and the program closed with group singing by all.

Mabey, county commissioner from the second district, have entered sheriff names as candidates for reelection. At the same time, Marius Waldal of this city, at one time serving as state representative from the 65th district, announces today he is filing for the office of state senator from this district. He formerly was a resident of the Plummer community.

BUILDING ON MAIN AV. N. IS DAMAGED BY BLAZE SUNDAY

Evening Fire Causes Extensive Damage to Mrs. Hasby Apartment

The apartment of Mrs. Karen Hasby upstairs over her beauty parlor at 217 Main av. N. was badly damaged Sunday night by fire of undetermined origin. The frame building was damaged to the extent of approximately $700, according to the estimate of Fire Chief Roy Langevin, while the furniture in the apartment was almost a total loss. The property was partially insured.

Damage from water also resulted to the beauty parlor on the first floor, and to the lunch room operated in the building by Ben Johnson. Prompt arrival of the fire department kept the flames from spreading to the adjoining buildings.

Firemen were called last Saturday to the Verner McMahon home a quarter-mile north of the roundhouse when a blaze originating from a faulty chimney burned off part of the roof, causing about $150 damage. With no hydrants in the vicinity, the two fire trucks ran relays carrying water to fight the blaze.

W. W. Wade, Soo Chief Here to Retire May 1; Bryant to be Successor

Concluding his career as a railroad man spanning a period of 51 years, including 42 years with the Soo Line, W. W. Wade, division superintendent of the Soo Line, here since November 1, 1937, announced this week that he will retire May 1.

Succeeded to succeed him is Philip Bryant, at present serving as superintendent of the Soo Line outside terminal at Scullier-Park near Chicago. Mr. Bryant is well known in this city, having started his railroad career here at the bottom of the ladder, later serving for a long period as train dispatcher here and other points on the Soo Line.

Mr. Wade first entered railroad work with the Great Northern railway in St. Paul in 1895 in the capacity of clerk in the general offices, later serving as passenger and freight brakeman. Then, after serving in various capacities with the Minneapolis & St. Louis railway, he joined the Soo Line in 1904 serving as freight brakeman at Enderlin.

Following a long series of promotions, Mr. Wade became superintendent of the Stevens Point, Wisconsin, division of the Soo Line in May 1, 1926, serving there until May 1, 1926, when he was appointed superintendent of the Fond du Lac division, leaving there in November, 1937, to become superintendent of the Winnipeg division with headquarters in Thief River Falls.

GROUP TALKS ROAD MATTERS WITH HOFFMAN

Commissioner States Federal Funds Ready for 1st st.) Bridge

A delegation of local officials and members of the road committee of the Civic & Commerce association last Friday conferred in St. Paul with M. J. Hoffman, commissioner of highways, relative to the proposed First st. bridge and other local projects.

Included in the group were A. P. Berge and Chris Engelstad, representing the city council; and Wm. LaFave, chairman; F. A. Rinkel and W. E. Dahlquist of the road committee.

Mr. Hoffman told the local men that federal funds are available to the extent of fifty percent for the new bridge, of which the total estimated cost is $108,000, in addition to $28,000 for the approach. Plans he stated, have been approved with minor exceptions by both the state highway department and the federal bureau of public roads.

Chairman LaFave reported the delegation was informed that the funds for rebuilding Highway 1 from Thief River Falls to Goodridge corner have been completed and that this project is expected to be ready for letting in the near future.

The council members were informed that when the city undertakes the resurfacing of the paving the state highway department will bear its share of the cost of work on the streets that are part of Highways 59 and 32. Also discussed was the proposed widening of Main av. north from Fourth st.

Pennington Residents Buy $39,730 in Savings Bonds Since January 1

Pennington county residents invested $39,730 in Series E, F and G United States Savings Bonds during January and February of 1946.

In announcing this figure, Milton H. Prince, director for Minnesota of the treasury department's savings bond division, pointed out that the sales total for the state was only 8 per cent under the figure for January and February of last year while the war was still on.

Continued operation of payroll savings plans as well as a wide popular acceptance of the Savings Bond as an excellent form of personal investment are considered responsible largely for the sustained volume of savings bond sales.

COUNCIL HOLDS LONG MEETING TUESDAY NIGHT

Call for Bids on New Bath House; Give First Reading to Zoning Plan

At a protracted March session Tuesday evening that continued until after 1 a. m., the city council disposed of a large grist of accumulated business. Principal actions included giving the proposed new zoning ordinance its first reading, calling for bids on the construction of a new bath house in Tiodolph park and the approval of several applications for building permits.

With no bids received on the bath house in response to a call for bids last fall, Roy Barsen, president of the park board, submitted revised plans for the structure, calling for the use of concrete blocks which would be finished in white stucco, with the estimated cost placed at not in excess of $5,000.

The building would include a recreation room, concessions room, and dressing and shower rooms, and would measure 80 feet in length and 28 feet wide. The project is being promoted by the Junior Chamber of Commerce.

The revised zoning ordinance, which was given its first reading after having been studied by aldermen at a special meeting last week, the business area as far north as Fifth st. from Knight av. to Atlantic av., and also provides for industrial and residential area zoning.

Largest building project approved at the session was a new garage to be erected by the Klewel Products company adjoining its present building on the south at an estimated cost of $7,000. Permits also were granted for a new residence to be constructed by Carl Larson on Merriam av. N. at an estimated cost of $4,500, and to Clarence Rasmussen for removing his residence at an estimated cost of $3,000 together with the erection of a garage.

Laid over for further study of the site was application by Stanley Ranum for construction of 3 dwellings on LaBree av. near Ninth st., two to cost $5,000 each and the third $6,000, and application of Elton Cummings and Aldn Jorde for a non-conforming permit to erect a store and apartment building on Atlantic av. near Eighth.

Engelstad and Tonder Nuptials Performed in Gatzke Church Sunday

Miss Yvonne Engelstad, daughter of Mr. and Mrs. C. E. Engelstad of Gatzke, was united in marriage to Alfed Tonder, son of Mr. and Mrs. Adolph Tonder of Gatzke at a double ring ceremony in Landstad Lutheran church on Sunday, March 10, at 2 p. m., Rev. J. Kromlokken officiating. The church was decorated with streamers, candles and a large altar bouquet of gladioli. The white path down the center aisle was fastened with ferns.

Miss Audrey Tonder of Gatzke, sister of the groom, and Miss Ann Loven of Gatzke were the bride's attendants, while Art Tonder, Gatzke, brother of the groom, and and Arnie Engelstad, Gatzke, uncle of the bride, attended the groom. Sharon Solheim of Thief River Falls was flower girl, and her brother John was ring-bearer. The bride was given in marriage by her father, C. E. Engelstad.

The bride chose for her wedding an organdy gown with gown with sweetheart neckline, full-length sleeves, and a train. Her finger-tip veil was fastened with a sweetheart Juliet cap trimmed with pearls. Her jewelry consisted of pearls the gift of the groom. The bride's bouquet was of white carnations.

Miss Tonder were a gown of white lace and net. Miss Loven, a former army nurse stationed in India, wore a dress made from an Indian sari, which is the chief garment of a Hindu woman. Both attendants carried colonial bouquets of roses and carnations with blue and pink streamers. Sharon Solheim wore a floor-length dress of white net over satin and carried a basket of sweet peas. John Solheim carried the rings on a white satin pillow.

Before the ceremony Mrs. Glenn Evans of Gatzke sang "Because". During the ceremony Pastor Kromlokken sang "The Lord's Prayer" by Malotte. Mrs. Larson, cousin of the groom, played Wagner's Bridal Chorus from Lohengrin as the processional and the bridal march by Mendelssohn as the recessional.

About 150 people were present at the church for the wedding at which Harold Aune and Glenn Larson served as ushers.

Mrs. Engelstad and Mrs. Tonder mothers of the bride and groom, both wore dresses of black crepe with black accessories. Their corsages were of roses and carnations.

Following the wedding a reception was given for the bride and groom by the bride's parents in the Gatzke Young People's Hall. The bridal table was set for 18, while the rest of the 200 guests were served buffet style. The three-tiered wedding cake, topped with a miniature bride and groom, decorated the bride's table. The hall was beautifully decorated with streamers and candles of white, aqua and yellow.

For travelling, the bride chose a fuchsia suit with black accessories. After a ten-day wedding trip to Minneapolis, the couple will make their home in Thief River Falls.

Mrs. Tonder, graduate of Middle River High school and Union Commercial Business college in Grand Forks, has been employed as stenographer in the office of Land O' Lakes Creameries, Inc., in Thief River Falls. Mr. Tonder, having recently received his discharge from the army, is now employed in the Wilson Bros. Garage in Thief River Falls.

WASHINGTON PTA MAKING PLANS FOR SPRING FESTIVAL

Mrs. Nilsson,, School Nurse, Is Speaker at

March Session Monday

At a meeting of the Washington P. T. A. held Monday afternoon at the school, plans were formulated for a spring festival, which will be held in April, the tentative date being set as the 26th. Bingo, food and candy sale, used toys and used clothing sale, bingo, and fish pond will be some of the features of the affair.

At the business meeting led by Mrs. Warren Ferber, president, it was announced that the grade school P. T. A. will help with the pre-school clinic to held early in May. A nominating committee for officers for the coming years are Mmes. George Erickson, Palmer Anderson, and Miss Viola Bredeson.

Mrs. John Stewart, program chairman, introduced Miss Viola Bredeson and her third grade students, Carolyn Gullingsrud and Neal Nelson, who entertained with a group of Dutch songs and a recitation. The skit was featured by "Wooden Shoes", a dance and song. Miss Mary Ethel Bennett accompanied the solos.

Mrs. Edna Nilsson, school nurse, showed the health film "when Bobby Goes to School". In her talk Mrs. Nilsson said, "As health educators, we believe each child should have a complete examination before he enters school; that each child be protected by immunization and vaccination against diphtheria and small pox. Prevention is a keynote to present physical fitness. The local school health program includes a thorough inspection of each pupil by the school nurse each year.

"It is suggested that the children have physical check-ups by the family physicians".

In closing, Mrs. Nilsson urged parents to keep ill children at home, especially when the child has symptoms of a cold. She stressed the fact that the school has the right to send home any child who appears to be ill.

Hostess committee for the meeting included fifth grade mothers, Mrs. Clifford Highnoham, Mrs. Lawrence Bjorkman, and Mrs. Ernest Johnson.

It was announced that the next meeting of the Washington P. T. A. will be held Monday, April 8.

CRIPPLED CHILD CLINIC APRIL 27

Scheduled to be Held in Thief River Falls

Nine district clinics have been scheduled for this spring by the Crippled Children services of the Minnesota division of social welfare, Janie Leirfallom, director, announced today. These clinics provide medical examination and recommendation for treatment for crippled children and young people under 21 years of age and vocational advice for those over 14.

One of the clinics will be held in Thief River Falls, April 27, serving Pennington, Marshall, Red Lake, Roseau and Kittson counties. Two orthopedic surgeons, a pediatrician, a vocational rehabilitation worker, public health nurse, physical therapists, medical social workers and public health nurses are included in the clinic staff.

These clinics a part of the crippled children services financed by the federal and state government. It is advised that those attending the clinics for the first time bring a referral slip from their family physician.

Control Blooming

Netherland settlers at Castle Hayne, N. C., accidentally discovered a method of controlling the blooming of the flowers which they raise commercially. Several years ago bulbs were put into cold storage, but the temperature accidentally was reduced lower than usual, and the chilled bulbs bloomed earlier that year. Blooming dates now are controlled by artificial temperature in bulb storage.

LT. COL. C. DAHLEN GETS BRONZE STAR

Honored for Work in Philippines in 1944

"For meritorious achievement in connection with military operations against the enemy at Hollandia, Dutch New Guinea and Leyte, Philippine Islands, from September 20 to October 30 1944", Lt. Col. Chester A. Dahlen received the bronze star award at a recent ceremony at Fort Benning, Ga. Presentation was made by Maj. Gen. John W. O'Daniel, commandant of the infantry school.

Colonel Dahlen, who is a son of Mrs. H. S. Dahlen of this city, is a member of the tactical section, academic department of the infantry school.

During the planning of the Leyte operation, Colonel Dahlen was largely responsible for the preparation of the regimental field order and supervision of the logistical calculations and planning for the assault landings, which resulted in an effective and rapid debarkation.

Summer Comfort

Clothing specialists of the USDA recommend considering coolness, as well as washability, before buying or making clothes for summer wear. Easy-fitting styles are coolest. Short, moderately wide sleeves are more comfortable in summer than three-quarter length or long sleeves. Collarless necklines are coolest. Fabrics slightly stiff, so they will stand away from the body, are much cooler than fabrics that cling.

Ironing Rayon

Many rayons can be ironed when completely dry — but some do better while slightly damp. The first time you iron a new garment, try the iron on both a damp and dry spot in an inconspicuous area to see which method is best. Spun rayons usually respond best when almost dry; crinkly finishes when slightly damp; crisp acetates when definitely damp.

Midsummer Pasture

Companion crops, such as oats and Sudan grass, are excellent sources of early and midsummer pasture, respectively, and these crops respond markedly to liberal fertilization.

COUNCIL HOLDS LONG AND BUSY SESSION HERE TUESDAY NIGHT

(Continued from page One)

st., was approved, following submission of a petition bearing the required percentage of signatures of residents within 300 feet.

Members of the council informally approved a request to the Minneapolis Bridge Construction company, in charge of the erection of the new dam here, that local labor be employed so far as possible without regard to union or non-union affiliation. George McDowell in charge ofthe project, reported that all but four of the approximately 20 men employed at present are from this community.

J.R. Dempster submitted an application which was approved for a license to operate an eight-lane bowling alley in the basement of the Hartz building on Horace av., installation of which is expected to get under way shortly.

The council formally confirmed the appointment of Roy Langevin as fire chief and Harry Roberts as assistant chief,succeeding Leslie Robinson, resigned. Also confirmed was the *appointment of George* Poppenhagen as a full-time member of the department succeeding Robinson.

Police Chief Leonard Hanson asked a halt in the sale of soft drinks at Auditorium dances and at hockey games in the arena, saying that too frequently the drinks are used as a "mix" for hard liquor. The council building committee was instructed to cooperate in the matter.

Selmer Dimmen, local taxi operator, and Harlan Bailey, bus line proprietor, asked the council to take steps to set up minimum fares to be charged by taxis here as a means of averting unfair competition. It was indicated that a new ordinance would be necessary to handle the situation.

Mrs. R. Basil Westacott, president of the Northrop PTA, asked the council to recommend to the local theatres that shows be started at 7 o'clock in the evening instead of 7:30 as at present, as a meansof aiding in the enforcement of the curfew ordinance.

Corn Exporter

Normally Argentina is the world's largest export producer of corn, exporting in excess of 200,000,000 bushels annually. Only relatively small quantities of these exports enter the U. S., however, as this country ordinarily is on an export basis.

CROOKSTON WINNER OF DISTRICT TOURNEY HERE LAST WEEKEND

(Continued from page 8)

points for the Pirates. Gerald Keller regained the the rear for East Side with a field goal, but not for long, for, at the four-minute mark, Wheelhouse, on a shot from the lane, scored a Crookston field goal, bringing the score to 26 to 25 for the Pirates for the balance of the game, Crookston played a semi-stall game, controlling the ball and when the East Grand Forks players committed fouls in their endeavors to regain possession, Crookston would excercise their option of taking the ball out of bounds instead of trying for the point on a free throw.

Wheelhouse, with 11 points, was the game's high scorer, with Partlow and Keller, with 5 points apiece, were the high scorers for the Green Wave.

In the other semi-finals game, the Prowlers, racing to a 19 to 8 lead at the end of the first period, rolled up a 50 to 30 win over the Red Lake Falls team. The Prowler "regulars" played as a unit only in the first period, with the "reserves" taking over the game in the other three periods. Glen Magnuson, with five field goals and three free throws was the Prowlers high point man. Lanky Dalton Halvorson, with four field goals and four free throws, led the Red Lake Falls scorers, with Dal Hoflus being runner-up with ten points.

Topics of the Times

By N. A. H.

All columnists are not in the same boat, apparently. Cedric Adams, we read, has an annual income of $54,000.

Asked what she most preferred in a man—business wealth or appearance—an old maid retorted, "Appearance, and the sooner the better."

If the town seems a bit congested this week-end, it may be due to the presence of about 50 basketball players and their followers here for the region tournament.

The welkin may be expected to ring shortly with the cry of the farm auctioneer.

After a long period of handling Russia with gloves, the state department seems to have decided to try boxing gloves.

No use being in a hurry about filing your income tax returns. You have a whole day left to do it.

It will be interesting to note how the Democrats get along with the Farmer-Laborites in the coming county and state conventions.

We note Detroit Lakes has an official hostess to welcome the newly arrived residents of that city. We could keep one busy in Thief River Falls too.

Heathen, they tell us are people who don't quarrel over religion.

President Truman seems to have been a bit tardy in appealing to Herbert Hoover to help straighten out the world's food supply.

Add Signs of Spring— John L. Lewis is getting ready for another coal strike.

The national administration seems to have guessed wrong on the outcome of the Argentine election.

If Governor Thye should ask our two cents worth of advice, we would suggest that he run again for the governorship rather than seek the U. S. Senate seat. After all, he has been a good governor.

They tell about a businessman who, after being harried by government regulations, started a skunk farm, saying he now would enjoy having government men sticking their noses in his business.

Sugarless Frosting

For sugarless frosting place two egg whites, one-half cup corn syrup and one-half cup of molasses in double boiler top over boiling water. Cook, beating continuous for seven to nine minutes, or until frosting peaks. It fills and frosts two 8-inch layers.

Ship Christening

Launching a ship by smashing a bottle of champagne on the prow dates back to an ancient superstition of buying the God of Luck a drink before putting out to sea.

Now that the steel mills are back in production and the automobiles have started to roll off the assembly lines again, we can settle down to worrying about the coal strike, which of course could tie things up like nobody's business. Until all of these disputes are settled there can be no certainty about production, no long term commitments can be made and reconversion is delayed. If we must have these strikes let's have them now and get them over with so the country can go to work. We know in advance that strikers will receive wage increases. That can be taken for granted. The only controversy really is between industry and the government price regulators. In the big labor disputes we have had during recent months settlement has been held up by the unwillingness of the government to grant price increases. Only after long waiting periods have the concessions been made. Responsibility for the present sorry state of affairs therefore rests largely with the government itself—it has in effect told labor to strike for higher wages and it has approved higher prices. But in each case, as the price administration is confronted with the necessity of granting these price increases we must listen for weeks to speeches on the evil of raising prices. The administration has sown the wind. It dislikes reaping the whirlwind.

Minnesota stands ready to launch a huge highway construction program but failure to receive "reasonable" bids in past lettings casts the shadow of uncertainty over the immediate future of highway building. Contractors have been hesitant about making commitments and highway department officials have not been willing to let contracts at prices they consider to be out of line, that no other government help is needed.

Under the circumstances the Highway Department is acting wisely in moving slowly. It would be a mistake to throw a large volume of work on a market that is not prepared to handle it. This in itself would force prices higher, adding not only to the cost of state work but also to the work that will be let by counties. Road construction costs, like all other costs, are up, and we must expect to pay more, but jobs should not be let in such volume that bidding will cease to be competitive.

Winston Churchill's speech recommending an Anglo-American alliance against Russia was not helpful to the promotion of world peace nor will it make easier the problem of creating harmony among the three big powers. We probably can take for granted that Russia did not become frightened over the prospect of such an alliance. On the contrary it gave strength to the position of those Russians who have held right along that Britain and the United States were natural enemies and could not be trusted. Ordinarily anything Mr. Churchill might say would not involve our country but on this particular occasion Mr. Churchill was accompanied by President Truman. It is reasonable to assume that Mr. Truman knew in advance what was to be said and therefore it is also reasonable to assume that what Mr. Churchill said must have had President Truman's blessing. This certainly is the way the Russians would interpret it. Their reaction probably is not much different than ours would be if the situation were reversed—and we all know what our reaction would be. On the international front we seem to be acquiring many warm enemies and bitter friends.

Local lumber yards take space in this issue to tell us that houses will be built here and everywhere else in the country where houses are needed just as quickly as materials become available. Local building material dealers and builders will do the job just as speedily as it can be done, they assure us, and no government subsidies or grants are necessary to get quick results. That sounds reasonable. The government can do its bit in bringing relief to this condition by breaking the jam this retarding the production of materials. Aside from

Blacksmith Nine Years, But Never Shod a Horse

Joseph Stattleman, Clinton, Minnesota, blacksmith, whose wife is the daughter of Mr. and Mrs. Robert Rupprecht of the Thief River Falls community, was the subject of a feature article in the Minneapolis Star-Journal late last week. In Minneapolis for the annual convention of the Minnesota Blacksmiths and Welders association, Mr. Stattleman said altho he had been a blacksmith for nine years he had never shod a horse.

New Word From War

Out of the war between the states came the noun burnsides, describing side whiskers with smooth chin as worn by Union Gen. A. E. Burnside. Overlooking the word's source, people twisted it around to improve its descriptiveness and sideburns joined burnsides in the dictionaries.

Gave Name to Law

Burke lived in the day of Sir Robert Peel, who gave both his names to the cause of law and order. As secretary for Ireland from 1812 to 1818, Sir Robert established the Irish police, who became known as peelers. As home secretary from 1822 to 1830, he reorganized the London police, who thereafter were known as bobbies.

Protein Supplements

Nutritionists have never expected that all of a day's or for 7 days of protein would come from animal foods. We usually get about a fourth of our protein from cereals. Many of our American style dishes use one of the protein foods to supplement another in highly nourishing combinations. Oatmeal and milk, for example. The grain food can do a better protein job because it's teamed with the animal protein of milk. Meat and vegetable stew, macaroni and cheese, milk and egg custard-corn-pudding . . . all are such combinations.

RAY STEELE TO HEADLINE MAT CARD MARCH 21

Former Heavyweight Champ Will Compete; Women's Match Listed

Ray Steecle, one of wrestling's all-time greats, and a former world's heavyweight champion, will headline the wrestling program arranged by promoter Bill LaFave for the Auditorium ring on Thursday March 21st. Steele, in a one-fall or one-hour time limit match, will meet Reginald Siki, a six-foot, seven-inch Negro wrestler from Direa, Abbyssinia.

In a semi-finals match, wrestling fans will witness an innovation as far as local grappling is concerned for promoter LaFave has billed a pair of women wrestlers, June Byars, 155-pounds, of Houston, Texas, against, Nell Stewart, 140-pounds, of Chicago, Ill. The "fems" are to wrestle to one fall or a thirty minute time limit.

In a preliminary bout, Chief Little Wolf, the burly 250 pound Navajo Indian from Trinidad, Colo. will meet Cal Rees, the 225-pound wrestler from St. Joseph, Mo. Wally Karbo will referee the feature matches.

In addition, promoter LaFave states that there will be several preliminary matches with local youngsters participating.

Ray Steele began his wrestling career at the age of fifteen at Lincoln, Neb., and since that time the clever Nebraskan has engaged in more than 2500 matches. At twenty one, Steele defeated Clarence Ecklund for the world's light heavyweight championship and he held the title for a year, losing the championship to Ted Thye, a brother of Governor Edward Thye in a match in Oregon.

Steele won the world's heavyweight championship, after being close to the title a number of times by defeating Bronko Nagurski in St. Louis, Mo., in March 1940. He subsequently lost the title to Nagurski in a re-match in Minneapolis. In 1935, in a mixed bout with boxer King Levinsky, Steele defeated the Chicago fighter in 35 seconds.

Reginald Siki, Steele's opponent in the main event, is a striking man physically, for the Negro is six feet seven inches tall) and weighs 220 pounds. Siki spent ten years in Germany, the last 20 months of which he was imprisoned in a Nazi internment camp. Siki, who is built more like a boxer than a wrestler, did teach boxing much of the time during his stay in Germany.

THIEVES SEXTET WHIPS HORNETS IN BENEFIT CONTEST

Win Red Cross Benefit Game Sunday Afternoon by Score of 7 to 3

The Thieves concluded their hockey season Sunday afternoon by scoring a 7 to 3 win over the Hornets in a Red Cross benefit game. The Thieves, with Fred Gustafson in their lineup, had too much finesse for the young Hornets, and at one time in the final period the "veterans" held a 3 to 0 lead.

Gustafson, after a bit of nifty stick-handling, opened the scoring with a solo goal in the first period with the second period, Don Wangen, on a rebound, tallied the Thieves second goal; and Connie Stanbridge, on a shot from center ice, caught the corner of the net for a score. Bill Gray and Fred Gustafson tallied goals while the Hornets were short-handed, giving the Thieves a 5 to 0 lead.

In the third period, Irv Wilson, from close in banged in a shot after taking a pass from "Mouse" Efteland. Bud Brossoit accounted for the first Hornet goal after a rush around the Thieves' net shoving a back-hand shot past Lloyd Johnson, the Thieves' goalie. And a minute later, Elroy Skjerping, on a long shot from just inside the blue line, beat the "vets" goalie. Les Vigness notcher the final goal for the Hornets, pounding a shot past the goalie from a scramble in front of the net. Connie Stanbridge's solo goal ended the game's scoring, with the veterans the winners, 7to 3.

The summary:

Thieves (7)	vs.	Hornets (3)
Johnson	goal	Engelstad
Lund	defense	Hoyle
Proix	defense	Thompson
Gray	wing	Lund
Gustafson	wing	Skjerping
Stanridge	center	Brossoit

Scores: Thieves—Wangen, Wilson, Efteland, Jarnason; Hornets—Vigness, Amundson, Welch, Hoar.

First period scoring—Gustafson (unassisted). Penalties—none.

Second period scoring—Wange (Efteland, Wilson) Stanbridge (unassisted); Gray (Gustafson) Gustafson (Gray). Penalties—Welch; D. Lund.

Third period scoring—Wilson (Efteland, Wange); Brossoit (unassisted); Skjerping (Brossoit); Vigness (Hoar) Stanbridge (unassisted). Penalties—D. Lund, Proix.

Officials: referee, Bernard Broderick.

REV. MERTH WINS BOWLING TOURNEY

Places 1st in Red Cross Tourney Last Week-end

Rev. A. I. Merth, with an aggregate of 916 pins, won the city singles handicap bowling tournament, which was rolled over the Mint alleys on Saturday and Sunday as a Red Cross benefit. Klem Gigstad of St. Hilaire, with an 893, and Fred Blakey, also of St. Hilaire, with an 865, won the second and third place trophies.

Rev. Merth, in scoring his win, had actual pin counts of 155-166-206-212, for a net of 739 pins, and carrying a 44-pin per game handicap, totaled a 916. Gigstad, the second place winner, had actual pin counts of 143-203-245-144, for a 735 net. His handicap totaled 160 pins, giving him a gross of 895. Blakey, in third place, had games of 178-186-153-176 and, with a handicap of 172 pins, totaled 865 in the aggregate.

This week-end the city singles straightaway tournament will begin, with Wally Dutcamp defending the championship he has held for the past several years. The championship will be decided on a total pins basis, with each bowler rolling twelve games.

Crookston Quintet Winner of District Class A Title Here

The Crookston Pirates, holding the Prowlers without a field goal until four minutes had elapsed in the third period, defeated the locals, 31 to 23, in the finals of the 31st district's Class A basketball tournament here Friday night. The Crookston team will represent the district's Class A schools in the regional tournament here this week meeting the Badger team in a first round game. In the consolation game, East Grand Forks defeated Red Lake Falls, 38 to 19.

Both games played cautious basketball in the first period of Friday night's championship game, with the Pirates moving into a 6 to 3 lead. Rog Tunberg opened the scoring by looping a free throw into the west basket. "Duke" Youngquist tied the score on a free throw but Brad Hanna, fouled by Peterson, added a Prowler point on a gift shot. Youngquist, on a rebound play, scored a Pirate field goal from close in; and Andy Carey, on a one-handed shot from the lane, marked up a field goal. Ninsk Carlson, with thirty seconds of the period remaining, was fouled by Jack Peterson and made good on a free throw try, giving the Pirates a 5 to 3 lead.

Milo Hafterson's one-handed shot from the left side of the basket, found the net for a pair of points to start the Pirate scoring in the second period. Carlson nudged the Prowler point up two points on a pair of free throws, but Carey's one-handed shot, and Peterson's over-hand toss from the right side of the court, increased the Pirate lead to Lito 5. Glen Magnuson tallied a point on Hafterson's foul, and Peterson's free throw added to the Crookston total and brought the Pirate lead to six points. Don Wheelhouse, on a pivot shot, scored a Crookston field goal and after, Carlson had made a Prowler free throw, Peterson, on a one-handed shot from the left side of the floor, shoved the Pirates into a 16 to 7 lead. Ken Borsheim's free throw closed the first half scoring with the Pirates out in front, 16 to 8.

After Tunberg had racked up a Prowler point on a free throw, Wheelhouse, fouled by Hanna, scored a Pirate point, and then Wheelhouse recovered a loose ball to score a field goal from the lane. Youngquist added a free throw, and taking a pass from Wheelhouse, scored another Crookston field goal, bringing the Pirate lead to 22 to 9. At the four minute mark, on an out-of-bounds play, Hanna drove under the basket and scored the first Prowler field goal on an over-the-head toss. Field goals by Peterson and Wheelhouse brought the Crookston lead to 26 to 12 at the end of third period.

The Prowlers made their rally in the opening minutes of the final period. After thirty seconds of play Rog Tunberg drove in for a push-up shot, and fifteen seconds later, Hanna came ip to score on a one-handed try from the left side of the basket. Hanna and Wheelhouse exchanged points on free throws, but Carlson marked up a Prowler field goal on an under-handed toss, and then on a mid-court "break", Carlson dribbled in for a lay-up shot, scoring a field goal, when fouled by Carey, the Prowler co-captain added a point on the free throw to pare the Crookston lead to points 27 to 22 with less than four minutes to play.

Crookston then began their semi-stall tactics playing for control of the ball. Wheelhouse, fouled by Carlson, added the point on the first try, and then took the ball out of bounds; and again when fouled by Borsheim, wheelhouse, scored on the try, and then asked for ball out of bounds on the option of the second shot. Johnny Powell scored the final point for the locals on Hafterson's foul. And Wheelhouse, in the final minute, when the Prowlers were attempting to break up the Crookston "stall", scored a field goal on a set-up.

Don Wheelhouse, with ten points and Jack Peterson, with seven were the high scorers for the winners; while Carlson's ten points, led the Prowler scorers.

In the district's Class A semi-finals games Thursday night, the Crookston Pirates, by a 26 to 25 score, defeated the defending champion East Grand Forks team, and the Prowlers, by a 50 to 30 score, trounced the Red Lake Falls Eagles.

Coach Ray Flom's Crookston Pirates were forced to rally in the third period, erasing a four point held by the Green Wave, in order to edge out the East Grand Forks team and enter the finals. The East Siders, leading by a 16to 12 lead at the half, increased their point advantage to 20 to 16 midway in the third period. Crookston's stocky Andy Carey intercepted a Green Wave pass and dribbled down the floor and, when at the free throw circled, looped a one-handed shot at the basket, the ball found the net and Carey was given a free throw try as he had been fouled when shooting. Carey missed the try, but the Pirates recovered the ball and, on a pass from Wheelhouse, Carey pushed in another field goal, knotting the score at 20 to 20.

In the final period, which began with the two teams tied at 22-all, East Grand's Dwayne Partlow tallied a free throw, to shove the Green Wave into a one-point lead; but blond Don Wheelhouse drove in for a push-up shot to score two

Lions Club Is Host to Lincoln Hockey Sextet at Luncheon Wednesday

Members of the Lions club at their luncheon meeting Wednesday noon in the Palm Garden Cafe were hosts to the Lincoln high school hockey team and its coach, Connie Stanbridge, who introduced the twelve boys. Rev. D. A. Beadle commented on the excellent season's record made by the team, and praised the, work of Coach Stanbridge. James Parkins, chairman of the club's committee seeking a revision of the local zoning ordinance, reported that the new ordinance had been given its first reading at a meeting of the city council Tuesday evening.

Keeping Score ... with Buck Olson

It's Seven to One

That's about the pre-tournaodds on the regional basketball tourney that opens here this afternoon. It's Bemidji, as the one, against Ada, Crookston, Roseau, Erskine, Walker, Badger, and Fisher, as the seven. And on the record, that's about the odds that Coach Glenn Barnum's Bemidji LumberJacks can afford to give the other teams. Bemidji, with a better-balanced club than last year, has just concluded a tough season of competition, playing in the fast Central Eight conference, where the Jacks finished in third place behind Crosby-Ironton, the winner and Staples, the runners-up.

Bemidji, with Don Seivek and Spike Cary at the forwards, Chet Pawlicki at center, and the co-captains Bill Clark and Bill Krause at the guards, possess just about everything that a regional champion requires. They have fair-speed all-round scoring punch in Seivek, Clark, Gary, and Pawlicki; and fine backboard work, with Krause and Pawlicki on the rebounds. And, too, it's the last year that Coach Barnum will handle the Bemidji team, for the likeable Glenn is on his way to North Dakota "U", where he will coach basketball, and the Jacks will be out to win for him. The one weakness in the Bemidji squad may be over-confidence for the Jacks after their Central Eight experience, may think they are unbeatable up here and one of the smaller schools may turn in an upset.

Opponents for LumberJacks

Roseau and Erskine, with Ada as an outside possibility, appear to be the teams that are capable of giving the Jacks a tussle. Roseau, who had been primed for the regional, have had their hopes dampened plenty by the loss of their high-scoring forward, Ed Schwarz with a wrist injury. And Erskine, who has the speed to cause Bemidji some trouble, will have to give away too much height and they are too dependent on Roger Dagne and Arvid Skogerboe for their points, and you can't beat Bemidji with only two scorers. Dagne, though, should prove to be one of the stars of the tournament. Other boys that are worth watching are Luther Hegland of Roseau, Seivek and Clark of Bemidji, Andy Carey and Don Wheelhouse of Crookston and Art Wagner of Fisher.

All-District Team

There haven't been any complaints expressed by local fans over the loss of the district championship finals game to Crookston last Friday night. They're all agreed that the Pirates out-played the Prowlers by quite a margin, and appeared to have more of the win-to-win than the locals possessed. It was disappointing to the local fans to have the Prowlers turn in such an erratic exhibition, and especially was it strange that the boys were so futile in scoring from the field, for they were here without a field goal for the first twenty minutes of play. The Pirates employed a man-to-man defense, but that shouldn't have been so puzzling for the Prowlers. The boys were just "off", I guess.

It's not too easy to name an all-district team, for the players on the teams were just about on a par; but a lineup with Andy Carey and Don Wheelhouse, of the Crookston Pirates at the forwards, big Dalton Halvorson of Red Lake Falls, at center, and Dwayne Partlow of East Grand Forks and Ninak Carlson of the Prowlers, at the guards, would be about as strong a first team as you could select. Wheelhouse of Crookston was, without a doubt, the tournament's stand-out player.

The Last Laugh

The city singles handicap bowling champion is Rev. A. I. Merth. And the rest of the boys can try and laugh that off. In spite of some intense heckling from such gutterball experts as Ed Carlson and Frank Koblaka, and belittling remarks from the gallery, Father Merth, in the Red Cross tournament, bowled a 916 aggregate to win by 20 pins the first place trophy.

The fact that Rev. Merth actual-pin games of 155-166-206-212, for a fine 739 net, has caused some of the more suspicious minded of the boys to claim that the Rev. Merth that bowled in the singles tournament was twin brother of the Rev. Merth that bowls on the Pharmacy team. They contend that the Pharmacy Merth couldn't get two 200 games in a row, and that it was an imposter that bowled in the Red Cross tourney.

NEED SPRINKLER SYSTEM ON VILLAGE WATER TANK

Hill City—If the framework fire had gotten hot enough to melt the bottom of the village water tank maybe firemen wouldn't have had such a struggle getting it under control. COMMENCEMENT AT N. W. SCHOOL SET FOR MAR. 28

140 Advanced Students and Members of Senior Class Will Graduate

Commencement exercises for 87 seniors and 53 members of the advanced class will be held at the Northwest School of Agriculture, Crookston, on Thursday, March 28. The graduation exercises will be held at 2:00 P. M. with Dr. John C. West, president of the university of North Dakota, as commencement speaker.

The Reverend R. J. Moiander of Crookston will give the commencement sermon on Sunday evening, March 24, at 7:30 o'clock. Superintendant T. M. McCall of the Northwest School announces that commencement activities began with the Junior-Senior Prom on March 2.

Other precommencement events include the awards assembly and honors banquet on March 15; Advanced Day, March 19; Senior Day, March 22; Junior Music recital on Monday, March 25; superintendent's reception to seniors on March 26; senior music recital, March 27.

The winter term officially closes at 12:00 noon on Commencement Day.

Illumination Increased

Repainting the Soule Steel company's plant in San Francisco resulted in a 400 per cent general increase in illumination as measured by a light meter, and in some sections of the plant the painted area was 10 times brighter, says "Paint Progress." The general plant superintendent stated that the paint served a dual purpose — prevention of the steel structure from rusting, and at the same time improving the lighting conditions for employees, with relief from eyestrain, reduction in accidents and improvement of morale in general.

BOBBY HAS POSSUM PET . . . Bobby Underwood, 8, Detroit, Mich., is always surprising his family by bringing home strange pets. They recently made him get rid of two cats, a rat, rabbits and a rattlesnake. The next day he showed up with the possum shown in his arms. Bobby's two-year-old dog does not intend to associate with a possum, according to his tilted chin.

News of R. R. Valley Home for the Aged

(Too late for last week)

Niels Hanson who has been a bed patient for many months passed away at the hospital early Sunday morning. Services were held at the Gulbranson Funeral Home on Wednesday afternoon and interment was in Greenwood Cemetery. He leaves to mourn his loss one son Anker Hanson of Malta, Mont., one daughter Mrs. Jack Riley of Portland, Oregon and one step daughter in Denmark, and several grand children. We extend our sympathy to the family.

Mr. and Mrs. John Olson drove over from Alvarado last Thursday afternoon bringing with them Mrs. John Paulson who resumed her duties as cook here on March 1. We all welcome Mrs. Paulson back again.

Mrs. Paulson, who represents the Lutheran Home for Aged at Grand Forks, called at our home to visit a couple of times the past week. She seemed pleased at our progress since her last visit.

Mrs. Chas. Skogland and Miss Selma Skogland of Roseau, called at the home on Saturday and left a gift in memory of their mother Mrs. Sigrid Skogland who passed away last May 13.

Mrs. Veldness and Mrs. Stenberg also Mrs. Ben Erickson and Mrs. Anjie Bolstad and Ole K. Rolsland have been recent callers at the Home.

Ole Wedul called and gave us a gift in memory of his son Vernon Wedul, who had been missing in action over France, June 22, 1944, and memorial services were held at the Trinity Lutheran church last Sunday afternoon.

Soren G. Moe, who was at a local hospital a few days for extra care, returned here on Friday and is improving steadily every day. His sons Arthur and Manvel, daughter Mrs. Anderson and children have called on him several times since his return.

Severt Grothe accompanied Gust Bridston back to Ulen on Saturday from an over night visit with his son and family.

We are thankful again for some good reading matter brought in by Mrs. N. C. Lindberg and Dr. Johnson.

A gift in memory of Raymond Johnson, was brought by Rev. Rabina and given by relatives and friends in and near Eagle Point.

We missed the regular Bible School on Wednesday as Rev. Rabine's class met at the Free Church in Union services that day with Rev. Jacobson's and Rev. Lindholm's classes. We are glad Rev. Jacobson is able to be around again after his recent illness.

Mrs. Ewing from St. Hilaire and Mrs. Ingvald Wold called at the home Monday to visit respectively with Adeline Flamme and Mr. Moe and other friends at the home.

Peter Gulbranson and Adeline Flamme called at the hospitals for observation and care on Monday. We hope for a speedy recovery for both of these friends.

Rev E. F. Rabine, together with Freedolph Johnson, Mrs. John Gangness, Lorraine Moe and Wilma Ulshafer drove to Drayton, N. D. Friday where Rev. Rabina had charge of the funeral service of Mr. Johnson's brother Raymond together with Rev. Karl Lundh of Drayton. The ladies did the singing.

ERIE

While lifting the cover off a pressure cooker full of soup bones and meat, last Monday Mrs. H. A. Dahlen received severe burns on chest and right arm from steam and hot grease. She was rushed to a Thief River Falls hospital for medical aid and remained a few days at the home of her son and daughter-in-law, Mr. and Mrs. Olaf Dahlen. Not exactly fault of pressure cooker this happened. Mr. Dahlen had left the cover on loose thinking there should not be so much steam

The town of star met last Tuesday at the clerk's home H. A. Dahlen. Old and current business matters were disposed of. The annual town election will be held Tuesday the 12th at Clover Nook.

Little Oaks Ladies aid met Sunday at Little Oaks school house. Rev. H. Lie was to be there to conduct services but failed to show up evessingly to road conditions. However the ladies went ahead with their aid and as usual served a bountous and delicious lunch.

Mr. and Mrs. Kenneth Kriel and Glennie Iverson accompanied the Misses Geneva Iverson and Anna Mae Eklund back to Crookston N. W. S. A. last Sunday evening. The girls had been here over the weekend.

Misses Ottea Ekwall is enjoying a visit with her sister, Mrs. Steve Dahlman and family at Forrest Lake. She went down with Steve who was here for a brief visit with the Ekwall families.

Several families along the Erie line are now enjoying the use of the R. E. A. juice which they so long have awaited.

Mrs. Lester Arveson and Mary Lou are visiting relatives in Minneapolis.

Delbert Sherry of Tobor has been spending several weeks here visiting with his sister and brother-in-law, Mr. and Mrs. Albert Kotrba.

Henry Taugen and Chester Solberg caught a big red fox last Monday after a lively chase. Oscar Nerhus also has two foxes to his credit.

Mrs. L. B. Johnson attended court at Thief River Falls first part of last week serving on the Petit jury.

Mrs. Tellef Hovet is recuperating after a gall stone operation and will soon be back home from the hospital. Mr. Hovet has been staying in town to be with her.

MARSHALL COUNTY BOARD LETS HUGE GRAVEL CONTRACT

B. C. Ness of Mahnomen Is Awarded Graveling Contracts Last Week

B. C. Ness, Mahnomen road contractor, was awarded the contract for graveling 171 miles of Marshall county highways at a contract price ranging from $66, 757.77 to $78,652.77, at a big pow-wow contract letting by the county board of commissioners in Warren last week, according to H. T. Swanson, highway engineer.

With the contracts awarded for highway gravelling, Marshall countywill embark on its biggest highway construction program: this spring and summer. At a February meeting of the board, contracts for grading 24. 65 miles were let at a cost of $43,454.40. With the exception of graveling CAR 23 in Eagle Point, all other projects will be for regraveling of county roads. The projects are fairly evenly distributed in all sections of the county.

"We received an exceptionally favorable bid from the successful bidder; prices for the new work are hardly any higher than before the war" said Mr. Swanson.

The county board also awarded a contract for rebuilding Judicial Ditch No. 8 inEagle Point and Donnelly townships, to Oscar Schenky, Middle River contractor at a total price of $11,198.06. The length of the ditch is 8.18 miles.

The variation in bid for the gravel work is a result of two different types of work, said Mr. Swanson. The quotation of $66,757.77 is for stripping, loading, screening and hauling, while the higher figure, $78,652.77, includes rock crushing. Crushed rock provides a better road surface for the highways. It is very likely that a combination of the two types of surface will be applied on certain roads in the county, Mr. Swanson stated.

The price for stripping, 20 cents a cubic yard; for loading and screening, 20 cents; crushing and loading, 40 cents, and hauling, 6.4 cents.

Postwar Relief

During the armistice year of World War I relief deliveries to Europe amounted to 4,750,000 tons of food valued at over $1,147,600,000. More than two-thirds of this supply came from the United States. In the later postwar period, Herbert Hoover's private charitable organization known as the European Children's fund is said to have distributed cooked meals to as many as 4,000,000 hungry European children at one time. About 8,000,000 different children received such meals up to 1922.

Primitive Capital

When the Lone Star flag flew over the first capitol building of the Republic of Texas, ox-carts brought into the building supplies through stockade gates.

Lieut. Gen. Alexander M. Patch, veteran of World War I, who also fought against both the Germans and Japs in World War II, recently died at San Antonio. He lost his son in this war.

STATE WILL OPEN BIDS MAR. 29 ON 45 MILES PAVING

Requests Figures on Paving Highway 75 Warren to Argyle

Bids on four concrete paving projects, totaling 45.3 miles, and six bituminous surfacing projects totaling 81 miles, will be received by the Minnesota highway department March 29 Commissioner M. J. Hoffman announces. The projects are located in thirteen counties.

All of the paving projects will be extensions of exisiting pavements. Two projects are proposed on U. S. 75. One runs from Ortonville to the end of the pavement near Clinton. The other runs from Warren to the end of the pavement at Argyle. Each of the proposed bituminous projects will connect at both ends with bituminous or paved highways.

Projects Include:Kitson County: T. H. 11—Between Karlstad and 9 miles E. of Donaldson—8.6 miles stabilized gravel base and bituminous wearing surface, comprising 7,108 cu. yds. excavation, 2,791 cu. yds. subgrade excavation, 3,103 cu. yds. sand backfill, 130,427 tons sand base, 884,500 gals. bituminous material, 1,424 tons AC bituminous material and 25,587 tons bituminous mixture.

Marshall county: T. H. 75 and T. H. 1—In Warren and between Warren and Argyle—10.1 miles of grading and paving, comprising 141, 402 cu. yds. excavation, 5,143 cu. yds. sand backfill, 3,103 lin. ft. 12" to 18"- storm sewer and 118, 990 sq. yds. concrete pavement.

Field Roller

For a heavy field roller, fill two steel oil drums with cement and connect them together on a steel shaft through pipe centers. It works fine on rough ground. When the drums wear off, the cement is still good.

Big Job

A pound of nectar from the flowers (20,000 bees required to gather) makes about one-quarter of a pound of honey. Eighty thousand bees are required to bring in four pounds of nectar.

AMATEUR MAGICIANS SEVER SEVERAL TIES

Long Prairie—An itinerant prestidigitator appeared on a commercial Club program. His ability to ressemble needles cut into small bits made a hit. So when a fellow performer found him enjoying a social cup of coffee, he whipped the magician's necktie and handed him the pieces suggesting that he make with the magic. It didn't work on that one, so other coffee clubbers went questing for the magic formula with the reported result that Long Prairie necktie sales leaped upward.

It's a small world

The farthest distant point on earth is now less than 40 hours away by air travel. You can have breakfast in New York—early dinner in London or Paris.

The telephone has a tremendously important role in this new concept of distance. As the barriers of space and time are reduced, trade and travel are certain to increase . . . bringing steadily greater need for the fast, sure exchange of thought provided by telephone service.

To catch up with present telephone needs . . . to plan and build soundly for the future, is the huge job now facing your telephone company. In the next few years this program will require an expenditure of 100 million dollars in the five states in which this company operates.

We don't have the necessary capital for this program. The only source for it is people with money to invest. They will choose to invest in the telephone business only if it offers earnings comparable to other businesses requiring huge sums of money.

Refinishing Kitchen Tables

Old kitchen tables can be made gay by applying stenciled designs —a flower spray at each corner of the top, or a conventionalized border around the edge. This ornamentation is put on after the table has been painted, or lacquered a solid color. A coat of good waterproof varnish will enhance durability and make the surface easier to clean.

GOODRIDGE

Let's Tackle Inflation While We Can

You don't want your dollars to buy less and less and less!

You don't want your savings to melt away! Or the value of your life insurance to dwindle!

Yet that is what inflation can do to all of us. Therefore, thoughtful people everywhere are concerned with ways to another it before it gets out of hand.

One major cause of inflation is a shortage of goods when people have money to spend for things they want.

That cause can be eliminated by the production of goods – fast – in quantity.

BUT THERE'S A BOTTLENECK

During the war there wasn't enough labor and materials to meet the needs of war and still produce all the civilian goods people wanted and could buy.

Therefore price controls on civilian goods were substituted for competition to keep prices down.

Today this country has all the labor and materials necessary to turn out the things people want.

Yet goods are still scarce. Store shelves are still bare. The national pocketbook continues to bulge. Inflation grows.

Why? Because price controls in peacetime hinder the production of goods. Business cannot live by producing at a loss. And so, goods that can't be made to sell at the prices fixed by the government *just don't get made.*

Nor will the raising of price ceilings solve the problem. When costs and selling prices are subject to change at any moment by government action, product on has to be on a day-to-day basis.

That means uncertainty . . . reduced output . . . more inflation.

ISN'T THIS THE ANSWER?

Remove price controls on manufactured goods and production will step up *fast.*

Goods will then pour into the market and, within a reasonable time, prices will adjust themselves naturally – as they always have – in line with the real worth of things.

Competition has never failed to produce this result.

This is the way you can get the goods you want at prices you can afford to pay.

Please think this over. Then tell your representatives in Congress what you believe should be done. You owe it to yourself . . . and to your country's welfare.

LET'S SMOTHER INFLATION... *A postcard addressed to the National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y., will bring your copy of a booklet explaining in detail why price controls cause inflation.*

GATZKE

Yvonne Engelstad Honored

Miss Yvonne Engelstad was honor guest Friday afternoon at a bridal shower given in the church parlors in Gatzke. Ann Loven and Audrey Tonder were hostesses inviting a large group of relatives and friends. After the honored guest had opened her many gifts lunch was served by the hostesses. Those from a distance who attended the shower were Mrs. Albert Engelstad of Grand Forks, Mrs. Henry Holte of Grygla and Mrs. Henry Grondahl of Goodridge.

Tonder-Engelstad Wedding

Miss Yvonne Engelstad, daughter of Mr. and Mrs. C. E. Engelstad of Gatzke, was united in marriage to Allan Tonder, son of Mr. and Mrs. Adolph Tonder of Gatzke at a double ring ceremony in Landstad Lutheran church on Sunday, March 10, at 2 p. m., Rev. J. Kronlokken officiating. The church was decorated with streamers, candles, and a large altar bouquet of gladioli. The white path down the center aisle was fastened with ferns.

Miss Audrey Tonder of Gatzke, sister of the groom, and Miss Ann Loven of Gatzke were the bride's attendants, while Art Tonder, Gatzke, brother of the groom, and and Arnie Engelstad, Gatzke, uncle of the bride, attended the groom. Sharon Solheim of Thief River Falls was flower girl, and her brother John was ring-bearer. The bride was given in marriage by her father, C. E. Engelstad.

The bride chose for her wedding an organdy over satin gown with sweetheart neckline, full-length sleeves, and a train. Her finger-tip veil was fastened with a sweetheart Juliet cap trimmed with pearls. Her jewelry consisted of pearls the gift of the groom. The bride's bouquet was of white carnations.

Miss Tonder wore a gown of white lace and net. Miss Loven, a former army nurse stationed in India, wore a dress made from an Indian sari, which is the chief garment of a Hindu woman. Both attendants carried colonial bouquets of roses and carnations with blue and pink streamers. Sharon Solheim wore a floor-length dress of white net over satin and carried a basket of sweet peas. John Solheim carried the rings on a white satin pillow.

Before the ceremony Mrs. Glenn Evans of Gatzke sang "Because". During the ceremony Pastor Kronlokken sang "The Lord's Prayer" by Malotte. Mrs. Larson, cousin of the groom, played Wagner's Bridal Chorus from Lohengrin as the processional and the bridal march by Mendelssohn as the recessional.

About 150 people were present at the church for the wedding at which Harry Anderson and Glenn Larson served as ushers.

Mrs. Engelstad and Mrs. Tonder mothers of the bride and groom, both wore dresses of black crepe with black accessories. Their corsages were of roses and carnations.

Following the wedding a reception was given for the bride and groom by the parents in the Gatzke Young People's Hall. The bridal table was set for 16, while the rest of the 200 guests were served buffet style. The three tiered wedding cake, topped with a miniature bride and groom, decorated the bride's table. The hall was beautifully decorated with streamers and candles of white, aqua and yellow.

For travelling, the bride chose a fuchsia suit with black accessories. After a ten-day wedding trip to Minneapolis, the couple will make their home in Thief River Falls.

Mrs. Tonder, graduate of Middle River High school and Union Commercial Business college in Grand Forks, has been employed as stenographer in the office of Land O'Lakes Creameries, Inc., in Thief River Falls. Mr. Tonder, having recently received his discharge from the army, is now employed in the Wilson Bros. Garage in Thief River Falls.

BORN AND LIVED 71 YEARS ON THE SAME FARM

Fairmont—The Fairmont Daily Sentinel got to wondering who had lived the longest on the same farm in their vicinity. Mrs. E. G. Swanson of Dunnell did a little investigating and discovered that Ellsworth Ziemer still lives on the Lake Fremont farm where he was born in 1895; C. L. Peterson still farms the farm he was born on in 1890; and top honors go to F. S. Carlson, who was born in December, 1874, on a farm near Dunnell, and still lives there with his wife and son, Clinton—71 years on the same farm!

McCormick - Deering

Post-War Farm Machines Now Being Manufactured

Chopping Dry Hay In The Field

One of the many new machines in the International Harvester Company's development program for postwar farming is the McCormick-Deering green or dry hay chopper for use in the field. The chopper is shown being drawn and power-operated here by the Farmall-M tractor. By this method green or cured hay is picked up from the windrow, chopped, and delivered to the rack. The chopped cured hay can then be delivered to the mow with a blower. Chopped green hay can be quickly processed for grass silage. With proper timing chopping hay in the field offers many feeding and storing advantages. The first public showing of this preproduction machine was made recently, when the Company unveiled its array of new equipment for postwar farming.

Potassium Helps Check Strange Poultry Malady

Pullet flocks, particularly those of heavier breeds, often are affected by a strange malady that has come to be known by a variety of names, including pullet disease, X-disease, blue comb, and unknown disease.

Usually the disease appears just as production starts in new flocks, often soon after housing, invariably takes a toll of birds and then disappears. Individual birds may show darkened combs, labored breathing, inactivity and sleepiness, and the legs have a dry, withered appearance. At times signs of the disease may be seen in the entire flock, while egg production and feed consumption fall off. Usually the death rate is not more than 10 or 15 per cent.

In recently, molasses flushes and moist mashes containing molasses were recommended in treating affected flocks. Now it is learned that the molasses treatment was more or less successful because of the potassium in the molasses. Studies have shown that the common fertilizer, muriate of potash, is a good source of potash. Where the disease has occurred in the past, it might be well to add 1½ pounds of muriate of potash to 100 pounds of mash as the pullets begin to approach maturity, in an effort to prevent the disease. For emergency treatment, dissolve a two tablespoonfuls of muriate of potash to a gallon of drinking water.

LEGIONAIRE HOLDS TOP CRIBBAGE HAND

Tower—At the weekly recreational meeting of the local Legion post John Peil's interest in his hand mounted rapidly as the five of hearts, the five of clubs, the five of spades, the jack of diamonds showed up. He practically boiled over when the cut brought forth the five of diamonds. He held the much coveted perfect 29 hand. For the first time in 20 years of playing a St. Paul cribbage fan recently held 29, too.

If you Want Good Homes Fast

GIVE US MATERIALS

That's the Key to the whole situation!
Why pile ERROR on ERROR—Experiment on Experiment??

The Building Trades and Industries are Organized and READY TO GO!

They Will Produce More Homes FASTER and do a BETTER JOB

---If you Give Them the MATERIALS to WORK with

LET'S THINK STRAIGHT on this matter and stop knocking ourselves out looking for magic formulas.

Hysteria can't build homes.

What this country needs is not a fancy new way of building homes but the MATERIALS TO BUILD THEM WITH!

That's a hard cold FACT and let's quit kidding ourselves and get at the TRUTH about the situation.

Mr. Wilson Wyatt, the National Housing Administrator, proposes to create (with Government subsidies at huge taxpayer's expense) a new and relatively untried machine method of constructing houses. But this still is NOT the solution.

YOU CAN HAVE YOUR HOMES—all you want and the kind you want—if the Government will just eliminate the mass of red tape and break the bottle neck in the supply of MATERIALS.

The Building Trades and Industries right now are organized, experienced, and ready to DO THE JOB—but they are standing around empty handed—without materials to work with.

GET MATERIALS FLOWING, and the building trades will start your houses tomorrow. And they'll give you better homes, better constructed—not shacks and shells from a production line ground out in the name of housing. We don't think a cracker box is the veteran's idea of a home.

As far back as 1925 the building industry of this country built 937,000 good homes in addition to $5,000,000,000 industrial construction which was the equivalent of 900,000 more homes. They could go well past the million mark with today's experience if they were given the materials so desperately needed. And these homes would be built long before any complicated production-line program could be organized, planned and gotten under way. And all this can be done without new Government subsidies at taxpayer's expense.

Let's remember, too, that not even a ruinous and visionary production line program can build houses without materials. Why take the long way around? Why wait endless months for another questionable expedient? Why not shortcut this problem and get materials to an experienced building trade which is waiting RIGHT NOW to go to work without experimenting, fumbling or false starts?

The building industry—carpenters, bricklayers, stone masons, plasterers, and the vast system of manufacturers and suppliers—is the second largest industry in the country, employing 6,000,000 people. Let's be very careful before we sidetrack this vital phase of employment and throw the country's economic machinery out of balance for years.

Let's doctor the CAUSE of our present trouble, instead of wasting time treating symptoms. The cause is SHORTAGE OF MATERIALS. Get action on that and our present well-established trades and industry—will soon put an end to the housing shortage.

January Disasters Bring Quick Red Cross Action

Destructive floods and tornadoes beginning in early January are grim reminders that many Americans died in home-front accidents and disasters during World War II than at war casualties.

By mid-month the siege, brought on unseasonably early by warm weather and heavy rains, had claimed 54 dead and upwards of 150 hospitalized, records indicate. Thousands of families in rural areas of 11 midwestern and southern states have been affected.

Red Cross chapter workers who last year helped their communities through 250 disasters have again worked 'round the clock. Assisting them have been doctors, nurses, and others rushed by the Red Cross to stricken areas. Surveys for the refurnishing, rebuilding, and repairing of damaged or destroyed homes, barns, and other buildings began immediately. Rehabilitation will be completed in March. Undoubtedly new disasters will strike during the spring months and will keep the organization working at top speed in this humanitarian parade which never ends.

In providing food, clothing, shelter, medical and nursing care, varying problems confront the Red Cross, particularly in rural sections.

In flooded Mississippi valley areas, Red Cross has obtained a priority release of house trailers to supplement tents used in sheltering farmers rescued from flooded areas. When evacuation of farm families and livestock has been necessary, coast guard and navy boats have assisted. Recent coal shortages in disaster areas were relieved when Red Cross action resulted in diversion of fuel to critical sections.

An hour after surveys have been completed, the Red Cross has obtained priority release of lumber and other building materials. Included has been screen wire to help prevent the spread of disease in polio and malaria-affected sections.

In floods and hurricanes, local Red Cross disaster units, through advance weather bureau advisories, have warned residents in time for safe evacuation; in remote sections, they have effected rescues. In all disasters, tornadoes, fires, floods, hurricanes, train wrecks, they have quickly sought out injured, given first aid, and arranged hospital care. Hundreds of thousands of homeless have been sheltered, clothed, and fed.

In Paterson, New Jersey, a new chapter disaster chairman successfully tackled problems of the worst flood in that city's history. Two days after a Red Cross disaster conference in Montgomery, Alabama, a tornado ripped through the city. Outstanding care given the injured wrote a bright page in the year's disaster medical history.

In staten where polio outbreaks occurred, Red Cross chapter volunteers hurriedly improvised hospital articles. In Salt Lake City, disaster Service supplied face masks, children's nightgowns, hospital shirts, surgical gowns for nurses, blankets, and sheets. When flannelette could not be found for hot packs, Red Cross supplied 1,000 diapers for the purpose.

But whether disaster or any of many other Red Cross services, all are available to people in rural communities no less than in large cities. Home nursing, farm accident prevention, assistance to families of men in uniform and to veterans—these services continue year-in, year-out. During March the Red Cross is appealing for $100,000,000. It needs every bit of that amount to meet obligations for the armed forces and civilian population.

"We all have a share in the American Red Cross," said Basil O'Connor, Red Cross Chairman, when announcing the appeal. "Let's all maintain that share by contributing generously to the 1946 Fund Campaign and keep our Red Cross society the strongest in the world."

KRATKA

Mr. and Mrs. Jim Hruby and family of Silverton spent Sunday with their daughter, Miss Ida Wilson.

Neighbors and friends of Mrs. H. T. Wade will be happy to know she is improving nicely from her recent operation.

Miss Johanna Wedul of Thief River Falls spent the week-end with her sister and brother-in-law Mr. and Mrs. Ole Thompson.

The 4-H club will meet at the Meadow Lark school (Dist 41) Wednesday evening, March 18. A good program has been planned and all members are urged to attend.

Mrs. Ed Knutson is in the local hospital receiving medical aid.

Mr. and Mrs. Anton Jenson, Julius and Emma Hanson, and Roger Mickelson were callers at the Albert Hanson home on Sunday.

Thin Horses

Horses that are wintered out are a very long hair. Though they may be fairly fat, they will have long hair. Some extra feed is needed before they are ready to work. Horses that are conditioned are able to convert their strength and energy into full power each day and can even handle an overload during the peak of heavy work. Thin horses cannot do this because they have not strength enough.

POLITICAL ADVERTISING—Prepared and paid for at regular rates by Marius Waldal in his own Behalf.

To the Voters of the 65th Legislative District:

In announcing my filing for Senator of the 65th Legislative District on the 13th day of March, I wish to explain in a broad way the principles I stand for.

I am filing as an independent candidate, soliciting the vote and support of liberal voters. There is no party system in this state to elect the legislators. If I am elected your Senator, I will support the people's choice for Governor regardless of party lines. As it now works out a small group of leaders endorse candidates. I believe the candidates should file on party tickets and let the people endorse them at the primaries.

I will maintain that share by contributing generously to the 1946 Fund Campaign and keep our Red Cross society the strongest in the world."

In my opinion the people want and need a 100 years from now. It maybe a lot sooner, but the time is not here now. If that idea is to be for the good of the people it has to come gradually and there has to be a need for it. Where people are years ahead of their times. Just like the first group are living in the past. The spectators, the big capitalists and the greedy are living in the past and their wish is to remove all restrictions and government control. If we do that we will invite inflation and high prices on our shortages and help to bring about a disasterous deflation and later a depression.

We are going to have a few years of shortages in many of our commodities. Our warehouses are empty, our store shelves are empty, there is a great demand for everything. Competition is greater than production. But because of our great capacity of production, increased by the war needs. Our production will catch up with consumption.

Our foreign markets we slowly fill when the situation arises. that we again produce more than we can consume we will have the depression. We will again be confronted by unemployment, over production and under consumption. How long this will take is hard to tell, but I do not think it will take over five years, unless we lag our plans, and take care of problems as they come along.

We are due for inflation, and it will not hurt if proper measures are taken. It will hurt if it comes through high prices caused by scarcity. We therefore need control, we need ceiling prices on our shortages. We need floor under agricultural products to keep supplies from lowering prices below cost of production. We need a minimum wage scale to ensure a fair living standard for the laboring man. I believe in the right and advisability of labor and farmer to organize to protect their welfare.

We have three factors of production, Land, labor and capital. When anyone of these factors gets out of balance in relation to the others, our economy gets out of balance.

When we read history we find in this country and in the world, that the welfare of the country depends upon a stable agriculture and it affects the economics of the land. When the purchasing power of the farmer goes down it causes unemployment. This was the case after the first World War. The farmers were unorganized and did not have government protection, we all know the results. We do not want to take away the protection we have, but it should be adjusted.

Labor was organized and held their own until the demands for their products fell off. Greatly through lack of the farmers purchasing power.

Now the farmers' purchasing power will hold well as long as we are feeding starving Europe. After that we will have to have a floor under agricultural products. We may need regulated production, and subsidies to hold up purchasing power of agriculture. We are subsidizing the world today, why not the farmer tomorrow if it is necessary to keep our economic balance? We have in the past and are today subsidizing capital. What is good for the goander is good for the goose.

The welfare of the country is not measured by capital assets, or money deposited in our banks idle money and idle capital does not produce, idle labor does not produce, idle factories, warehouses and elevators do not produce wealth.

When we put idle labor to work in idle factories we produce, produce is what we need to maintain our national welfare. But national welfare may not mean individual welfare. On the other hand individual welfare does mean national welfare. The welfare of an individual or of the nation depends upon income in which every farm it comes. The national income is what we all earn. The problem is to distribute it more fairly. We have a large national debt, the payment of this debt and interest comes out of our income, the greater our income the easier the burden.

It is only by production we create income (except by speculation) if production falls short of supply of balance, income also follows suit. Therefore we need these ideas may be the thing people want and need a 100 years from now. It maybe a lot sooner, but the time is not here now. If that idea is to be for the good of the people it has to come gradually and there has to be a need for it. Where people are years ahead of their times. It is only by production we create income (except by speculation) if production falls short of supply of balance, income also follows suit. Therefore we need government control and regulation (should be kept to the minimum). When the government steps in and helps to maintain the balance there can be a period of "full employment." We should not worry what it is called as long as it is for the welfare of the people and the nation. We should not care from what "ism" a good thing comes from, but we have to be sure it is a good thing even the it have a big capitalist. They always holler "ism" when anything is proposed for the common herd, but we as the common herd have to watch and not holler capitalism just because a thing is called capitalism, or hope a big capitalist.

Our great President Roosevelt said in one of his last statements: "If civilization is to survive we must cultivate the science of human relationship, the ability of all peoples of all kinds to live together and work together in the same world at peace." The same thing applies to us living in the best country in the world. If we can not live up to the principals of peace set forth by Roosevelt in that statement and live up to it in this country as well as in the world we lose our lives and died for those principles will have made their sacrifice in vain.

We know that most of the problems confronting us are national problem, but there are things relative to our welfare as citizens of our state that rest on the national problems. The legislature often passes resolutions and submit them to Congress, thereby voicing our wishes and needs. Such resolutions have weight but only upon our own congressmen, but upon the whole body, the House and Senate.

Further in the campaign I will discuss state problems as they are brought out in the respective platforms of the two parties. I have set forth the social principles upon which I will base my record and vote if elected.

I am for an adequate housing program properly handled.

I believe in better health legislation, which I will discuss later. I am on record for a better old age assistance (or pension) allowance, and will work to broaden the present act.

I have always worked for workmen's compensation and unemployment compensation and social security laws. These three are necessary to maintain our industrial and economic balance, especially in a depression.

We have to somehow take care of the unemployed during a depression or slack period and the unemployment compensation and social security laws are our only way of doing it except through W. P. A. and other direct donations.

I know of no other way to take care of the agricultural marketing slack except through our conservation system called the A. A. A. But it may be that system could be improved. I am against taking the handing of it away from the farmer and as stated above we need a floor under the farm price structure, to prevent the price from falling way below cost of production.

It is my contention if we can keep labor employed at a fair living wage and the farmer producing at above cost of production the small business men will always prosper and it should be to their own interest to see that the farmer and the laboring class prosper as well as to secure our national balance of production and distribution. Our only method of a fair distribution of our national income is by wages and fair farm prices.

I believe in a fair system of taxes according to ability to pay. I once voted for a sales tax during the depression when our revenue was falling off and our state treasury was going in the red. That was only a two year trial. I do not believe in a sales tax under our present sources of revenue and shall vote against a sales tax should it be introduced.

I have always stood for good farm-to-market roads as well as good and proper state roads.

I have outlined my principles as to establish and maintain a stable and balanced economy under our system of government and I pledge myself to work in accordance with it.

I sincerely seek the vote and support of the voters of the 65th legislative district upon this principle.

Respectfully,
MARIUS WALDAL

INCOME OF STATE CITIZENS UP ONE BILLION SINCE '39

Number Seeking Relief Declined 90 Per Cent in Five-Year Period

Tracing for the first time Minnesota's tremendous war-time expansion of income and its effect on the state's welfare programs, Jario Leirfallon, director of social welfare for the state, pointed out in a report released this week that income of the people of Minnesota increased more than a billion dollars between 1939 and 1944 and, with the expanding employment, reduced by fully 90 percent the number of persons requiring maintenance relief from local welfare boards.

Per capita income of the people of Minnesota almost doubles increasing from $500 to more than $950 annually, between 1939 and 1944, the report showed. "This increase represents over a billion dollars a year of additional income to people of the state," the report continued. Total income from all sources for the state for 1944, on the basis of U. S. Department of Commerce data, was placed at $2,295,000,000.

"Nearly 90 per cent of the increase in income, which has so effectively reduced assistance loads," said the report, "came from salaries and wages, farm income and earnings of individuals in small businesses."

Number of Minnesota persons receiving maintenance relief dropped from an average of 126,260 in the 1937-1938 fiscal year, the report showed, to only 11,100 during the last fiscal year, that ending June 30, 1945. Some indication of a slight upward trend developed during the latter months of 1945, Leirfallon said, but the total for December was still only 11,660.

The elimination of military payments, allowances and allotments alone will reduce the income of people in the state by over $100,000,000. Payrolls of many industries in all probability cannot be kept up to war levels, it suggests. Many workers who migrated to other states may return. Even if a national lack from 60,000 to 1:2,000 jobs to employ all who were working at the war's end.

Americans strike 500,000 matches a minute, some one estimates.

BJORKMAN'S TOGGERY

From where I sit ... by Joe Marsh

Our town has a Housing Shortage

Yes, sir, there's a real housing shortage in our town, as I guess there is in yours, too.

Keefer Cole, for instance, is sharing his home with a brother-in-law from Connecticut. Six children and a dog in one family; four children and three cats in the other.

I asked Keefer how they got along together — especially the grownups. Didn't they get a little edgey from the noise and crowding?

Keefer looks at me with a twinkle. "Sure," he says. "And when that happens, Sara and I just pass around four sparkling glasses of good beer ... and that reminds everybody that there are still a lot of friendly, gracious pleasures that can help us make the best of things."

From where I sit, it's great to be able to relax during this strain of postwar living with a beverage that's truly moderate and wholesome, truly friendly.

"Where Good Furniture Costs Less.

Farmers are your neighbors—They wa[illegible] to know that—

Cooperatives were born of economic necessity

THREE out of every four farmers in the great Northwest belong to cooperatives.

These cooperatives are associations of farmers.

They were created for farmers' mutual benefit.

They render their farmer-owner-patrons the services they need—at cost.

The farmers take their products to their cooperatives. These products are handled at cost and sold—at a saving to the farmers. And, to complete the cycle of cooperation, farmers may purchase equipment and supplies used in operation of their farms—at a saving.

But back of the beginning and growth of every farmers' cooperative is the old story of economic necessity. Farmers had to do something.

There is a saying that necessity is the mother of invention. Dire necessity for organization and self help forced farmers into action.

For generations, farmers and their families had eked out a precarious living off their land. They never knew what their crops would bring until after harvest. Then they got the bad news.

They did know that the speculator, the commission merchant from the markets in the big cities, would be on hand to buy up as much as they could for as little as possible.

The farmers knew that what they received would be a very small portion of what consumers in the cities and towns would have to pay.

Then, on the other hand, the farmer knew that everything he had to use in operations of his farm he would pay for at the top retail rate.

The farmers were caught between the millstones. They bought high and sold low.

Your neighbors, the farmers, like to consider themselves America's foremost individualists.

But, as individuals, they found themselves unable to solve the problems common to all of them. So, the farmers consulted together. They decided to enter into a partnership to build and operate their own marketing and purchasing enterprises. They built their cooperatives.

They made all these enterprises non-profit organizations. All the savings made by working together were to be returned to them on the basis of their patronage. And, as true partners, each had a voice and a vote in all decisions.

Your neighbors, the farmers, like their co-ops. Their co-ops have helped farmers to increase their incomes. They have helped farmers to farm more efficiently. They have helped farmers to provide their wives and children with a few more of the good things of life.

Farmers are your neighbors. They want you to know about their cooperatives. They want you to understand their problems. They want the friendship and good will of all of you.

Next time you go by a farmers' co-op, stop in and get acquainted with the manager. He's one of your town neighbors. Let's pull together.

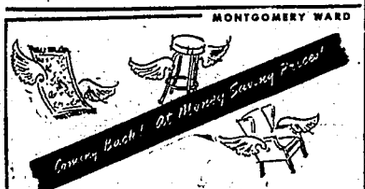
TRAFFIC DEATH RECORD IMPROVES

16 Deaths Occured on Highways in February



Sixteen deaths due to motor vehicle traffic accidents gave the February best record of any month since July, 1943, the Minnesota highway department reports. While 16 deaths in one month are just 16 too many, nevertheless safety experts were encouraged to note that the increase in accidents, which was so rapid in the latter part of 1945, has been at least temporarily checked.

The February fatalities were 19 less than in the preceding month and three less than in February, 1945. They brought the 1946 total to 61, equal to the January-February total in 1945. There were 68 deaths in the same months in 1944, 28 in 1943 and 73 in 1942.

Twelve of the February fatalities were due to accidents within municipal limits, and only four on rural highways.

Eleven of the 16 victims were pedestrians, all over 50 years of age. All but two of the fatal pedestrian accidents occurred during hours of darkness.

ARGENTINA HOLDS ELECTION . . . Strong man Col. Juan Peron, dictator of Argentina, right, who appeared by early returns to have been defeated for the presidency by Dr. Jose P. Tamborini, left, democratic union candidate. Antiquated system of vote-counting resulted in several weeks' delay in the final count. The election of Dr. Tamborini was favored by the U. S. state department as an aid to the "friendly neighbor" policy in Latin America.

Spare Ration Stamp 9 Valid for Canning Sugar, Fargo OPA Office States

A note of warning came with the announcement Monday that spare ration stamp 9 had been validated for five pounds of sugar, to be used for canning purposes. Stamp 9 is valid until October 31.

The warning came from Charles L. Hughes of the district OPA rationing section in Fargo, who said indications are that no more than 10 pounds of sugar for canning purposes will be issued this year.

"According to available information, another stamp will be validated later in the season, perhaps for an additional five pounds of canning sugar, "Hughes said, "it is doubtful there will be further canning issues. He urged consumers to delay using the newly validated stamp until actually needed for canning.

HIGHLANDING

A large group of friends and relatives gathered at the Andrew Ellingson home Sunday, March 10. Little Rosemary Johnson, who has been quite ill, is reported much improved.

Rev. Fr. O'Toole was a Thursday evening visitor at the Will Vaughan home.

Removing Spots

When cleaning a garment at home plump up the spot well with a pad of cheesecloth or white blotting paper. Work with the spotted side next to the pad so that the liquid will carry the stain out, not through the material. The padding will absorb the fluid carrying the spot.

SILVER JUBILEE MEETING OF LAND O'LAKES NOW ON

President John Brandt Principal Speaker at Sessions This Week

The very health of the nation is threatened by government controls imposed on the dairy business of America, John Brandt, president and general manager, declared at the Silver Jubilee annual meeting of Land O'Lakes Creameries in Minneapolis.

"The situation has gotten so completely out of hand that it is seriously affecting the total production of dairy products," Brandt said.

"In fact, it is already a prediction of the United States Department of Agriculture that the production of milk in 1946 will show the greatest decline from the previous year of any time in the history of dairy statistics.

"This situation can be corrected if the econmic and future welfare of the consuming public as well as the dairy farmer is taken into consideration, but it can only get worse if decisions continue to be made on a basis of what seems politically the advantageous thing to do."

A huge crowd of delegates and members from northwest dairy plants which make up the Land O'Lakes organization assembled in the main plant of the association to pay tribute to the pioneers who have contributed through its 25 years to the success of Land O'Lakes in growing into the largest dairy marketing cooperatives in the world.

Brandt's annual address highlighted one o fthe three-day sessions, which began with a special tribute to LOL buttermakers and cheesemakers for high efficiency.

Frank L. Farley of Spring Grove, Minn., who wth Mr. Brandt holds the distinction of having served 25 consecutive years on the Land o'Lakes board of directors, also took part in the day's program reminiscing on his long service in the organization.

Concentrates Needed

Experiments show that carcasses of good quality cannot be produced on young beef cattle without feeding a considerable amount of concentrates. In other words, beef produced on pasture alone will not have enough fatness to be of sufficiently good quality to meet the demands of our larger markets and of consumers.

Beauty and the Beast

by Lucile Crites.

Excitement ran high in the spacious drawing rooms of a prominent New York hotel. Because of a nationwide beauty contest, twenty-five lovely girls from as many states were assembled for final judging by James Harold, famous artist and beauty critic.

The prize offered was five thousand dollars or a four years' scholarship at any chosen college, and a portrait of the winner to be painted by the artist himself.

This was the third and last day of intensive judging by various men and women, and the girls were tired and anxious for the decision of the final judge.

In a haze of cigarette smoke they sipped their cocktails, awaiting four o'clock and the arrival of the artist.

They peered into many mirrors, retouched their already perfect lips, adjusted shoulder straps, and admired their various colored formals, while chattering incessantly.

The gayest of the crowd and the least nervous, was Patricia Stone, eighteen year old blonde beauty from Georgia.

"Have a cigarette, Pat," invited Jane, cordially, offering her pack.

"Thanks, Jane, but I don't smoke."

"There's always a first time," teased Mary, impudently.

"Not for me," returned Pat, showing two deep dimples.

"Then have a cocktail," offered Laura, indicating a tray.

Sue looked coldly at Patricia and said, sarcastically: "Being a sissy won't get you anywhere."

Patricia's big blue eyes filled with tears and her lips trembled as Jane spoke sharply.

"Must you be rude, Sue?" Pat has as much right as you or I to choose her habits."

"Sorry. I only wanted to be friendly."

"It's all right, Sue," Pat said, quietly. "I understand."

"ONE, TWO, THREE, FOUR!" chimed the big clock.

"Mr. Harold will be here any minute, and am I nervous!" mumbled Mary. "I declare I'd rather be Daniel facing the lions in their den."

"I'll die if I don't win," said Jane.

"Just put on my tombstone, "She looked her best but it wasn't good enough," laughed Pat.

"Where are any of you got that I haven't?" asked Laura, grinning at the crowd.

"Ask Mr. Harold, we wouldn't know!" several of the group replied, and the chatter went on from one to the other.

"With five thousand dollars," said one, "I could doll up to lure a rich husband!"

I'd buy a yacht and go places."

"I'd spend every cent on fur coats; I've never had a seal that wasn't born a polecat."

"What would you buy, Pat?" asked Jane.

"I'd love to go to college, I'm wild to. But I guess I'll take the money and give Mother a much-needed operation and Dad a vacation. He's never had one, poor dear. Then I'll buy clothes, too, lots of them. I love 'em! You notice, girls, I'm spending my money now—for I know I don't stand a chance."

"You can't tell. Men fall for blondes—and dimples," said a tall brunette, enviously.

"Blondes? They eat 'em alive!" teased Jane, giving Pat a quick hug.

Suddenly the door opened and the chatter stopped instantly, for the great James Harold had arrived!

"Hello girls!" he called out cordially. As someone started to introduce the contestants he protested:

"No, don't tell me your names. Just pin those numbers on those pretty dresses of yours and we'll begin our final tests. I know you are anxious to have this over. Now, line up and walk around the room."

Silently, fearfully, they obeyed him. The man's keen black eyes took in every movement.

"Thank you. Now all but Number One be seated, anywhere. Number One, walk to that chair near the door... Sit. Relax... Rise and join the others."

When all had gone through the same routine, the artist said:

"Voices, next. One at a time, beginning with Number One, repeat after me these words: "THE CORNERSTONE OF BEAUTY IS RIGHT LIVING!"

"Now relax. I'm going to make a quick sketch of each girl, beginning with Number One."

Not a sound was heard except the scratching of the pencil on the turning of a page in the sketchbook. Finally, he was through. Intermission was called, and tea was served.

Two hours later, after innumerable tests and measurements, the artist rose and smiling at the solemn group, said:

"I am ready to give my decision, but, first, I'm going to draw a picture for you. Watch closely. No talking, please." He stepped up to the easel.

On the sketch board appeared a beautiful girl. Young, alert, glowing with health and loveliness. She was so alive that one seemed about to speak through the soft, parted lips. The artist paused and stepped aside a moment that all might see. Then under swift, sure strokes of the pencil, appeared a cigarette, its smoke curling around the beautiful head, gradually obscuring its loveliness. In the other hand the girl now held a cocktail glass. Quickly he wrote below: 'BEAUTY AND THE BEASTS!"

Turning to his astonished audience, the man said kindly:

"Before announcing the winner of this beauty contest, let me say truthfully—that each one of you has much claim to beauty. Nice eyes, a sweet smile, or lovely hair. Beauty, however, as an artist sees it is more than that. Beauty is an elusive thing. It takes more than classic features to make a perfect picture. It has been said 'Abstinence of self-indulgent habits is the Cornerstone of Right Living.' Let me add, AND OF BEAUTY."

Not a sound was heard as the artist paused and looked at the lovely group.

"Remember I am not a preacher. I'm an artist and I speak solely from the viewpoint of my profession."

Pointing to the drawing he continued:

"Smoking mars good looks. It puts lines in smooth young faces; it hardens soft young mouths; it makes beautiful lips... making them less desirable." Smoking is one Beast seeking to devour your youthful Beauty."

Pausing he touched the cocktail glass.

"Liquor is another and more destructive modern Beast stalking our youth. Cocktails may be considered smart, but nothing is smart that destroys, and cocktails are sure death to loveliness. They make sweet breath sour; bright eyes, dull; young nerves, unsteady. Poise vanishes when liquor appears. Perhaps you doubt what I say, but time will prove that I am right."

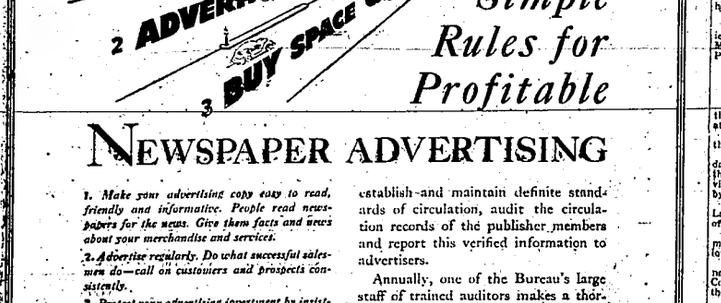
The girls looked very serious as the great artist continued:

"When I came here today, I knew none of you. Though I still do not know your names, you are no longer strangers to me. By looking into your faces, watching you walk, and listening to your voices I have discovered your habits, and they—make—me—sad. Beauty is a precious heritage. Do not cast it thoughtlessly aside, to follow the herd! The price is too great. You are young, slow, and lovely. Cherish your beauty and protect it, before it is too late.

"Of the twenty-five girls here today, only one was able to sit quietly, absolutely still. She alone has perfect poise. She alone has a clear, unwavering gaze, relaxed nerves, and co-ordination of muscles."

The artist went on, calmly, seriously:

"That one has a glow to her transparent skin, a sheen, a shining form within. She is happy! Her hands are steady; her walk is graceful. Her whole bearing is great! I am positive the chief reason is



"SHE DOESN'T SMOKE OR DRINK!"

All eyes turned to Patricia Stone even before the artist announced:

"I am happy to award the prize to NUMBER SIX!"

• MEMO TO ADVERTISERS

Three Simple Rules for Profitable

NEWSPAPER ADVERTISING

1. Make your advertising copy easy to read, friendly and informative. People read newspapers for the news. Give them facts and news about your merchandise and services.

2. Advertise regularly. Do what successful salesmen do—call on customers and prospects consistently.

*3. Protect your advertising investment by insisting on audited circulation reports that tell you just what circulation you get for your money. Guesswork is wasteful.**

*In order that you may know just what you get for your money when you advertise in this newspaper, we are members of the Audit Bureau of Circulations. This is a national, cooperative association of more than 2000 publishers, advertisers and advertising agencies. Organized in 1914, the purpose of the Bureau is to establish and maintain definite standards of circulation, audit the circulation records of the publisher members and report this verified information to advertisers.

Annually, one of the Bureau's large staff of trained auditors makes a thorough audit of our circulation. The verified facts and figures thus obtained are issued in an official A.B.C. report.

Our A.B.C. report tells how much circulation we have, where the circulation goes, how it was obtained, how much people pay for it and many other facts that you should know when you buy newspaper advertising. Thus when you advertise in this newspaper your investment is in known and verified values.

Mosquito Killer

DDT has proved the best mosquito killer ever discovered, but it is not the quick acting poison known to entomologists. In studies of how the poison works, investigators have fed microscopic crystals to individual mosquitoes and have observed results. Many of the insects live for hours—but die in a day or less. Death is sure — but sometimes slow. But the wigglers in a pond treated with DDT — or in a glass beaker in the laboratory — die quicker. Whether the wiggler gets enough poison to cause its death or not, DDT causes it to go into something resembling a nervous spasm or the "cramps" that sometimes cause human drowning. It sinks and tries to struggle back to the surface for air, but is not able to make it, and drowns. From the standpoint of mosquito killing, the cause of death is immaterial; the wiggler that drowns will never be able to carry malaria germs.

Good Psychologist

In Michelangelo supreme artistry was joined with a profound understanding of human nature. Finishing a statue for Gonfalonlere Soderini, the master remembered that his eccentric patron never accepted a work without first offering some criticism of it. The sculptor prepared for the eventuality. Soderini, true to form, frowned when he inspected the statue, and inquired critically, "Do you not think the nose is ill-proportioned?" Michelangelo admitted with feigned reluctance that possibly it was, and, mounting the scaffold, gave the offending member a few harmless taps with his hammer, dislodging a handful of marble dust that he had scraped up from the floor for that purpose. "Ah, that is magnificent!" exclaimed Soderini. "Now you have given it life indeed. I am satisfied!" —Your Life.

Lemons Mix Well

Lemon juice and lemon rind collaborate very well with many different fruits and vegetables and meats. A fruit salad or fruit cocktail is vastly improved by the addition of a little lemon juice. And for a good vegetable salad dressing, you can hardly find a substitute for that lemon juice flavor. Add lemon juice to hot buttered vegetables, such as asparagus or harvard beets. A little lemon juice on fresh spinach or other greens is delicious. When you make fruit pies or cobblers, bake a few thin slices of lemon right in with the fruit, and you can accentuate the sweet fruit flavor by contrasting it with the tangy citrus juice.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Eating Habits and Table Behavior

"Bobbie is so funny about his food—he won't eat vegetables." "Susan eats enough, but she is so messy—I wonder whether she will ever learn to eat so we won't be embarrassed in public." Such complaints are common among preschool age children. Perhaps no other problem looms as large in parents' minds as does this one of learning to eat a variety of foods using the table manners approved in our culture.

A. L. Baldwin made an analysis of the eating habits of 76 preschool children. He interviewed the mothers and observed the children and judged each child on three aspects: appetite; finicky eating that is, likes and dislikes and resistance to new foods and ways of preparation and table behavior—the kind of table manners the child has.

He found that a classification of children into "good" and "poor" eaters was too crude. Of 40 children in this group who had poor appetite, 33 also had poor table behavior, and 20 of these were also finicky. His conclusions may be summarized as follows:

(1) Unsatisfactory eating habits are the rule rather than the exception in this particular group of children, but only 15 per cent may be definitely classified as "eating problem."

(2) Good appetite and good table behavior are closely related. Good appetite—prevails in homes which are strict about a few essentials of behavior, but not so strict that the child's behavior and activities are completely determined by the parents. These parents give the child a great deal of approval, and much freedom so that the child is socially well adjusted.

(3) The excessive strictness found in the homes of children with good table manners comes from the parents' attempts to force the child into rigid conformity to adult standards. Such constraint makes the child incapable of free and spontaneous behavior and hinders his social adjustment.

(4) Acceptance of a variety of foods and absence of finicky eating is generally obtained in families where the children receive enough attention and affection so that the child need not use mealtimes to obtain such satisfaction.

In general, we may say that many preschool age children show eating behavior which doesn't conform to adult standards. Eating is learning a situation similar to many others in the child's life. However, good appetite, good table behavior, and acceptance of many different foods may be encouraged if the parent is strict about only a few essential behavior patterns, and the child knows what these are because of the parent's consistence in demanding compliance.

Beyond these few essentials, a good parent gives the child plenty of approval and favorable attention as well as freedom in many of the lesser aspects of behavior. The parent who realizes that the young child cannot learn adult eating skills overnight, can help his child to become a "good" eater, with socially acceptable table manners.

News of R. R. Valley Home for the Aged

Ole G. Rosen, who came to us from Plentywood, Mont., last fall, left the first of the month to visit relatives and friends at Winger, Mentor and Erskine, before returning west again.

Emil O. Hagen, who went to the southern part of the state to visit his children, and to seek medical care, returned here on Sunday evening to again take up his residence.

Miss Adeline Flamme, who was receiving care at the hospital has been very low, but latest reports are that she is gaining a little day by day, for which we are very glad.

Miss Gabrielle de Cathelineau, with two brothers and a sister-in-law from Rochester, Minn. came to be with their aunt, Miss Flamme during her critical illness, and left again for Rochester on Sunday afternoon.

Peter Gulbranson and Soren Moe who are both receiving care at the hospital, are slowly gaining and we hope soon to have them home again.

Joe Rostvold and Pete Johnson took the bus to Crookston on Friday, returning the same evening.

Rev. and Mrs. G. R. Carlson of the local Gospel Tabernacle assembly held their monthly service here last Thursday afternoon.

We were glad to have these rural friends call on us this week: Mrs. Appelman of Highlanding, Mrs. Andrew Wells of Goodridge, Mr. and Mrs. Emil Larson of St. Hilaire and Rev. Thv. Myhres of Newfolden. Also Mrs. Flan, Mrs. Fiergland, Mrs. Carrie Rawley, Mrs. John Olson and Mrs. Dr. Haney of this city.

The Baptist Young People in charge of Betty Melvie, president, held their weekly meeting here Friday evening, with Dr. Johnstone as special speaker, who gave a very interesting account of the life of Daniel. Special singing and a good reading completed an interesting program, closed in prayer by Rev. Rabine after which a delicious lunch was served by Pastor and Mrs. Rabine assisted by the lunch committee. They will meet here again next Friday evening for their regular Bible study.

Mrs. Roy Goodno and Mrs. Albert Ulschafer called on Mrs. Moe and other friends at the home recently. Mrs. Nellie Shoar, also called here on Sunday afternoon.

We were glad to have as our guest for Sunday dinner Rev. Lindholm and we are thankful for the fine songs we had the pleasure of listening to after dinner.

We want to gratefully acknowledge the following memorials which have been received this month:

In memory of Th. Severson of Holt, given by Mr. and Mrs. Fred Peterson of Newfolden.

In memory of John H. Paulson, given by friends from the Home, and by Mr. and Mrs. John Olson of Alvarado.

In memory of Raymond Johnson of Eagle Point, given by Mr. and Mrs. C. L. Hall, Mr. and Mrs. L. F. Johnson, Mr. and Mrs. Aug. Johnson, Mrs. Ellen Wismer, Mrs. Viola Johnson, Axel Johnson, Mr. and Mrs. Albert Peterson, Mr. and Mrs. Edwin Anderson, Peter Strandell, Mr. and Mrs. Alfred Johnson, Mr. and Mrs. Geo. Zinke, and Mr. and Mrs. Kalin Anderson, all of Eagle Point and Brayton.

In memory of Nells Hanson, given by John C. Jorgenson, Earl and Willie Jorgenson, T. S. Iverson, Dreng Roisland, of Hazel, C. O. Carlson and family and friends at the Home for the Aged, this city, and from Mr. and Mrs. Isaac Wilson, Bremerton, Wash.

In memory of Mrs. Ole Lee of Oklee, given by Ole O. Lee.

This year more dairy farmers than ever are adopting the 8-Point Dairy Program sponsored by the State Extension Service, the Dairy Industry Committee and the U. S. Department of Agriculture. The slogan of the program is "Efficiency and Quality Pay."

Thief River Co-op. Creamery

To prepare this special dish to the king's taste, cut beef stew meat in large dice, brown in bacon drippings or lard. Add water and cook until very tender, about one to one and one-half hours. Near end of cooking time, add diced potatoes and carrots, whole small onions, and peas. Cook until done. Thicken gravy with flour-water paste. Garnish with tiny pickled beets and sour cream and prepared horseradish, and toast points.

"GAY GADGETS"

Associated Newspapers—WNU Features

BY NANCY PEPPER

WATCH YOUR SUITORS

Not the kind you're dreaming of and drooling for—but the slick accessories you wear with that new summer suit. Don't be guilty of murdering your suit in the first second and third degrees with the wrong gadgets. Don't kill your costume with clutter. Here are the sailors you'll find at the teen gadgeteria of your favorite store.

Box Bags—No more of those salvage depot handbags. This year your suit bag is a trim little box shape with a big mirror inside the top. Or it's a small pouch with bracelet handle. You'll find 'em in the Teen Gadgeteria.

Bow Blouses — Your favorite blouse this spring fastens high up at the neckline with a perky bow. Not so many shirts this season—more "tailies."

Sweaty Scarfs—Everybody's wearing square or long scarfs knotted ascot fashion. Pick your colors carefully for bright accent and costume harmony. Tuck the ends inside your suit neckline.

Sissy Sailors—Your favorite suit hat is the sissy sailor in felt or straw with the little ribbon streams floating down the back. You've been wearing Dutchies and cloches—so why not try something new?

Dark on Light—Don't be afraid to wear a black, navy or brown blouse with your pastel blue, maize or aqua suit. Then match some of your accessories to the blouse.

LIFE'S BIGGEST MOMENT

The day I started school when I was six,
And graduation day—Gee, that was great!
I nearly swooned the day I entered "HIS."
I REALLY swooned the night of my first date.
These memories, once cherished, now are gone,
Forgotten, disappeared — like last year's snow.
Since last night's dance, when all the gang stood 'round
TO WATCH ME LINDY WITH MY O.A.O.

THAT MORON'S HERE AGAIN!

Did you hear about the little moron who drove a nail into the bowl because he wanted to Spike the Punch?

—o—

And the moron who climbed up on the rafters to get on the Beam?

—o—

Well, as the sick dog said, "It shouldn't happen to a Man!"

THOSE PLANNING TO ENROLL AT 'U' SHOULD ACT NOW

Minesota 'U' Expects Heavy Enrollment for the Spring Quarter

The large number of new students, especially veterans, who are known to be planning to enter the University of Minnesota at the opening of the spring quarter were appealed to this week to complete all preliminaries of admission at once. Purpose of the appeal is to avoid the crush that took place at the opening of the winter quarter when university enrollment leaped from around 11,000 to over 16,000.

"Students should complete the formalities of admission at once and can do so by mail, after which the actual registration in courses, physical exams and the like can be taken care of with ease on the three days of formal registration, March 28, 29 and 30," said Dr. William S. Carlson, dean of admissions. Many of the students of whom I am speaking have written in for the necessary forms and have these in their possession," he said. "If they will complete them and return them, either in person or by mail, there will be no problem at the opening of the quarter."

Dean Carlson noted that the number of veterans who have told the Bureau of Veterans Affairs they plan to enter the university is very much larger than the number who have taken the matter up in any way with the office of admissions.

The appeal is made only to students not now in the university, as other procedures govern registration of students currently enrolled. It is made, also, only to Minnesota students, as there are restrictions on admission of students from outside the state.

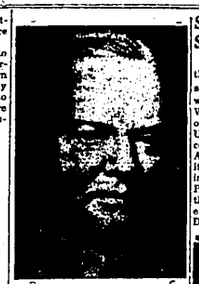
PUBLIC HOUSING SLIGHT HELP IN HOME SHORTAGE

Plan Has Been Of Little Benefit in Housing Construction to Date



Seeking to clear up what they said are mistaken impressions of the extent to which government-owned low-rent housing has been used throughout the country, officials of hte Citizens' Tax Relief Association of St. Paulin a study made public this week pointed out that the number of such housing units constructed in states having public housing authority lawsrepresents only about one-half of one percent of the total housing units.

"The talks made by some of our officials and others have created an impression in the minds of many persons that our housing shortage can be solved merely by enacting a public housing authority law," John F. Scott, president of the association, said, "and that, if we had had such a law, we wouldn't be having a housing shortage now.

"Without arguing the merits of government-owned housing, the matter is that states with public housing authority programs have been having as much trouble as those without them, for the simple reason that the public housing that has been developed is but a small drop in the bucket compared to total housing requirements. The Federal Housing Authority points out that only 194,000 units have been provided under the low-rent housing program for the whole country and this includes some war housing that is being converted to low-rent housing. That is only about one-half of one per cent of the 37,300,000 housing units in the country."

Shaking Hands

Paradoxically, the handshake is based on mutual distrust. In ancestral days, men upon meeting would circle slowly around one another with hands on daggers. If there were to be parley, they would simultaneously set their daggers down and seize the other man's hand before he could snatch his weapon again. Today the handshake is a sign of friendliness.

Prewar Jap Fishermen Ranged Far for Catches

Some two-thirds of Japan's prewar fish take came from coastal and near-by waters, rated among the world's richest in marine life. This was further augmented by fish cultivation in lakes, ponds, rice fields and rivers at home.

In fishing in foreign seas, chief source of the export supply, Japanese ships ranged from the Pacific sub-Arctic to Antarctica. So vigorously did Japan exploit away-from-home fishing grounds that other nations protested, pointing out that even though the Nip fishermen remained outside the three-mile territorial limit, their activities reduced the local catch and tended to destroy future resources by cutting fish off from breeding grounds. In the 1930s, for instance, when Japanese floating canneries off Alaska showed interest in salmon fishing in that part of the world, United States complaint to the Japanese government brought about withdrawal of the project.

Prewar Jap whalers hunted their game in waters claimed by Australia; competed with whaling fleets of Norway, Britain and the United States in Antarctic seas. Coming late to the scene, their floating whale "factories" were huge, modern and efficient. In a successful season, one whaler alone reported a net profit of $1,500,000.

Tiny O Shima Famed Jap Suicide Island

O Shima has long held the sinister reputation of being Japan's top ranking "suicide island," says the National Geographic society. Each year scores of people, young and old, driven by a strange and unnatural urge at self-destruction, throw themselves into the crater of its volcano, Mihara-Yama.

The island, which possesses a good harbor, lies at the entrance of Sagami bay, a southern vestibule to Tokyo bay. Because of its location it might be compared to Corregidor, watchdog of Manila.

A tiny place, consisting of 36 square miles, O Shima is the most northerly of the "Seven Islands of Izu," lying off the coast of Izu peninsula, and is known to foreigners as Vries island. This alias helps identify it. At least 20 islands in Japan are called O — shima meaning "island." The 5,000 inhabitants are distributed in six villages along the coast. They live mainly by fishing and exporting cherry tree wood to the main islands of Japan. A little corn and some sweet potatoes are raised. Unlike their Japanese brethren on the mainland, who have a reputation for their art and music, the people of O Shima possess no musical instruments and dancing is unknown.

Safety During Storm

The code for protection against lightning, as received from the National Bureau of Standards, gives the following choices of shelter: 1, large metal or metal-frame buildings; 2, dwellings or other buildings which are protected against lightning; 3, large unprotected buildings; 4, small unprotected buildings. If remaining out-of-doors is unavoidable, keep away from: 1, small sheds and shelters if in an exposed location; 2, isolated trees; 3, wire fences; 4, hilltops and wide open spaces. If a person is inside no choice is given other than staying away from fireplaces, stoves and other metal objects. Caves or depressions in the ground are considered to be particularly safe, consequently it may be assumed that the basement would be the safest part of an unroofed house during a thunderstorm. Where lightning rods are installed properly there should be comparatively little danger anywhere inside a building.

Early Subs

The first submarine ever to be employed in war was built in America in 1776, according to Encyclopaedia Britannica. This early submersible of the American Revolution, called the "Turtle," attempted unsuccessfully to sink an English ship by fixing a gunpowder charge to the ship's bottom. Another example of early American ingenuity in submarine warfare occurred during the Civil war. In 1864, the Confederate ship, Housatonic, was sunk by a torpedo fired from the bow of a Union submarine. In this case the submarine itself and its nine-man crew were lost when water came in through the hatch.

Schoolmen's Week at 'U' Set for April 15 to 18

A late Easter this year throws the spring vacation of the public schools to the week of April 14-20 with the result that Schoolmen's Week, the annual big get-together of Minnesota school people at the University of Minnesota, will be conducted over the four days, April 15-18. Plans for the activities of the week are now approximately complete, Dean Wesley E. Peik, stated. Visiting speakers for the yearly short course for superintendents and principals will be Dr. Harold Benjamin, formerly at Minnesota, now of the United States office of education; Dr. Paul Mort, distinguished educational authority of Ohio State University; Dr. Hollis L. Caswell of Columbia University and Dr. Paul Leonard, of San Francisco State Teachers College.

BIG FLOCK OF BLACKBIRDS SEEN HERE LAST SUNDAY

Another sign of the approach of the spring season was detected Sunday by Mrs. Clayton Thompson of Rustad's addition in the form of a large flock of blackbirds.

ASPIRANTS FOR STATE OFFICE ENTER NAMES

Thye Files for Senate; Luther W. Youngdahl Seeks Governorship

Starting off a series of fast moving events following the opening of the filing period Wednesday of last week, Governor Edward J. Thye, for three years Minnesota's chief executive, announced his candidacy for the Republican nomination for U. S. Senate post now held by Henrik Shipstead.

Immediately following, Luther W. Youngdahl of Minneapolis resigned as associate justice of the state supreme court and filed Saturday for the Republican nomination for governor.

Senator Shipstead announced Monday night in an address over a statewide radio hookup that he will be a candidate for a fifth term in the senate. At the same time he attacked Harold E. Stassen, former governor, referring to Thye only as Stassen's "hand-picked substitute".

One of two senators who voted against ratification of the United Nations charter Shipstead made it plain he was willing to campaign against his opponent on the international issues.

Asserting that he is determined to do everything in his power to prevent a third world war and "to insure happy successful homes for the people as a whole," Stassen last Thursday pleaded for the development and strengthening of the United Nation's organization as the "best hope of the goal of peace."

Stassen declared that the United States "must not be its foreign policy down to any other position but "develop a definite policy which is its own policy, plainly discussed with its own people and open and clear to the world."

In entering the senate race, Thye outlined briefly major considerations which, he said, had led him to make the decision:

"I want to helpering about the closer relationship and understanding between labor and management and agriculture which are going to be essential if we are to meet the needs of our people in the new era before us.

"Agriculture is one of the nation's greatest basic industries and we in Minnesota depending so completely upon the welfare of our farmers, must recognize above all others how important it is in the period of uncertainty and change ahead to have men representing us in government who have experience with and a knowledge of farm problems.

"I will give strong support to the United Nations Organization. Those of us who were the young men of 1917 and 1918 served our country in the military forces fighting for democracy and a permanent peace. Our sons and daughters during the past five years have served in a horrifying, fatalistic war. Should another war take place in the world, the destructive powers conceived and perfected in the atomic bomb could lay waste to our great cities—yes, and destroy much, if not all, of mankind."

Former German Pastor to Speak in Tabernacle

Evangelist Bertil Foragren, just returned from Norway, Sweden and Egpland, where he has gathered first hand information on present conditions in Europe, will begin special meetings at the Gospel Tabernacle on Sunday, March 24, speaking at 11 a. m. and 7:45 p. m. Mr. Foragren was pastor of a large church in Hamburg, Germany, from 1930 to 1935, at which time he was banished by the Gestapo, being branded "Hitler's Public Enemy No. 1".

Proposed Revision of Beer Ordinance Would Change Closing Hours

At an adjourned session of the city council Monday evening, City Attorney Theodore Quale was instructed to prepare an amendment to the present beer ordinance providing that beer taverns close at 12 o'clock midnight on week nights instead of 1 a. m. as at present, and that they remain closed all day Sunday instead of being open from 1 to 10 o'clock p. m. as at present.

ROSEAU WHIPS CROOKSTON IN REGION FINALS

Mustin Quintet in State Tournament On Minneapolis Today

Coach Ambrose Kramer's fast-breaking Roseau team won the eighth regional basketball championship here Saturday night by defeating a young and scrappy Crookston team, 33 to 29. This afternoon, Roseau will meet a favored Austin quintet in a first round game of the Minnesota state high school basketball tournament being played in the field house at the "U". In a consolation game Saturday night, Bemidji, playing up to their pre-tournament form, racked up a 48 to 23 win over Erskine.

Jack Peterson's field goal, and his free throw, gave the Pirates an early lead in the title game against Roseau, but Roseau's Hegland and Delmore, on field goals, shoved the green-and-white into a point lead. The period ended with Wheelhouse scoring a field goal to knot the count at 7-all.

Roseau, breaking quickly and setting up their scoring plays, scored four field goals and four free throws in the second period to assume a 19 to 12 lead at the intermission. Guard Gerry Haukebo and center Luther Hegland were the most effective players in the Roseau scoring drive. The Pirates second period points were tallied by Wheelhouse and Carey on field goals, and Halterson's free throw.

The Pirates, revealing the same kind of aggressiveness that they

Pennington County Citizens Hold Five Million War Bonds

Pennington county citizens purchased a total of $5,860,578 in war savings bonds during and between the eight loan campaigns from July 1, 1941, to December 31, 1945, Leif Gilstad, in charge of state headquarters, announced in a final report this week. Included in the total are $3,095,680 in E bonds.

Proceeds of the various drives in this country, over all of which Paul A. Lundgren presided as chairman ranged from $300,400 in the second campaign to $840,177 in the last or Victory Loan drive. A total of $1,187,097 in bonds was purchased between campaigns. In aggregate purchases Pennington county was credited with $290 in E bonds per capita, the report shows.

This county received five citations for its high standing in the various campaigns, surpassing all other Minnesota counties in this respect. The county ranked second in total sales in the second war loan, third in E bond purchases in the fifth loan, first in the sixth loan and second in seventh and Victory loan drives.

Red Lake county is credited with purchases of $2,816,914 in bonds during the war period, including $928,583 in E Bonds, or an average of $147.80 per capita. The county ranked first in total sales in the Victory loan drive.

Marshall county, with O. M. Mattson of Warren as chairman, received credit for $6,665,924 in total sales, of which $4,416,090 was in E bonds, a per capita average of 299.80.

NINETY FAMILIES ON WAITING LIST WILL GET PHONES

Instruments Now Being Produced in Quantity, Manager Rau Reports

The long time of waiting for a telephone will soon end for 90 families in Thief River Falls whose orders for service were delayed by shortages of equipment growing out of the war.

A. J. Rau, manager for the Northwestern Bell Telephone company, states that telephone factories are now producing sufficient telephone instruments to enable the company to soon provide service for all waiting applicants who can be served by present call-handling facilities. In Thief River Falls this will mean that a telephone will be installed for all orders now on the company's waiting list. The installations are now being made and will be completed within the next few weeks.

Telephone lines serving most sections of the city are being used to near capacity and all new residence telephones will be installed on a party line basis. It may be necessary, according to Mr. Rau to temporarily change some lines now working on an individual line basis to party lines in order to provide service for waiting applicants. The building of more telephone lines, planned for the near future, will remove the need for this expedient.

The installation of telephones for these 90 families will add a considerably heavier volume of calling to the already busy local switchboard. The central office is now serving 1627 town telephone customers and 323 farm telephones an increase of 238 telephones during the war period.

Use of the service grew steadily during the war and in the past six months of peace has increased even more rapidly. Local calls are now averaging 10,300 daily, which is 1300 more than a year ago. Long distance calls also reflect the use about 320 out-of-town calls are now made each day compared with 250 a year ago.

With the still further step-up in calling expected, Mr. Rau points out that there may be times, particularly during the busier calling hours, when the operators will not be able to answer and handle calls as rapidly as in the past. Rush calling hours are from 9 to 11 a. m. and 3 to 5 p. m. Calling at other than these hours and keeping calls brief will help greatly, Mr. Rau says.

Mrs. E. O. Peterson of this city reported Monday having seen two robins in her yard. Since then, a number of other local residents have notified the Times that they have seen the red-breasted harbingers of spring.

THIEF RIVER FALLS NOW OVER QUOTA IN RED CROSS CAMPAIGN

With a number of teams yet to report, the city of Thief River Falls Wednesday had exceeded its $2,600 quota in the 1946 Red Cross fund drive, a total of $2,685.26 having been turned in by city solicitors to Stanton R. Dahlen, campaign treasurer. Goodridge village also was over the top, having contributed $63 against a quota of $40. Only townships reporting up to yesterday were Deer Park, which had raised $37 of its $40 quota and Star township, which contributed $48 toward its $60 quota.

A $5 payment was reported for the town of North, making total county collections of $2,-838.26 against a county quota of $3,975.

INGEBORG LEGVOLD 85, DIED SATURDAY, RITES WEDNESDAY

Pioneer Resident Had Made Her Home in City for Past 41 Years

Final rites were held Wednesday afternoon in Trinity Lutheran church for Mrs. Ingeborg Legvold 85 years old, who passed away in a local hospital at 10:30 p. m. Saturday, March 16.

Mrs. Legvold was born on November 13, 1860 at Satersdalen, Norway. As a child she was brought to this country and made her home at Beloit, Wisconsin. When she was still a young girl she moved to Belgrade, Minnesota and later moved to Fisher, where she was united in marriage to Ole Legvold in 1882. They then homesteaded near Grafton, North Dakota, but later returned to Fisher. In 1906 she came to Thief River Falls where she had since made her home.

Mrs. Legvold was a member of Trinity Lutheran church and had been very active in church work. For the last 10 years she made her home with her daughter Betsy. During the first world war she was active in Red Cross work.

The surviving family includes two sons, Ole and Gunder of the city and five daughters, Mrs. Lars Erickson, Mrs. Gertie Iverson, Miss Betsy Legvold all of Thief River Falls; Mrs. Robert Beebo of Hancock, Minnesota, and Miss Gena Legvold of Ingdon, North Dakota. She had seven grandchildren and 5 great grandchildren. She was preceded in death by her parents, husband, two sons, one daughter, three brothers and two sisters.

Following services in Trinity church final rites were held in Bygland at 2:30 P. M. with interment in Bygland cemetery 8 miles northwest of Fisher.

ROTARY SUPPORTS CIVIC CENTER PLAN

E. B. Benson Discusses Processing of Wool

Members of the Rotary club at their weekly luncheon Tuesday noon in the Evelyn hotel heard a discussion by Dr. O. F. Melby of the proposed revision of the city zoning ordinance, which was given its first reading by the city council last week.

E. B. Benson was the principal speaker at the luncheon, supplying a detailed account of the growing wool manufacturing process in connection with the woolen industry.

Preliminary arrangements were made to have a group of farmers as guests of the club at its meeting on Tuesday, April 2.

Ted Anderson of Silverton, Oregon, arrived at the Art Berg home on Tuesday. He also is visiting Mr. and Mrs. Lars Klove and other relatives in Plummer.

PENNINGTON CO. AAA MEETINGS ARE ARRANGED

Farmers to Sign up for Soil-building Work at Community Meetings

Starting next week, the Pennington county AAA will hold sign-up meetings for all the farmers in the county who wish to carry out soil-building practices for the program during the coming year, Carl R. Anderson, county chairman, stated today.

The following practices will be applicable to Pennington county farms and farmers for 1946: Weed control of sow thistle, Canada thistle, creeping jenny, leafy spurge and quack grass either by clean tillage or by application of chemicals. Summer fallow, plowing under green manure, crops of buckwheat and sweetclover, pasture, improvement, harvesting hayseeds of alfalfa, red clover and alsike clover, planting trees for windbreak, clearing land for pasture, clearing land for tillage on farms with less than 60 acres of cropland, applying phosphate and ditching where proper outlets have been provided.

Each farmer will request the kind of practice and the amount he will want to carry out. In the case where the amount has been requested to the extent that it will exceed the total allowance for the county, adjustments will be made.

Federal crop insurance on wheat and flax is available for the 1946 crops. Insurance agents have been appointed and are now taking applications. Due date for signing insurance applications will be April 15, and due date for signing the farm plans for carrying out the soil-building practices will be May 15. The county AAA office will mail notices to all farmers in the county, informing them of the place and date of the sign-up meetings, Anderson said.

Sylvia Thompson Weds R. L. Anderson Mar. 9

Miss Sylvia Mae Thompson, daughter of Mr. and Mrs. Thomas Thompson of Storden, Minn., became the bride of Raymond Lowell Anderson, son of Mr. and Mrs. Albert Anderson of this city at a single ring ceremony Saturday afternoon, March 9, 1946 at 4:00 p. m. at the Minehaha Lutheran church of Minneapolis with Rev. Tennor Thompson officiating.

They were attended by the sister of the groom, Miss Merriam Anderson and a friend of the couple Harvey Haugen both of Thief River Falls.

Before the ceremony Miss Merriam Anderson sang "Ah, Sweet Mystery of Life."

The bride chose for her wedding a light brown suit with brown accessories and a corsage of yellow roses and white sweet peas. Her attendant wore a gray suit with black accessories and a corsage of red roses and sweet peas.

Those attending included Mr. and Mrs. Clarence Fowler of Redwood Falls, Minn., Mr. and Mrs. Wilfred Einertson of Lamberton, Minn. Mr. and Mrs. Wilton Walker of Minneapolis, sister of the bride, also Rolland Sande and Gladys Anderson, cousin of the groom both of Thief River Falls.

Following the wedding a dinner was served complimenting the bridal couple. The table was beautifully decorated with red roses while a three tiered wedding cake topped with a miniature bride and groom formed the center piece.

Mr. and Mrs. Anderson are making their home in Minneapolis, where the groom is employed.

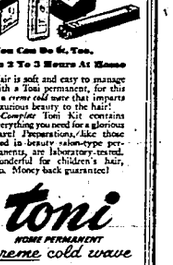
Helen Leskinen Speaks Vows With M. Johnson

Miss Helen H. Leskinen, daughter of Mr. and Mrs. Matti Leskinen of Middle River and Myron L. Johnson, son of Mrs. O. B. Johnson of Holt, were united in marriage at the Finnish Lutheran church at Middle River on Sunday, March 17, at 4:00 P. M. Rev. E. O. Uness of Holt performed the single ring ceremony in the presence of close friends and relatives.

The bride chose for her attire a white gown of taffeta and marquisette with a sweetheart neckline. Her double finger-tip veil was edged in lace and had a beaded tiara. Her pewelery consisted of a heart-shaped locket, a gift of the groom. She carried a bouquet of gladiolus. She was given in marriage by her father Matti Leskinen. An attendant, the bride chose a close friend Miss Irene Johnson of Middle River. She wore a gown of blue marquisette over taffeta, blue elbow length gloves and carried a colonial bouquet of tulips and gladiolus. The groom was attended by his brother Burnett Johnson. Both were blue suits with white carnations.

Before the ceremonies, Miss Joyce Peterson, niece of the groom sang "I Love You Truly", accompanied by Miss Delores Sandberg of Holt. Miss Peterson sang "O Perfect Love". She wore a gown of green taffeta. Miss Sandberg had a yellow net over taffeta gown. Both wore corsages of white and red carnations. Lighted tapers decorated the alter.



A reception was held at the bride's home immediately after the wedding. A three tiered wedding cake topped with a miniature bride and groom flanked by lighted tapers decorated the table. Waitresses were Mrs. Selmer Sorter and Mrs. Orlin Nese, sisters of the bride. Also in the evening about 40 neighbors and friends of the Middle River community gathered at the Matti Leskinen home to surprise the newlyweds with a reception. After the reception the couple left for a week's honeymoon. For travel the bride chose a suit of brown check with brown accessories.

The bride is a graduate of the Middle River high school and the Auker's Business College of Grand Forks. She was employed by Oscar Schenkey as bookkeeper. The groom was recently discharged after 3 years of service in the U. S. Army. The couple will make their home in Holt where the groom is proprietor of the Holt Cafe.

Fathers Day Banquet Held at St. Bernard Church Tuesday Night

A fathers day banquet on the feast of St. Joseph was held in the St. Bernard church parlors Tuesday evening with approximately 250 children and fathers present. The affair was sponsored by the Eucharistic committee of St. Bernard's sodality.

Gerald Prets, a member of the committee, served as toastmaster and gave a brief introductory speech in which he explained the meaning of a sodality and introduced the subject of the ensuing program, "America's New Frontier." A discussion on the subject followed by Donald Brosnail, Junch Breaney, Ralph Engelstad, Frances Green, and Audrey Hylden.

Miss Colleen Engelstad presented a brief sketch of the life of St. Joseph and Patrick Conners presented a humorous reading entitled "Jacob Strauss." With James Plough taking the role of St. Paul Raymond Dougherty as Joe Bellaunti, a soldier, and Phyllis Engelstad as the reader the skit "That They All May Be One" followed. Carol Kleinvachter entertained the assemblage with her humorous reading "Calling a Boy in the Morning" and the program closed with three selections by the high school boy's octette.

A springtime motif was carried out in the table decorations which included a centerpiece of lily ponds and lighted tapers.

News of R. R. Valley Home for the Aged

Mrs. Mary de Cathelineau with her daughter Gabriele and sons Louis and Peter from Rochester, Minn. drove up on Thursday to be present at the funeral of their sister and aunt, Adeline Flamme, who passed away at a local hospital Tuesday evening, March 12th, after a lingering illness. The de Cathelineaus visited with friends at St. Hilaire and returned to their home Saturday afternoon.

Mrs. Fred Berringer has called at the Home several times lately to call on her father Joseph Benoit, who was ill for a few days.

Many of our folks have been ailing again for a few days, but all are again up and around. Our bed patients however are not gaining as fast as we would wish.

We are really rejoicing in the sunshine and nice weather of the past few days which makes it possible to go out for a short walk without a top coat on. The snow and water has also disappeared in a hurry and we hope for a lovely spring.

Mr. and Mrs. Gunder Stromme of Oklee called at the Home on Saturday and took Grandpa Stromme back with them for an over Sunday visit.

Mrs. Wilfred Langeness and little sons who have been staying with us since the latter part of January were pleasantly surprised Saturday morning when Mr. Langeness came home having received his discharge from Fort Logan, Colorado. They will again take up their residence at 924 No. Horace.

Callers at the Home recently from this city have been Mrs. Tobine Oftedahl, Mrs. H. K. Strand, Gudhild Evenson, Gladys Weld, and Hans Petersen, and Jim Johansen and George Engen from Grygla.

Mrs. Andrew Bohn of Strandquist called on L. C. Nilson and Jomis Westin on Monday afternoon.

Mr. and Mrs. Archie Marcotte of Red Lake Falls called at the Home to visit with her father Joseph Benoit, who has been ill recently.

Mrs. Oscar Erickson and Mrs. C. E. Noel visited with Mrs. Ed Erickson on Tuesday, March 12th. It was Mrs. Erickson's 79th birthday and the ladies brought her a nice birthday cake, and spent the afternoon with her.

We were glad to have Captain Blakeman with the Salvation Army group last Tuesday evening after her absence of a week and we enjoyed their service.

The ladies of the Baptist church met at the Home Tuesday afternoon for their white cross work. Five ladies were present and quite an amount of bandages were cut and plans for future work were made.

Miss Helga Kellow from St. Hilaire called at the Home on Tuesday and presented a gift in memory of Adeline Flamme, given by a group of neighbors and friends.

We have also received a gift in memory of Mrs. P. Wallin and given by Mr. and Mrs Carl Olson, Mrs. Selma Reyonka, Enoch Wallin, Mr. and Mrs. Chas Wallin, Mr. and Mrs. Ralph Grodie all from Middle River and sent in by C. M. Isaacson.

A gift in memory of Nels Gundson of Holt and given by Mr. and Mrs. A. Rudahl Mr. and Mrs. Andrew Anderson and Mr. and Mrs. Manvel Moe of Thief River Falls and Mr. and Mrs. I. M. Petersen of Holt and sent in by Rev. E. O. Urness.

A gift in memory of Wilhelm Grodie given by brothers, sisters and relatives and by Mrs. Nora Hallingrud and family, Mr. and Mrs. Lichelt, Mr. and Mrs. J. Knutson, Mr. and Mrs. N. Waldorf, Mr. and Mrs. F. Klein, and Mrs. Emma Gustafson.

A gift in memory of Roman Paulson and given by Mr. and Mrs. Herman Saulsbm, Mr. and Mrs. Harvey Patton, and Russell Patton of Thief River Falls, and Mr. and Mrs. Harry Severson of Valley City, No. Dak.

We are so encouraged by these many fine memorials and the interest shown in our local Home for the Aged and again we say "Thank you and God bless You".

Army civilian employees went down from 1,262,913 in June 1944 to 1,147,400 in June 1945 while Navy civilian employees increased during the same year from 662,770 to 772,886.

Carried.

Moved by Hyland, seconded by Mandt that the County Auditor be hereby authorized and directed to lease lands forfeited to the State for non-payment of taxes, and lands that are delinquent and under writ of attachment. No forfeited lands which are leased for the season of 1946 will be sold pursuant to Chapter 386, Laws of 1933 unless the purchaser agrees to assume the conditions of the lease.

Carried.

Reports for the year 1945 of fees and emoluments of the various County Officers were read and ordered filed.

Annual Financial Statement

To the Honorable County Board, Pennington County, Minnesota.

I herewith present to you a full and accurate statement of the receipts and expenditures for the preceding year, together with a full statement of the finances of the County at the end of the calendar year 1945, including all debts and liabilities, and assets to discharge the same.

Respectfully submitted,
A. M. SENSTAD,
County Auditor.

A petition having been filed by Charles E. Wilson et al for Repair, Improvement, and Relocation of Sanders-Black River Ditch No. 1 of Pennington County, Minnesota, it was moved by Mabey seconded by Mulry that an informal hearing be had on the merits of the petition, said hearing to be held in the Commissioners Room in the Court House in the City of Thief River Falls at 2 P. M. April 2, 1946.

Carried.

Mabey offered the following resolution and moved it's adoption:

WHEREAS: under and pursuant to the terms and provisions of Section 7(b) of the "Federal Aid Highways Act of 1944" (Chapter 625-Public Law 521, 78th Congress, Second Session) Federal Aid at the primary in the manner, and in the amounts as therein set forth has been or will be made available toward the construction of principal secondary or feeder roads,

NOW THEN BE IT RESOLVED: That the commissioner of Highways be and he is hereby authorized and requested to take such steps and perform such acts on behalf of the County of Pennington as may be necessary to enable the County to receive Federal Aid as in said act provided for toward the construction or improvement of the following described road:

Location: Beginning at the North Township line of Hockaday Township and running northwest between sections 33 and 34 of North Township a distance of 2500 feet, thence left on the arc of a 10 degree curve a distance of 500 feet, thence northwesterly a distance of 275 feet to the intersection of First Street and Third Ave Avenue in the City of Thief River Falls, the last 275 feet involving the construction of a new bridge across the Red Lake River at First Street and Third Avenue, thence west on First Street a distance of 1 block to the intersection of State Trunk Highway No. 32 at the Corner of First Street and Main Avenue, S. A. P. No. 2.

Type of work: Grading and new bridge construction. Length app. 1 mile.

New Maytag Range

Above is the new MAYTAG DUTCH OVEN gas range, added this year to the Maytag line of home appliances. Other products of the company include washers, ironers and home freezers.

Sjoberg Appliance company of 315 No. Main av. has been appointed the local distributor for the new Maytag Dutch Oven gas range, Gene Sjoberg, head of the firm announced today. An exclusive feature, whereby the range automatically turns off the gas, seals the flue vents and keeps right on cooking in a heavily insulated oven, makes it possible for the range to duplicate the delicious flavor of old colonial Dutch oven cooking, Mr. Sjoberg was fortunate enough to be among the first to be approved as a dealer.

In addition to the exclusive, automatic control and the retained heat features, the Maytag Dutch Oven embodies many new innovations including safety lever action controls, Permafinish granite, rigid all-welded steel chassis, Dutch cooker-well with three-way burner, high efficiency non-clog roomy storage compartments and pivot-action broiler.

The beautiful gleaming white, porcelain enamel, chrome-trimmed, range is 40" wide, 24½" deep with a cooking top height of 36". The oven, 18" wide, 19" deep and 15" high, has rounded corners for cleaning and is protected from heat loss by 4C pounds of rock wool insulation.

The automatic control turns off the gas and closes the flue vents automatically in response to a previously set timing device, and the range keeps right on cooking with the gas turned off. During the time the gas is burning, the oven temperature is automatically regulated by a thermostatic control and a patented oven door seal locks the heat in.

Two standard-size and one giant-size top burners feature spiral flame and a 6-quart Dutch cooker-well provides the equivalent of two more top burners in cooking capacity. A pivot-action broiler with adjustable height is equipped with a chrome-plated broiler pan and wood handles for convenient sizzle-serve platter service.

The range is equipped with two large storage compartments and two roomy storage drawers with quiet roller action. The entire top of the stove is in one piece with built-in burners. It has full AGA approval for all types of gases.

INSULATION.....

Is clothing for your home. Every human being has his own built-in personal heating system to keep him warm. The object of heating a house is to keep his body warmth from being drawn away too fast. If your heat from your body is drawn away too fast by a cold surface wall, you will feel uncomfortably chilly. Goose pimples, sneezes and a cold often follows.

Protect your loved ones Insulate your home now. Your home regardless of age can enjoy the benefits of Carney Rockwool.

ROSEAU TEAM ENTERS STATE BASKETBALL TOURNAMENT TODAY

(Continued from page one)

exhibited in the Bemidji game, came back in the third period to outscore the Roseau team, 11 to 9. Peterson tossed in a pair of one-handed shots, Halferson scored on a tip-in, Carey lofted a shot from the side of the court, and Helgeson added a field goal and a free throw. Benson's two field goals, one on a "sleeper," and a field goal by Frank Rykken and a field goal and free throw by the fast-dribbling Haukebo, accounted for the Roseau points.

After Haukebo's pushup shot had increased the Roseau lead to 30 to 23, Manley Madson connected with a Pirate field goal from the free throw circle. Wheelhouse added a pair of points on free throws; and Carey, on a dribble in play, scored from close in, bringing the score to 30 to 29 for Roseau. Haukebo's free throw added some "insurance", but with two minutes to play, center Helgeson was ejected from the game via the personal foul route, and it appeared that the Pirates would be able to overcome the Roseau lead, but a nifty *stalling game, with Haukebo* controlling the ball much of the time, and finally, on a clean break, dribbling in to score a field goal, protected the Roseau margin.

SHEEP PARASITE MOVIES TUESDAY

Farmers Are Invited to Meeting in C. C. Rooms

A free moving picture on parasite problems in sheep raising will be shown at the Civic and Commerce rooms in Thief River Falls on Tuesday afternoon, March 26 at 1:30 p. m. according to an announcement this week by County Agent Ernest Palmer.

This picture will show experiments in controlling nodular stomach and tape worms in sheep by the United States department of agriculture and experimental stations. Mr. Palmer states that he has seen this picture and is of the opinion that it is well worth while seeing. All sheep raisers and other interested parties in this area are invited to attend.

Temperature Hits High Mark of 56 Wednesday

The mercury mounted well above the thawing point each day during the past week, reaching a high mark of 54 Tuesday and 56 Wednesday afternoon, the mild weather making heavy inroads on the winter's accumulation of snow. Low mark for the week was 26, recorded Tuesday morning on the power plant thermometer.

A round of cheers to our neighbors of Roseau whose school is doing an outstanding job this year gathering championships. With the state highschool hockey title tucked safely away they immediately put on the pressure in basketball, fought their way through to victories in the district and region and this week are battling it out for another state championship. Our best wishes for their success in these contests which start this afternoon.

That the world is facing a serious food shortage is a fairly well established fact. American agriculture is being asked to increase its production again and there probably is justification for such an appeal, but those in authority should know farm production is not increased merely by pressing a button. The farmer must limit his production to the capacity of the tools he has to work with and the tools of agriculture are not in the best state of repair. Labor is not attracted to farm work at the wages farmers can afford to pay and the uncertainty of being able to secure essential supplies, which is beyond the control of the individual operator, certainly does not give encouragement to added effort. If, as is reported, we are actually facing a critical food shortage, then surely it would be in order to put into effect rigid controls on food again and also provide emergency measures that will give needed help to the producers.

The thing we don't like about Ed Thye's candidacy for the U. S. senatorship is that, regardless of how the election goes, Minnesota will lose a good governor. As the state's chief executive Thye has proven himself an able leader. There is nothing tricky about him. He is forthright and honest and sincere, and these good qualities have won for him the respect of all groups and factions within the state. We are sorry to see him step out of the office he now holds.

The Shipstead-Thye match is going to be an interesting fight. It will be more than a mere struggle between two men to secure a high office. This contest will involve a very live national issue. It will in fact be a test of the popularity of the idea upon which the United Nations has been formed. The close relationship existing between Ed Thye and Harold Stassen is no secret. In this election Thye represents the ideas on a world organization to maintain peace that Stassen has so ably championed in the national and international arena. Shipstead, as one of the two Senators who voted against the ratification of the United Nations, is one of the national champions of the opposition to this idea. For this reason, this contest which is to be decided by the voters of Minnesota, will be of national and international importance.

With steel now back in production again and most of the strikes settled in the automobile industry it is predicted that cars will soon be rolling into the hands of dealers in a volume that will compare favorably with the records of the pre-war years. Apparently those drastic changes in design and construction we heard so much about a few years ago are not going to materialize for some time to come. Such changes would require time and time will not be taken out until at least the more urgent need for new cars has been satisfied. That is encouraging news for those of us who will be glad to get behind the wheel of anything that will get us there and back again. We will be glad to sacrifice the style for any model that has utility.

OPA SETS up Schedule of Trade-in Allowances for Used Tires, Tubes

The end of tire rationing and the increased supply of new tires made it necessary for OPA to establish specific trade-in allowances for reparable old tires and tubes, according to A. W. Sanders, district OPA automotive price specialist at Fargo.

Tires are grouped according to their condition, with no allowance for a tire irreparably damaged, a minimum of 50 cents for a tire worn so that it cannot be repaired for guaranteed safe use and for better quality trade-ins, a minimum of 25 per cent of the retail used tire ceiling price.

There is a similar schedule for the trade-in tubes, Sanders said, with no allowances being made for those damaged to the extent they cannot be repaired to qualify as sound tubes, and 25 per cent discount of the retail used tube rate on others.

Per capita income in the United States was $680 in 1929, 368 in 1933, $575 in 1940, $1117 in 1944. New York was high in '44 at $1519 Mississippi was well down the line at $955.

In Memoriam

In memory of our dear husband and father Pfc. Leonard T. Llan who was killed in action in Germany one year ago on March 19, 1945.
He who died bravely
Bravely died
And asks no tears of you
For you were by his side
In that last tilt at death
He saw you smile
Ere the light fell dim
And all the breath of your warm love
Encompassed him.
And so, just one quick sob of grief
As when you kissed the other day
and said goodbye.
Then smile
And gird yourself to walk awhile
A steep and lonely way
Your lost one lives and loves you still
Onward and upward
He awaits you there
Beyond the hill.
Mrs. Leonard Llan and Larry, Gloria, James and Leo. 12p

WRESTLING IS FEATURE HERE THIS EVENING

Ray Steele Headliner on Attractive Card in City Auditorium

Ray Steele, big-time wrestling's "policeman", and generally conceded to be one of the most polished and cleverest of the nation's wrestlers, will headline the wrestling card that promoter Bill LaFave has scheduled for the Auditorium this evening. Steele will meet Reginald Siki, a 220-pound, six foot seven-inch Negro in one-fall or one hour time limit match. In a semi-final bout, and a special feature, promoter LaFave has signed a pair of women wrestlers, June Byers and Nell Stewart, for a one-fall or thirty minute time limit match. Miss Byers, 155 pounds, of Houston, Texas and Miss Stewart, 140 pounds, of Chicago, are entering a campaign which they hope will force Mildred Burke, claimant to the women's middleweight wrestling championship, into a title bout.

And in a preliminary bout, Chief Little Wolf, a colorful heavyweight contender, will tangle with Cal Rees, a 220-pound wrestler from St. Joseph, Mo. Chief Little Wolf who now tips the beam at 250 pounds, began his wrestling career as a welterweight. As he blossomed into a full-fledged heavyweight, he engaged in matches with such outstanding grapplers as Dick Shikat, Sando Szabo, Ernie Dusek, Gus Sonnenberg, Joe Savoldi, Jim McMillin, and others.

In addition to these bouts, promoter LaFave announced that three preliminary bouts, with local youngsters who have been receiving wrestling instruction from Ernie Palmer and Quentin Jones, will open the program.

The first match is slated to go on the mat at 8:00 P. M. Wally Karbo of Minneapolis will referee the feature matches.

Hard-fought Contests Feature Early Rounds of Region 8 Tourney

In the regional basketball tournament first-round games played here Thursday afternoon and evening, Erskine, Roseau, Bemidji and Crookston, all district Class A winners, were victorious over their Class B opposition.

Erskine, with Roger Bagne scoring 17 points, defeated Walker 31 to 18; Roseau, on the verge of defeat, rallied in the final minute to eke out a 37-to-36 win over Fisher; Bemidji, with blond Chet Pawlicki accounting for 19 points and Don Sievek tallying 11 points, won over Ada, 44 to 36; and Crookston, within the Pirate regulars playing only in the first period, rolled up a 43 to 26 win over Badger.

In a pair of red hot semi-finals games on Friday night, Roseau, after holding a 40 to 30 lead at the end of the third period was forced to resort to stalling tactics to repel the Erskine Comets, and snatch up-and-go-to-it win, and in the other semi-finals game, the Crookston Pirates recorded one of the season's prize upsets, eliminating the defending champion Bemidji Lumberjacks, 26 to 25.

The Roseau vs. Erskine game found the Comets gaining a 12 to 11 first period lead, but Roseau, with Gerry Haukebo driving in for three field goals, and with Delmore and Benson adding goals, moved ahead to hold a 23 to 19 advantage at the half. Luther Hegland and Delmore, each with six points, paced the Roseau third period scoring upsurge, giving the northerners a lead of 11 points as the teams entered the final period. In the fourth period, Roger Bagne, the tournament's leading scorer, dipped in three field goals and a free throw, Bob Moran added a pair of two-pointers, and Arvid Skogerboe and Paul Ness tossed in field goals, to erase the big Roseau lead. Ray Beggon's under-the-basket shot proved to be the game-winning goal for the green-jerseyed Roseau team as Coach Kramer's squad utilized an effective stall to protect their lead in the final minute of play.

The most dramatic game of the tournament proved to be the Bemidji vs. Crookston semi-finals contest, with the Pirates turning in a giant-killing performance to take the Bemidji team out of the tournament race. For three and a half periods of the game, Bemidji appeared to be the winners; but midway in the fourth period Spike Gary, and a short while later, Don Sievek, were forced out of the Bemidji lineup on personal fouls. From then on, the Pirates began their game-winning surge. With the score at 33-all, and with but a minute to play, Bemidji's Bill Clark, after a fast dribble, scored on a layup shot, giving theJacks a two-point lead; but Andy Carey, on a shot from the right side of the court, looped a Pirate field goal into the net, tying the score with fifteen seconds to play. With but two seconds of the game remaining, guard Bill Krause was called on a holding foul, and lanky Milo Hafterson, who was the star in the Crookston win, dropped in a free throw to give the Pirates their spectacular win and earn the Crookston team a place in the regional finals.

Back-fired

Those seven-to-one odds on Bemidji to successfully defend its title in the regional tournament kind of back-fired. It was perhaps beneficial to regional basketball that the Lumberjacks were upset, and that one of the smaller schools Roseau won the title and the right to enter the state tournament. But there are still a considerable number of fans that maintain that Bemidji had the strongest and best-balanced team in the region.

It appeared that the Lumberjacks were suffering from the same kind of "disease" that affected the Powder hockey team—over-confidence, that is. And again it was a well-conditioned and head up Roseau team thattook advantage of the "breaks" to win.

Roseau was extremely fortunate to get by its first round game, for Fisher, with but four minutes to play, held a 32 to 28 lead, and if the boys had been "feeding" the ball in to big Art Wagner more often, the Fisher margin would have been larger. But Fisher instead of trying to protect that lead, began to take some long and foolish leaves at the basket, with the result that Roseau broke down the floor for some close-in shots, and also drew three personnl fouls, making good on every try, to win by a 37 to 36 score Incidentally, that Art Wagner in the lineup was the most colorful performer in the tournament, and the most effective scorer on the floor from around the free throw lane.

Against Erskine in the semi-finals and Crookston in the finals, Roseau showed to better advantage and was the stronger team, but in both those contests they were given a last period fright and forced to resort to a stalling game to protect their lead.

Bemidji's loss to Crookston, by one point, in the semi-finals was a heart-breaking affair for the Jacks. And while the never-say-die Pirates were always battling for the lead, and were entitled to the win, the fact that Spike Gary and Don Sievek, the Bemidji forwards, were ejected from the game in the fourth period on personal fouls was a big reason why the Lumberjacks lost. Bemidji fans complained plenty when they lost those two boys, and especially because most of the fouls that Spike and Don were tagged with were of the "charging" variety. Bemidji claimed that it was the first time this year that the officials had been *calling "charging" fouls so closely.*

A Pirate Year Coming up

With Don Wheelhouse, Andy Carey, Milo Hafterson, Bill Youngquist, Manley Madson, Gene Helgeson, and Chuck Reitmier—four regulars are included in that list—available for another year of basketball, the Crookston Pirates should give their fans plenty to cheer about next season. Crookston played humpty-dumpty basketball early in the year, inking numerous losses, but by district tournament time the club seemed to pick itself off the floor and begin to click. They'll be a fine team next year, having had the tournament experience of this year.

Bowling Champions

The men's bowling leagues concluded their schedule last week, and the champions named were the Hartz Office team in the Business league, and the Gen's team in the City league. In congratulations to Lloyd Aines, Harold Rasmussen Goose Gulseth, Cliff Myrin, and Johnny Jaranson of the Hartz Office team; and Snort Langseth, Emil Dostal, Gordy Reierson, Henie Wang, John Jaranson, and Jesse and Wally DuChamp of the Gen's team.

Individual bowling averages bounced up a few points, too, with a number of the topflight bowlers returning from the service. Wally DuChamp, though, continued to pace the two leagues, winning the business league honors with a 188 having the high average in the City league with 191. The leading averages in the Business league were: Wally DuChamp, 188; John Jaranson, 187; Ed Carlson, 179; Jesse DuChamp, 179; John Langseth, 178 Ed Karwand, 176; Arlo Jacobson, 173; Frank Kobliska, 178; Walt Ekeren, 173; Harold Olson, 170; Emil Dostal, 175; and Ham Hergland, 170. While in the City League Wally DuChamp, 191; Jesse DuChamp, 180; John Jaranson, 184; Ed Carlson, 184; Merle Carlson, 178; Owen Scramstd, 177; Ed Karwand, 174; Fred Lorentson, 173; Harold Olson, 172; Ham Hergland, 171; Berdeen Nomes, 171; John Langseth, 171; Jim Dryden, 170; and Wally Carlson, 170.

Wrestling Tonight

And don't forget the wrestling card at the Auditorium this evening. Promoter Bill LaFave says the program for tonight is one of the most entertaining that he has brought into town, and that he's quite proud of having signed Ray Steele, and the two girls, June Byers and Nell Stewart.

Toward the end of the recent world war 72 commissioned women doctors were serving in the U. S. Army.

Slightly more than 10 per cent of the total Army personnel were commissioned officers during World War II.

STATE JOB OFFICES PLACE MORE MEN

Bjornaraa Reports on Activities in February

The expanded employer contacting unit of the U. S. Employment Service in Minnesota, during February, made 3,785 calls on 3,081 different establishments in the state in an effort to obtain more and better job orders for unemployed persons who are registered for work at the agency's 37 field offices, Dreng Bjornaraa, state USES director, announces.

This activity, Bjornaraa said, was primarily responsible for a ten per cent increase in the number of job openings in the agency's file as of March 1, compared with the beginning of the previous month.

Placements during February were 7,220; somewhat more than was expected. February is normally the year's low point so far as persons obtaining new jobs are concerned.

Increased placements over January were reported by eight field offices. The best record was made by Fairmont, Crookston, Thief River Falls, Marshall, New Ulm, Redwood Falls, Worthington and Austin also reported increases.

A will or codicil may be signed on any day including Sunday.

SPRING 'QUEEN OF BOVINES' . . . Charcoal Aided Alchemists

Wood, in the form of charcoal, gave man his first mastery of metals. As a smelting agent, it was used by the medieval alchemists in their efforts to transmute base metals into gold. Their efforts were fruitless . . . in that respect, but from them grew the science of chemistry as we know it today.

REINER

A very large crowd attended the Luther League at the Reiner church on Sunday. A good program was given, most interesting was a letter in the Norwegian language which the Andrew Wells family had received from Norway and which expressed many thanks for clothing which they had received from them. John Miller read the letter and afterwards explained it in English.

Mrs. Andrew and Mrs. James Wells served.

It was also decided that anyone who wished to help send clothing to the needy in Norway could bring it to the ladies aid on Friday and these articles will be packed and sent.

Miss Marian Wells visited with her sister-in-law, Mrs. Ray Wells for a few days last week.

Selmer Erickson and Mrs. Geo. Vraa attended the funeral of their sister Magnas husband who passed away at his home in Wisconsin.

Mr. and Mrs. Bennett Johnsrud were Sunday evening visitors at the Morris Miller home.

Mr. and Mrs. Ray Ellingson (Thelma Breitland) are the parents of a baby boy born at a local hospital last Tuesday.

Many from here attended the Norwegian show in Thief River Falls last Wednesday and Thursday evenings and reported it as very good.

Delores Miller spent the week-end with her folks and Lenya Vraa with the Selmer Erickson family.

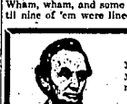
Stanley Erickson is in Fort Snelling for his physical examination.

Andrew Wells accompanied Carl Severson buttermaker in Goodridge to the cities on business last week.

Mrs. Bennett Johnsrude visited for a couple of days with her brother, Mrs. J. Johnsrude at Thief River Falls last week.

Harold Helen received medical care for a finger injury in Thief River Falls. He was up in the windmill when it started to turn and his finger got caught and tore it quite badly.

The Reiner 4H club will meet in the Pershing school Friday, March 22. Miss Hanson new 4H leader will be present.



Wavell Seibert visited for a few days with her grandparents, Mr. and Mrs. Frank Race.

BASKETBALL FANS 'PLAY 'CHOO CHOO" ON HIGHWAY

Claremont—George Weisknecht hustled into Rochester for a high school basketball game, but had to slow up to let a car enter a hospital driveway. Whamt the car behind didn't slow up quite in time. Wham, wham, and some more, until nine of 'em were lined up with bent fenders and locked bumpers. It took an hour to unscramble them and most of the drivers were madder about missing most of the game than about the minor damages here and there.

HOMES... but how?

We have been hearing a lot recently about the housing shortage and mass production of homes by new government subsidized industries.

Let's look into what is proposed for us in this new government program and think straight on this matter to make sure we are really doctoring the cause of our trouble and not merely taking painkiller for the symptoms.

Mr. Wilson Wyatt, former mayor of Louisville, Kentucky, and now National Housing Administrator, wants to spend $600,000,000 subsidizing a big new privately owned prefabricated housing industry—at taxpayers' expense. This industry would place house building in the hands of a few gigantic firms or a few individuals. In Effect, this would create a monopoly to the detriment of local labor and business, and strikes us as a strange procedure in view of the fight for years against concentration of industrial power in the hands of a few people.

Obviously we want homes—a lot of them—and good ones—but let's try to find a horse sense solution and not knock ourselves out looking for magic formulas.

The facts are this scheme is on paper only. It will take from 8 months to a year to get going, cost hundreds of millions at a time when the public debt is already too big, and is bound to have a bad effect on our own local carpenters, bricklayers, suppliers and business men. Even so, it might be worth the sacrifice if there were no other solution.

We think there IS another solution. In all this hubbub over getting new homes, someone seems to have overlooked our own great building trades and industry—the second largest business in the country, employing 6,000,000 people.

This great building industry is manned, experienced and ready to build homes RIGHT NOW in every local area—including our own.

Why aren't they at work right now?

BECAUSE THEY LACK MATERIALS.

That's a hard cold fact and we must quit kidding ourselves and get at the TRUTH about the situation. If materials were available, the building trades could start your houses tomorrow. Ask your own carpenter or contractor and he'll tell you.

What this country needs is not a fancy new way of building homes (at taxpayers' expense), BUT THE MATERIALS TO BUILD THEM WITH. Break the bottleneck in materials and you'll see homes going up all over town. And it's our opinion that they would be better homes, better constructed and more to the individual's taste.

The actual process of constructing houses, except during wartime labor shortage, has never been too much of a problem. As far back as 1925 the building industry of this country built 937,000 good homes in addition to $5,000,000 industrial construction, which was the equivalent of 900,000 more homes. It's our guess that they could go well past the million mark with today's improved techniques, if they were given the materials so desperately needed. And they would do this without new Government subsidies at taxpayers' expense.

We have no bones to pick with prefabricated houses as such. That's a matter of individual taste, altho we sometimest wonder whether women will give up very easily their dreams of a personalized home for a factory model that looks about the same as seven dozen others down the street. Our contention is that the prefabricating industry ought to stand on its own feet and not be supported by taxpayers' money to the detriment of our own local trades and industry depending on home building for their livelihood.

How can we get materials flowing? There are several direct and important things to do—the sooner the better.

1. Make a fair adjustment on strikes. Get them settled so we can start making pipes, wire, wallboard and bathroom equipment... The longer workmen sit around doing nothing, the more aggravated the situation becomes.

2. Make what adjustments are necessary on prices of house lumber to get production going. It is a fact that in some cases the present schedule is actually preventing production of materials.

   EXAMPLE: The present OPA prices offer a premium to mills who will cut heavy timbers for export out of this country but penalize mills who cut siding, sheathing and flooring for the homes we need in this country. This doesn't make sense. Hundreds of mills who could be producing lumber for homes are closed down tight because present price ceilings would run them into bankruptcy.

   We belive in holding the price line to prevent inflation, but we will never get very far if production continues to be strangled. If a small adjustment will break the log jam—let's do it. (The building industry says the increase necessary to get production of lumber going would not add more than $35.00 to the cost of an average house.)

3. Cut out red tape and endless regulations. The more "the planners" try to plan our lives for us, the farther we seem to get into trouble. It's about time we gave the good American virtues of independence, initiative and hard work a chance to make themselves felt.

Get us MATERIALS, and our own local trades and industries will take care of the housing shortage —beginning immediately, and give us the personalized homes we want.

How would you CHART YOUR COURSE?

Pictured here are the records of four "life lines" of our business—four things which largely control the destiny of any business, whether it be a farm, a factory or a store. They are Wages, Materials Costs, Prices, and Profits. Suppose these were pictures of what is going on in your own affairs. How would you chart your future course from these facts?

What about wages? Wages have risen steadily for five years. Before the strike which began on January 21 in ten of our plants and which has choked off nearly all farm machinery production, earnings of employes of these plants averaged $1.15½ an hour, not including any overtime. The Union demanded a 34 cents per hour increase and a Government board has now recommended a general increase of 18½ cents an hour, which would make average earnings $1.33½ an hour. Weekly average would be $53.40.

What about materials? No one seems to know how high materials costs will go. The Government has increased steel prices as much as $12.00 a ton, with an average increase for all grades of 9.2%. Steel is the most important material we buy, but prices on other materials are also increasing.

What about prices? *There has been no general increase in our prices since they were frozen by the Government in early 1942.* Since then a few small increases have been allowed where particular machines were substantially changed in design.

What about profits? Risk is part of the American profit and loss system, so we do not, of course, ask either our customers or the Government to guarantee that we can be certain of profits each year. The chart tells the story of our profits during the war. Although Harvester produced more goods than ever before, it had no desire to get rich out of war, so our rate of profit has steadily gone down. What our 1946 profit will be is extremely uncertain.

What is the next step? As you can see, our present situation is that with frozen prices and declining profits, we are asked to pay higher materials costs and to make the biggest wage increase in the history of the Company. Can we do this?

Wages and materials consume all but a few cents of every dollar we take in. If our prices continue frozen, and cost of wages and materials continues to rise, obviously our Company will begin to operate at a loss at some point.

The exact point at which operating at a loss would start is a matter of judgment. Government agencies and union leaders may have opinions as to where that point is. But if they turn out to be wrong, they can shrug their shoulders and say: "Well, it wasn't my responsibility. I didn't make the decision."

The management of this Company cannot and will not say that. It does not gamble. It has to be sure. Continuation of our service to millions of customers, the future jobs of thousands of employes, and the safety of the investments of 39,000 stockholders depend on our making as correct a decision as is humanly possible.

What about future prices on farm machinery? The judgment of Harvester's management is that at last we cannot safely make the huge wage increase recommended by the Government until the Government authorizes adequate increases in the prices of farm machinery to cover the resulting increased costs.

That is not a judgment that makes us happy. The Company does not want to raise prices. We prefer to lower prices, when possible, and we know our customers prefer to have us do that. We have produced at 1942 prices, and hoped we could continue to do so. We have delayed seeking general price relief in the hope that it could be avoided. Now we are convinced that it cannot be avoided any longer. The price question must be settled. Until it is settled we do not see how we can settle the wage question. Until the wage question is settled we do not see how we can resume production and begin turning out the farm machines which we know our farmer customers need.

Because of the important stake which both farmers and city dwellers have in this controversy, we are bringing these matters to your attention. Through the cross currents of today's conditions, we are trying to chart a course that is fair to our employes, to our farmer customers, and to our stockholders.

BALING HAY THE AUTOMATIC WAY

A small, automatic, tractor-drawn and tractor-operated hay baler, designed for the farmer's own use, is new equipment for postwar. International Harvester Company included this baler, now in preproduction, in a big field demonstration of new farm equipment recently. With this compact machine the farmer moves into the field and bales the crop directly from the windrow when it is ready, thus assuring better quality hay. Operated by power-drive direct from the tractor, the baler picks up the hay from the windrow automatically, makes the bales, ties them securely with baler twine, and delivers them to the rack.

Cleaning Fixtures

Don't use strong solutions or harsh abrasives in cleaning plumbing fixtures. They are likely to dull the enamel as well as the dirt. Instead, clean regularly with a bristle brush and soap and water, or a mild cleanser. To remove stubborn stains close the outlet, cover sink bottom with warm water, add three tablespoons of liquid washing compound to each quart of water. Let stand about five minutes, then swoosh about with a cloth and rinse.

Notice of Leasing Forfeited Tax Lands

Lands remaining unsold which have forfeited to the state for non-payment of taxes will be leased for the season 1946 to the highest bidders. Leasing will be held at the office of the County Auditor starting at 10:00 o'clock A. M. on Monday March 25, 1946. Lands in all townships will be offered.

Group One Food

Because of its deep green color, okra is classed as a group one food on the "basic seven." But, unlike other green and yellow foods of this group, okra is not rich in vitamin A. Okra is a better source of vitamin C—the young pods being especially rich in this vitamin. Okra pods grow rapidly, so whether you are a home gardener or one who purchases vegetables, choose pods that are tender. The vitamin C or ascorbic acid content of okra is very easily lost. The best way to cook okra is with tomatoes until the okra is just tender. This method of cooking will help to keep the essential vitamin C. If okra is to be cooked alone, the most vitamin C remains if whole small pods of okra are cooked in boiling water until just tender or about 20 minutes.

Egg Yolks

Do you know that one-fourth cup egg yolks equals approximately three and one-half yolks and that one-half cup egg whites equals approximately five whites?

GRYGLA

LET'S WORK FOR INDUSTRIAL PEACE

Men want to work.

Management wants to produce.

The public wants to buy.

The country wants prosperity.

Yet good times have been held up by an epoch of strikes.

Strikes breed bitterness . . . hunger . . . and economic stagnation.

For the sake of our country, let's change this! Change it fast. Time is running out!

Let's work out a way to get—and keep—industrial peace and prosperity.

THE FIRST STEP

Isn't a sound national labor policy . . . one that treats workers and management exactly alike and above all one that is fair to the public . . . the first step toward that peace?

Sincerely believing this to be so, we offer this program for peace and production and prosperity:

1. Make employers and unions equal in responsibility under the law.

2. Let Congress set the rules for genuine collective bargaining, free from coercion and violence, and then let government enforce these rules with strict impartiality.

3. Provide safeguards for the public against strikes or boycotts arising from disputes between unions.

4. Insure against strikes until all orderly procedures for settling disputes have been exhausted.

Your representatives in Congress have the power to establish this pattern for an enduring and a fair labor peace. Let them know how you feel about it. Urge them to act promptly on legislation to include these four points.

Time alone won't bring industrial peace. Doing nothing won't bring it. Positive action is the only way. For your own sake and for the future of our country, let your voice be heard!

"FREE! *A timely, authoritative booklet entitled "The Public and Industrial Peace," gives full details of this program, including specific suggestions for legislation. It is a useful handbook for every citizen, program chairman, or group leader. A postcard brings it. Address: National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y.*

Chilling Food

The prompt chilling of food is the best and most important essential of the successful storing of meats, vegetables and fruits and remember that cleanliness has sanitary features as well as economic features. There are two rules about keeping meat: Keep it cold, keep it hot—never warm. The same thing in general is true of all foods. Prompt and thorough chilling is the most important single factor in the successful curing of meat. The recipe for curing meat includes salt, which is used to cure; sugar for flavor and saltpeter for red color. Use 8 pounds of salt, 2 pounds of sugar and 2 ounces of saltpeter for 100 pounds of meat. Smoking is the coloring, flavoring and drying process. If meat spoils in the smoke house, it was already spoiled in curing room.

Severe Sunburn

Contrary to popular belief, sunburn is not as severe at the seashore as it is in the mountains, according to the Better Vision Institute. The burning ultra-violet rays in the sunshine are absorbed to a large extent by the atmosphere. At high altitudes where the sun rays move less distance through the air, and thus lose less of their tanning power, the burning of the skin is more rapid and more severe than at sea level. But whether one goes to the shore or to the mountains for a vacation, it's a good idea, concludes the institute, to wear sunglasses to protect the eyes from harmful ultra-violet rays.

Shaking Heads and Human Liberties

It's a funny thing. Now that the war's over, there's a lot of head-shaking in our town. People saying: "What's the younger generation coming to?" "How can we end these strikes?" "The country's going to the dogs!" "There ought to be a law!" etc.

But when the younger generation was walloping the Axis "supermen"—and labor was doing the most colossal job in history—you never heard a murmur. But now that we're back to our traditional life of personal liberty, just see how the heads begin to shake again.

I guess there'll always be head-shakers—folks who feel "there ought to be a law"—who believe that the best form of regulation is suppression, whether it's applied to beer or baseball.

But from where I sit, America's done pretty well with the idea of personal choice and individual liberty. I guess that's just the way Americans are made.

Easter's comin'...Have a Coke

...friendly refreshment is part of the doings

Getting ready for the big parade is plenty exciting, especially when friends gather 'round. That's a time for sparkling Coca-Cola. *Have a Coke* just naturally means *It's fun to get together.* Whenever people meet, you're liable to find Coca-Cola and the friendly pause—*the pause that refreshes,* the happy moment of hospitality.

MANY FROM AREA PRESENT AT L. O' L. SILVER JUBILEE

$81,000,000 Volume Handled by Big Co-op During the Past Year

Achievement of record business volume of $81,318, 916. 67 in 1945 despite mounting production and marketing problems arising in the wake of war, this week started Land O'Lakes Creameries, Inc. on the big dairy marketing cooperative's second quarter-century of service to Northwest agriculture.

Diversification of products handled by the cooperative was credited largely for the ability to expand business volume at a time when production of commodities such as butter and cheese was being forced downward by governmental controls.

The business report was one of the highlights of the Silver Jubilee in Minneapolis, at which several thousand Northwest dairy farmers and plant operators heard reminiscences of the development of Land O'Lakes over 25 years; reports of the problems which the cooperative has surmounted; and warnings of the new difficulties springing from what was termed discriminatory regulation and regimentation of agriculture.

Among voting delegates from creameries in this area who attended the session in Minneapolis were Oliver Grondahl, Holt; A. M. Lokken, Newfolden; Arthur Nordby, Grygla; Ross Brinkman, Wannaska; Lyndon A. Magnuson, Fourtowns; Carl S. Carlson, Plummer; Swan Walhaug, Oklee; and Lawrence Johnson, Gatzke.

HIGHWAY REPAIRS PLANNED IN STATE

Augmented Program Is Mapped by Department

An augmented program of repairs and resurfacing on Minnesota trunk highways, in anticipation of increased post-war traffic, is planned for this spring and summer, according to M. J. Hoffman, commissioner of highways. Periodic resurfacing of gravel and bituminous routes has been greatly curtailed in recent years, due to the exigencies of war, and betterments ordinarily done as part of maintenance operations were practically suspended. The Department of Highways now proposes to do considerable amount of this type of work. As part of this program, bids are being taken this month on two types of bituminous repairs and resurfacing.

Bids were taken March 8 on application of 4,000,000 gallons of bituminous material on routes where entire surface does not require retreatment. Prices on application averaged 7.77 cents per gallon, compared to a 3 cents average in 1945. In this work the state separate bids on bituminous material, delivered at nearest railroad station, and bids on application cover only hauling and spreading.

The contractor, however, assumes all risks due to delays in delivery of material and delays in application caused by weather conditions. Prices in 1945 were affected by government regulations imposing heavy penalties for delays in unloading, even when weather conditions made application of material out of question. The material and labor situation is also somewhat better in 1946 than in 1945.

Bids are being received March 15, and 29 miles for 521 miles bituminous wearing surface where new wearing surface is required all hto way. In these projects the bidder must furnish all materials and do all hauling, spreading, mixing and rolling. The proposed work will require 240,000 cubic yards of mineral aggregate and 5,000,000 gallons of bituminous material.

RIOTS DURING STRIKES CONTINUE . . . Representative of other strikes, two pickets and a policeman strike the pavement in the action-packed scene as they clashed in front of the Western Electric company's Kearney, N. J., plant. The police seem to have the situation well in hand. While some strikes have been settled, others have been announced to start during April. Violence has been reported in various parts of the country.

STEINER and AGDER

Spring is just around the corner as Wednesday is our first day of spring and crows are coming every day and farmers are talking chicks and turkeys these days. Let us all hope for an early spring.

TRAFFIC MISHAP LAW EXPLAINED

License Supervisor Clarifies Provisions

"The commissioner of highways does not decide who is responsible for motor vehicle accidents nor does he determine the amount of damages to be paid, "E. P. Lee, supervisor of drivers licenses, said in a statement aimed to correct what appears to be a common misunderstanding of the 1945 safety responsibility act.

"The highway department receives a great many inquiries from people who want to know when they will get the money due them for damages suffered in accidents", said Mr. Lee. "The answer is that we do not know, because the department has nothing to do with either deciding who is to blame for the accident, or how much he must pay. If the parties involved cannot agree to a settlement, the question of who must pay, and how much, must be decided by the courts in a civil suit.

"The law provides each driver involved in an accident resulting in death, personal injury, or property damage in excess of $50, must make a written report to the commissioner of highways within 24 hours. Then if the drivers or owners of the vehicles involved fail to file proof that claims have been paid or fail to deposit cash or security to pay them, their drivers licenses must be suspended within 60 days.

"When cash or securities are to be deposited, the amount of the deposit is determined by the commissioner of highways. The amount is intended to be sufficient to pay claims which may arise out of the accident. The deposit is available for attachment upon execution of a judgement.

"After proof is filed that a settlement has been made, or that a judgement has been entered and satisfied, the cash or securities will be returned to the depositor. If all or part of the securities on deposit are needed to pay the settlement or satisfy the judgement, they may be used if written direction to do so is given by the depositor."

LARKS BLAZE TRAIL FOR EARLY SPRING

Lake Benton—It may be malarkey to some folks but it's a pleasant and fascinating lark for Lars have been found to keep track of the coming and goings of the meadowlarks in this vicinity. Way back in 1927 Lars noticed the first spring meadowlark on March 11, and forthwith decided it would be interesting to keep record of the annual advent of this happy harbinger of spring. Latest arrival was March 24,1938, earliest yet recorded March 3, 1946.

AMBITIOUS HENS STILL EGGING ON ADDLED EDITORS

A leghorn at Vernon Center produced an egg two inches across, four inches long, weighing a third of a pound (five and a third ounces). She's in the running, all right, but honors in this statewide egnathon seem to rest with the Schaka hen who delivered herself of a 6½ ounce egg measuring 8 inches in diameter and 10 inches around the long way. It is to be hoped theso records-socking biddies lay off for awhile.

Bees Have Homing Instinct

Bees have a strong "homing" instinct so that they are able to get back to their hives even if they go long distance. Bees often go as far as three miles to gather nectar.

Payments under Social Security Plan Made to Widows 65 Years Old

Widows who have received lumpsum payments from the Social Security Board and who have reached age 65 in the meantime were today urged by John R. Goldman, manager of the Grand Forks office to write or visit the office to file their claims for monthly payments if they have not remarried.

"Our attention has been called to the fact that some widows of workers covered by the social security act who have received their lumpsum payments do not realize that they are eligible for monthly payments also when they reach age 65, providing they have not remarried," said Mr. Goldman.

"We want to make certain that all monthly payments rightfully due these elderly widows are made to them and therefore emphasize the fact that a claim for these monthly benefits must be filed by the widow."

Mr. Forsgren will tell of CONDITIONS IN NORWAY UNDER NAZI OCCUPATION

Before the days of Hitler, Germany, Mr. Forsgren, who is Swedish, was pastor of a church in Hamburg. He built that church from a membership of 22 to about 2,500. But because of his stand for Christ he was banished from Germany by Hitler before the war. He subsequently wrote a widely-circulated book, "With Christ in Nazi Germany," while touring U. S. and Canada for the last six years.

On his recent trip to Scandinavia, Mr. Forsgren has travelled through Norway, Sweden and England, gathering first hand information as to European conditions during and since the war. In Stockholm, Sweden, he preached in the largest church in Scandinavia, a Pentecostal church with seven thousand active members.

1000 ACRES TO FLAX IN 1946...

"Right now I plan to plant about 1000 acres of Flax this year," says H. F. Hansmeier, Bristol, North Dakota, who farms 25 quarters in that area. "It's always been hard to beat Flax as a cash crop. Last year my 700 acres of Flax averaged 18 bushels."

FLAX Looks Like Gold to Me ...SAYS MINNESOTA FARMER

"Spring Flax planting is like money in the pocket." Is the opinion of H. L. Keenan of Glencoe, Minnesota who has threshed from 1,000 to 1,500 bushels of Flax for the past 5 years. "Last year my 137 acres of Flax yielded 15 bushels to the acre bringing me well over $5,000. That makes Flax look like so much gold to me."

90 "WAITING" FAMILIES IN THIEF RIVER FALLS SOON WILL HAVE A TELEPHONE

Telephone factories are now producing sufficient quantities of telephone instruments to enable us to provide service for these 90 families, many of whom have been waiting as long as 9 months for service.

The installation of these new telephones will add an additional load to the already busy Thief River Falls switchboard. But plans have been made and orders placed for equipment to increase our call-handling facilities, and by early summer we expect this equipment to be delivered and installed.

Although the heavier use of the local telephone system for this temporary period may result in less rapid service, particularly during busy hours, we feel sure our Thief River Falls customers will cooperate in making it possible for us to serve the many families who need a telephone.

Keeping your telephone conversations brief will be a big help . . . and so will making your calls at other than the "rush" hours—9 to 11 a. m. and 3 to 5 p. m.—when your need permits.

All of us at the telephone office will appreciate your understanding. We will do everything we can to keep the service as prompt and helpful as possible.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota

The City Council of the City of Thief River Falls, Minnesota, met in regular session in the Council Chamber in the Auditorium and Municipal Building on March 12, 1946. The meeting was called to order at eight O'clock P. M. with Alderman Bergland, Engelstad, Bergo, Nelson present and Alderman Anderson absent.

Minutes of the meetings of February 27, 11th and March 1st, 1946 were read and the same were approved and adopted as read.

Monthly reports of the City Clerk, Treasurer, Manager of Sports Arena, Weighmaster, for January and February, Daily Inspector for January, Park Department, Municipal Judge for January and February, Fire Department and report of Secretary-Treasurer of Board of Cemetery Commissioners for the year 1945 were presented, examined and ordered filed.

Mrs. Basil Westacott, representing the Parent-Teachers Association of Northrop School appeared before the Council with a petition that the evening hours for evening performances at the local theatre be set earlier than 7:30 P. M. if possible, as a means of better enforcement of the Curfew Ordinance and requested the cooperation of the City Council to that extent.

Applications for licenses were presented, as follows: Cigarette, Bert Johnson, Arctic No. 2268, F. O. E. Brunelle & Hanson, Inc. Thief River Falls Oil Company; Taxi operators, Second car in service, Selmer J. Dinneen for operation of Bowling Alleys in basement of Hartz Building, date of application was September 4, 1945; Alban Bergland moved that the Clerk be directed to issue cigarette licenses to applicants and also to Selmer J. Dinneen for operation of one taxi in service upon the filing by him of evidence and approval of proper insurance coverage. The motion was seconded by Alderman Engelstad and such motion was thereupon adopted by unanimous roll call vote. Alderman Engelstad moved that the Clerk be directed to issue license to operate 2 bowling alleys to J. M. Dempster when such alleys are ready for operation. The motion was seconded by Alderman Nelson and adopted by unanimous roll call vote.

An application for transfer of license as to ownership in the sale of 3.2% beer, place of business 212 Lake Avenue North, signed by former operator O. L. Cerny and new operator, S. T. Harstad and C. M. Hunsrude, was presented, the same bearing the approval of the License Committee of the Council. Alderman Bergo moved that such transfer be entered by the Clerk for the present license, which motion was seconded by Alderman Bergland and adopted by unanimous roll call vote.

Applications for building permits were presented, as follows: Kiewel Products Company, construction of truck storage, Lots 20-21, Block 64, cost $1,000; Clarence A. Rasmussen, remodeling Lots 8-9, Block 3, O. L. S. cost $3,000; Bert N. Thorstad, Jr., Lots 1, Block 27 of Knox Rearrangement to Red Lake Heights Addition, cost $500; Gustav A. Hanson, residence, Lots 11-12, Block 3, Highland Lake Heights, cost $4500; S. Hanum, residence, Lot 16, Block 2, Oakland Addition, cost $1900; S. Hanum, residence, North 44.8 ft. Lot 16, Fairfield Addition, cost $4500; S. Hanum, residence, Center 66 ft. Lot 16, Fairfield Addition, cost $2600; S. Hanum, residence, South 66 ft. Lot 16, Fairfield Addition cost $3,000; and Paul A. Dietrich, basement and residence on Lots, Lot 9, Block 3, Highland Addition, cost $1,000; Alderman Bergo moved that such applications be granted, subject to those of S. Hanum, improvements on Lot 16, Block 2, Fairfield Addition, be approved and that permits be issued therefor; the applications of S. Hanum being laid over for further consideration.

An application for abatement of interest and penalties accrued against Lot 7, Block 11 Riverside Addition was presented by Ned Lanzenna, reason for non-payment of taxes being due to army service. Alderman Bergo moved that the same be approved and that such recommendation be transmitted to the County Board of Pennington County. The motion was seconded by Alderman Nelson and was adopted unanimously.

Dent of the City Clerk in the amount of $4000 with Fidelity Casualty Company of New York as surety was presented, the same bearing the approval as to form and execution by the City Attorney; Alderman Nelson moved that such bond be accepted and filed, The motion was seconded by Alderman Engelstad and adopted.

H. R. Barnes, president of the Park Board presented plans for a proposed recreation building for construction on the Tindolph Park property and suggested that the City Council call for bids for the erection of such building. It was moved by Alderman Bergland that the Clerk be directed to cause notice to be published calling for such proposals, the same to be opened and considered on April 9th, 1946. The motion was seconded by Alderman Engelstad and the same was duly adopted.

In further continuation of the hearing on the application of John L. Jonde and Elton C. Cummings for a special permit for the construction of a building of non-conforming use within the residential district as defined by Ordinance No. 100, the applicants presented a petition signed by owners of real estate within a radius of 300 feet of the proposed site of construction and also a drawing showing location of property owned by such signors and it appeared that there was sufficient sentiment for the granting of such special permit. Alderman Nelson moved that the application be approved and that the applicants be granted a special permit for the erection of such building as outlined in their application. The motion was seconded by Alderman Bergland and the roll being called on adoption of motion, the following vote was recorded: Ayes-Bergland, Bredeson, Engelstad, Bergo, Nelson, Nays-None. The motion was thereupon declared passed and adopted.

A proposed Zoning Ordinance was introduced by Alderman Bergland who moved that the same be given its first reading. The motion was seconded by Alderman Engelstad and adopted, whereupon the proposed ordinance was read and filed.

The Board of Cemetery Commissioners requested that Section 7 of Ordinance No. 97 providing for the appointment of a Cemetery Commissioner and the supervision of improvement and care of the City Cemetery be amended as to provision of compensation of commissioner members. The request was ordered laid over for later consideration.

By unanimous ballot Roy N. Langseth was retained in the capacity of Chief of Fire Department as was also H. E. A. Roberts as First Assistant Chief. Chief Langseth announced the appointment of Ole J. Ness as Second Assistant Chief and John Jarnason as Third Assistant Chief and the appointment of George W. Duyenbarger as a full time fireman succeeding Lewis Robinson, resigned. Alderman Bergland moved that such appointments be confirmed and ratified which motion was seconded by Alderman Bergo and adopted by unanimous vote.

Police Chief Hanson brought up for consideration of the Council the matter of dispensing and consumption of refreshments during dances and other entertainments in the main Auditorium and the Sports Areas and suggested that such practice be established. The Building Committee of the Council was empowered to set up rules and regulations to restrict the sale and consumption of refreshments on such premises and to have such regulations prominently displayed therein.

Alderman Engelstad introduced a resolution approving for payment to Minneapolis Bridge Construction the balance of $2,000.00 under Contract No. 2, reconstruction of Power Dam and moved the adoption of such resolution. The motion was seconded by Alderman Bergo and the resolution was thereupon adopted and passed unanimous vote.

Alderman Nelson introduced a resolution approving for payment various current bills against the City and moved its adoption. The motion was seconded by Alderman Engelstad and such resolution was by unanimous vote, passed and adopted.

On motion made and duly carried the meeting was declared adjourned.

ALFRED BRUDESON,
Attest: P. G. PEDERSON, Mayor of the Council.
City Clerk.

RESOLUTION

At a regular meeting of the City Council held March 12, 1946, Alderman Engelstad seconded by Alderman Bergo introduced the following resolution and moved its adoption:

BE IT RESOLVED, By the City Council of the City of Thief River Falls, Minnesota, that,

WHEREAS, the City Council did heretofore enter into contract with Minneapolis Bridge Construction Company, for the reconstruction of the power dam across the Red Lake River, and

WHEREAS, the said Minneapolis Bridge Construction Company has filed their estimate No. 2, showing the amount of materials delivered and labor performed under such contract, which estimate has been examined and verified by the proper officials,

NOW THEREFORE, BE IT RESOLVED, that such Estimate No. 2 hereby is approved and the Mayor and Clerk are hereby authorized and directed to issue the City's check in the amount of $25,695.65 to Minneapolis Bridge Construction Company in payment of such estimate now on file.

ROLL CALL

Alderman voting Aye: Bergland, Bredeson, Engelstad, Bergo, Nelson. Alderman voting No(s): None.

Presented to Mayor March 12, 1946.

Approved March 18, 1946.
W. J. DOUVILLE, Mayor.

Resolution declared passed.
ALFRED BRUDESON,
President of the Council
Attest: P. G. PEDERSON,
City Clerk.

Upholstery Rips

Rips in upholstery can be mended almost invisibly by applying a piece of adhesive tape a little longer than the tear or rip underneath the fabric, sticky side up. Press the torn edges together closely and firmly, with raveled threads underneath.

Puffing Billy

The first crude locomotives were so called by the humorists of their day. They were mounted on wooden frames and with wooden wheels. They burned wood and hauled trains of wooden cars. Then, as now, all rails were laid on crossties of wood.

Rifle Match

The first Great International Rifle Match was held in 1874, when the Amateur Rifle club of New York accepted the challenge of the Irish Eight, winners of the Ficho shield, which is emblematic of the long-distance shooting championship of the British Isles. The match was held at Creedmore, L. I., which was the range of the newly formed National Rifle association. The Americans won 934 to 931. The next year they went to Dollymount and again won 968 to 929.

Banish soap film that dulls your lingerie

MARVENE SUDS puts soap in the shade for washing feminine "flimsies"

Why risk washing sheer underthings, dainty slips and lacy nighties the old-fashioned soap way — when modern MARVENE SUDS is so much *safer*. Lovely lingerie stays fresh looking and color-bright — there's no soap deposit to heavy them up — no soap fading — no soapy odors. No other product washes delicate fabrics and precious nylons so *gently* and thoroughly — with so little effort!

No Soap Matches MARVENE'S Many Uses

Dishes dry sparkling clean without rinsing — free of soapy film and streaks.

No soapy deposits to harden woolens — leaves them soft, fluffy, alluring.

Kinder to your hands than any soap — marvelous for bubble baths.

Black Locust Posts

Black locust posts have a normal service period of 30 to 40 years depending on soil, moisture and other climatic factors.

AGAIN AND AGAIN . . . This gentleman since 1824 appears in Washington on every occasion to voice his opposition to one and all measures before congress. Now he is against loan to Britain. He is "General" Jacob S. Coxey, leader of Coxey's army in 1894. He now wants to protest against the United States loaning any money to anyone in Europe.

Automatic Weapons Must be Registered

All firearms capable of firing more than one shot with one continuous pull of the trigger, must be registered with the internal revenue service, the alcohol tax unit being charged with the enforcement of the federal regulation. The law particularly affects weapons brought back by returning service men such as machine guns, machine and automatic pistols and the like. Persons having such weapons are asked to write to J. M. Sherman, alcohol tax unit, St. Paul.

A WIRE IN TIME MIGHT HAVE SAVED MANY MILES

Roseau—J. A. Jakobsen decided that before spring farm work got too heavy, he ought to visit his daughter in Springfield, Oregon. Upon arrival there he found his daughter had decided it was about time to visit her father in Minnesota. When they finally got together it was perfectly apparent that they had been at the Union Station in Portland at exactly the same time.

Try Impeached

An impeachment is an accusation only and does not mean that the person necessarily is guilty. The trial follows. An official of the government may be impeached and got convicted, as happened to Pres. Andrew Johnson. He was impeached in 1868 for violating the tenure of office act, for corrupt use of the veto power, interference at elections, and other high crimes and misdemeanors. Nineteen senators declared for his acquittal and 35 voted him guilty. As the votes lacked one of the two-thirds required to convict him he was acquitted.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Changes in Play with Increasing Age

A four months old baby is beginning to play with his hands and feet and to handle objects. By eighteen months he uses many play materials such as blocks, sand boxes, and dolls and imitates adult activities. Soon he can use transportation toys such as a tricycle, wagon, scooter. Most adults recognize this need for activity and provide the child with play materials. If there are no toys at hand the child plays with whatever he finds. Sometime the mere presence of another child is enough to satisfy the urge toward active play.

As the child grows older, his play interests change. Lehman and Witty studied a large number of play activities from kindergarten through the college years. Five year old boys and girls are very similar in their play; after that age, sex difference become more pronounced. Both boys and girls imitate adult activities at those early ages and play simple games such as tag and mulberry bush. By age 10 boys prefer such active games as football, baseball, basketball, wrestling, bicycle riding. Girls like to play the piano, play with dolls, listen to the phonograph or radio, read comics and play jacks. Girls prefer the less active and the less competitive games.

At the age of 16, boys continue their interests in sports such as basketball, football, baseball, tennis and boxing, or watch athletics. Although girls play basketball, their interest in purely physical activities has been replaced by interest in "sex-social" events. This may be related to the earlier physical maturing of girls compared with boys.

At age 20, boys' interest in being participants or watchers of athletic events continues, although having dates, listening to the radio, attending movies, reading the newspaper and driving an automobile appear in the list of ten most popular activities. Girls at age 20 list social dancing, dates, going to entertainments and movies, hiking reading, card games and watching athletic events among the most popular activities.

We may conclude that (1) play increases in vigor and strenuousness with age due to increasing physical and mental development; (2) sex-social interests predominate in both boys and girls in the teens, with girls' interest in the other sex appearing somewhat earlier; (3) the number of different play activities decreases from an average of school life, many games have disappeared until the leisure time activities of adults have been reduced to a small number of socially acceptable and even socially necessary types of recreation.

Auto Exports

1929 reports of cars and trucks amounted to 14 per cent of total production. Exports of automotive products averaged $400,000,000 a year from 1920 to 1930, but fell to $50,000,000 in 1935. They rose again to $254,000,000 in 1940.

C. AND C. ASSN. GETS DATA ON MANY PROJECTS

More than 50 Members Present at Luncheon Meeting Thursday

A wide variety of matters came up for discussion at a lengthy session of the Civic and Commerce association last Thursday noon. More than fifty members attended the meeting.

Captain Howard C. Schmidt, on terminal leave from the air corps and the guest of Jack Forkenbrock showed aerial motion pictures taken by him over New Guinea.

Wm. LaFave, chairman of the road committee, reported on a recent conference with M. J. Hoffman, commissioner of highways, relative to proposed highway projects in this locality, details of which were given in the Times last week.

Following a presentation of the matters by police Chief Leonard Hanson, the merchants committee was instructed to cooperate with the police department in working out a parking plan and to submit it to the association at a latter meeting.

Dr. O. F. Melby was named chairman of a committee to confer with the Lions club zoning ordinance committee, headed by James Parkins, relative to making provision for a civic center in the blocks including the Auditorium and postoffice.

Justus Larson submitted a request from the Junior Chamber of Commerce that a committee from the senior group be appointed to cooperate in promoting the 1946 water carnival. The matter was referred to the conventions and celebrations committee.

TRINITY GROUP HEARS G. E. AHRE

Men's Brotherhood Holds Meeting Monday Evening

Glendon E. Ahre was the speaker, Monday evening at the monthly meeting of the Lutheran Brotherhood of Trinity church, in the absence of the president, Justus Larson, Carl Christofferson presided over the meeting which laid plans for the organization's annual Father-Sons Banquet to be held on April 29th and adopted proposals for a new membership plan which were presented by a special committee headed by P. L. Fjelstad.

In addition to the address of the evening, a cornet solo was played by Robert Melby, who was accompanied by Jerry Joringdal; and two piano solos by Mr. Joringdal.

Mr. Ahre related some of the impressions he had formed of the people in England, France, Germany, the Philippines, and Japan during his service with the U. S. Army in both eastern and western theatres of war. He stressed the desperate needs for food and clothing among the people whose nations have been ravaged by war and cautioned Americans to make willing sacrifices on their behalf to prevent wholesale starvation.

The speaker also displayed a large number of souvenirs and mementos of his visits to other countries and answered many questions which followed the meeting.

Local Firemen Attend Regional Meeting in Red Lake Falls Sunday

A group of members of the Thief River Falls fire department journeyed to Red Lake Falls Sunday to attend the spring meeting of the Northern Regional Firemen's association. Speakers included Clarence Cherry of Detroit Lakes, deputy state fire marshal; Frank Palm, Detroit Lakes fire chief; and Sgt. Robert Rosendahl of St. Hilaire, for more than three years held a prisoner of war by the Japanese, who recounted some of his experiences. Present from this City were Fire Chief Roy Langevin, Norris Lasell, Dick Schmitz, Tom Fuller and Albert Hanson.

JUNIOR CHAMBER TO HOLD MEETING THIS EVENING

Stores Open Saturday Nights Starting April 13

Starting Saturday, April 13, Thief River Falls stores will remain open Saturday evenings until 9 o'clock until further notice, it was announced this week by P. E. Tunberg, chairman of the merchants committee of the Civic and Commerce association. During the winter months the stores have remained closed Saturday evenings.

RITES FRIDAY FOR PHILIP R. LARSON, WHO DIED TUESDAY

Former Proprietor of Rex Cafe Succumbs at Home; Was 44 Years Old

Local citizens were grieved to learn of the death at his home Tuesday of Philip R. Larson, popular proprietor of the Rex Cafe from 1933 until last September when ill health forced his retirement. He was 44 years old.

Funeral services will be conducted Friday afternoon at 2 o'clock from Trinity Lutheran church with Rev. G. S. Thompson officiating, and interment will be made in Greenwood cemetery.

Born in Elbow Lake, Minnesota, September 5, 1901, Mr. Larson came with his parents to Thief River Falls in 1910, and was graduated from Lincoln high school in 1920. He was then employed by banks in Maddock and Des Lacs, N. D., and the First National bank in this city until 1925, when he became affiliated with the Nash-Finch company in Minneapolis and its branches in Fargo and Valley City, N. D., and Clinton, Iowa. In 1933 he became manager of the Rex Cafe here.

Mr. Larson was married in August, 1942, in Crookston to Miss Blanche Greenland. The surviving family include Mrs. Larson and their two children, Charles and Gretchen; his parents, Mr. and Mrs. L. H. Larson; a sister, Mrs. Ole Ekeren; and two brothers, Milford and Justus Larson, all of Thief River Falls. Six uncles and three aunts also survive his death.

In addition to his affiliation with Trinity church, Mr. Larson was a member of the local Masonic lodge and Kem temple of the Shrine in Grand Forks.

COW TESTING ASSN. TO BE TOPIC APR. 4

U. Farm Man to Give Information Thursday

A meeting to organize a Pennington county cow testing association will be held in the Civic and Commerce rooms in Thief River Falls Thursday afternoon, April 4, at 1:30 P. M., according to an announcement this week by county Agent Ernest Palmer.

Reuner Leighton, extension dairyman from University Farm, St. Paul, will be at the meeting to explain the necessary steps to be taken.

All dairymen who want to be informed on the details necessary to organize such an association are invited to attend.

Local Job Office to Go on Five-day Week

Effective April 1, all USES offices in the state will go on a five day work week. Dreng Bjornaraa, state director, announced this means that the offices will be open during their normal hours each day, but that they will be closed all day Saturday. Bureau of the Budget instructions, Bjornaraa said, require a 40 hour week in USES now, as has been the rule in practically all other governmental agency offices since shortly after V-J Day.

LUTHERANS PLAN TO BUILD HOME FOR AGED

Group Adopts Articles of Incorporation at Meeting Here Monday

At a well attended meeting in the Trinity Lutheran church parlors on Monday afternoon the articles of incorporation for the Lutheran Charity Association of Northwestern Minnesota were adopted.

Representing almost fifty parishes in this corner of the state, the clergy and lay representation unanimously adopted the proposed plans which look forward to the operation of institutional facilities for the aged in Thief River Falls and later, in other community centers. Parishes of the Norwegian Lutheran Church, the Lutheran Augustana Synod, and the Lutheran Free Church are cooperating in the venture.

Officers who will serve until the first annual meeting in October are: President, Rev. G. S. Thompson; vice president, Rev. Elmer J. Lindholm, Roseau; secretary, Rev. Walter Pedersen, Thief River Falls; and treasurer, Rev. F. E. Eikeland, Warren.

The board of trustees was authorized to proceed with plans for a financial campaign throughout the area, thru which it is hoped that funds may accrue to make possible the early construction of a modern, well-equipped home for the aged in Thief River Falls.

Preliminary plans for the institution provide for a small acreage for garden-plots and spacious grounds. The treasurer reported that Memorial gifts were already being sent to him to make a tidy beginning of the considerable sum being sought.

RED LAKE RURAL ELECTRIC CO-OP TO MEET APRIL 3

Annual Meeting Set for Red Lake Falls Next Wednesday Afternoon

The annual meeting of the Red Lake Rural Electric cooperative association, serving Pennington, Red Lake and part of Marshall county, will be held in the Red Lake Falls community hall next Wednesday afternoon, April 3, at 1:30, it was announced today.

Principal business to come before the meeting will be the election of nine members of the board of directors to represent the various communities comprising the association.

In addition, members will vote on an increase of $25,000 in the authorized capital stock of the association, which will be necessary to permit contemplated expansion of REA lines.

Kirkwood of Crookston, vice president, and L. W. Rullen, secretary, on their recent conference with the corps of army engineers in St. Paul relative to the proposed Red Lake river channel improvement project.

GRADING JOB ON 59 NORTH OF ERSKINE TENTATIVELY LET

Strom Construction Co., Low Bidder on Project, Submits $177,806 Bid

Tentative award of contracts for eight trunk highway grading jobs, totaling 70 miles, eight bridge and culvert jobs, one street lighting project, and 146 miles of bituminous wearing surface, is announced by M. J. Hoffman, commissioner of highways.

These projects are part of a list of jobs on which bids were received March 15. Bids on seven other grading projects and eleven bridge and culvert jobs overran estimates and were rejected.

The construction projects on which have been made include:

Polk and Red Lake Counties: T. H. 59—Between Erskine and T. H. 92—11.2 miles grading. Low bidder, Strom Construction Co. Moorhead, at $177,806.

Red Lake County: T. H. 32—2 miles N. E. of Red Lake Falls—Widen bridge over Red Lake River and install new approach spans. Low bidder, T. M. Swingen and Son of Cooperstown, N. D. at $89,858. This bid was rejected.

The 146 miles of bituminous wearing surface are maintenance projects, involving mostly reconstruction or betterment of old bituminous treated roads but also including some new surfacing. Contract prices cover all operations, including hauling, spreading, mixing, laying and rolling. Bituminous material is to be purchased separately by the state and mineral aggregate is taken from state-owned pits. The work includes:

District No. 6 Crookston: Kittson county. T. H. 11, from Karlstad to E. Co. line, 35.6 miles. T. H. 75, between Hallock and end of pavement S. of Noyes, 16.3 miles.

Polk county. T. H. 75, from 4 miles N. of Jct. T. H. 2 to 5 miles S. of Euclid, 6.2 miles.

Total, 31 miles. Low bidder, J. W. Craig, Minneapolis, at $45,319.

After serving nine months with the U. S. Navy, during which time he had been stationed at Great Lakes, Illinois, Norman Peterson received his discharge March 18 at Weld-Chamberlain Field in Minneapolis, following which he returned to his home here. He will resume his duties at C. Gustafson and Son next Monday.

Dog Licenses Should be Obtained in April

City officials this week called attention to the fact that dog license fees are due in April. Licenses may be obtained from W. J. Knight in the basement of the Auditorium, the fee being $2 for male dogs and $6 for females.

Today's $64 Question: Is Spring Here to Stay?

Local citizens who have been keeping their fingers crossed that delayed spring seeding until late May and June.

During the past week the mercury dropped below the freezing mark only on Monday morning when it touched 29. High readings for the week were 52 Sunday, 48 Monday, 65 Tuesday and a record high of 75 Wednesday afternoon, according to the power plant weather reporting station. In Grand Forks an all-time high mark of 62 was recorded Wednesday.

After starting to break up last week, the ice in the river pool went out Tuesday, approximately two weeks in advance of the average date, altho a few days later than last year.

Numerous local residents have already raked their yards, and the smell of burning grass has been in the air. Golfers also played a few rounds on the local course during the past week.

The ice started moving down the river at River Valley Wednesday afternoon at 3:30. The flood situation is not critical this spring, and with the river channel opening up this early, residents of the area are hopeful of avoiding a repetition of the flood situation that has prevailed in recent years.

THOMAS O'BOYLE, VETERAN OF WAR, DIES IN ST. PAUL

Son of Local Couple Saw Extensive Service During the Late War

Thomas Joseph O'Boyle, husband of Martha Blanche, of St. Paul, son of Mr. and Mrs. Edward O'Boyle, of Horseshoe Island of this city, passed away at a hospital in St. Paul on March 14 at 9:30 A. M.

He is survived by his wife and parents, his brothers, Benedict of this city, Mr. and Mrs. John O'Boyle Jr. ACMM and his sisters Myrtle of Muskegan, and Mary Lovina of South Bend, Indiana.

Thomas was born April 20 at Huron, South Dakota. The family moved to Pennington county in March of 1926. He attended the public schools and the Youth Industrial School of Shakopee.

He enlisted in the army March 8th in 1941, attended Motor Transport School at Fort Crook, Nebraska that same year. He served overseas as a T-4 with the 79th army and the Seventh armored division in European Theatre of operations. He was awarded 5 combat stars for the Normandy, Northern France, Rhineland, Ardennes and Central European Campaigns.

He was authorized to wear the Mechanics badge and the Marksmanship badge as well as three overseas service stripes.

He merited the European, African, Middle Eastern Theatre service medal, the American defense service medal and the presidential unit citation.

He was married to Martha Thurman, daughter of Mr. and Mrs. Claude Thurman in Tulsa, Oklahoma on November 1, 1943.

Thomas returned to the United States on October 8, 1945 and was honorably discharged from the U. S. Army on October 18, 1945 from Camp McCoy, Wisconsin.

After his discharge Mr. and Mrs. O'Boyle lived in St. Paul. He was employed at Glenndenning Motorways in that city.

Requiem high mass was celebrated at St. Lukes Catholic Church at Lexington and Summit, in St. Paul, by Father Kellar, at 10:00 A. M.

He was laid to rest at Fort Snelling National Cemetery.

LARS HYLDEN IS SEEKING COUNTY BOARD POSITION

Files for 2d District Commissioner's Post Against P. W. Mabey

There was no rush of aspirants for county office to file during the past week with County Auditor A. M. Sunstad. The sole candidate to enter his name was Lars Hylden, who filed for the office of county commissioner from the second district, embracing the first and second wards. P. W. Mabey, the incumbent, has already filed for reelection.

With the announcement last week of A. C. Swandby's retirement as clerk of district court for Marshall county at the close of his present term, two candidates have already filed for the office with indications that several more will file before the last day for filing on April 16.

The two who filed are Edwin E. Rokke and Lloyd C. Ryden, both of Warren.

Other filings during the past week include:

P. E. Kvikstad for reelection as county treasurer.

Edward L. Lenzkeville, Argyle, for sheriff.

Leslie E. Grange, Warren, for reelection, commissioner, first district.

John Rapacz, Argyle, for the reelection, commissioner, third district.

Emil Morberg of Big Woods township, Marshall county representative in the state legislature, filed for reelection to that office with Levi G. Johnson, county auditor. Mr. Morberg has served several terms in the state law-making body.

RESTRICTIONS PUT ON CONSTRUCTION

Veteran's Homes to Receive Preference

A sweeping new order restricting many building activities so finance material can be diverted into lower cost homes for veterans was issued Tuesday by the government.

Civilian production officials emphasized the order does not bring commercial construction to a complete stop.

Any building work which was under way Tuesday may continue unaffected by the new order.

New construction or repairs hereafter also may be undertaken if authorization can be obtained.

A nationwide network of 71 federal offices was created Tuesday night to administer the new order. They are to be opened not later than Thursday.

The civilian production administration forbids the start of construction unless each new store, factory or dwelling is approved in advance by one of these OPA offices.

An advisory committee of prominent citizens will work with each field office and will review each project "in the light of the peculiarities of the local situation," John D. Small, OPA administrator, announced.

Carlson, vice president of the state Junior Chamber of Commerce, and Gordon Reierson secretary of the Thief River Falls unit, returned Sunday evening from St. Paul, where they attended a meeting of the state Jay-Cee board in the St. Paul hotel. Public h...th and safety were the principal topics of discussion at the two-day session.

FUND DRIVE FOR RED CROSS NOW OVER ITS GOAL

Goes over $4,000 Mark Wednesday, with 18 Unites Not Reported

The Pennington county 1946 Red Cross fund appeal Wednesday afternoon had exceeded its goal of $3,975, Milton Larson, campaign chairman, announced after having received a report on contributions from Stanton R. Dahlen treasurer, showing $4,003.96 contributed to date.

That the drive when completed will go far over the quota is indicated by the fact that four Thief River Falls teams of solicitors, in addition to 14 teams from the rural areas, are yet to report. The spring road breakup has delayed the solicitation in many areas.

Citizens of Thief River Falls to date have contributed a total of $3,516.46 against a quota of $2,500 indicating that the city will oversubscribe its quota by approximately fifty per cent. Other units attaining their objective include Goodridge township and village, Kratka and Reiner, while Star and Cloverleaf are just under their quotas.

Following is the tabulation prepared in Mr. Dahlen's office:

Name	Quota	Raised
Cloverleaf	$ 40	$ 39.00
Deer Park	60	37.00
Goodridge	25	31.00
Kratka	80	81.50
North	105	12.50
Reiner	45	54.00
Rocksbury	160	48.50
Smiley	105	62.00
Star	60	58.00
Goodridge Village	40	63.00
Thief River Falls	2500	3,216.46
Total	$3,975	$ 4,003.96

PLUMMER BANK IS GRANTED CHARTER

Institution Plans to Open Early in Summer

The group of Plummer business men who appeared before the Minnesota Department of Commerce January 21, seeking a charter for the establishment of the Plummer State Bank have been granted a charter by the department, says the Red Lake Falls Gazette.

The group who made the application are George Beito of Gonvick, E. B. Langer, Carl Swanson, Paul Schoenauer, O. L. Skistvold and P. J. Mack, who will be the principal stockholders in the new institution. Plans are now going forward for the opening of the new bank early in the summer. Application has also been filed with the Federal Deposit Insurance Corporation for insurance to cover deposits of the new institution.

The group has purchased the former First State Bank building at Plummer from Walter Johnson, where the new institution will conduct its business when opened.

Publicity Chairman

A meeting of the advisory committee of the Pennington County chapter of the American Red Cross will be held at Herman A. Kjos' office in the court house on Thursday evening at 8:00 o'clock.

Make Most of Soil

Inoculated soybeans can get a fairly large portion of their nitrogen from the air, but they have high requirements for mineral nutrients. Chemical analyses show a 30-bushel crop of beans removes almost as much phosphorus, twice as much potassium and five times as much lime as an 80-bushel corn crop. Soybeans have a remarkable ability to get these mineral nutrients and produce fairly good yields on all too poor to produce satisfactory yields of most other crops. For this reason they have been said to do well at "second table" but let's try to get along on the nutrients remaining after a fertilized crop of corn or grain has been grown. This may be true if the first table was "well provided" but should not be expected if nutrients for the first crop were meager. It is unfortunate when a nurse crop with its legume seeding is omitted from the rotation, and doubly so if by its omission the application of deficient soil minerals is neglected.

Luther W. Youndahl, Governor Aspirant, to Support Thye Policies

Luther W. Youngdahl, who has just resigned as an associate justice of the Minnesota Supreme Court to file for the Republican nomination for Governor, has announced that he expects to continue policies of the present state administration if elected.

Youngdahl has been a big vote getter in his own right. He led the candidates for the supreme court in 1942 and consistently was at the top when running as a candidate for Judge in Minneapolis.

Youngdahl is a graduate of Gustavus Adolphus college and the Minnesota College of Law. He served as municipal judge in Minneapolis for six years and as district judge for six years before becoming an associate justice of the state supreme court in 1942. He has taken an active part in the work of various organizations concerned with welfare and youth problems, and has spoken in many parts of the state on these and other problems. He is a veteran of World War I.

ACCIDENTS KEEP ROAD PATROL BUSY

Attend 118 Mishaps in February, Report Shows

Believing that prevention is better than cure, the Minnesota highway patrol, while attending an increasing number of accidents and giving aid to greater numbers of motorists, is also stepping up its attack on causes of accidents, according to figures in the February report of Earl Larimer, chief patrol officer of the state highway department. Augmented personnel, due to return of patrolmen who have been in military service, accounts in part for the increased activities.

Patrolmen attended 118 accidents in February, compared to 61 in February, 1945. Aid was given to 282 drivers whose cars had gone into the ditch, compared to 165 last year. Other types of aid to motorists increased proportionately.

"Must repair" tags were issued in February for 1,797 cases of illegal and unsafe equipment, and 123 arrests for faulty equipment in February, 1945. More common types of violations were faulty brakes, illegal lamps, lamps out of adjustment, rear light out, one headlight out, no clearance lamps no windshield wiper and no warning device.

Arrests for all causes totaled 901, compared to 682 in February last year. Prominent among causes for arrests were 57 for driving while under influence of intoxicants, 100 careless driving, 99 going through stop signs, 88 excess speed, and 143 overweight loads. Fines imposed totaled $12,340.

High School Students Are Invited to Enter Cancer Essay Contest

Entry blanks for the 1946 high school cancer essay and poster contest went out this week to all school superintendents of the state and principals of the public, private and parochial schools.

Sponsored by the Minnesota Cancer Society and the woman's auxiliary of the Minnesota State Medical association, the competition is an effort to interest high school students and through them, their parents—in the cancer problem.

County elimination contests will take place April 15 under the direction of the county field army commanders. Posters will be displayed locally between April 15 and 20. Winning posters and essays must be in the state cancer society office in St. Paul by April 30.

First and second prize in each division will be a $25 United States savings bond and $10 in United States war savings stamps. Posters may deal with any cancer problem. Essays may be written on any of the following: history of cancer; effect of cancer on the home cost of cancer to the community, research in cancer, prevention of cancer or any other phase of the cancer problem. Essays are to be 400 or 500 words in length; and posters 10x22½ inches.

Cpl. Clifford Bugge Gets Discharge from Marines

He participated in the Guadalcanal, Saipan and Iwawa campaigns, and earned the good conduct medal as well as a presidential unit citation.

Veterans Admn. Office in Minneapolis Catches Up with Applications

Paul R. Gray, V. A. contact representative here who has returned from a conference in Minneapolis, announced today that the V. A. regional office is operating on a current basis in its work of processing applications for veterans' benefits. Claims for disability are being rated as fast as army and naval medical records reach the regional office, and certificates of eligibility for education or on the job training are now being issued less than one week after the arrival of application and evidence of discharge.

Mr. Gray urged veterans who plan to enroll in school for the spring quarter to make application at once for certificate of eligibility if they have not already done so.

"Although the V. A. is current in its operations, it will be able to give better service to applicants for benefits if they apply early rather than on the last possible day," Mr. Gray said.

Correct forms and assistance in filling them out will be given at the Contact office at 203-E. 3rd St. or by 'L. B. R. Ratteeth at the court house.

Mr. and Mrs. James Peterson, son of Mr. and Mrs. E. O. Peterson of this city, are the parents of a baby girl born March 26 in Buffalo, New York.

Restores Elasticity

Now that girdles, corselettes, and panty girdles are being made with elastic from the new synthetic rubber, there is good reason to tub them after every one or two days of wear. Even though synthetic rubber is very efficient, it is not quite so elastic as natural rubber and does not snap back to shape so quickly after being stretched. A soap and water treatment causes the elastic to "tighten up" and is a quick, easy way to bring a foundation back to a snug fit which gives the wearer more support, control and comfort.

Valuable By-products

Toluol, benzol, phenol, naphthalene, ammonia and creosote oil are valuable coke by-products. By-product coking ovens are next to locomotives in the consumption of bituminous coal.

GIRL SCOUT NOTES

Twenty-nine scouts attended the first old class which started Monday night, March 25, under the direction of Mrs. Emmett Wright.

The Girl Scout leaders' meeting was held Monday, March 25, at eight o'clock in the Civic and Commerce Room. Mrs. V. D. Berry, Mrs. Victor Jung, and Mrs. Milton Zimmerman were in charge of the program. Each of them presented a handicraft project. Mrs. Victor Jung taught the group a song. Miss Bennett discussed the formal opening procedure for scout meetings.

Members of the Girl Scout Council will attend a regional scout meeting at Grand Forks on Monday, April 1. There will be round table discussions on the various departments of Girl Scout councils.

News of R. R. Valley Home for the Aged

We rejoiced with Grandpa Grothe last week, when he received word that his grandson Gaylord Grothe, had received his discharge from the U. S. Army and would soon be with the home folks at Oklee.

Our force have a good start on the spring house cleaning job, with Minnie Gjerde and Ollia Peterson at the helm. Mr. Solmonson is also here doing a real job, of painting several rooms on the third floor.

With the exception of Mr. Gulbranson and Mr. Moe who are still confined to the hospital, everyone is feeling better. Mrs. Ed Erickson is able to come down stairs for dinner every day for which we are glad.

Mr. Thorwald Jacobson went to his former home at Greenbush, Tuesday to visit with relatives and friends for a few days. Erick Grior accompanied him on the trip.

The Baptist young people had a very large attendance at their meeting here on Friday evening. Arthur Langelett was the speaker for the evening with Vern Mr-Mahon and Paul Stenoman in charge.

G. J. Hanson, the American Sunday School Missionary from Crookston, called at the home to discuss plans for D. V. B. B. for the summer with Lorraine Moe, who will be one on his staff of teachers.

Mrs. Bergland and Mrs. Flaw attended the Norwegian service held here Sunday afternoon by Rev. and Mrs. Ronholm of this city. They will be back to hold another service Sunday afternoon the 7th of April at 2:30 p. m. You are all welcome to these afternoon services.

Callers at the Home the past week have been Mrs. Gunder Stromme and neice of Oklee, Mr. and Mrs. Sigvald Grothe and Reynold also of Oklee, Mr. and Mrs. Oscar Anderson of Gatzke, Henry Hanson, Even Ase, Mrs. John Olson, Mrs. Ole Hedalen and Mrs. Clarence Ness.

We have recently received the following memorial gifts for which we are very thankful. In memory of O. E. Spong of Oklee, and given by Olga Hanven, and Mr. and Mrs. Henry Larsen of Oklee. This was sent in by Geo. E. Spong.

In memory of P. O. Johnson of Gryglo, who passed away ten years ago this month, and given by his daughter, Mrs. J. E. McCoy of this city.

In memory of Mrs. Anna Bandorf, and given by Mrs. Margaret McMahon and Ira of this city.

And we have also received a gift from Mr. and Mrs. Thompson and Bud, of Clearbrook, for which we are also very thankful. May the Lord Bless You All.

We always listen in on "Morning Meditations" with real joy on Sunday mornings, and this Sunday it was a real pleasure to hear Frank Brodin from our own group give his testimony, and greeting. We also enjoyed to hear Mr. Dahlstrom, another aged friend of this city.

In a recent letter received from Mrs. Katz Spiess, she informs us she must stay in St. Paul until after April 5th. She is receiving medical care for her eyes, but is lonesome to be back with her friends here, and we will all be glad to welcome her back again.

We have received some very good reading mater that we all enjoy, from Hans Peterson, Miss Hannah Gustafson, and Mrs. Clara Langelett, and we are very thankful to these friends also.

In a recent letter from Ole S. Rasen we learn he is already back in Plentywood, Mont., and sends greetings to his many friends here and also in and around Thief River Falls.

Townsend Club to Pick Delegates Next Sunday

At a meeting of the local Townsend club in the Civic and Commerce room Sunday afternoon, March 31, at 3 o'clock, delegates will be elected to represent the club at the statewide rally and banquet in the Nicollet Hotel, Minneapolis, Sunday, April 14.

Union Prayer Service in Baptist Church Tonight

Dessa Welch and Dorothy Huntsperger, who worked as homemissionaries in the Mission Covenant church, St. Hilaire, and who will be leaving there after the end of next month will share in the union prayer service tonight at 8 o'clock in the First Baptist church, under auspices of the Union Gospel Tent Mission. Joyce Brodin, home on vacation from Northwestern Bible school, Minneapolis will sing.

WATER LEVELS IN STATE ARE NORMAL

State Director Reports on Minnesota Survey

Soil moisture supplies and water levels in Minnesota lakes and rivers generally normal throughout the state and are ample to supply spring season demands of farm crops and other vegetation, according to Walter S. Olson, director of the state division of water resources and engineering.

The winter precipitation of snow and rain has been slightly above normal, but early thaws have dissipated all the snow in Southern Minnesota and raised river levels to early season highs. Ice conditions in the Minnesota river near Ortonville and the Ottertail river above Breckenridge have caused minor jams. Unless there is an unusually heavy spring rainfall, the danger of damaging flood stages is small. The Minnesota and Mississippi river systems are in good condition to carry the normal flow of spring water.

Information about water conditions is continuously secured by checks and records from 78 gaugingstations on the major river drainage systems in the state. Some stations are equipped with automatic recording gauges, devices which record the fluctuations of water levels for each 24 hours. Other stations are checked by readwater levels from a gauge permanently established on a dam or bridge pier. Water level readings are secured regularly, but during storm and flood periods, gauges are consulted as frequently as necessary.

Painting New Wallboard

Wallboard makes an excellent surface for painting. If not already sized, treat it with a good interior spar varnish thinned with turpentine to about the consistency of linseed oil. If you add to the varnishsize a small quantity of the paint that is to be used as the finish coat, just enough to color it, the size coat will often answer the purpose of a priming coat. The wallboard can then be finished with two or three coats of any wall paint.

Sugar from Flowers

Honey is the nectar of flowers gathered, part of the moisture evaporated and modified by the bees; the resulting liquid is largely sugar and so honey is known as sugar from flowers.

PUBLIC OPINION

Editor the Times

At a meeting of the educational and executive committee of the Pennington county Temperance Movement, held at Thief River Falls, on the 22nd day of March, 1946, it was moved, seconded and duly carried that the following resolution be adopted, viz:

WHEREAS it was rumored that punch boards, pin ball machines, and slot machines and other gambling devices are tolerated and permitted to operate in Pennington County in defiance of law; and

WHEREAS it is also rumored that intoxicating hard liquors are sold and had and kept for sale in complete defiance of law by some organizations in Pennington County; and

WHEREAS we deem such conditions if true to be completely inimical to the welfare of our people and especially to our young people, and that they constitute a reproach to our community, and we feel that such conditions if they are allowed to exist will lead directly to increased juvenile delinquency, crime and lawlessness, and general and complete disregard for law and order in our community;

NOW THEREFORE BE IT HEREBY RESOLVED, that we call the attention of our Board of County Commissioners, the City Council of Thief River Falls, and its Mayor, the Village Councils, and the Sheriff and County Attorney of the county to these rumors, and that we do hereby request that they make a careful, thorough and complete investigation to determine the true acts with regard to the operation of gambling devices, and the sale and keeping for sale of intoxicating liquors in Pennington County; and

BE IT FURTHER RESOLVED, That if these conditions are found to exist in our county, then we demand that our public officials at once do their duty, and start such proceedings and institute such prosecutions as may be necessary in order to put a complete stop to these practices, and to punish those guilty of violating the law; and

BE IT FURTHER RESOLVED, That we hereby call upon the good people of our county and urge them to assist and co-operate in our efforts to put a stop to all illegal pactices that may be found to exist in our county with respect to gambling devices and the sale and keeping of intoxicating liquor for sale in violation of law.

Edwin Anderson, Chairman
Mrs. Matin Mosbeck, Sec.

Popular Beverages

As early as 1610 tea leaves were brought from Bantan to Holland and introduced to France and England a few years later. This cup which cheered, but did not inebriate, had a wide appeal and by 1650 four millions of pounds were imported into England. Coffee was soon after almost as popular. Coffee houses were set up where friends met in public to discuss life and letters over the steaming cup.

Dressed Lamps

Don't junk your old lamp shades with metal frames. Rip off the old soiled covers and use them as patterns for new ones.

A couple of days of summer weather have done much to remove all traces of winter but we are not yet convinced that winter is completely done for. The ground probably will be white again before the grass turns green. That is not a gripe. Come what will from now on we still are going to appreciate the high temperatures we have already enjoyed. After three long months of unusually steady cold, the past week has served as a most agreeable tonic.

It is nice to know that we will not have to fight Russia this week. For the time being at least we are friends again and we will remain calm until the next epidemic of international jitters. We wish these epidemics would not come quite so often and their frequency could probably be reduced considerably by cutting down on the number of speeches by official viewers-with-alarm who cackle like a hen with one chick every time a disagreement arises. In the days and months and years that are ahead of us there will be many disagreements on international questions. Let's concede that we are not necessarily right on every issue that develops. There probably is just as much suspicion of our policies and practices as of those of Russia and Britain and we are not gaining in the confidence of smaller nations by high and mighty talk of what we will or will not do. Our great country can do much to help maintain international harmony merely by remaining calm even when things are not proceeding entirely to our liking.

Learn A Trade

Ben Franklin was asked to give assistance to his grandson. It would have been easy for the elder Franklin, successful and influential, to help the young man become established. This he decided not to do, however, and in writing to his son about the matter he said,

"It is indeed my wish that he might learn some art by which he could at any time procure a subsistence; and after that, if anything better could be done for him, well and good. But posts and places are precarious dependencies. I would have him a free man."

One of the greatest of Americans, prided himself upon the fact that he was a printer; that regardless of what his fortune might be in the many other affairs in which he was involved, he could always return to his trade and make a living. It was this knowledge of a trade that gave him the feeling of security and independence that enabled him to look upon himself as a free man. He wanted his grandson to learn a trade so that he too could be a free man.

Pretty good advice this for several million young Americans now returning from the armed forces and confronted with the necessity of deciding upon a way to make a living.

There are many trades open to young men today. The person who is skilled in one of them faces life with an added measure of security. The trade need not be the end itself but the means to an end.

TRACTOR OWNERS!
IF you want traction ... here's your tire!

The long-wearing B. F. Goodrich Silvertown bites into the soil, grips without slipping, and gives you positive self-cleaning. That's because of the Silvertown's extra-high clean, heavy shoulders, and open-center design.
See your farm neighbors' Silvertowns in action—see how well these tires work. Then come in for your Silvertowns—tires that give you what you want most in a tractor tire ... traction.

AUSTIN QUINTET WINS STATE TITLE, DEFEATING LYND

Roseau Eliminated by Austin in First-round Tilt in Tournament

Austin high school, the pre-tournament favorite, won the Minnesota state high school basketball championship Saturday night by defeating Lynd, 63 to 31, in the finals of the tournament held in the University of Minnesota's Field House in Minneapolis.

Austin, in winning its second state title, having previously won the championship in 1935, trounced Roseau, 66 to 39, in a first round game on Thursday afternoon, and then eliminated Mountain Lake, 38 to 31, in the semi-finals on finals on Friday night. Lynd, the crowd favorite, upset Crosby-Ironton, 68 to 47, in the first round, and then out-lasted Stillwater, to win 46 to 39 in the semi-finals.

—Roseau, the 8th-regions representatives, after losing to Austin in the first round, was defeated in the opening round of the consolation play, losing to Tower-Soudan, 50 to 46.

Austin, with its terrific height advantage, having a center that towered six feet, five inches, pulled away from the fast-breaking Lynd team in the first period of the game Saturday night, holding a 14 to 5 lead. And the new champions maintained their scoring pace in the second period, giving the Austin team a 30 to 15 lead at the half.

Austin, with Dick Ravenhorst scoring four field goals, ran up their point total in the third period boosting their advantage to 44 to 19 as the period ended. Big Ravenhorst added to his individual scoring total in the final period, pushing in a pair of field goals, giving the Austin pivot man a total of 24 points.

The all-state team, as selected by the tournament officials, had Harper Richardson of Austin, Don Avlkainen of Tower-Soudan, and Duane Lundgren of Lynd at the forwards; Ray Wall of Mountain Lake and Dick Ravenhorst of Austin at center; and Jim Malouskey of Crosby-Ironton, John Moonan of Minneapolis Washburn, and Pat Clark of Lynd, at the guards.

Sale of Easter Seals to Aid Cripples Now Under Way Thruout Minnesota

Miss May E. Byrne, president of the Minnesota association for Crippled children and Disabled Adults today announced that the annual Easter Seal sale for crippled children is moving forward next week in Infactorily. The seal sale opened on March 21 and is to close on April 21, Easter Sunday.

According to plans formulated in Minnesota under the leadership of Roy Bjorkman, state chairman, the Easter seal sale this year is a special occasion as all county and state societies join with the National society to celebrate its silver anniversary, marking twenty-five years of leadership in work for crippled children and disaulted adults.

SENIORS WIN H. S. INTERCLASS TITLE

Whip Juniors Tuesday by Score of 41 to 22

The seniors, coached by Roy Tunberg and Johnny Powell, and with Bill Lane scoring 12 points and Wes Hovie marking up 10 points, defeated the Juniors, 41 to 22, to win the interclass basketball championship Tuesday afternoon. In first round games, the Seniors edged out the Sophomores, 31 to 23; and the Juniors eliminated the Freshman, 26—to 21. In a consolation game Tuesday afternoon, the Sophomores won over the Freshman 26 to 21.

W. CARLSON WINS BOWLING SINGLES

Wally Carlson, with a total pin count of 2223 in twelve games, won the city's straightaway singles bowling championship in the tournament that was concluded on the Mint alleys Friday night. Wally DuChamp, the defending champion had a 2162 total for runner-up; and in third place, just behind Wally, was Jesse DuChamp, with a 2161 total.

Carlson, who had been runner-up to Wally DuChamp in the singles tournaments the past several years had a 772-pin total in his first block, having games of 191-177-204-160. In his second four-game block, Wally had games of 212-161-181-184, for a 738 total; and he ended his tournament with scores of 160-219-174-200, for a 753 and a 2223 total.

Wally Duchamp, running into a number of split hits, had four game scores of 709 748, and 713. Jesse DuChamp recorded the highest four-game-plus total, having a 741 aggregate in his final block. Jess had game scores of 211-171-190-202.

The tournament leaders:

Wally Carlson	191-177-204-160—2223
Wally DuChamp	209-179-213-160—2162
Jesse DuChamp	211-171-190-202—2161

Pennington Sportsmen Will Meet Next Tuesday

The April session of the Pennington County Sportsmens club will be held in the Civic and Commerce rooms next Tuesday evening, April 2, at 8 o'clock, Wm. H. Borchert, secretary, stated today. The program will include a talk on radar and telephone improvements by Stan Vail of the Minneapolis office of the N. W. Bell Telephone company, in addition to which motion pictures supplied by Field & Stream magazine will be presented. Lunch will be served.

WRESTLING CARD THURSDAY DRAWS BIG ATTENDANCE

Steele in Headline Tilt Floors Colored Athlete in 24-minute Tussle

A near-capacity crowd was on hand at the Auditorium Thursday night to witness the wrestling program arranged by promoter Bill LaFave, and which featured the appearance of Ray Steele, former world's heavyweight wrestling champion. Steele defeated Reginald Sikl the colored giant, after twenty four minutes of grappling.

In the preliminary events, with local amateur participating, Lloyd Arveson and Johnny Nelson wrestled to a draw in eight minutes. Joe Bradley and Harold Baker, and Arnold Norvered and Bud Salveson drawa in their matches. In a free-for-all, with ten eighth graders in the ring, Morris and "Pug" Lund were the two finalists, and they were given a draw decision. Ernie Palmer, who with Quentin Jones, supervises the wrestling program for the high school, refereed the matches.

In the first match in the "pro" schedule, Chief Little Wolf, in the role of a villain, wrestled Cal Reer. This match which was the most entertaining on the card, found the Chief resorting to illegal tactics, which aroused the ire of the crowd in his efforts to defeat the burly Ilees.

The main event, with Steele meeting Sikl, contained much straight wrestling, with the result that the match appeared dow in comparison to the Little Wolf vs. Reer fracas. Steele, after being on the defensive for the greater part of the match, applied a leg press on the Negro to win the fall after twenty-four minutes.

The special match, with the two feminine wrestlers, June Byers and Nell Stewart tangling locks and which drew the plaudits of the crowd, was won by the blonde Miss Byers. Miss Byers, after a series of body slams, defeated the red-haired Miss Stewart, being awarded the fall after fourteen minutes of rough-house wrestling.

Wally Carlo of Minneapolis, who incidentally nearly had his shirt torn off when he became entangled in the Byers vs. Stewart match, was the referee for the last three events.

Interclass Champions

Except for this afternoon's game between the High School Faculty and the Seniors the basketball season was just about concluded here Tuesday afternoon when the Seniors, by a 41 to 22 score over the Juniors, won the interclass championship.

Having two complete teams at their disposal, coaches Roger Tunberg and Johnny Powell were able to grind out wins over the Sophs, in the semi-finals, and the Juniors, in the finals, by man-power tactics, for the Seniors, in both games, carrying the short end of the score in the third period, but were able to pull away in the fourth period to control the ball and the scores.

One senior team consisted of the Kelly Greens—Owen Korsmo, Bob Melby, Bud Brossoit, Jim Kleinschuler, and Milo Gullunanson—while the other team, the Senior Hot Shots, had Wes Hovie, Bill Lane, Cliff Aase, Glen Berg, and Phil Beadle in the lineup. A game between those two senior teams would be worth watching, and it's a toss-up on the club that would be the winner.

An all-tournament squad would probably have the following players on the roster: Wes Hovie, Bill Lane, and Owen Korsmo of the Seniors; Chuck Tveland and Larry Hylden of the Juniors; Swede Lund, Palmer Ronholm and Chuck Erickson of the Sophomores; and Al Williamson and Len Hurst of the Frosh.

A Boost for Local Bowling

The Oen's team, City League champions, entered the Grand Forks open bowling tournament over the week-end, and the local five—Ed Carlson, Emil Dostal, and Bob, Jesse, and Wally DuChamp—came through with a fine 2666, for second place in the team event, being runners-up to the highly-touted Blu-Bar team of Grand Forks. Placing second is quite a boost for the caliber of local bowling, for there were a number of North Dakota's top ranking teams entered in the tourney. Among some of the hot-shot teams were the Breadway Pharmacy team of Fargo, and Earl Gramer's team, also of Fargo.

And speaking of bowling, congratulations are due Wally Carlson for winning the city singles bowling championship. Wally, for the past several years, has often been the second place winner, but this year he came through, having a 61-pin advantage over defending champion Wally DuChamp. And Wally DuChamp was lucky to settle for the runner-up spot, for brother Jesse, having a fine 774-pin total in his final block came within a pin of tying for second place. Jesse by the way did yeoman work for Oen's in the tournament at Grand Forks, getting strikes in clusters, especially in the first and second games.

Word of Warning

According to the information at hand, it's illegal to spear suckers, and with the break-up of the ice, the suckers are begining their annual run up the small creeks and ditches. The conservation department doesn't want to protect the suckers by closing the spearing season but they feel that a number of northern pike and other game fish are taken my the boys, sometimes by mistake, and sometimes by intention. They feel that by closing all spearing the law will be easier to enforce.

M. CARLSON LEADS PROWLER SCORING

Roger Tunberg Second
Highest Point Getter

The Prowlers in compiling a season's record of twelve wins and eleven losses, rolled up a total of 737 points. Co-Captains Marvin "Ninnk" Carlson and Roger Tunberg were one-two in the individual Prowler scoring, with Ninnk having 210 points and Rog being runner-up with 156 points. Kenny Bernheim's 132 points earned third place.

The individual scoring:

Rev. Kluver Will Leave Pastorate at Karlstad

At a meeting of the First Lutheran congregation of Karlstad, Rev. E. B. Kluver tendered his resignation to take effect June 1st. Rev. Kluver feels that the work of rebuilding and reorganizing the church would be more than his health could cope with, and he has accepted a call to Pinewood, east of Baudette, where the work will be lighter. Rev. Kluver has been pastor of the Karlstad, Halma Zion and Hegland churches for 16 years.

In 1945 there were 1,513,586 persons on the pension rolls of the United States to whom a total of $739,681,051 was distributed.

BUTTER PRICES MUST GO HIGHER, L. O' L. ASSERTS

Greenbush Man Is Named Director from Dist. 17 at Minneapolis Meeting

A resolution demanding upward revision of butter and cheese prices was adopted unanimously by delegates attending final business sessions of the recent Silver Jubilee annual meeting of Land O'Lakes Creameries, Inc., in Minneapolis.

Two new directors were elected at these sessions, with Verne Lockwood of Motley winning, as director from District No. 16, and Arthur Stenberg of Greenbush the new director from District 17.

Delegates also unanimously approved an increase in Land O' Lakes capital stock to $10,000,000, double of the present $5,000,000 figure.

A series of resolutions was adopted giving the Association's unqualified backing of all major points sounded earlier by John Brandt, president and general manager, in his annual address to the membership.

The resolutions:

Insist butter and cheese prices should go up to put them in proper relation to cream prices.

Ask complete removal of OPA controls.

Urge a modernized parity price formula that would include farm labor costs.

Demand an immediate halt to military induction of farm boys, because of their need in the food production program.

Attack the subsidy method of holding down prices of dairy and other farm products.

Ask full support of the American Dairy Association as a "National factor in promoting the interests of dairymen".

Promise to preserve the "common-law and long-established trademark" of butter—its yellow color—and protect it against infringement and fraud.

Demand top priority for American farmers on much-needed farm machinery.

Midland Cooperative Votes 'U' Fellowships

Two annual fellowships of $1,000 each to be bestowed on University of Minnesota graduate students for study particularly in agricultural and consumer economics have been created by the Midland Cooperative wholesale, headquarters of which are in Minneapolis, in a letter to the board of Regents, A. J. Smaby general manager, said: "The whole cooperative movement will gain by the enrichment and strengthening of leadership with the University of Minnesota and sincerely hope that this effort will reflect to the public of the entire area."

STILL PLANTING TREES AT AGE OF EIGHTY

Hibbing—Frank Burke of Goodland, has had a hobby ever since he was eight years of age, one he has never tired of or completed—that of planting trees. He came to Goodland in 1933 and built a home here. While the house was being constructed he planted trees. He was then 67 years old. Many of his older neighbors thought him foolish as "he would never live to see those trees grow to any size". He'd always answer, "perhaps not, but I can enjoy watching them grow as long as I am living." Burke recently celebrated his 80th birthday and was an honor guest of the Waukegan Chamber of Commerce.

HOLT

A reception was held at the Mr. and Mrs. M. Leskinen home at Middle River honoring Mr. and Mrs. Myron Johnson on Sunday March 17th, immediately following their marriage. The guests included, Rev. and Mrs. E. O. Urness, Mrs. O. B. Johnson and Murnett, Mr. and Mrs. O. T. Ness, Irene, Leonard and Gladys, Mr. and Mrs. Orlin Ness, Mr. and Mrs. Tony Peterson and Joyce, Mr. and Mrs. Geo. Johnson, Mr. and Mrs. Herman Peterson and Vivian, Mr. and Mrs. Raymond Sagstuen and Delores Sandberg of Holt. Mr. and Mrs. Orris Johnson of Thief River Falls, Mr. and Mrs. Matti Leskinen and family, Mr. and Mrs. Selmer Sorter and family and Irene Johnson of Middle River.

In the evening Mr. and Mrs. Johnson were again honored when many neighbors and friends of the Middle River community gathered at the Leskinen home to give them a surprise party.

During the past week the Holt Cafe has been redecorated and new lights put in. Booths and table have been repainted and varnished.

Mr. and Mrs. Myron Johnson returned on Saturday evening from their honeymoon. On Monday they treated the public to free coffee, doughnuts and cookies at their grand opening.

Mr. and Mrs. Ted Ness and Eunice Ness had charge of the duties at the Holt Cafe while Mr. and Mrs. Myron Johnson were gone.

Rev. E. O. Urness conducted funeral services for Sam Keyser at Middle River on Wednesday. Rev. Korshavn who was to conduct the services was ill.

Rev. H. Mathison of Greenbush was guest speaker at Lenten services at the Nazareth Lutheran church Wednesday evening.

The Viking Luther League gave a program at Luther League here last Sunday evening. Mrs. Johnnie Nelson, Mrs. Alonzo Inman and Hazel Lunke served lunch.

Elmer Engstrom spent Thursday and Friday of last week in Minneapolis visiting his brother Hughey, who is a patient at the Veterans hospital. He reports Hughey's condition is fine.

Mrs. Carsten Sagstuen has returned home after spending a week at a hospital at Thief River Falls.

A wedding of interest to people of our community took place at the beautiful Gospel Tabernacle in Minneapolis March 9th, when Delores Marie Johnson, daughter of Mr. and Mrs. Richard Johnson of Minneapolis, became the bride of Cpl. John Smith of Alaska. The groom's brother Rev. Reuben Smith of Aitkin officiated.

Cpl. Smith is the son of Mrs. Charles Smith of McGregor but a former Holt resident.

Cpl. and Mrs. John Smith of Alaska spent the past week visiting relatives and friends in Holt, Middle River and Thief River Falls.

A large crowd attended the meeting of the Sportsmen's Club last Friday evening. The quiz program was enjoyed by all.

LET'S STOP FEEDING INFLATION

You know what happens . . .

When you continue to spend more than you make and . . .

Keep on borrowing to make up the difference!

You know too, that a big chunk of every dollar you earn and every dollar you spend goes to pay the cost of government.

That's why it's important for you to take a good look at the way the government spends your dollars.

Government should begin now to live within its means

During the war government necessarily spent huge sums of money. Yet, with the war over, the government plans to spend four times as much in the coming year as it spent in the highest pre-war year.

Most thoughtful people believe that government expenditures are now far greater than they need be.

They believe that government, like a family, should live within its means . . . that it should not spend more than it takes in . . . that it should not keep on going deeper into debt.

Yet that is exactly what's happening today. Our government is spending billions more than it takes in. And it continues to borrow to make up the difference.

This is the kind of money-handling that causes inflation.

Economy in government means money in your pocket

If the American people—through Congress—will reduce government spending and take steps to encourage production, inflation will be stopped . . . and this is the only way it can be stopped.

Write your representatives in Congress today.

Urge them to cut the cost of government, eliminating all waste . . . all unnecessary services . . . and postponing all expenditures that can be put off until our war bills have been paid.

Urge them to make the government start living within its means . . . at a level that you and your neighbors can afford to pay.

You'll see the results soon in the cost of everything that you buy . . . food, clothing and everything else. And you'll be doing your country a real service.

TEN DOLLARS . . . a postcard to the National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y., will bring you a copy of this informative booklet on government spending—a subject which is all-important to you.

MIDDLE RIVER

The First Lutheran church of Middle River was filled, Wednesday, with mourning relatives and friends, who came to pay their final respects to Wm. S. Kezar, one of the pioneer settlers of the area, who has been living in retirement in the village for several years.

Rev. Korshavn officiated at the rites at the church and at the cemetery. Active pallbearers were Victor Sandberg, John Isaacson, Ralph Gaarde, Lloyd Evans, W. C. Walton and Noble Olson. Honorary pallbearers were E. L. Ingalls, Andrew Moen, A. F. Blom, H. A. Hall, F. M. Evans, George Breese, Gutfried Anderson and Adolph Anderson.

Mr. Kezar has been failing for the past several months. Even at his age of 83 he made his daily trips uptown. Saturday morning he left the house presumably to go out for a walk. Mrs. Kezar started inquiring about him around the neighborhood but no one had seen him. After some time a search and that evening he was found dead in the wood shed at home. Death had come suddenly and peacefully to the aged pioneer about 10:00 o'clock that day from a heart attack.

Wm. Simon Kezar was born in Quebec, Canada and on February 2nd he celebrated his 83rd birthday.

He and his wife, the former Sabina Youngdahl, moved to Spruce Valley Twp. in 1889.

Two children preceded him in death Lillie, and Wesley, who was killed in a plane crash just last summer.

Left to mourn his passing are his wife, four sons and three daughters namely, Sam of Thief River Falls, Robert of Hibbing, Mrs. Walter Thompson of Fosston; Mrs. Art Konerza of Silver Lake; Mrs. Ilen Piker of East Grand Forks and Ara and Milton Kezar of Middle River.

The community extends their deep condolences to the mourning wife and sons and daughters.

On Wednesday, March 20 at 8 o'clock at the high school auditorium in Bemidji the combined music organization of the Bemidji State Teachers College under the direction of Carl C. Thompson, chairman of the division of Fine Arts, and Miss Betty Wermel, director of speech and dramatics presented the comic opera "Bell of Cornville" by Robert Planquette. Miss Sally Happula is a member of the opera chorus.
